

SWIFT

When you head out in the **Suzuki Swift**, you head out in style. The European-inspired exterior gives the Swift a distinct look. A unique, stylish design that will turn heads wherever you go. The spirited engine makes for an exhilarating drive and gives you ultimate freedom wherever the road takes you.

- The Swift comes equipped with an extensive list of features that not only make your life easier, but also make every drive fun. The Swift 'S' model has all the style and functionality of the Swift but dressed to impress with 15" alloy wheels, fog lamps and with the added safety of 6 airbags.

Get out and hit the town.
The Swift is ready when you are.

Get your pulse racing in the rally-bred **Swift Sport**. Engineered to capitalise on power and performance, the Swift Sport is built around a 1.6 litre 92kW engine and enhanced with aerodynamic sports-body mouldings and Monroe® sports suspension for precision handling.

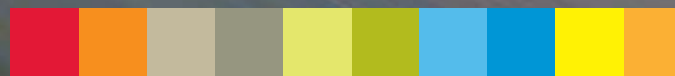

SWIFT *Sport*

power
and performance

- The **Swift Sport** doesn't just have the performance of a rally car, it has all the style of a rally car too. The sleek sports-body mouldings are accentuated with 16" alloy wheels, fog lamps, roof-end spoiler and dual exhaust, and the interior incorporates dynamic sports trim with top-class features to give you the ultimate rally driving experience.

■ **Suzuki has built a reputation for engineering innovation.** Whether it's high performance cars, motorcycles or marine engines, Suzuki is constantly evolving to meet our drivers' changing demands. We pride ourselves on building stylish, versatile vehicles that live up to the Suzuki stamp of quality, originality and reliability.

Suzuki's rich racing heritage and rally involvement over a number of years has paved the way for the Swift rally team to excel. Since its debut, the Swift has asserted its dominance on the international circuit with its exceptionally high standard of performance and impressive victories. The Swift has shown electrifying speed across some of the most rigorous terrain throughout Sweden, France, Argentina, Italy, Germany, Finland, Turkey and Great Britain, establishing itself as a supreme rally-racing vehicle. The continuous technological improvements that attribute to the Swift's racing success are also applied to every showroom Swift, making it more reliable and technologically advanced than ever before.

proven reliability

The Swift's ultra-rigid body is designed with side-impact protection measures and a highly sophisticated braking system incorporating ABS with EBD (Electronic Brake Distribution) and Brake Assist to give you complete control and ensure protection for all passengers. For the Swift, dual SRS airbags come standard, while the 'S' model and Swift Sport are further enhanced with side and curtain SRS airbags.

These days, safety measures have to take in all considerations, and with the Swift; everything is under control. Undergoing rigorous safety testing from the Australian New Car Assessment Program (ANCAP) who test car structure, occupant restraints and protection devices, the Swift's top-of-the-line safety features earned it a 4-star rating.

peace of mind

Find your own personal space in the **Swift**. With compartments in the instrument panel, glove box, front and rear bottle holders, a seatback pocket, front door pockets and the tray under the front passenger seat, you'll find space for all those small but essential items.

The **Swift** also has more than enough boot space to handle a load of shopping bags. Put the rear seats down and the luggage space more than doubles, lift back the lid on the boot tray and your space is bigger again.

■ Steering wheel-mounted audio controls & power steering

■ MP3 enabled CD Player

■ Air conditioning

■ The **Swift's** unique style continues inside with its dynamic and chic interior design. An MP3 enabled CD player with steering wheel-mounted audio controls pumps through a crisp 6-speaker sound system. But don't worry, we haven't forgotten the creature comforts; the **Swift** comes equipped with air conditioning, electric windows and mirrors, power steering and remote central-locking as standard features.

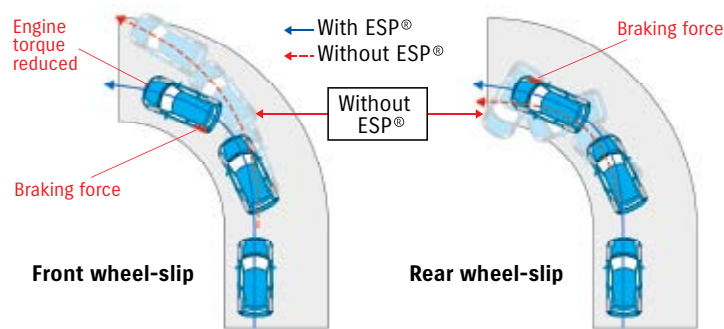

Swift Sport: Extreme Sports Attitude

Inside the **Swift Sport** you'll find a stylised sports interior that just makes you want to get behind the wheel. Sink into the sports bucket seats that hug your body at every turn, grip the leather steering wheel and plant your feet on the metallic racing pedals to experience the true rally-driving experience.

The **Swift Sport** has added flair with its list of top-class features scattered amongst the stylish sports trim. MP3 enabled CD player, steering wheel-mounted audio controls, 6-speaker sound system, remote keyless entry and air conditioning all come standard in the Swift Sport.

The **Swift Sport** is now also equipped with Electronic Stability Program (ESP) technology; an advanced safety function which helps drivers avoid crashes by reducing the danger of skidding. ESP is computer-controlled technology using a number of intelligent sensors to immediately detect any loss of control and automatically apply the brake to help restore the vehicle to its correct alignment.
