

 **TOYOTA PRESARA**
oh what a *feeling!*

Luxury has changed

The big Australian luxury 6 has changed for good. Toyota Presara combines luxury with technology to create a car that is pleasing to the eye and offers state of the art features for the discerning and sophisticated driver. Presara's streamlined body design boasts strong flowing lines reflecting both Australian and international design influences. Chrome details embellish the elegant grille, door handles, side mouldings and rear garnish, complementing the refined finish of 17" Alloy wheels. Powerful High Intensity Discharge (HID) headlamps with Adaptive Front Lighting system (AFS) intelligently see around corners. Fog lamps enhance visibility in misty conditions, whilst LED tail and brake lamps light up faster and brighter, helping others to see you. Once you drive Toyota Presara you'll quickly discover that its true power lies deeper within its refined bodywork, with a powerful all-alloy quad cam dual VVT-i V6, delivering 200kW of power, and a 6-speed sequential shift automatic transmission that achieves seamless acceleration. Toyota Presara has rewritten the rules of the Australian luxury car, to elegantly and intelligently deliver a truly remarkable driving experience.

OUR RULES say TRUE AUSTRALIANS
can also be refined

new RULES of INTERIOR COMFORT are lifting the game

Two memory positions instantly recall seat & mirror settings.

The power rear sunshade reduces glare and heat.

Presara keeps you in your comfort zone by pampering you with power operated driver and front passenger seats that feature carefully selected leather accents. As you sit in the driver's seat, you can recall your optimum seat and mirror positions at the touch of a button by selecting one of the two memory settings. Similarly you can adjust the tilt and reach of the steering column with ease. Also at your fingertips is dual zone climate control, allowing your preferred temperature to be set independently from that of the front passenger for more personalised comfort. Meanwhile, a Neural Network system constantly monitors outside temperature, sunlight conditions and cabin temperature, then adjusts the climate control and airflow to maintain comfort levels. The leather bound steering wheel not only allows for a precise grip, it also incorporates switches which allow you to adjust the climate control and audio levels, set the cruise control and even operate your

Bluetooth™ compatible mobile phone*, all without taking your hands off the wheel. Unexpected showers of rain are quickly detected by rain-sensing wipers which switch on automatically. The wiper speed is intelligently tailored according to vehicle speed and rain intensity. Once the sun comes out, the power operated Moonroof brings the freshness of the outdoors into your cabin, while the climate control system's pollen filter constantly cleanses the air of unwanted irritants. Comforts even extend to a power operated sunshade in the rear window which reduces glare for rear seat passengers whilst helping keep the cabin cooler. It's even considerate of the driver, as the sunshade automatically retracts whenever reverse gear is selected. Woodgrain accents on the steering wheel, dash, console and door trims provide an elegant finish to an interior of decadent luxury.

*The Bluetooth word mark is owned by Bluetooth SIG, Inc. Bluetooth™ will only operate with telephones enabled with compatible Bluetooth™ wireless technology (HFP [Hands Free Profile] version 1.0 and OPP [Object Push Profile] version 1.1 international standards).

reinventing luxury through technology

Presara has made it is easier for you to step aboard, thanks to Smart Entry and Smart Start. The moment you come within a few footsteps of the car with the Smart Key in your possession, Presara readies itself for your arrival. The Smart Key transmits a rolling security code to the car allowing you to unlock the door by simply gripping either of the front chrome handles. The engine then starts at the touch of a button. Once the ignition is on, a 'Welcome to Aurion' greeting animates across the audio display and readies you for the journey ahead.

Once you drive Presara, you'll discover that this car does little by conventional rules. The instrument display is no exception. An Optitron Combi-meter instrument panel increases visual contrast between the meter and meter readings insuring greater instrument clarity. Within this display, trip details including outside temperature, average speed, time elapsed since starting, fuel consumption and estimated range are displayed with vivid clarity. Shift into reverse and the exterior mirrors dip automatically allowing you to see the kerb. At the same time, a rear reversing camera transmits a colour picture of what's immediately behind your rear bumper to the Satellite Navigation screen.^^ Leaving nothing to chance, sonar sensors in the front and rear bumpers sound alarms as you approach stationary objects making it easier to manoeuvre in and out of tight parking spaces. To get you to your destination with minimal fuss, Presara gives you the guidance of DVD-based Satellite Navigation# which makes paper maps a thing of the past. This advanced system offers a range of map display options and can also direct you via verbal instructions like a personal navigator, allowing you to keep your eyes focused on the road ahead. While Presara leaves other Australian luxury sedans behind, it keeps you connected thanks to in-built Bluetooth™ technology. Having registered your Bluetooth™ compatible mobile phone,* you can search up to 1000 contacts, dial a number and receive calls via the Satellite Navigation touch screen and audio speakers.

