

 **TOYOTA LANDCRUISER 200**

oh what a *feeling!*

King Off The Road.

Getting the job done. The story of Toyota Commercial Vehicles.

Getting the job done. That's been our motto for more than half a century. No matter the terrain, no matter the weather, no matter the load, our engineers' pursuit of perfection will ensure we meet our mantra. At Toyota, we know that every job matters and we know that the quality, durability and reliability we promise is crucial.

There through thick and thin.

We've done it tough since day one. Back in 1958, on the slopes of the Snowies, our very first LandCruiser was used as a tool for thousands of Snowy Mountain Hydro Scheme workers. It got them to their worksite, and home again, every day. Their back-breaking work on unforgiving and unpredictable land was shouldered by this unbreakable workhorse. No wonder it's known as the 4WD that built Australia.

Now, more than 50 years on, we're still at work building the nation. Our commercial fleet is still getting the job done everywhere and more Australians rely on us than ever before. From cattle drovers to camel catches, boaties to brickies, our quality, durability and reliability is expected and we strive to deliver it through what we call 'Kaizen'; constant and continual improvement.

Work hard, work smart.

Practicality and durability, that's our pedigree but these days our commercial vehicles are as renowned as much for their intelligence as for their rugged exterior. Pop the hood or search the cab and you'll find our engineers have advanced the range with some ground-breaking achievements, like the KDSS suspension control that keeps the car steady on the shakiest of surfaces, or the state-of-the-art CRAWL system that keeps a firm grip on the toughest terrain.

You're also likely to experience more comfort features than ever before. Depending on the model you choose to get your job done, you'll have iPod®⁽¹⁾ and Bluetooth™⁽²⁾ connectivity, flexible, easy-fold seating configurations and the safety of SRS airbags – just an example of our restlessness for betterment.

We're committed to being a company with world values at heart. As such, the benefits of our pursuits go well beyond the driver when we develop vehicles which work for longer on less. New, fuel-efficient engines, give the same grunt you've come to expect, but more economically and more quietly than ever. So whether putting out fires in the big smoke, or putting in hard yards out bush, the only thing our vehicles aren't producing more of is emissions.

And still there's work to be done.

We boast the toughest, strongest, and smartest work vehicles ever made, because we've been there before. We've spent the last fifty years working to bring you the best vehicles to tackle the toughest terrain on Earth, and we'll continue to evolve and strive to make each Toyota better than the last.

(1) iPod® is a registered trademark of Apple Inc.

(2) The Bluetooth™ word mark is owned by Bluetooth SIG, Inc. Bluetooth™ will only operate with telephones enabled with compatible Bluetooth™ wireless technology (HFP (Hands Free Profile) v1.0 and OPP (Object Push Profile) v1.1 international standards). OPP functionality only works on satellite navigation equipment.

Long live the King.

For all our forward thinking, the story of the LandCruiser goes back around 50 years. It is a true Australian icon, proving itself to generations of drivers in some of the toughest, most challenging terrain known to man. It's no secret that it's known to some as 'the 4WD that helped build Australia', thanks to its role in transporting construction workers across difficult terrain in order to build the Snowy Mountain Hydro-Electric Scheme. That was back in 1957. Since then, it has become an important survival tool, driving thousands of Australians across rugged outback terrain – and back home safely again.

Building upon a rich heritage of proven credentials, today's LandCruiser 200 uses the latest in cutting edge technology, employing meticulous attention to detail inside and out. After years of research, development and innovation, we invite you to make your own piece of history with the LandCruiser 200.

Get ready to discover Earth's Greatest 4WD.

A long time in the making.

Almost 10 years in the making, LandCruiser 200 is already giving us a glimpse into the 4WDs of the future. Cutting edge technology adds up to a genuinely unique 4WD experience, rarely seen in vehicles in this class. We've met seemingly contradictory goals in the development of LandCruiser 200: we've made it powerful, yet efficient. We've made it timeless, yet it offers contemporary style. We've made it tough, but it's amazingly comfortable.

Quite simply, there is nothing else like it in the world.

Benchmarks were made to be beaten.

Designed to standards rarely seen in such a vehicle, LandCruiser 200 sets lofty benchmarks in both on and off-road driving. Benchmarks we know will be around for some time. Developed by an elite team of the world's most passionate and experienced engineers and designers – the LandCruiser 200 is purpose built for drivers who want a 4WD with raw substance as well as elegant style.

