

BMW Premium Selection
Used Vehicles

bmwused.com.au

Sometimes brand is more important than new.

Every BMW is built to very strict design principles.

Rear wheel drive for the smooth application of power; near perfect 50:50 weight distribution for precise handling, to name just two. This has always been the case. And unless the laws of physics change, it always will be.

So whether your BMW is three weeks old or three years old, it is still inherently the Ultimate Driving Machine.

Still The Ultimate Driving Machine.

The unmistakable styling. The luxuriously appointed interiors. Everything about a BMW says quality. BMW Premium Selection offers you confidence and comprehensive support well beyond this.

Every BMW Premium Selection vehicle has been thoroughly and expertly examined, and is backed with a minimum 12-month BMW factory warranty. So you can be certain that if a car qualifies for BMW Premium Selection, it meets the most uncompromising standards.

'Selection' is the key.

Not all used BMWs traded to a BMW dealer make the grade to BMW Premium Selection. Only the finest examples are accepted. Before gaining BMW Premium Selection status, each car is given a rigorous inspection that goes far beyond a simple mechanical check.

To begin with, only recent models with low kilometres are considered. Each vehicle is then put through an initial 100 point check which covers every aspect of its mechanical systems, electrical systems, braking system, steering mechanism and all safety components.

These tests are conducted by factory-trained BMW technicians using the most advanced computerised diagnostic equipment.

Naturally, if a problem is found, it is either repaired using new Genuine BMW Parts, or the vehicle is deemed not to have met the BMW Premium Selection standard.

A history of expert servicing.

Every BMW Premium Selection vehicle has only been serviced by authorised BMW dealers, and has a complete service history to prove it. This ensures that each BMW Premium Selection vehicle has enjoyed proper care in the past, and can offer years of safe and enjoyable driving in the future.

A BMW Warranty.

Your BMW Premium Selection vehicle will be covered by a minimum 12-month, unlimited kilometre, BMW factory backed warranty*. The BMW Warranty gives you peace of mind because the people who know BMWs best have put their complete faith in this particular vehicle. You will have cover, support and benefits that only BMW can provide.

*Balance of BMW new car warranty may apply in some instances.

Assistance available 24 hours a day.

Should the unexpected happen, you'll have help on call 24 hours a day, 365 days a year, nationwide. BMW Roadside Assistance provides you with swift emergency help any time, anywhere.

As well as roadside mechanical help and emergency towing, BMW Roadside Assistance covers your accommodation costs and, where needed, replacement car hire.

Other non mechanical emergencies such as tyre changes, a flat battery, out of fuel and lockouts are also covered by BMW Roadside Assistance.

Maintaining your BMW's value.

To ensure that the satisfaction you enjoy with your BMW doesn't diminish over the years, insist on Genuine BMW Parts during any service or repair. Unlike authorised BMW dealerships, some mechanics and repairers try to replace BMW parts with inferior alternatives, reducing your BMW's authenticity and, ultimately, value.

Servicing is a prime example: the Service Interval Indicator on your BMW will tell you when your BMW requires a service. So simply take it to any authorised BMW dealer and it will be treated as a BMW should.

An authorised BMW dealer can make a loan car available to you while your car is being serviced (please book in advance).

Finance and Insurance from BMW Financial Services.

A BMW Premium Selection vehicle opens the door to a wide range of finance packages. Our range of finance products has been developed to provide precisely the right combination of flexible features to suit the individual needs of every customer.

With flexible contract terms of 24 to 60 months and the ability to select the amount of residual or balloon payment at the end of your contract, you can set monthly payments to suit your budget.

BMW Motor Vehicle Insurance offers features and service that gives a BMW owner unparalleled peace of mind.

With our cover, your BMW is repaired by a BMW authorised repairer using only Genuine BMW parts. No other insurer can give you that guarantee.

Ask at an authorised BMW dealership or visit www.bmwfinance.com.au to see how our finance and insurance products can help make driving a BMW more affordable than you may think.

Start your search engines.

Want to find a particular model or colour of vehicle? A very convenient way to find the BMW Premium Selection used vehicle of your choice is to visit www.bmwused.com.au

You can search by location, model, colour and even transmission type.

In the unlikely event that you cannot find a BMW to match your needs, you can register your details and be automatically notified as soon as your choice of vehicle becomes available.

100% backed by BMW.

A BMW Premium Selection used vehicle offers you the peace of mind you have been looking for.
