45 years and counting.

Our history of Australian-built quality.

It all started way back in 1958. When 13 Toyota LandCruisers were imported into Australia to lend a hand with the Snowy Mountains scheme. No-one knew it then, but it was the beginning of an important relationship between a country and a carmaker that would not only grow in size and intimacy every year, but break record after record – selling millions of cars, and employing thousands of Australians.

Calling Australia home.

The first Toyota was sold here the following year. And within 5 years we'd gone from simply selling cars in Australia, to building them too. And while you might never have heard of the first car we brought off that production line – the Toyota Tiara – for us, it was the beginning of a whole new chapter in our history.

Today, some 45 years later, the world has changed a lot. But Toyota's commitment here in Australia remains as strong as ever. Since 2002, we've invested more than \$1 billion in the development of our manufacturing facilities in Australia including the introduction of new models. This state-of-the-art facility has allowed us to build cars with an unprecedented level of quality – and to build more of them for our loyal drivers. In fact, in 2008 we produced more cars than we ever have before – and also saw the 2.5 millionth Australian-built Toyota roll off the production line.

Driving for a brighter future.

But our investment doesn't stop with our cars, it extends to our people.

We're proud to back Aussie know-how because today, we employ thousands of Australians throughout the country – in a wide variety of fields. And as we continue to introduce revolutionary technologies such as fuel efficient Hybrid engines into our cars, it's not hard to see why our local manufacturing will be leading the new wave of Australian built vehicles, starting with the Hybrid Camry in 2010.

Another perfect example is the Aurion V6 – designed and styled right here in Australia. It's the first Australian-built, naturally aspirated big 6 to achieve 200kW of power, while returning fuel economy of just 9.9L/100km. This unique combination of power and efficiency could only be created by calling upon years of experience, local expertise and first hand knowledge of Australian driving conditions. And it could only be built in such a world class facility as our Australian manufacturing plant.

**It all adds up to a very bright future.
For us. For Australia. And for you.**

In the search for perfection, Camry's designers have left no stone unturned. The result? A car that continues to set the standard in its class, and that adds up to so much more than the sum of its parts.

Increased fuel economy (Automatic transmission only) and technological sophistication mean Camry now exceeds your expectations like never before. From its world class braking package, Active Braking with intelligence (AB-i), right through to Vehicle Stability Control (VSC), Traction Control (TRC), MP3 and USB* compatibility, Smart Entry and Start system† and reversing camera*, Camry is more than equipped to tackle the most demanding of Australian roads.

And more than ready to please the most discerning of drivers. With its newly refined sleek exterior and prestigious interior, Camry is smooth, quiet, safe, and comfortable. Couple that with brilliant performance and you have a car that is every bit the overachiever.

Camry

Sportivo in Wildfire shown.

DESIGNED TO IMPRESS

With its smooth flowing lines, stylish new grille and sculpted bonnet, Camry has a sweeping, contemporary appearance and a bold on-road presence.

Refined and stylish, Camry is unashamedly sleek. Its low, wide stance not only looks athletic, but also contributes to the car's excellent handling and dynamics.

Modern features, both front and rear, give Camry a more streamlined profile, incorporating curved and expressive head and tail lights, adding to the car's prestigious and progressive feel.

Grande in Ink shown.

While more contemporary wheel designs across all models combine with short front and rear overhangs to deliver improved appearance along with better stability and handling.

Bold wheel arches sweep dramatically into the front bumper, accentuating the refreshed muscular front grille and bold emblem – defining features of the Camry.

The Sportivo model boasts unique exterior features that enhance the car's sporty appeal and performance. Differentiated by race-bred, aerodynamic front and rear spoilers and side skirts and a dramatic sports mesh grille, the Sportivo is finished with 17" wheels, low profile Michelin® tyres, sports headlamps and sports suspension.

CAMRY - A TRIUMPH

Both inside the cabin and under the bonnet, the Camry features world class intelligent technologies that instinctively interact with the driver and the road, resulting in a truly immersive, safe and enjoyable driving experience.

Automatic headlights and the Grande's rain sensing windscreen wipers, which even adjust for the amount of rain and the speed at which the vehicle is travelling, are just some of the intuitive technologies that set Camry apart.

In addition, reversing cameras now come standard on the Grande and Ateva (optional on Altise and Sportivo), with the Grande also being equipped with rear parking sensors and an electro chromatic rear view mirror for reduced glare and increased driving safety.