Great minds think alike.

Offering both rugged practicality and innovative design, the LandCruiser's muscular shape makes a bold statement. Inside, every detail has been carefully considered. From powerful engines and cutting edge technology to flexible, easy-fold seating configurations and an intelligently designed cabin interior, we listened carefully to what drivers like you expect – and we know you won't be disappointed with the result.

Powerful enough to shift mountains.

The real differences can be found underneath the bonnet. With two variants, a 4.7L V8 VVT-i Petrol with 5-speed automatic transmission and a 4.5L V8 Twin Turbo Diesel with 6-speed automatic transmission, the LandCruiser 200's engines offer dynamic power and engineering brilliance. The output figures speak for themselves; the Petrol variant has an impressive output of 202kW at 5400rpm, while the Diesel offers a similarly searing power output of 195kW at 3400rpm.

Torque it up.

Massive torque means you'll get pulling power with more grunt, enabling you to go where other 4WDs can't. With the Petrol variant offering 410Nm at 3400rpm and the Diesel a heart thumping 650Nm at 1600-2600rpm, it's time to forget the old boundaries and limitations. Get ready to enjoy the freedom and explore new frontiers on-road and off.

The quiet achiever.

Best of all, it's good to know that all this power comes with responsibility built-in. Both LandCruiser 200 engines are also gentle where it counts, being compliant with strict EURO IV emission standards. We've worked hard to produce hard-working engines with excellent fuel efficiency and are quieter than ever. And with Artificial Intelligence Shift control built into both transmission systems, LandCruiser 200 has brains as well as brawn. It all adds up to outstanding fuel efficiency, superb drivability, heart thumping power and pure, adrenalin-inducing grunt.

LVA-101

GXL Turbo Diesel model shown.

Gripped with exhilaration.

Kinetic Dynamic Suspension System (KDSS)[#] is an advanced suspension control technology that provides more robust traction as well as greater comfort levels. It's a system that offers the highest possible performance, minimising body roll to remarkable

levels. In off-road situations, the wheel articulation is even more impressive, delivering gripping traction on all four wheels. Once you have experienced KDSS[#], your view on suspension technology will change forever.

Switched on to you.

Standard across the range, the LandCruiser 200 employs a full-time 4WD system. Significant research and engineering modifications, sometimes on a microscopic scale, means you'll enjoy custom-built precision and a smoother, safer ride – even

on some of the toughest terrain on the planet. With the simple flick of a dashboard switch, you can transfer between High and Low range. All in all, it's a totally flexible system designed for the way you like to drive – keeping you in total control at all times.

KDSS is an optional extra on GXL Turbo Diesel and standard on all other grades.
GXL model shown.

Driving better technology.

As well as offering a commanding presence on-road and off, the sleek lines of LandCruiser 200 hide a formidable array of technological advances beneath. The product of years of ongoing global research and development, this world-class innovation has been transformed into a range of clever features.

A silver Toyota SUV is parked on the left side of the frame. The license plate reads 'EVA 111'. In the center, a weathered wooden sign is attached to a gnarled tree trunk. The sign has the text 'EARTH'S GREATEST TECHNOLOGY' written on it in white, bold, sans-serif capital letters. The background consists of a dry, rocky terrain with sparse, dead-looking vegetation under a clear blue sky.

**EARTH'S
GREATEST
TECHNOLOGY**

Smarter than your average 4WD.

Advanced technologies have allowed the LandCruiser 200 to become the smartest 4WD in its class. This intelligence is exemplified by the LandCruiser 200's CRAWL* control system. A world first, it's a control system that automatically maintains a low, uniform speed to enable stable driving in extreme environments or on slippery, uneven surfaces.

We like to think of it as an off-road Cruise Control. So while CRAWL allows you to focus on steering the LandCruiser 200, it automatically looks after both acceleration and braking functions to exacting levels. Data retrieved from each wheel ensures the smoothest possible control, even in the toughest of environments.

CRAWL Control System

CRAWL electronically controls both driving torque and braking force, maximising traction and control.

Brake pressure & engine output to all four wheels are electronically controlled to suppress wheel spin, so the vehicle is able to climb out of the wheel holes.

Rough conditions? Bring it on.

Hill-start Assist Control (HAC), standard on both engines, detects backward sliding of the vehicle when going uphill, allowing you to take off smoothly, even on steep terrain.