The Rear Reversing Camera shows you what may be out of view.^^

You can also place a call simply by saying up to 20 spoken commands, or receive calls via switches on the steering wheel. These features allow you to keep your hands firmly on the wheel for a safer, less distracted journey. Your in-car entertainment is handled with similar sophistication thanks to a 6-speaker audio system equipped with a 4 disc in-dash MP3/WMA compatible CD changer, providing you with vast music storage capacity. Psychoacoustics technology immerses the cabin in music by lifting the bass response and making the sound appear to be coming from an area just behind the windscreen. The audio system also incorporates a Digital Signal Processor which optimises sound clarity, boosts playback and minimises distortion. Then should the irritation of ambient road noise find its way through the copious amounts of soundproofing within Presara's bodywork, an Automatic Sound Leveller tailors the sound to compensate for the changing audio dynamics.

Even at night, the game has changed.

At night you're guided by an advanced lighting system that is not only brighter, but more intelligent as well. For the first time on an Australian built 6, Presara has High Intensity Discharge (HID) headlamps which self level and incorporate washers to keep the lenses clean, maintaining light levels. In addition, an in-built Adaptive Front-lighting System (AFS) redirects the powerful HID low beams around tight bends based on steering input, allowing you to see what lies around the corner. Presara shows advanced thinking even when looking backwards, thanks to an electrochromatic rear view mirror which automatically quells the glare from following motorists, for safer night vision. To ensure you're more visible to others, LED rear tail and brake lamps shine brighter and illuminate faster making following motorists aware of your braking intentions earlier.

More power with greater efficiency.

With 200kW on tap, Presara promptly distances itself from any other naturally aspirated Australian built 6. Yet thanks to advanced engineering and greater intelligence, this increased power doesn't mean a corresponding increase in fuel consumption with economy of just 9.9L/100km.† By making more efficient use of fuel, Presara is also kind to the environment. Its low emissions meet Euro IV standards, currently Europe's most stringent emissions measurement.

Part of the secret behind this is F1 inspired technologies. The 3.5 litre all-alloy, quad cam engine is equipped with Dual VVT-i (Variable Valve Timing with intelligence)

which continually tunes the intake and the exhaust camshafts for optimum valve timing based on driving conditions. So you can have power when you need it, and economy when you don't. In addition, roller rockers result in a significant friction reduction and further contribute to fuel economy. Dual exhausts look powerful while freeing up the engine to work at its peak.

Yet that's not all that puts Presara ahead.

To ensure that optimum power is fed to the driving wheels, Presara is equipped with a 6-speed sequential shift automatic transmission with Artificial Intelligence (AI) shift. It not only delivers seamless acceleration, it complements Presara's silky smooth on-road performance.

Shift characteristics are intelligently tailored by reading the road conditions and your driving style. Additionally, the downhill/uphill shift control selects the optimum gear for less unnecessary shifting going uphill, and for more control going downhill. You can also take matters into your own hands and enjoy manual shifting in sequential mode. Presara is equipped with Driver Assist Technologies which use computer intelligence to help the driver maintain control in challenging conditions. Vehicle Stability Control (VSC) employs the sensors, actuators and computer electronics of the AB-i braking and traction control systems to help anticipate and control skidding when cornering. By controlling engine output as well as brakes on the front and rear wheels, VSC allows you to drive confidently, particularly when you encounter a greasy or uneven surface.

If for any reason the car experiences any front or rear wheel skidding when cornering, VSC will brake the wheels individually, to assist in bringing the vehicle back on course. VSC will also adjust the power to help the driver maintain the vehicle's intended line. When accelerating on marginal traction surfaces such as wet or gravel roads, Traction Control (TRC) minimises drive wheel slippage which helps the driver maintain steering precision and acceleration control. TRC ensures that the vehicle accelerates in the intended direction at the optimal rate.

Start the car at the touch of a button.

^^The Rear Reversing Camera does not provide a comprehensive view of the entire rear area of the vehicle and should only be used as an aid for viewing when reversing.

