Driving Machine

# THE NEW BMW X1.

JOY IS A LIFE FULL OF POSSIBILITIES.

JOY KNOWS  
NO COMPROMISE.

**A JOY SHARED IS A JOY DOUBLED.**

## THIS HAS GONE IN.

The pleasure you get from driving a BMW is the result of fine engineering – always setting the benchmark because it is based on much more than engine power. This is the tradition behind BMW EfficientDynamics. It includes the visionary CleanEnergy hydrogen-powered engine, already used in a number of completely emission-free BMW 7 Series sedans. Also going into production soon is the BMW ActiveHybrid – an intelligent, demand-oriented combination of internal combustion engine and electric motor. And every BMW already includes multi-award-winning BMW EfficientDynamics technologies as standard that boost dynamics even further whilst simultaneously reducing fuel consumption and CO<sub>2</sub> emissions.

### Auto Start/Stop function

The four-cylinder diesel engines with 6-speed manual transmission automatically shut down when the vehicle is stationary, for example at a red light or in a traffic jam, when the driver activates the clutch and switches to neutral. The engine restarts as soon as the clutch is activated again. This innovation significantly reduces fuel consumption especially in city traffic.

### Optimum Shift Indicator

Timely gear shifts are one of the most effective and easiest ways to save fuel. This is where the Optimum Shift Indicator in conjunction with 6-speed manual transmission comes in. It shows the driver which gear to use in order to save fuel.

### Common Rail injection

The third-generation electronically controlled Common Rail Injection system generates pressure of up to 1,800 bar. Diesel fuel can be injected with greater precision and in precisely calculated amounts. This lowers consumption and emissions while at the same time enhancing engine performance.

### Brake Energy Regeneration

To supply a battery with electrical energy, the generator (alternator) is permanently driven using engine power, which demands additional fuel consumption. Brake Energy Regeneration means the generator usually only generates electricity when the driver takes the foot off the accelerator or the brake – previously unused kinetic energy is transformed in coasting mode into electrical energy before being fed into the battery. In this way, electricity is generated while coasting, without consuming fuel.

Some BMW EfficientDynamics features are dependent on the car's equipment and are not available for all model variants. Your preferred BMW Dealer will be happy to provide you with information on all equipment details.

## AND THIS IS WHAT COMES OUT.

Thanks to the innovative features of Efficient Dynamics, BMW has been able to significantly reduce CO<sub>2</sub> emissions in many models. But that's just for starters. We're carrying on our research with Efficient Dynamics – in the quest to bring you more driving pleasure and less emissions.

[www.bmw.com.au/EfficientDynamics](http://www.bmw.com.au/EfficientDynamics)

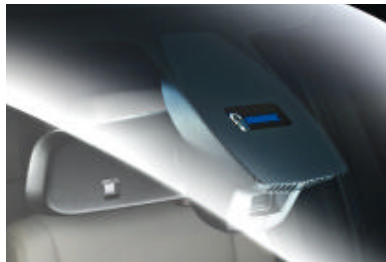

■ Standard equipment   □ Optional equipment

□ **Xenon Headlights for high and low beam** incl. daytime running lights, headlight washing system, plus four light rings and automatic headlight range control. Provides significantly better illumination of the road at night and in poor weather or light conditions.

□ **Adaptive Headlights with variable light distribution, incl. turning lights** (only in conjunction with Xenon Headlights), optimally illuminate corners as soon as the driver turns into them through electromechanical control of the pivoting headlamps.

■ **Fog lights** integrated in the front apron for improved safety in poor visibility, including heated exterior mirrors and windscreen washer nozzles.

□ **High-beam assistant** helps the driver at night by automatically switching between high and low beam according to oncoming traffic, vehicles driving in front and when road lighting is sufficient.

□ **Rain sensor, incl. automatic driving lights:** Once activated, the rain sensor automatically turns on the windscreen wipers according to the intensity of the rain and independently controls the wiper interval. The integrated automatic driving lights automatically switch to low beam at dusk or when entering tunnels (Standard on sDrive20d, xDrive20d, xDrive23d and xDrive25i).

□ **Lights package** includes vicinity lights in the door handles, which illuminate the area outside the doors for 20 seconds when the doors are unlocked to ensure safe access in the dark. Other features include reading lights at the front and rear, footwell illumination at the front, vanity mirror lights for driver and passenger, and ambient lighting.

■ **Chrome Line Exterior** for the window cavity covers, the mirror triangle and the mirror frame in Black, high-gloss (only available for xDrive25i and xDrive23d).

□ **BMW Individual High-gloss Shadow Line**, includes the surrounds of the B-pillar, window guide, window cavity covers, mirror triangle and mirror frame in Black, high-gloss.

