

Jimmy SIERRA

The Suzuki **Jimny Sierra** has always let you do your own thing. Its nimble size makes it ideal for zipping around town, getting in and out of places bigger cars can't handle. And when it's time to get out of town, Jimny Sierra will take you to your favourite secluded beach, your best kept secret fishing hole or your dream camping spot, no matter how far away and secluded it might be.

catch me if you can

■ Jimny Sierra's 16 valve, 1.3 litre VVT engine has a thirst for adventure, not fuel.

■ Don't let Jimny Sierra's size fool you. It's got plenty of room for 4 adults. Or you can fold down the rear seats to give you heaps of flat storage space for your gear, the dogs or whatever.

The reliable 16 valve 1.3L VVT engine has the power and flexibility to tackle city streets or tough off road terrain, and combines with the high performance braking system to give you confidence under any conditions.

Unlike the "soft-roaders" that try and compete with it, the Suzuki Jimny Sierra has all the attributes of a true 4x4. Its sturdy 3 section ladder-frame chassis means it can handle the toughest going. The live front and rear axles and 3-link coil suspension with separate shockers give you better traction over rough ground and better ground clearance in all conditions. And because the wheels are set at the extreme corners of the vehicle, you enjoy generous approach and departure angles.

Add to this Suzuki's renowned Drive Action 4WD system with vacuum hubs, that lets you switch from 2WD to 4WD without even stopping, and there's almost nothing the Jimny Sierra can't tackle.

■ There's no mistaking the strong and unique style of the Jimny Sierra built on 30 years of rugged 4x4 adventure.

Europe's Number 1
selling small SUV*

4x4xMORE

*Based on 2006 sales data.

In 1968, Suzuki introduced the world to the concept of ruggedly built, lightweight 4x4s that could go anywhere and do anything. And the world has been having heaps of fun in them ever since.

Today the **Suzuki Jimny Sierra** carries on that tradition in a direct line from its predecessors. You could say it has 4x4xFUN in its DNA!

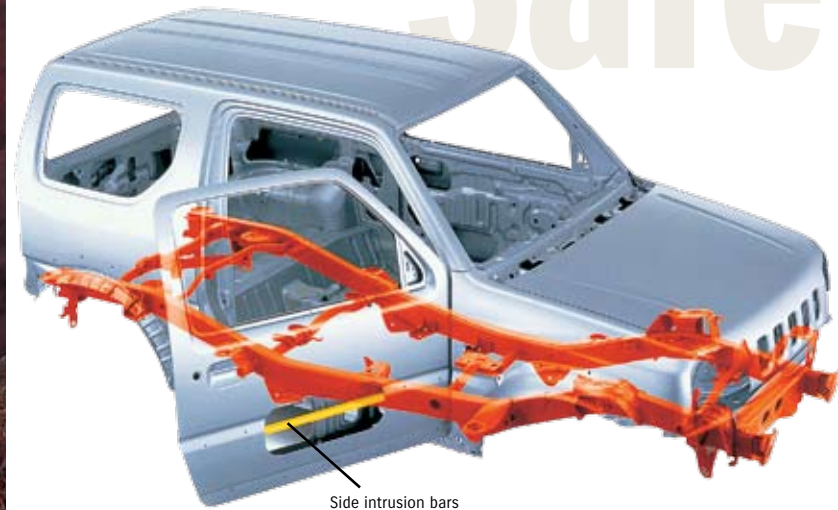

4x4. 4 Real.

Safety

Every **Jimny Sierra** is built with the tough ladder-frame chassis, 3-link coil suspension with separate shockers and side intrusion bars of a true 4x4.

Rear Suspension

1968 Suzuki launches the LJ10, Japan's first, mass-produced 4x4. It quickly establishes itself as a rugged, reliable, go anywhere vehicle.

1974 The LJ50, the first hardtop 4x4 in the Suzuki range, is released and is first called the "Jimny" in Japan.

1977 The last of the LJ models appear, now in 3 variants - hardtop, softtop and utility, giving the world a wider choice in fun, recreational vehicles.

1982 The SJ410 is released with an even bigger engine and sportier features, creating its reputation as a giant-killer.

1986 The Suzuki Sierra (Samurai) is released in Australia and the US, becoming the top-selling convertible 4x4 in the US.

1998 Suzuki releases the all new Jimny Sierra to continue the rugged mantle of the legendary Sierra.

Inside the Jimny Sierra, you sit high with excellent all-round visibility. You are cocooned in comfort with air conditioning, central locking, power windows, power mirrors, power steering and remote keyless entry, all standard. And you're cushioned in safety, with dual SRS airbags and side impact protection built-in.