Vehicle Stability Control (VSC) prevents loss of control by dampening understeer (front wheel sideways skid) and oversteer (rear wheel sideways skid) whilst Active Traction Control (ATRC) controls the distribution of torque to each wheel to prevent tyres from idle running. Brake pressure is electronically controlled at each wheel to suppress wheelspin and maintain optimum traction equally. When a car starts on a slippery surface, sensors detect if any wheels are losing traction, reduces the torque to them and increases the torque to tyres with traction so the car can move forward smoothly.

Both are standard features across the range, meeting everything the elements might throw at you, head on.

Hill-start Assist Control (HAC)

Without HAC

With HAC

The innovative Kinetic Dynamic Suspension System (KDSS)[#], designed for the LandCruiser 200 means greater stability and control both off-road and on. It features front and rear adjustable stabiliser bars, which reduce the roll and tilt factor when cornering, as well as increasing wheel articulation in off-road situations.

Kinetic Dynamic Suspension System (KDSS)[#]

KDSS[#] enhances wheel articulation in off-road situations for more traction.

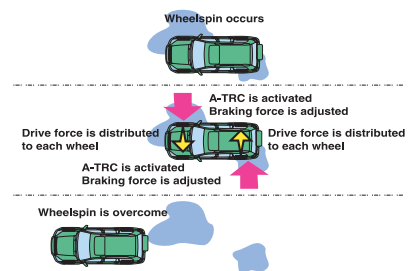

KDSS[#] significantly reduces body roll when cornering.

Groundbreaking brakes.

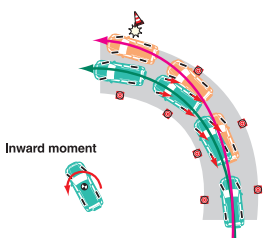

In addition to all these technological advances, the LandCruiser 200 also benefits from hard stopping power. A technological first for Toyota, the Multi-terrain Anti-skid Braking System (ABS) not only prevents the wheels from locking, it can actively sense off-road conditions such as ice, sand, mud, gravel and dirt, adapting to different terrain for optimum braking power. Coupled with Electronic Brake-force Distribution (EBD) and Brake Assist (BA) technologies, you'll enjoy more control and come to a safer stop, sooner.

Active Traction Control (ATRC)

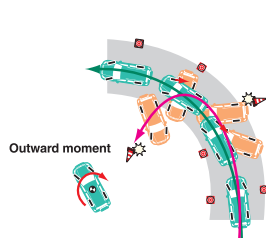

Vehicle Stability Control (VSC)

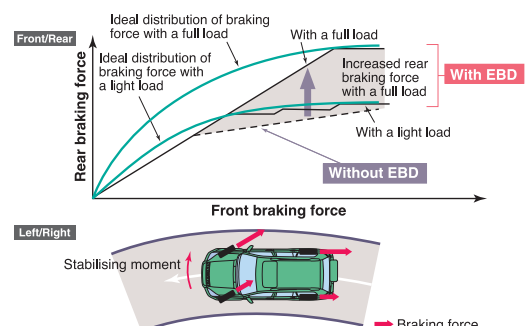

Front wheel skid control

Rear wheel skid control

Electronic Brake-force Distribution (EBD)

[#] KDSS is an optional extra on GXL Turbo Diesel and standard on all other grades.

Sahara model shown.

Designed for durability.

The LandCruiser 200 defies the trend for style over substance. We have looked at what you want from a 4WD vehicle, focusing on improving technology, incorporating even more useful features and establishing greater levels of comfort. Yet our designers have also given you a sleek, impressive interior with an almost obsessive attention to detail. Improved seating configurations such as one-touch seat latches ensure rapid folding or assembly of seating arrangements, allowing total flexibility for passengers and your cargo. While up to two rows of seats can be flipped up and down with the lift of a latch – offering flexibility for up to eight people.

Fresh thinking.

With a focus on clean lines and convenience, you'll notice the LandCruiser 200 has an elegant, refined interior. Cup holders and the passenger glove box are all neatly opened with a gentle push of a button. And useful technology such as Smart Entry and Start, allows keyless entry and keyless start for added convenience and fuss-free ignition.

Looks as good as it sounds.

