

GRAND VITARA

Way of Life!

Wouldn't it be nice to just drop everything and take a weekend trip to the snow? Or that quiet little spot by the sea? With the Suzuki Grand Vitara, you can do it all. It has the performance, space and versatility to take you wherever you want to go with ease.

4 MODE
4X4

ON ROAD COMFORT

Grand Vitara's cabin design is well matched to its sporty exterior. The refined environment allows passengers to feel relaxed, while the layout suits an active, fun-loving lifestyle. A high quality CD audio system is available across the range, while the Prestige models feature a 6 CD-stacker audio system. All feature integrated steering wheel controls for easy operation.

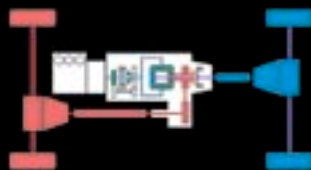

*Optional fog lights on Grand Vitara 5 door shown.

GENUINE OFF-ROAD ABILITY

“No matter how refined the styling, or what the modifications, the off-road performance cannot be allowed to suffer. That is the essence of Grand Vitara”

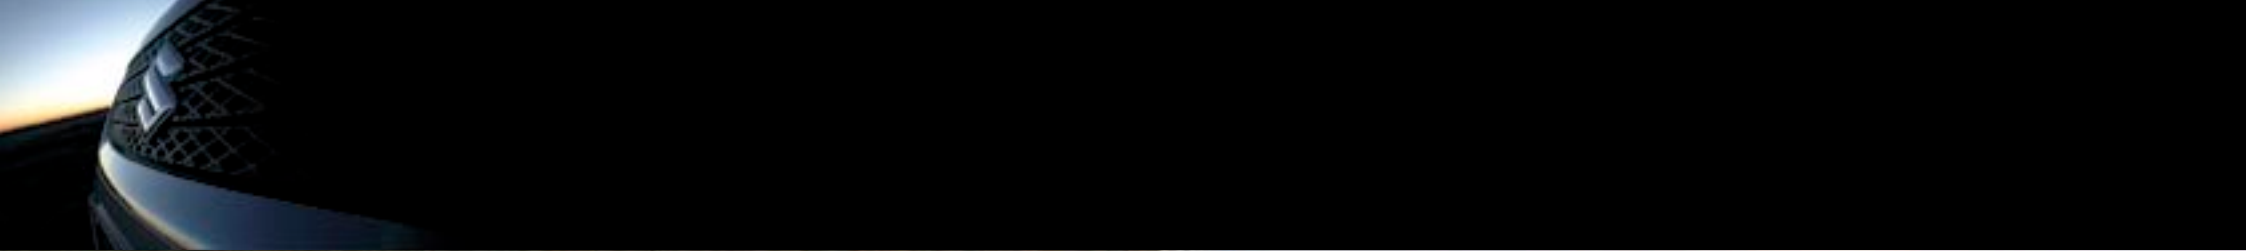

Koji Yamada - Suzuki Motor Co.

4 MODE 4x4

The Grand Vitara's 4-mode 4x4 system transmits power to all four wheels at all times, ensuring positive traction regardless of road surface. A switch built into the centre console lets you quickly and easily change modes between 4H for most driving conditions, 4H Lock for serious off-roading, 4L Lock for extreme surface conditions, and N (neutral) mode.

Unlike the “soft roaders” that try to compete with it, the Suzuki Grand Vitara is a 4x4 with genuine off-road capability. So no matter how far off the beaten track your adventures take you, the Grand Vitara will get you there, safely and in complete comfort.

*Optional fog lights and alloy wheels shown on Grand Vitara 3 door.

Suzuki is constantly evolving to keep up with our drivers' fast paced, active lifestyles - this is why Suzuki has built its reputation for innovative engineering. We pride ourselves on building stylish, versatile vehicles that people can relate to, and that live up to the Suzuki stamp of quality, originality and reliability.

CLIMATE CONTROL AIR CONDITIONING

Fully automatic air conditioning maintains the ideal cabin ambience for increased driving enjoyment.