Current mapping database encompasses major capital and primary national road networks as well as offering some coverage in regional areas.

*Bluetooth™ will only operate with telephones enabled with compatible Bluetooth™ wireless technology (HFP [Hands Free Profile] version 1.0 and OPP [Object Push Profile] version 1.1 international standards).

†ADR81/02 combined cycle. Actual fuel consumption may vary depending on driving style and conditions.

A new feeling of spaciousness, embellished with opulence

Move confidently with Toyota Link.

In Presara, peace of mind travels with you. Discreetly mounted within the overhead console, Toyota Link serves as your potential lifeline should the unexpected occur.[^] Quite simply, Toyota Link harnesses computing and wireless communications using GPS. It offers a range of answers for a seemingly endless array of scenarios. Toyota Link alerts you to issues like a low battery and reminds you of service intervals. Presara also offers the convenience of hands-free communication with the Toyota Link call centre via an in-built satellite phone. If your Presara is broken into, The Toyota Link system detects the unauthorised entry and alerts the call centre, via the 'Mayday ECU', who will notify you by attempting to contact you on a nominated telephone number and if required, notify the police. The police can then use the GPS system within Presara to track the vehicle and assist in recovering it. The call centre can also send a signal to the car to activate both the hazard lights and the horn to draw attention to the stolen vehicle. In addition, Toyota Link provides automatic accident notification if an airbag is deployed, so it can send for help when you may not be able to. Also, the overhead console incorporates a button module which links you with Police, Fire, Ambulance and the Toyota Link call centre. Leaving nothing to chance, it has its own back-up system, thanks to an in-built nickel-cadium battery.

Numerous support systems at your fingertips.

The new thinking in safety systems.

In Presara you're literally surrounded with safety features that exceed the expectations of governing authorities world-wide. Such levels of safety have been made possible by Toyota's 'Global Outstanding Assessment' (GOA) research and development programme that puts your safety first. Active Braking with intelligence (AB-i) places advanced braking dynamics at your feet by incorporating Anti-skid Braking (ABS), Brake Assist (BA) and Electronic Brake-force Distribution (EBD) technologies. ABS minimises skidding when braking by controlling each brake calliper independently, enabling you to maintain steering control and steer around an obstacle under heavy braking. Additionally, ABS helps you avoid a collision with unexpected obstacles by allowing you to stop in the shortest distance possible. Brake Assist (BA) interprets a quick hard push of the brake pedal as a potentially dangerous situation and supplements braking power so that the car slows more rapidly. Electronic Brake-force Distribution (EBD) optimises braking pressure to the wheels with the most grip to ensure maximum braking ability is delivered at all times, especially when you're braking with a load in the boot or with passengers in the rear.

Passive safety features.

Deep within that opulent bodywork you'll find a high strength steel Safe-T-Cell with impressive structural rigidity which incorporates reinforcements in the B-pillars, roof, inner doors and the front floor rocker area, designed to reduce cabin deformation. The Collapsible Steering Column is designed to reduce the likelihood of steering wheel intrusion into the cabin in the case of a frontal impact. A package of 6 SRS airbags includes 2-stage front airbags and front seat mounted side airbags which help reduce the likelihood of injury to front seat occupants' torsos during side collisions. Side curtain shield airbags help protect the chance of injury to the head of the front and rear seat outer occupants in the event of a side impact. As a further measure, impact absorbing material has been incorporated behind the door trims and the door pillars to reduce trauma to occupants in the event of a side impact. Whiplash lessening front seats and head restraints help reduce injury to the neck by suppressing the relative movement between the head and the body in the event of a rear end impact. For front seat occupants, 3-point Emergency Locking Retractor seatbelts have pre-tensioners which retract the seatbelt at the moment of frontal impact, while force limiters minimise the force exerted on the occupant's chest to reduce the risk of chest injury. Even pedestrian safety has been carefully considered. The underbonnet supporting structure and impact absorbing fender brackets have been specifically designed to reduce trauma to the head and torso of a pedestrian, in the event of a collision. In addition, more underbonnet clearance has been provided between hard points.