The GXL and VX models offer a six CD capacity with MP3 capability, an audio input for easy connection to iPod^{®#} or other portable MP3 players, Bluetooth^{™##} and USB connectivity⁺ as well as six speakers. Step up to the Sahara and Electro Multi Vision (EMV) System combines a host of essential comfort and convenience features in one place. Using the bright display screen, you can control air conditioning, Audio and Satellite Navigation*. You can even control your mobile phone while you keep your hands on the steering wheel. Better still, a Rear View Camera[^] shows you what's going on behind you – making parking a breeze.

In the Sahara model, a six CD/DVD capacity, AM/FM, nine-speaker audio system sounds even more impressive than it looks.

KING
OFF THE
ROAD

Sahara Turbo Diesel model shown.

Class-shattering safety.

Despite its formidable power, when it comes to safety, the LandCruiser 200 likes to show its soft side. So while we have developed a rust-resistant, high strength, high rigidity framework to protect everyone travelling inside, the

LandCruiser 200 has an external body structure that absorbs impact too. In fact, Toyota's ongoing commitment to vehicle and pedestrian safety has driven much of LandCruiser 200's structural design, from the front bumpers to internal pillars.

The gentle giant.

We have also thought about the unthinkable, so you don't have to. Inside the cabin, you'll find a class-leading airbag configuration of up to 10 airbags for you and your passengers. Add to that a Rear View Camera⁺ in all models and LandCruiser 200 is setting a high standard of safety rarely experienced in Australia. The GXL comes equipped with two-stage front and side airbags for

passenger and driver, and full-length curtain airbags for coverage right back to the third row of passengers. In addition, the VX and Sahara models employ second row side airbags plus driver and front passenger knee airbags. Quite simply, it means world-class protection for you and all your passengers.

⁺ Available from July 2009 production.
VX model shown.

COOLER BOX
Sahara model only.

OPTITRON DISPLAY
VX & Sahara models only.

SMART ENTRY KEYS

Somewhere for everything.

You'll be impressed at the sheer volume of the interior cabin, which offers more legroom than ever. And when it comes to storage in the LandCruiser 200, attention to small details definitely adds up. Adaptable drink holders, sunglass holders and door pockets all provide useful storage. While the large boot space offers ample room for luggage, equipment and more.

Find your comfort zone.

No matter how hot it is outside, you'll keep your cool with the LandCruiser 200's high performance dual zone air-conditioning with rear cooler and cooler controls, which comes as standard. Or for ultimate cooling and heating, you may want to step up to the Sahara with another Toyota first, incredible 4-zone air conditioning.

As well as a useful moonroof to catch the light and a breeze, there's even a handy cooler box for long or short trips. And while it's definitely something to shout about, you'll appreciate the quietness of the cabin with noise and vibration reduction technology. The luxury of these interior comforts continues in the Sahara model no matter how long the trip with DVD Rear Seat Entertainment* as standard.

DVD REAR SEAT ENTERTAINMENT*
Sahara model only.

VX & Sahara models only.

6-SPEED AUTOMATIC TRANSMISSION
Diesel model only. (Overseas model shown)

+ Available from July 2009 production.

Even the choices are tough.

With features such as a 4.5L V8 Twin Turbo Diesel engine or a 4.7L V8 Petrol engine as well as three grades of vehicle, the LandCruiser 200 provides something for everyone.

GXL model shown.

GXL

The LandCruiser GXL is packed with an impressive number of features:

- 4.5L Twin Turbo Diesel or 4.7L Petrol Engine
- 17" Alloy Wheels
- 5-speed automatic transmission (Petrol only)
- 6-speed automatic transmission (Turbo Diesel only)
- CRAWL*
- Full time 4WD
- Vehicle Stability Control (VSC)
- Active Traction Control (ATRC)
- Hill-start Assist Control (HAC)
- Multi-terrain Anti-skid Braking System (ABS)
- Kinetic Dynamic Suspension System (KDSS)*
- 8 seats with cloth seat trim
- Smart Entry & Start
- Dual-zone front climate control air conditioning with pollen filter & rear cooler
- 6 disc audio system with 6 speakers
- Bluetooth™** phone capability
- 12 V rear accessory socket*
- Audio controls on steering wheel*
- Audio Input and USB Input*
- Rear View Camera*†
- Driver & front passenger dual stage SRS airbags
- Front side airbags for both the driver & front passenger
- Full-length curtain shield airbags
- Power windows & mirrors
- Engine immobiliser
- 138L fuel tank capacity (93L main + 45L subtank)
- Driver's seat height adjustment & power lumbar adjustment*
- Driver & front passenger seat-back map pockets*

Sahara model shown.