SATELLITE NAVIGATION

Standard on the Grande is a state-of-the-art Bluetooth™ enabled DVD based satellite navigation system. Through touch screen controls and voice and map guidance, the driver is directed to most destinations in Australia*. A convenient trip recording feature also records the path you have taken for the past 200 km, allowing you to retrace your journey if need be.

*Current mapping database encompasses major capital and primary national road networks as well as offering some coverage in regional areas.

BLUETOOTH™ ^

Hands-free communication in the Grande is as easy as registering a Bluetooth™ compatible mobile on the car's satellite navigation screen. Phone calls can be made and received via the touchpad on screen or the steering wheel controls. The in-cabin microphone can receive voice prompts, allowing you to access voice-activated dialling for up to 20 numbers. Your phone's address book is also accessible through the navigation screen once downloaded.

On all other models, Bluetooth™ ^ is available through the audio system, complete with steering wheel controls.#

^Bluetooth™ will only operate with telephones enabled with compatible Bluetooth™ wireless technology (HFP [Hands Free Profile] v1.0 and OPP [Object Push] Profile v1.1 international standards).

#Standard on Altise, Sportivo & Grande. Not available with Display Audio on Altise & Sportivo.

MP3 AND USB CONNECTIVITY

The auxiliary input feature of the Camry's sound system lets you easily connect MP3 players and other remote devices such as laptops and USB sticks containing MP3 or WMA files (standard on Ateva and optional on Altise and Sportivo). This simple plug and play technology, combined with user friendly controls, gives you the power to listen to whatever you want in an instant.

SMART ENTRY AND SMART START

Keyless entry and push button ignition now come standard in the Grande only. Quick and convenient, Smart Entry and Start System lets you unlock and switch on the vehicle without having to remove the key from your pocket.

VARIABLE VALVE TIMING WITH INTELLIGENCE (VVT-i) ENGINE

Under the bonnet, Camry has an all-alloy four-cylinder 2.4 litre VVT-i engine that combines smoothness with power and responsiveness, and improves fuel efficiency by 11% from the previous model.°

Technologically advanced VVT-i puts the driver firmly in control, giving them access to maximum power or economy depending on the driver's needs. With 117kW available for overtaking, hill climbing and standing starts, VVT-i automatically adjusts to more efficient settings when cruising.

° Automatic transmission only.

INTELLIGENT TRANSMISSION

Camry's VVT-i engine can be matched to a sporty five-speed manual transmission on Altise and Sportivo models or an intelligent electronically controlled five-speed automatic with gated shift available across the range. The gated shift automatic allows the driver to manually select a gear and hold it for greater responsiveness and control, when needed.

SPORTS SUSPENSION

The Sportivo model's sports suspension package delivers an exhilarating ride, with low profile Michelin® tyres providing outstanding grip, and a sharper, flatter steering response. Combine this with engine speed-sensitive power steering and the rigidity of an extra rear brace, and the Sportivo is a true sports driving experience that now comes with the extra luxury of dual zone air conditioning.

Grande in Liquid Metal shown.

AN ALLURING PLACE TO BE

Designed to integrate driver and vehicle, the Camry's luxury interior is crafted with high attention to detail for superb levels of comfort.

The cabin envelops the driver, with adjustable seats, lumbar support and tilt and telescopic steering wheel putting the driver in the perfect driving position.

Controls and switches are positioned instinctively, exactly where the driver expects them to be. The premium steering wheel on the Grande, for example, incorporates stereo controls for easy access while driving.

Information panels are within natural sightlines. Simple, elegant graphics provide uncluttered information at a glance.

New airbag technology affords the driver a lighter, more responsive premium steering wheel in the Ateva, Grande and Sportivo models.

Soft surface finishes and textures invite touch. Visually, the driving environment emphasises pleasing chrome silvers and greys, and even woodgrain-look trim on the Grande. Easy on the eye, these colours and textures reduce glare, keeping the driver focused on the road. Bespoke seat trim textures and colours are also available in all models.

The Camry's sound insulation technology means a quieter, less fatiguing drive while allowing full appreciation of the car's powerful Bluetooth™ compatible stereo system. The Altise now comes equipped with six speakers, while the Grande has eight, including a sub woofer and amplifier. And USB compatibility comes standard on Ateva, and is optional on Altise and Sportivo.

The cavernous boot has an impressive 535 litre capacity with 60/40 split rear seats (except on Sportivo - which features a ski port and a 504 litre capacity) for easy access from the cabin to the boot and the ability to transport those longer items.

