The road to happiness

One of life's great misconceptions is that you can't have your cake and eat it too. Who says? If you can't choose between a coupe and a convertible, have both. The all new Holden Tigra hard top convertible with European styling and engineering has it all.

Fresh from winning Cabrio of the Year 2004 at the Geneva Motor Show, the new Tigra gives you two brilliant driving experiences in one superb convertible.

It's a coupe – sporty with plenty of zip come rain, hail or shine. And yet, in less than 20 seconds the roof retracts and it's a convertible – sexy, head turning and well insulated against the wind.

Either way, the Tigra's strong athletic lines and low sporty stance is pure attitude on wheels. Alloy wheels, of course.

The new Tigra is unashamedly all about you. Your time, your space, your desire for style. As a sports car, it has two sports seats and a penchant for the open road. Choose wisely who you share it with.