VX model shown.

VX

In addition to GXL features[^]:

- Driver & front passenger knee airbags (in addition to standard airbags)
- Second row side airbags
- Moonroof with remote control
- Privacy glass
- Alarm system
- Multi-function Information Display (MID)
- Premium steering wheel & gear lever
- 8 seats with leather accented seat trim (Petrol only)
- 7 seats with leather accented seat trim (Turbo Diesel only)[†]
- Woodgrain-look interior on door trims/dash/console
- Power adjustable front seats
- Tilt adjustable front head rests
- Second row seat armrests
- Black anodized look side steps
- Front fog lamps
- Remote power windows
- 138L fuel tank capacity (93L main + 45L subtank)[‡]
- 18" Alloy Wheels[‡]
- Option: 8 seats (Turbo Diesel only)^{‡*}

SAHARA

In addition to VX features[^]:

- Audio, Multi-function Information Display (MID) and Bluetooth^{™**} controls on steering wheel
- Electrochromatic interior mirror
- Woodgrain-look and premium steering wheel & gear lever
- Cooler box
- 4-zone climate control air conditioning
- Electro Multi Vision (EMV)^{*} system
- 6-disc CD/DVD audio system with 9 speakers
- Head lamp cleaning system
- DVD Rear Seat Entertainment[‡]
- Exterior electric fold mirrors
- Electric tilt and telescopic steering wheel
- 8 seats with leather accented seat trim (Petrol only)
- 7 seats with leather accented seat trim (Turbo Diesel only)[†]
- Option: 8 seats (Turbo Diesel only)^{‡*}

[^] Except for items that are upgraded.

^{*} KDSS is an optional extra on GXL Turbo Diesel and standard on all other grades.

[†] The Rear View Camera does not provide a comprehensive view of the entire rear area of the vehicle and should only be used as an aid for viewing when reversing.

^{*} Current Navigation mapping database encompasses major capital and primary national road networks as well as offering some coverage in regional areas.

[‡] The Bluetooth word mark is owned by Bluetooth SIG, Inc. Bluetooth[™] will only operate with telephones enabled with compatible Bluetooth[™] wireless technology (HFP (Hands Free Profile) v1.0 and OPP (Object Push Profile) v1.1 international standards). OPP functionality only works on satellite navigation equipment. GXL/VX - HFP, Sahara - HFP & OPP.

[‡] If 8 seat option is chosen, the 45L sub fuel tank and 3rd row bottle holder is not available.

^{*} If 8 seat option is chosen, the 45L sub fuel tank, DVD Rear Seat Entertainment and 3rd row bottle holder is not available.

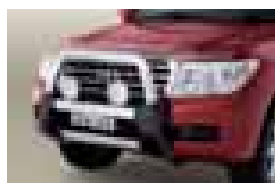

⁺ Available from July 2009 production.

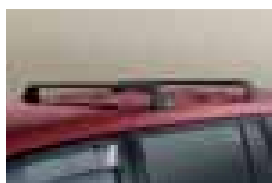

Whether you're after an even more rugged look, extra storage options or greater convenience, your LandCruiser 200 deserves accessories with a proven pedigree. Combining innovative style with the strength and durability you expect from Toyota, these additions have been purpose-built for your LandCruiser – and your lifestyle. Integrating seamlessly with the original specifications, they not only look like they were meant to be there, they perform like it too. So whether you're working hard or playing harder, make sure you start on the right track with Toyota Genuine Accessories.

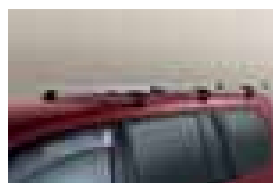

STEEL WINCH BAR WITH SUPERWINCH & RALLYE FF 4000 DRIVING LIGHTS BLACK (sold separately)

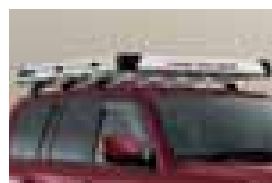

ALLOY NUDGE BAR & RALLYE FF 4000 DRIVING LIGHTS CHROME (sold separately)

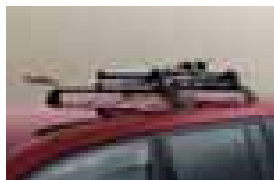

AERO ROOF RACK – 2 bar set

Available for all vehicles with Auxiliary input.