In keeping with its racing pedigree, the Sportivo model is distinguished by a unique interior including sports seating with large side bolsters for increased support when cornering, black and alloy accents and a premium steering wheel.

^The Bluetooth word mark is owned by Bluetooth SIG, Inc. Bluetooth™ will only operate with telephones enabled with compatible Bluetooth™ wireless technology (HFP (Hands Free Profile) v1.0 and OPP (Object Push Profile) v1.1 international standards).

Grande interior shown.

A RANGE OF EXCELLENCE

The Camry range covers the luxurious, the sporty and the practical, with style and sophistication assured at every level. The Grande provides an opulent premium experience; the Sportivo gives you sporty handling and styling; the Ateva combines comfort and style; and the Altise offers the perfect combination of practicality and sophistication.

Grande in Liquid Metal with optional moonroof shown.

Sportivo in Wildfire with optional moonroof and reverse camera shown.

GRANDE

The flagship of the Camry range, the Grande is an essay in sophisticated luxury technology. It is differentiated by a prestigious leather-accented interior and stylish woodgrain-look trim; an optional power tilt and slide glass moonroof with sunshade, Audio Visual Navigation system[†] with Bluetooth[™] phone technology; steering-wheel mounted phone and audio controls; rain-sensing windscreen wipers; power rear sunshade; an eight speaker stereo (including a sub woofer and amplifier); Smart Entry and Start System; and an electro chromatic rear view mirror that adjusts to reduce glare - all appointments designed to impress and appreciate.

The exterior styling is enhanced by a subtle chrome trimmed grille, door handles and exhaust diffuser. Along with 17" alloy wheels, rear parking sensors have been installed and an exclusive chrome garnish now houses a reversing camera^{***}.

[†]Current navigation mapping database encompasses major capital and primary national road networks, as well as offering some coverage of regional areas.

SPORTIVO

The performance model of the Camry range, Sportivo has sports suspension; sports headlamps; additional body bracing; sports mesh grille; front foglamps; 17" alloy wheels with Michelin[®] Energy sports low-profile tyres; rear access hatch to boot; an Aero Kit which consists of a sports front spoiler, side skirts and a rear lip spoiler; chrome exhaust diffuser; sports front seats with power adjustment including eight-way driver's and six-way passenger's adjustment; black sports seat trim; dual zone climate controlled air conditioning; premium steering wheel with audio and trip-computer controls; chrome door handles, premium gear-shift lever and parking brake lever; rear-seat centre armrest with two cup holders; rear-seat centre head restraint; multi-function trip computer; analogue sports instrument cluster; six-speaker Bluetooth[™] enabled audio with six disc in-dash CD changer; MP3 connectivity; external temperature reading; shift position indicator in instrument cluster (with auto transmission); alloy sports pedals and Sportivo metallic front-door scuff plates.

The Sportivo is also differentiated by a sports suspension pack which gives a sharper steering feel and response and additional rigidity thanks to the inclusion of firmer springs and dampers and a rear brace. Options include a combination of a reverse camera^{***}, Bluetooth[™] 6 Disc in-dash Display Audio CD Changer with MP3, WMA CD Capability and AM/FM Tuner with USB and MP3 compatibility and Leather accented interior. Or a reverse camera^{***}, Bluetooth[™] 6 Disc in-dash Display Audio CD Changer with MP3, WMA CD Capability and AM/FM Tuner with USB and MP3 compatibility, Power tilt and slide moonroof and Rear personal lamps. Or finally a reverse camera^{***}, Bluetooth[™] 6 Disc in-dash Display Audio CD Changer with MP3, WMA CD Capability and AM/FM Tuner with USB and MP3 compatibility, Leather accented interior, Power tilt and slide moonroof and also Rear personal lamps.

TOYOTA SERVICE ADVANTAGE - CAPPED PRICE SERVICING

Toyota Service Advantage makes owning a Toyota even more economical. New Camry models are entitled to low cost scheduled servicing* capped for up to 6 standard services during the first three years or 60,000km, whichever occurs first. Plus, you get the security of knowing you have Toyota trained technicians using Toyota Genuine Parts and advanced diagnostics to provide a Genuinely Better service.

Toyota Service Advantage pricing represents the maximum amount payable for standard scheduled servicing which is as per 'maintenance for normal operating conditions' outlined in the Warranty & Service Handbook's service schedule. Service Advantage eligibility excludes Government and Rental vehicles and certain other exclusions apply. Contact your Toyota Dealer or visit advantage.toyota.com.au for further details.

