Transport

Only 100% quality products are given the Volkswagen Genuine name.

Laboratory testing:

Corrosion test in saltwater spray systems, UV resistance, environmental compatibility and many additional laboratory tests examine all the relevant material properties. The climate chamber subjects the products to extreme temperatures.

Endurance:

Whether short distances, high-speed or route profiles of varying difficulty – durability under continuous load conditions is tested. The special road endurance test is carried out with a distance of 20,000 km using the maximum permissible load and a variety of different testing profiles.

Test track:

Test drives with maximum acceleration both forwards and to the sides, for instance by weaving around obstacles, emergency braking or over cobblestones subject the accessories to extremely hard tests over and over again.

01

01 Roof Bars

The genuine roof bars provide the base for all roof attachments and are aerodynamically designed to suit the Tiguan.

Part no. 5QF071151

02

02 Surfboard holder

Bringing your surfboard safely to its destination: The rubber-coated surfboard carrier and a special rubber protector for the metal clamps on the tensioning straps provide extra protection during transport.

Part. no. 000071120HA

03

03 Bicycle holder

The aerodynamic bicycle holder is made of UV-resistant material and is fitted onto the roof bars with chromed steel brackets. The quick-fastening system is easy to fit and can be locked for peace of mind.

Part. no. 6Q0071128A

04

04 Kayak holder

No bouncing, no slipping: developed specially for kayaks up to 25 kg in weight, the holder adapts itself perfectly to the shape of the kayak. Four moveable rubber supports secure the kayak during transport. Strong tension belts ensure that the kayak is well fastened.

Part. no. 1K0071127A

05

05 Comfort ski and snowboard holder

When it comes to top of the mountain, there's nothing better on top. You can take up to six pairs of skis or up to four snowboards on the roof of your vehicle, comfortably and safely. The lockable ski and snowboard holder can quickly be mounted on the roof bars and is easy to operate.

01

01 Roof box

The aerodynamic roof box provides an impressive combination of minimal driving noise together with simple and quick installation using a quick-action clamping mechanism. The box is fixed to the carrier through pumping movements of the quick-action clamping mechanism. Further highlights: comfortable and easy opening from both sides thanks to the innovative "DuoLift system" and the pneumatic springs integrated at the front and rear as well as optimal anti-theft protection through a 3-point central locking system. The roof box manufactured using DUROKAM® thermoplastic is UV-resistant, light, dimensionally stable, impact-resistant and durable. Max. load capacity: 75 kg. Colour: Titanium Metallic.