 **TOYOTA GENUINE**
PARTS, SERVICE & ACCESSORIES

*All Toyota Genuine Accessories purchased and fitted to a Toyota are warranted for the remainder of the New Vehicle Warranty or 12 months, whichever is greater. Toyota Genuine Accessories purchased from an authorised Toyota Dealer over the counter are warranted from the date of purchase for 12 months. Conditions apply. All warranties are additional to the implied warranties under the Trade Practices Act 1974. †The Bluetooth word mark is owned by Bluetooth SIG, Inc. Bluetooth™ will only operate with telephones enabled with compatible Bluetooth™ wireless technology (HFP (Hands Free Profile) v1.0 and OPP (Object Push Profile) v1.1 international standards). OPP functionality only works on satellite navigation equipment. ^Current navigation mapping database encompasses major capital and primary national road networks, as well as offering some coverage of regional areas. #Towbar capacity subject to regulatory requirements, towbar design, vehicle design and towing equipment limitations. ‡ParkAssist is designed as a driver assist device only and should not be used as a substitute for skilled driving and safe parking practices. The area into which the vehicle is to be reversed must be visually monitored by the driver while parking. ††Available on selected models where AUX-In option is part of audio unit. Suits iPod® models that have a dock connector. Refer to your Apple iPod® Instruction Manual. iPod® is a registered trade mark of Apple Inc. This accessory is not a Toyota Genuine Accessory (supplier branded) and is warranted for 12 months from the date of purchase. This warranty is additional to the implied warranties under the Trade Practices Act 1974. **Front seat covers prevent the use of front driver and passenger seat map pockets.

Toyota Service Advantage – Capped price servicing

Toyota Service Advantage makes owning a Toyota even more economical. All new LandCruiser 200 models are entitled to low cost scheduled servicing[#] capped for up to 6 standard services during the first three years or 60,000km, whichever occurs first. Plus, you get the security of knowing you have Toyota trained technicians using Toyota Genuine Parts and advanced diagnostics to provide a Genuinely Better service.

[#]Toyota Service Advantage pricing represents the maximum amount payable for standard scheduled servicing which is as per 'maintenance for normal operating conditions' outlined in the Warranty & Service Handbook's service schedule. Service Advantage eligibility excludes Government and Rental vehicles and certain other exclusions apply. Contact your Toyota Dealer or visit advantage.toyota.com.au for further details.

Technical terms.

ACTIVE BRAKING WITH INTELLIGENCE (AB-i)

Active Braking with intelligence is a braking package made up of Anti-skid Braking System (ABS), Brake Assist (BA) and Electronic Brake-force Distribution (EBD).

ANTI-SKID BRAKING SYSTEM (ABS)

ABS allows the driver to continue to steer around an obstacle under emergency braking. It prevents the wheels from skidding by rapidly 'pulsing' each brake independently, helping the driver retain control of steering whilst minimising the stopping distance.

BRAKE ASSIST (BA)

Designed to assist the driver in emergency braking situations, BA interprets a quick hard push of the brake pedal as emergency braking and supplements the braking power so that the car slows more rapidly.

DRIVER ASSIST TECHNOLOGY (DAT)

DAT is the collective term for Toyota's active safety technologies such as VSC, TRC and AB-i. These technologies optimise the level of steering, braking response and grip on the road and provide enhanced control to avoid accidents.

ELECTRO MULTI VISION (EMV)

The EMV system combines comfort, technology and convenience features in a central location to increase ease of use whilst driving. With fingertip controls and through a bright display screen features such as the DVD-based Satellite Navigation*, six disc CD/DVD MP3 compatible audio, Bluetooth™* phone capability and climate control air conditioning can all be accessed quickly and easily.

VEHICLE STABILITY CONTROL (VSC)

VSC prevents loss of control by dampening understeer (front wheel sideways skid) and oversteer (rear wheel sideways skid).

ELECTRONIC BRAKE-FORCE DISTRIBUTION (EBD)

EBD minimises stopping distances by maximising braking power to the wheels with the most grip. It recognises when the vehicle's stability is unsettled and adjusts the brake-force, wheel by wheel as required to ensure maximum braking ability is delivered at all times.

KINETIC DYNAMIC SUSPENSION SYSTEM (KDSS)[#]

An innovative suspension system designed for greater stability and control both off-road and on. It features front & rear adjustable stabiliser bars, which reduce the roll and tilt factor when cornering and increases wheel articulation in off-road situations.

