

2005 GMC SIERRA HD

Sierra® Heavy-Duty Pickups are designed to stand up to your toughest jobs. Engine choices offer at least 300 horsepower and include a Duramax™ 6.6 Liter Turbo-Diesel that can be mated to an Allison® five-speed automatic transmission to produce 605 lb.-ft. of torque. Regular, Extended and Crew Cab® models help maximize your cargo and passenger capacity.* Available dual rear wheels allow a 16,700-lb. towing capacity. Engineered to withstand rugged use, Sierra Heavy-Duty trucks are built to handle your demands with style.

*Cargo and load capacity limited by weight and distribution.

Sierra Heavy-Duty 3500 Crew Cab Dual Rear Wheels shown in Silver Birch Metallic with optional equipment.

WE ARE
PROFESSIONAL
GRADE®

GMC

¹ For 2500 and 3500 models, based on Standard Box body style. Cargo and load capacity limited by weight and distribution.

² Maximum trailer weight ratings are calculated assuming a base vehicle, except for any option(s) necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See your GMC dealer for additional details.

³ Gross Vehicle Weight Rating (GVWR). When properly equipped; includes weight of vehicle, driver, passengers, cargo and equipment.

⁴ Always use safety belts and proper child restraints, even with air bags. Children are safer when properly secured in a rear seat. See the Owner's Manual for more safety information.

⁵ Call 1-888-4ONSTAR (1-888-466-7827) or visit onstar.com for system limitations and details.