Noise-reducing and vibration-absorbing materials have been extensively used throughout the Grand Vitara. These measures, together with the body engineering and the rigid ladder frame chassis enhance the comfort of all occupants and increase the all-round driving pleasure under a variety of driving conditions.

Grand Vitara's interior has been created so that you drive in total comfort every time. Steering wheel mounted audio controls for the mp3 compatible CD stereo. Speed-sensing volume levels. Climate control air conditioning. Below deck cargo storage. And keyless entry & start system (Prestige model). There's also generous space for every passenger and loads of room for all your gear - a place for everything so everything stays in its place.

GRAND VITARA 5 DOOR

FEEL SAFE - FEEL COMFORTABLE

The Grand Vitara is designed with new levels of protection for every passenger. With dual front, side and curtain airbags now standard across the range, everyone can be safely cocooned in a world of total comfort. ESP and ABS with EBD (a system that transfers brake torque between axles) is also standard.

Dual front SRS airbags and head-impact protection built into all pillars and upper cabin surfaces helps reduce head injuries in the unlikely event of an accident.

2.4-LITRE VVT FUEL EFFICIENT POWER

Grand Vitara's newly developed 2.4-litre VVT engine provides effortless power with instant response. Outstanding fuel efficiency is at the forefront, with impressive fuel economy of just 8.9 litres per 100km* better than most Compact SUV competitors. Coupled to either a five-speed manual transmission or 4-speed automatic, the new Grand Vitara is smooth in the city and exhilarating on the highway.

*ADR 81/02 Test Standard for Grand Vitara 5 Door Manual - Combined (L/100km.)

ESP

All Grand Vitara models are now equipped with 'Electronic Stability Program' (ESP) technology, an advanced safety function which helps the driver regain control of a sliding vehicle. ESP is a computer controlled technology which uses inbuilt sensors to automatically apply braking to individual wheels. This quickly helps restore correct road alignment as soon as any loss of vehicle control is detected.

*Optional 18" alloy wheels shown.

The spirited 3-door Grand Vitara has an appetite for endless fun, it cuts through the tightest city with ease. But when on the open road, the lively 2.4 litre VVT coupled to either manual or automatic transmissions positively purrs with delight.

GRAND VITARA 3-DOOR

With the full-time 4WD system, climate control air conditioning, ESP with traction control, front, side & curtain airbags, four-wheel disc brakes with ABS and EBD and mp3 compatible CD player with steering wheel controls - they all add up to an enjoyable drive.

*ADR81/02 Test Standard for Grand Vitara 3 Door Manual - Combined (L/100km.)

MORE ADVENTURE. MORE CONTROL. OUTSTANDING FUEL EFFICIENCY.

True 4x4 enthusiasts will rejoice at the addition of a turbocharged diesel engine to the Grand Vitara range.

The Grand Vitara Diesel delivers an impressive fuel economy of 7.0 litres per 100km*, with a common rail, Direct Diesel Injection System (DDiS) Turbocharged diesel engine.

With maximum torque of 300Nm at 2,000 RPM, it provides real grunt for true 4x4 performance. The dual combination of Electronic Traction and Stability Control system (ETC & ESP) work together to reduce the risk of losing vehicle control when driving on-road, while providing extra grip for any off-road adventure you choose.

*ADR 81/02 Test Standard - Combined (L/100km.)

#Optional fog lights on Grand Vitara Diesel shown.

DIESEL

POWER AND PRESTIGE, COMBINED

PRESTIGE

The Grand Vitara Prestige takes you to a whole new level from the moment you step inside. The luxurious leather interior cuddles you in comfort, while surrounding you in safety with no less than six airbags. Activate the keyless start and get ready for your next great adventure.

KEYLESS ENTRY & START UP

Touch the handle and the door opens. Turn the keyless ignition and the engine starts - our keyless system makes it all simple.

V6 POWER

The Prestige offers a 2.4 litre VVT engine as well as a potent 3.2 litre V6 which produces outstanding performance, generating 165 kW of power and up to 284Nm of torque.

The 3.2 litre V6 also features 'Hill Hold', a technology which ensures that the vehicle does not lose traction on steep hills.