■ Standard equipment   □ Optional equipment

- **Panorama glass roof** with large opening and viewing area and wind deflector. The front half of the glass can be electrically raised by touch control and also has a sliding function, electric sliding roofliner (sun protection) as well as a comfort open/close function with trap release.
- **BMW Individual roofliner Anthracite.**

■ **Roof rails, black:** Harmoniously matched to the car's design, this system forms the basis of a multifunctional BMW roof support for effortless and safe transportation of luggage, bicycles, surfboards etc (Standard on sDrive18i, sDrive20d and xDrive20d).

□ **Roof rails, Aluminium satinated:** For an individual look, the roof rails are also available in Aluminium satinated (only in conjunction with X Line, standard on xDrive25i and xDrive23d).

■ **Exterior mirrors** in body colour and electrically adjustable. The mirrors are also aspheric and can be heated.

□ **Interior and exterior mirrors with automatic anti-dazzle function.** When a defined incidence of light is registered from following vehicles, the mirrors automatically adjust to the anti-dazzle position. Option includes electrical fold-in function and automatic parking function for exterior mirrors.

□ **X Line** includes selected features with a valance in Aluminium satinated – front bumper, incl. fin in the air intake, rear bumper and side sills (only in conjunction with roof rails – aluminium satinated and standard on xDrive25i and xDrive23d).

■ **Dynamic Braking Lights** help vehicles following behind to see how hard you are applying the brakes. During normal braking, the brake lights cover a large area. Only during emergency braking do the brake lights begin to flash. This allows following traffic to immediately distinguish between light braking and full braking – for even greater driving safety.

■ Standard equipment   □ Optional equipment

■ **BMW light-alloy wheels star-spoke 317**, 7.5 J x 17-inch, 225/50 R 17 run-flat safety tyres (standard on sDrive18i, sDrive20d and xDrive20d).

□ **BMW light-alloy wheels V-spoke 318**, 7.5 J x 17-inch, 225/50 R 17 run-flat safety tyres (standard on xDrive25i and xDrive23d).

□ **BMW light-alloy wheels star-spoke 319**, 7.5 J x 17-inch, 225/50 R 17 run-flat safety tyres.

□ **BMW light-alloy wheels star-spoke 320**, 8 J x 18-inch, 225/45 R 18 run-flat safety tyres.

□ **BMW light-alloy wheels double-spoke 321**, 8 J x 18-inch, with 225/45 R 18 run-flat safety tyres.

□ **BMW light-alloy wheels Y-spoke 322** with mixed run-flat safety tyres, 8 J x 18-inch, 225/45 R 18 tyres (front) and 9 J x 18-inch, 255/40 R 18 tyres (rear). Snow chains cannot be fitted.

□ **BMW light-alloy wheels comb styling 323** with mixed run-flat safety tyres, 8 J x 18-inch 225/45 R 18 tyres (front), 9 J x 18-inch 255/40 R 18 tyres (rear). Snow chains cannot be fitted.

■ Standard equipment   □ Optional equipment

■ **Sports leather steering wheel** (diameter 369 mm) with thumb rests, chrome clasp and three spokes.

■ **Multifunction steering wheel** for remote control of radio or telephone.

■ **Sports leather steering wheel with gearshift paddles** for a particularly dynamic driving style (only available on xDrive25i and xDrive23d).

■ **Cruise control with braking function** stores and maintains the desired speed, from approx. 30 km/h, (controlled by the left-hand steering column stalk).

■ **6-speed manual transmission** allows a very sporty driving style. It is extremely smooth, with perfect ratios and precise, short-throw gearshifts. The closely spaced gear ratios and the addition of a sixth gear enable the driver to make even more individual use of the engine's characteristics (not available on xDrive25i and xDrive23d).

□ **6-speed automatic transmission Steptronic** with Adaptive Transmission Management (ATM). The transmission allows for very fast, precise gearshifts and maximum dynamic performance (Standard on xDrive25i and xDrive23d including gearshift paddles for the leather steering wheel).

■ Standard equipment □ Optional equipment

■ **On-board computer** provides information about average speed, average and current fuel consumption, range and outside temperature.

■ **Optimum Shift Indicator** lets you know when it is more economical to drive in another gear. It indicates when to shift up or down and adapts these recommendations to your driving style (only for four-cylinder diesel models in conjunction with 6-speed manual transmission).

■ **Auto Start/Stop display** signals on the info display when the engine has been switched off by the Auto Start/Stop function (for instance, at traffic lights or in a jam). The display is turned off when the engine is re-started automatically (only for four-cylinder diesel models in conjunction with 6-speed manual transmission).

