## Volkswagen Polo

Front cover: Alloy wheels shown are not available in Australia.

## The Polo range.

From every perspective the Polo is a surprising package with a distinctive look. Stylish, compact and sporty, the Polo is a small car that commands attention. Every model in the Polo range blends economy, practicality and easy handling with outstanding quality, safety and comfort.

With two petrol engines and a remarkable turbo diesel engine available in the range, there is no shortage of choices. From the fun 3 door **Polo Club** to the practicality of the 5 door **Polo Match** and efficiency of the 5 door **Polo TDI**, there is a model to suit all needs and tastes.

4

Alloy wheels shown are not available in Australia.

## Quality and innovation.

The quality of the Polo is achieved by using advanced manufacturing techniques and a rigorous design and testing process. The commitment to quality that defines Volkswagen can be seen everywhere you look in the Polo. For example, the galvanised steel panels are of such high quality that Volkswagen provides a class leading **12-year**

- 01** Halogen headlights with a clear lens provide the benefit of clearer, brighter illumination.
- 02** Turn indicators are integrated into the side mirrors as an added safety feature. The side mirrors are electrically heated and adjustable.
- 03** The design of the rear light clusters provide greater illumination and give the Polo a unique look.

**anti-corrosion perforation warranty.** The advanced laser welding ensures that the chassis is exceptionally strong and rigid, contributing to the handling and safety of the Polo. Of course, there's an even easier way of gauging the quality of the Polo – simply shut the door. The reassuringly solid 'thunk' sound is all the proof you'll ever need.

The Polo has a level of quality that you can see and feel because after all it's built to last. For your added confidence, Volkswagen offers a comprehensive **3-year/100,000km warranty** that also incorporates the benefits of the **Volkswagen Assist 24-hour roadside assistance program.**

## Interior.

The Polo was designed from a 'big luxury car' perspective, resulting in an interior that is quiet, comfortable and full of convenient features. From the smallest switch through to the large, **spacious feeling**, it's a showcase of **quality materials** and innovative **ergonomic design**. Features such as the height and reach adjustable steering wheel, pop-out cup holder and under-dash shelf are clever design touches that contribute to the comfort of the Polo. In-car entertainment is provided by a premium CD sound system incorporating four speakers, while the blue dash illumination is a distinctive detail. The practical interior offers generous space for all passengers and the convenience of a split-fold rear seat allows a huge load space. The **semi-automatic air conditioning** incorporates a **dust and pollen filter**, to trap airborne particles so that they don't enter the cabin.

- 01 Safety is an important feature of every Volkswagen and the Polo is no exception, with driver and passenger front airbags standard.
- 02 In-car entertainment: The Polo features a four speaker CD sound system. The standard semi-automatic air conditioning also incorporates a dust and pollen filter.
- 03 Safe and practical: All rear seat passengers are protected by a three-point seatbelt and head restraint, while the rear seat folds to provide a convenient load space.
- 04 The easy-to-read instruments feature adjustable blue illumination.

Door side impact protection

ABS Brakes (optional on petrol models)

## Safety.

As with any Volkswagen, occupant safety is a fundamental part of the vehicle design. So not surprisingly the new Polo is equipped with a range of important safety features. The Polo provides an extremely rigid body incorporating front and side impact protection. Front and rear crumple zones absorb the energy of an impact and divert the resulting forces around the **passenger safety cell**.

To minimise injury, the Polo Club, Polo Match and Polo TDI are equipped with standard **driver and passenger front airbags**. Every occupant is protected by a three-point seatbelt and head restraint. The front seatbelts are height adjustable to ensure the best possible fit and inbuilt pre-tensioners pull the seat belt tight in a collision.

Driver and passenger front airbags

Three-point seatbelts and head restraints

Front and rear crumple zones

The Polo TDI also includes as standard, an **Anti-lock Braking System (ABS)** combined with **Electronic Brake-pressure Distribution (EBD)** to enable the driver to maintain steering control and maximise braking efficiency in an emergency situation.

A class leading range of **optional safety packages** is also available for the Polo, offering features such as driver and front passenger side airbags, front and rear curtain airbags, ABS and EBD.

Alloy wheels shown are not available in Australia.

## Polo Club.

Slip into the driver's seat and the little luxuries of the 3 door Polo Club are immediately evident – like the crisp sound from the four speaker **premium CD sound system**. The electrically adjustable and heated door mirrors and the **speed sensitive power steering** make light work of the smallest car space. Stay cool in summer with the standard **semi-automatic air conditioning** while in winter the

variable intermittent front and rear wiper/washer will keep the glass clear. German engineering has resulted in a car that is big on features, with the Polo Club including items such as **central locking**, an **engine immobiliser** as well as **driver and passenger front airbags**.

The Polo Club is powered by Volkswagen's economical 1.4 litre 55kW fuel injected engine, with **fuel consumption of just 6.5l/100km** (5 speed manual) or 7.6l/100km with the optional 4 speed automatic transmission.

## Polo Match.

The practical 5 door Polo Match adds a range of quality features to the impressive Polo Club model. Security comes in the form of an **alarm system** with interior monitoring and a **programmable remote central locking** feature. Interior detail extends to front and rear passenger reading lights, illuminated vanity mirrors and front and rear **power windows**. You will feel comfortable with the **semi-automatic air conditioning** and appreciate the **cruise control** on those longer drives.