TOYOTA ON THE WORLD WIDE WEB

For a comprehensive guide to the entire range of Toyota vehicles, accessories, merchandise and a whole lot more, visit our Internet site at: toyota.com.au

TOYOTA WARRANTY

Every new Toyota is proudly backed by a 3 year/100,000km warranty (whichever occurs first) which provides you with peace of mind and care free motoring.†

TOYOTA SERVICE ADVANTAGE – CAPPED PRICE SERVICING

Toyota Service Advantage makes owning a Toyota even more economical. Now, all new Aurion models are entitled to low cost scheduled servicing** capped for up to four standard services during the first three years or 60,000km, whichever occurs first. Plus, you get the security of knowing you have Toyota trained technicians using Toyota Genuine Parts and advanced diagnostics to provide a Genuinely Better service.

TOYOTA GENUINE ACCESSORIES

When you choose Toyota Genuine Accessories you're adding even more personality, protection and practicality to your Toyota – tailoring it to your individual lifestyle needs. Toyota Genuine Accessories are designed, tested and manufactured to strict Toyota Standards. This quality and reliability is supported with our Toyota Warranty.* For customised fit and real peace of mind, keep the feeling 100% Genuine, keep your Toyota all Toyota.

TOYOTA INSURANCE**

Toyota Insurance provides reliable and cost effective protection for the things that are important to your life such as your Toyota vehicle.

MOTOR VEHICLE INSURANCE**

Toyota Insurance's Comprehensive Motor Vehicle Policy is tailored specifically for Toyota customers. Key benefits include:

- Replacement of your new Toyota if it is a total loss so long as it is less than 3 years old and has travelled less than 100,000kms
- Genuine new Toyota parts replacement promise for Toyota vehicles less than five years old since the date of first registration
- Genuine Toyota quality repair guarantee for the duration of your vehicle ownership
- Continuity of your current rating and No Claims Bonus entitlement when you switch to Toyota Insurance
- 24 hours, 7 days a week claims notification service and "at scene" driver accident assistance

In addition, if your Toyota vehicle is equipped with Toyota Link and is stolen, the standard policy excess will be waived (subject to the terms & conditions of Toyota Insurance Motor Vehicle Insurance Policy).

For more information on Toyota Insurance** products, including Finance Gap Insurance and Payment Protection Insurance, please contact your participating Toyota Dealer or call us on 137 200, 8:30am to 6:00pm (EST) Monday to Friday or visit www.toyotainsurance.com.au

TOYOTA EXTRA CARE

Toyota Extra Care offers a wide range of Warranty and Roadside Assist solutions to provide you with protection for your Toyota so you can enjoy worry free motoring.

EXTENDED FACTORY WARRANTY

Whether your Toyota is new or used,^ a Toyota Extra Care Extended Factory Warranty^^ can help protect you from any unexpected repair bills and the rising cost of parts and labour for years to come.

- Offers new and used^ Toyota vehicle owners the opportunity to extend the Toyota New Vehicle Warranty
- Includes additional items such as car hire and accommodation
- Choice of 1, 2 & 3 year extended warranty plans available
- No excess to pay

If you have not purchased a Toyota Extra Care Extended Factory Warranty at the time you purchased your Toyota from a Toyota Dealer, we can offer you Toyota Insurance Factory Approved Extended Warranty Insurance** which offers a similar type of protection. This must be purchased whilst your Toyota is less than three years old and has travelled less than 90,000kms since its purchase as a new vehicle (conditions apply).

ROADSIDE ASSIST

Toyota Extra Care Roadside Assist provides you and your family with access to emergency roadside assistance 24 hours a day, 7 days a week, 365 days a year, giving you total peace of mind. You can choose between the Standard plan or the Plus plan for additional benefits.

For more information on Roadside Assist or any of the Toyota Extra Care range of products, please contact your participating Toyota Dealer or call us on 137 200, 8:30am to 6:00pm (EST) Monday to Friday or visit www.toyotaextracare.com.au

TOYOTA FINANCIAL SERVICES

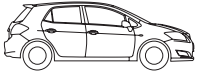

Toyota Financial Services is here to help you with a range of easy vehicle finance options that can help you get in the driving seat faster. Whether it's a new or used vehicle, or a range of vehicles, we can tailor a personal or business finance solution to suit you. We have numerous financing options to suit your particular income, taxation and structural requirements. Whether you require a simple personal vehicle loan, a novated lease for you or your employees, or serviced leasing on your small-business tool of trade vehicles.

For further information on our range of finance options or to discuss the best option for you, please contact your participating Toyota Dealer or call us on 137 200, 8:30am to 6:00pm (EST) Monday to Friday or visit www.toyotafinance.com.au