□ **Navigation system Business**, incl. CD drive, iDrive Controller with one-touch keys, eight favourite buttons, integrated memory for navigation data, map display with bird's-eye view and high-resolution 6.5-inch display.

□ **Navigation system Professional**, with DVD drive, iDrive Controller with one-touch keys, eight favourite buttons, integrated hard disk for maps and audio files, high-resolution 8.8-inch graphic display, map or 3-D routes display, bird's-eye view.

■ **Park Distance Control, rear**, facilitates parking and manoeuvring in confined spaces, giving an acoustic signal to indicate the distance between your car and an obstacle. In conjunction with an optionally available navigation system, the distance is also shown visually in the Control Display.

□ **Park Distance Control, front and rear**.

□ **Rear view camera** shows the area behind the car clearly in the Control Display. Interactive guidelines show, for example, whether the parking space selected offers enough room for the car. The rear view camera is activated automatically when reverse is engaged (only in conjunction with a navigation system and Park Distance Control, front and rear).

<sup>1</sup> Available from Genuine BMW Accessories.

<sup>2</sup> Whilst fitment and use of in-car entertainment systems is permissible under State Road regulations, the application of the laws pertaining to potential driver distractions may vary from state to state. To avoid any risk of non-compliance, we strongly recommend that BMW DVD systems be installed in conjunction with rear/side window sunblinds. Genuine BMW Accessory sunblinds are available on the majority of BMW models. When used in conjunction with DVD systems, sunblinds offer the additional benefit of enhancing visibility of on-screen images, particularly in bright conditions.

■ Standard equipment   □ Optional equipment

■ **Automatic air conditioning**, with Automatic Air Recirculation (AAR), microfilter, fogging and solar sensors and residual heat button, quickly creates the desired climate and maintains the selected temperature. Separate temperature control for left and right sides.

■ **AUX-IN connection**, incl. 12V socket for an external audio source such as an MP3 player.  
■ **USB audio interface** for connection of a USB stick or MP3 player. Stored tracks are shown on the display of the Radio BMW Professional or on the Control Display included in a navigation system (optional). The system is operated using the buttons on the multifunction steering wheel, Radio BMW Professional or the iDrive Controller. The USB audio interface can be extended to include comfort connection for mobile music player.

□ **harman/kardon surround sound system** with powerful amplifier output, equalizer, centre speaker and eleven high-performance loudspeakers creates outstanding sound quality. Plus, a surround function allows various sound environments to be simulated.  
□ **HiFi loudspeaker system** with eight loudspeakers for brilliant sound.

■ **Radio BMW Professional**, with two-line display to show detailed information on telephone numbers, names or on-board computer functions.

□ **CD changer for six CDs**

■ **Preparation for mobile phone with Bluetooth interface** (with hands-free system, connection for recharging and external aerial). A separately available snap-in adapter enables connection of a Bluetooth-compatible mobile phone, which can also be operated via iDrive (in conjunction with navigation system).

□ **DVD system in the rear**<sup>1,2</sup> includes a monitor with 7-inch colour display integrated into the centre armrest. The DVD system plays video DVDs and audio CDs (incl. MP3 format) and can also be used to display JPEG images. When the monitor is not in use it pivots 180 degrees and folds down. It also comes with an AV input. Infrared headphones available from Genuine BMW Accessories.

■ Standard equipment   □ Optional equipment

■ **Standard seats** (Median Cloth shown is not available in Australia), with manual adjustment of seat height, fore/aft position, backrest angle, height and angle of headrests.

□ **Seat heating** (with three levels) for driver and front passenger. Seat surface and backrest, including side supports, can all be heated and deliver warmth shortly after you pull away.

□ **Lumbar support** for driver and front passenger, electrically adjustable in height and depth, for an ergonomically perfect seat position and support of the back muscles.

□ **Seat adjustment** for driver and front passenger with electric seat height and backrest adjustment, as well as fore/aft and seat angle adjustment, with memory function for driver's seat and exterior mirrors (including automatic parking function). Two personalised positions can be stored for the settings of the driver's seat and the exterior mirrors.

■ Standard equipment   □ Optional equipment

□ **Sport seats** for driver and front passenger, with higher side bolsters and infinitely variable electric backrest width adjustment for optimum lateral support. Manual adjustment of fore-and-aft position, seat height, backrest angle, seat angle and thigh support.

■ **Front armrest**, sliding, incl. a 12V socket.

■ **Personal Profile:** This stores your personal preferences depending on equipment for settings such as the temperature and air distribution of the automatic air conditioning, the position of the driver's seat and exterior mirrors, and the volume and sound of the radio. Settings are then activated when you unlock the central locking.