The Polo Match 5 speed manual is mated to Volkswagen's powerful **1.4 litre 74kW fuel injected engine**, providing fuel consumption of 6.8l/100km. The Polo Match is also available with a 4 speed automatic transmission mated to the **economical 1.4 litre 55kW fuel injected engine**, with fuel consumption of just 7.6l/100km.

## Polo TDI.

An exciting alternative is the 5 door Polo TDI – combining dynamic styling with Volkswagen's advanced 1.9 litre **Turbo Diesel Injection (TDI)** engine. The **Pumpe-Düse** technology of the 1.9 TDI is capable of delivering fuel in precise quantities at incredibly high pressure. The result is a more efficient and clean burning engine, providing huge amounts of torque, effortless performance and remarkable fuel economy. The smooth and quiet TDI offers ultra-low fuel consumption of just **5.0/100km**, making it possible to drive

up to **900kms on a single tank** of 45 litres. Producing 74kW of power and a staggering 240Nm of torque, the Polo TDI comes standard with a precise 5 speed manual transmission.

The Polo TDI has a comprehensive range of features – such as driver and passenger front airbags, **Anti-lock Braking System (ABS)** combined with **Electronic Brake-pressure Distribution (EBD)**, alarm system, power windows semi-automatic air conditioning and also cruise control.

## Glossary

### Anti-lock Braking System (ABS)

When braking, wheel speed sensors measure the road wheel speed and should one or more wheels start to lock the ABS system reduces brake pressure to that wheel. This prevents the wheels from locking during heavy or emergency braking, enabling the vehicle to remain steerable.

### Electronic Brake-pressure Distribution (EBD)

Electronic, more sophisticated means of regulating the ratio of front/rear brake pressure. Settings are varied according to driving and load conditions to ensure each wheel is braked to the optimum extent.

### Volkswagen New Vehicle Warranty

Every new Volkswagen passenger vehicle is covered by a 3-year/100,000km (whichever occurs first) manufacturer's warranty, which includes Volkswagen Assist (24hr roadside assistance). Every new Volkswagen passenger vehicle is also covered by a 3-year paintwork and 12 year anti-corrosion perforation warranty.

### Volkswagen Assist – Premium

As a customer you can be assured that wherever you travel in Australia you will have access to roadside assistance 24 hours a day, 365 days a year. You will receive help in the event of a breakdown or accident and if required, your vehicle will be mobilised or transported to a Volkswagen authorised workshop. As a Volkswagen owner you will also have access to the additional benefits of accommodation and car rental if your vehicle cannot be mobilised within 24 hours when you are travelling away from home. Furthermore, you can enjoy the benefits of Volkswagen Assist's concierge service for Australia-wide travel booking.

### Volkswagen Extended Warranty

Why not continue the confidence of a Volkswagen Warranty by purchasing Volkswagen Confidence Plus – an Insurance Policy designed to provide cover for the repair or replacement of a failed mechanical or electrical part, after the expiration of the Volkswagen standard new vehicle warranty. Volkswagen Confidence Plus is available for an additional period of 12 or 24 months unlimited kms. In addition, Volkswagen Confidence Plus includes the continuation of your Volkswagen Assist, our 24-hour roadside assistance program. You can purchase Volkswagen Confidence Plus at any time within your Volkswagen standard new vehicle warranty (3-year/100,000km). For more information contact your participating local dealer or visit [volkswagen.com.au](http://volkswagen.com.au)

### Volkswagen Service

Your Authorised Volkswagen Service Centre is part of Volkswagen's global Quality Management System, ensuring all dealers are certified to ISO 9001:2000 – an internationally recognised Quality Standard. Authorised Volkswagen Service Centres have factory trained Technicians equipped with the very latest diagnostic equipment, specialist tooling and Volkswagen Genuine Parts. An Authorised Volkswagen Service Centre undertakes work in accordance to factory specified guidelines and maintenance schedules.

### Volkswagen Genuine Parts®

Volkswagen Genuine Parts® are designed for your vehicle and approved by Volkswagen, with particular regard to safety. The workmanship, dimensional accuracy and materials used in these parts comply with factory specifications. To ensure safety and reliability, Volkswagen recommends the use of Volkswagen Genuine Parts®. Volkswagen Authorised Dealers offer a 2-year warranty on Genuine Parts from the date of purchase.

### Volkswagen Finance

Buying, Borrowing or Leasing, Volkswagen Finance will certainly make you think differently about financing and insuring your new Volkswagen. Committed to meeting the needs of Volkswagen drivers, across Australia, we offer a range of leasing, financing and insurance products, each with distinct advantages depending on your specific circumstances. Our packages are personalised to suit your individual requirements. You design your plan so that it meets your budgeting needs and can rest assured that there will be no surprises along the way. Speak to your local participating Volkswagen Dealer today to put together a financial solution that best suits your lifestyle.

Volkswagen is distributed by Volkswagen Group Australia Pty Ltd, The Lakes Business Park, 6 Lord St, Botany, NSW 2019. ABN 14 093 117 876. Specifications are as planned at February 2006 and are subject to change without notice or obligation.