HILL-START ASSIST CONTROL (HAC)

Prevents the vehicle rolling downhill when starting off. It is particularly helpful on low traction surfaces and when driving off road.

ACTIVE TRACTION CONTROL (ATRC)

ATRC controls the distribution of torque to each wheel to prevent tyres from idle running and make sure the car moves forward. Brake pressure is electronically controlled at each wheel to suppress wheelspin and maintain optimum traction, so drive force is optimally distributed to all 4 wheels. When a car starts on a slippery surface, sensors detect if any wheels are losing traction, and ATRC reduces the torque to them, increases the torque to tyres with traction, by up to 70%, so the car can move forward smoothly.

VARIABLE VALVE TIMING WITH INTELLIGENCE (VVT-i)

VVT-i is a technology that maximises engine performance by optimising the timing of the air intake (and in dual VVT-i engines, exhaust) depending on whether you are accelerating, cruising, passing or just idling.

CRAWL

The CRAWL Control System is best described as 'off-road Cruise Control'. On muddy or rocky surfaces this system automatically manages both the throttle and brakes, maintaining a constant low speed and freeing the driver to concentrate on steering through what's ahead.

MULTI-TERRAIN ANTI-SKID BRAKING SYSTEM (ABS)

The Multi-terrain ABS senses its terrain, whether it is on ice, dirt or in mud, and adapts braking accordingly to optimise stopping distance.

*Current mapping database encompasses major capital and primary national road networks as well as offering some coverage in regional areas.

‡The Bluetooth word mark is owned by Bluetooth SIG, Inc. Bluetooth™ will only operate with telephones enabled with compatible Bluetooth™ wireless technology (HFP (Hands Free Profile) v1.0 and OPP (Object Push Profile) v1.1 international standards). OPP functionality only, works with satellite navigation equipment. GXL/VX - HFP, Sahara - HFP & OPP.

[#]KDSS is an optional extra on GXL Turbo Diesel and standard on all other grades.

 **TOYOTA WARRANTY**

 **TOYOTA GENUINE**

 **TOYOTA EXTRA CARE**

 **TOYOTA INSURANCE**

TOYOTA ON THE WORLD WIDE WEB

For a comprehensive guide to the entire range of Toyota vehicles, accessories, merchandise and a whole lot more, visit our Internet site at: toyota.com.au

TOYOTA WARRANTY

Every new Toyota is proudly backed by a 3 year/100,000km warranty (whichever occurs first) which provides you with peace of mind and care free motoring.#

TOYOTA GENUINE SERVICE

The advanced engineering and technology of every new Toyota is best maintained by the specialist skills only a Toyota Service Centre can provide. Toyota trained technicians have intuitive knowledge, use state-of-the-art diagnostic equipment and have access to the latest technical information to ensure your Toyota is serviced for optimal performance, efficiency and longevity. The use of Toyota Genuine Parts purchased carries a 12 month warranty# giving you further security and peace of mind - all of which adds up to a genuinely better service.

TOYOTA GENUINE ACCESSORIES

When you choose Toyota Genuine Accessories you're adding even more personality, protection and practicality to your Toyota - tailoring it to your individual lifestyle needs. Toyota Genuine Accessories are designed, tested and manufactured to strict Toyota Standards. This quality and reliability is supported with our Toyota Warranty.*

TOYOTA INSURANCE**

Toyota Insurance provides reliable and cost effective protection for the things that are important to your life such as your Toyota vehicle.

MOTOR VEHICLE INSURANCE**

Toyota Insurance's Comprehensive Motor Vehicle Policy is tailored specifically for Toyota customers. Key benefits include:

- Replacement of your new Toyota if it is a total loss so long as it is less than 3 years old and has travelled less than 100,000kms
- Genuine new Toyota parts replacement promise for Toyota vehicles less than five years old since the date of first registration
- Genuine Toyota quality repair guarantee for the duration of your vehicle ownership
- Continuity of your current rating and No Claims Bonus entitlement when you switch to Toyota Insurance
- 24 hours, 7 days a week claims notification service and "at scene" driver accident assistance

In addition, if your Toyota vehicle is equipped with Toyota Link and is stolen, the standard policy excess will be waived (subject to the terms & conditions of Toyota Insurance Motor Vehicle Insurance Policy).