■ Standard equipment   □ Optional equipment

## MORE STORAGE SPACE, MORE POSSIBILITIES.

The new BMW X1 adjusts flexibly to your requirements. Whether you want to transport skis or snowboards, store larger items of luggage safely, or simply appreciate having such a large range of storage options available, the new BMW X1 will delight you again and again with its impressive versatility.

■ **Storage compartment:** A spacious compartment is located in the upper section of the dashboard (not in conjunction with a navigation system).

■ **Bottle holders:** safely accommodating bottles of various sizes and located in each of the front and rear doors.

■ **Cupholder,** located in the centre console and within easy reach.

■ **Luggage compartment partition net,** can be fixed into the roof liner behind the first or second row of seats, providing protection from items falling into the passenger compartment and allowing the luggage compartment to be loaded safely up to the roof.

□ **Ski and snowboard bag\*** allows up to four pairs of skis or two snowboards to be transported cleanly and safely when up to four people are inside the car. The skibag is easy to detach and can also be used outside the car. When not required, it can be stored – without taking up much space – in the bag supplied.

\* Available from Genuine BMW Accessories.

■ Standard equipment

■ **Storage package** includes a host of intelligent and differently sized storage possibilities such as tensioning straps in the door pockets and storage nets on the front seat backrests.

**Storage compartment** under load compartment floor has four variable partition elements for flexible usage.

**12V sockets (three)** are located under the folding centre armrest, in the centre console trim in the rear and on the right of the luggage compartment.

**Two cupholders in the rear**, integrated into the centre armrest.

**Glasses compartment** in the roof liner allows you to reach your glasses or store them safely away in a single movement.

\* Whilst fitment and use of in-car entertainment systems is permissible under State Road regulations, the application of the laws pertaining to potential driver distractions may vary from state to state. To avoid any risk of non-compliance, we strongly recommend that BMW DVD systems be installed in conjunction with rear/side window sunblinds. Genuine BMW Accessory sunblinds are available on the majority of BMW models. When used in conjunction with DVD systems, sunblinds offer the additional benefit of enhancing visibility of on-screen images, particularly in bright conditions.

All dimensions in the technical drawings are given in millimetres. Luggage compartment volume 420 – 1,350 litres. Values in ( ) are for vehicles with Panorama glass roof.

<sup>1</sup> The Kerb Weight or Unladen Mass is the mass of the vehicle in running order unoccupied and unladen with all fluid reservoirs filled to nominal capacity including fuel, and with all standard equipment.  
<sup>2</sup> BMW recommends the use of RON 95 super unleaded petrol. Unleaded RON 91 and higher with a maximum ethanol content of 10% (E10) may also be used. Output and consumption figures apply to RON 98 fuel.  
<sup>3</sup> All engines comply with the EU5 emissions standard. Fuel consumption is determined in accordance with the ECE driving cycle (93/116/EC) made up of approximately one-third urban traffic and two-thirds of extra-urban driving (based on the distance covered). CO<sub>2</sub> emissions are measured in addition to fuel consumption. Fuel consumption is determined for vehicles with standard equipment. Optional equipment (such as wider tyres) may have a significant impact on fuel consumption.  
<sup>4</sup> Height with roof antenna is 1,573 mm.

Values in [ ] apply to vehicles with 6-speed automatic transmission Steptronic.

The Ultimate  
Driving Machine

The models illustrated in these materials show the specifications for various markets and not specifically for Australia. In part, they include optional equipment and accessories not fitted as standard. According to the specific requirements of other markets, alterations in models, standard and optional equipment, as described in the text and illustrations, may occur. For precise information, please contact your BMW Dealer. Design and equipment are subject to change or subject to error. While BMW Group has endeavoured to ensure that all information, representations, illustrations, specifications and descriptions contained in these materials are accurate at the time of publication, product features, specifications and models are subject to change without notice and BMW Group makes no commitment as to the availability of any vehicle. The information in these materials should always be read in conjunction with other materials and information available from BMW Group and its dealers. To the extent permitted by law, BMW Group excludes all express and implied warranties and all liability, whether direct, indirect, special or consequential, arising from negligence or otherwise relating to the use of these materials, any inaccuracies and for any non-compliance by any vehicle with any representations, illustrations, specifications, descriptions, product features, colours or other information contained in these materials. Where, by law, BMW Group is not permitted to exclude its liability but is permitted to limit its liability, its liability will be limited to, at its discretion, refunding the price of the goods or services or providing, replacing or repairing those goods or providing those services again. Nothing in these materials should be taken to limit the operation of the statutory warranties implied under the Trade Practices Act 1974 (Cth) or related consumer protection laws. BMW Group recommends that all customers check availability and performance of both technical and design features in the vehicle they are ordering or purchasing, before purchase.