For more information on Toyota Insurance** products, including Finance Gap Insurance and Payment Protection Insurance, please contact your participating Toyota Dealer or call us on 137 200, 8.30am to 6.00pm (EST) Monday to Friday or visit www.toyotainsurance.com.au

TOYOTA EXTRA CARE

Toyota Extra Care offers a wide range of Warranty and Roadside Assist solutions to provide you with protection for your Toyota so you can enjoy worry free motoring.

EXTENDED FACTORY WARRANTY

Whether your Toyota is new or used,^ a Toyota Extra Care Extended Factory Warranty^^ can help protect you from any unexpected repair bills and the rising cost of parts and labour for years to come.

- Offers new and used^ Toyota vehicle owners the opportunity to extend the Toyota New Vehicle Warranty
- Includes additional items such as car hire and accommodation
- Choice of 1, 2 & 3 year extended warranty plans available
- No excess to pay

If you have not purchased a Toyota Extra Care Extended Factory Warranty at the time you purchased your Toyota from a Toyota Dealer, we can offer you Toyota Insurance Factory Approved Extended Warranty Insurance** which offers a similar type of protection. This must be purchased whilst your Toyota is less than three years old and has travelled less than 90,000kms since its purchase as a new vehicle (conditions apply).

ROADSIDE ASSIST

Toyota Extra Care Roadside Assist provides you and your family with access to emergency roadside assistance 24 hours a day, 7 days a week, 365 days a year, giving you total peace of mind. You can choose between the Standard plan or the Plus plan for additional benefits.

For more information on Roadside Assist or any of the Toyota Extra Care range of products, please contact your participating Toyota Dealer or call us on 137 200, 8.30am to 6.00pm (EST) Monday to Friday or visit www.toyotaextracare.com.au

TOYOTA FINANCIAL SERVICES

Toyota Financial Services is here to help you with a range of easy vehicle finance options that can help you get in the driving seat faster. Whether it's a new or used vehicle, or a range of vehicles, we can tailor a personal or business finance solution to suit you. We have numerous financing options to suit your particular income, taxation and structural requirements. Whether you require a simple personal vehicle loan, a novated lease for you or your employees, or serviced leasing on your small-business tool of trade vehicles.

For further information on our range of finance options or to discuss the best option for you, please contact your participating Toyota Dealer or call us on 137 200, 8.30am to 6.00pm (EST) Monday to Friday or visit www.toyotafinance.com.au

Toyota Financial Services is a division of Toyota Finance Australia Limited ABN 48 002 435 181.

IMPORTANT NOTICE - PLEASE READ: Toyota Australia uses its best endeavours to ensure brochure information is correct when published. You must check with your authorised Toyota Dealer when ordering to ensure the vehicle with your chosen specifications, equipment and colour is available and that the vehicle can be delivered within a timeframe suitable to you. When ordering accessories, you must check with your authorised Toyota Dealer to ensure the accessory's design, features and colours are available and will fit your vehicle. Colours displayed in this brochure are a guide only and may vary from actual colours due to printing/display process. Toyota Australia reserves the right to change without notice, at any time, prices, colours, materials, equipment, specifications and discontinue colours/models. To the full extent allowed by law, Toyota Australia will not be liable for any damage, loss or expense incurred as a result of reliance on this brochure in any way.

Conditions apply. All warranties are additional to implied warranties under the Trade Practices Act 1974.

* All Toyota Genuine Accessories purchased and fitted to a Toyota are warranted for the remainder of the New Vehicle Warranty or 12 months, whichever is greater. Toyota Genuine Accessories purchased from an authorised Toyota Dealer over the counter are warranted from the date of purchase for 12 months. Conditions apply. All warranties are additional to the implied warranties under the Trade Practices Act 1974.

** Toyota Insurance products are underwritten by Aioi Insurance Co. Ltd. (Aioi), ABN 39 096 302 466 AFSL Number 254489 (Aioi). Aioi is a member of the Toyota Group of Companies. A Product Disclosure Statement (PDS) is available from participating Toyota Dealers or from Toyota Insurance by calling 137 200. You should consider the PDS before making a decision about this product. Terms and conditions apply.

^ Used vehicle being a vehicle less than three years old and has travelled less than 90,000kms since its purchase as a new vehicle (conditions apply).

^^ Extended Factory Warranty is not available for all vehicles (for example Toyota vehicles used as a taxi or for rental and courier purposes). Please ask your participating Toyota Dealership about eligibility. Terms and conditions apply.