Ateva in Ink shown.

Altise in Silver Ash with optional reverse camera shown.

ATEVA

The sophisticated Ateva model is enhanced by a range of additional standard features including five-speed intelligent electronic automatic with a gated shift and a shift position indicator in the combination meter; reverse camera, dual-zone auto air conditioning; front foglamps; six-speaker audio system; a reverse camera***; velour seat trim; power-adjustable driver and front-passenger seats; eight-way driver's seat adjustment including lumbar support and six-way passenger-seat adjustment; driver and passenger vanity mirror illumination; rear seat centre armrest with two cupholders; interior chrome door handles, rear-seat centre head restraint; multi-function trip computer; premium steering wheel with audio and trip-computer controls; premium gear-shift lever; premium parking brake lever; Bluetooth™ enabled six disc in-dash, Display CD changer; MP3 and USB connectivity; chrome trimmed grille and internal door handles; body coloured mudflaps; and an external temperature readout.

Options include leather accented interior and the combination of a power tilt and slide moonroof and also leather accented interior.

ALTISE

Designed for discerning drivers, the Altise model comes with world class features. From a safety perspective, Driver Assist Technology (DAT) which includes Active Braking with intelligence (AB-i), Vehicle Stability Control (VSC) and Traction Control (TRC) comes standard. As well as front driver and passenger, dual side and curtain SRS airbags.

In addition, there is a 2.4 litre Variable Valve Timing with intelligence (VVT-i) engine and a choice of a gated five speed intelligent electronic automatic or five-speed manual transmission, automatic headlights, cruise control, 16" alloy wheels and tyres, power driver's lumbar support and a 6 speaker, Bluetooth™ enabled sound system that's compatible with your MP3 player, with steering wheel controls.

Other features included standard are air conditioning, power windows and mirrors, remote central locking and boot release, automatic on/off projector-type low-beam headlights, and driver and passenger vanity mirror illumination.

Options include a rear spoiler; reversing camera*** and 6 disc in-dash Display Audio CD changer with USB, MP3 and Bluetooth™ connectivity; or rear spoiler, reversing camera*** and 6 disc-in-dash Display Audio CD changer with USB, MP3 and Bluetooth™ connectivity; or 16" steel wheels (replaces 16" alloy wheels).

*The Bluetooth word mark is owned by Bluetooth SIG, Inc. Bluetooth™ will only operate with telephones enabled with compatible Bluetooth™ wireless technology (HFP (Hands Free Profile) v1.0 and OPP (Object Push Profile) v1.1 international standards). ***Rear view camera is designed as a driver assist device only and should not be used as a substitute for skilled driving and safe parking practices. The area into which the vehicle is to be reversed must still be visually monitored by the driver while parking. Keep reversing speeds under five kilometres per hour. Camera images may be affected by the weather and light conditions. Always observe skilled driving and safe parking practices.

Toyota Safe-T-Cell

Whiplash Injury Lessening (WIL) front seats

Driver and front passenger, front side and full length curtain SRS airbags

Altise in Silver Ash shown.

WORLD CLASS SAFETY AS STANDARD

Inside and out, Camry has been designed, engineered and reinforced with your safety in mind.

Thanks to Toyota's Safe-T-Cell technology, occupants are protected by energy absorbing material in the door trims, pillars and roof side rails. The front seats employ Toyota's WIL (Whiplash Injury Lessening) designed to reduce the chance of neck injury in a rear-end collision as well as pre-tensioner and force limiter seatbelts in case of front on collisions.

Camry also features LED stop lamps that activate quicker than traditional filament light bulbs, giving the driver behind increased reaction time.

Camry also has a range of features that reduce the chance of injury to pedestrians, including crash energy absorbing brackets in the front fenders and a specially designed bonnet structure with reduced 'hard points' and increased clearance to under-bonnet engine components.

DRIVER ASSIST TECHNOLOGY (DAT)

Camry's Driver Assist Technologies (DAT) include Toyota's Active Braking with intelligence (AB-i) and Vehicle Stability Control (VSC) with Traction Control (TRC) as standard, providing exceptional handling and control.

ACTIVE BRAKING WITH INTELLIGENCE (AB-i) AS STANDARD

AB-i is a world class braking package made up of an Anti-skid Braking System (ABS), Electronic Brake-force Distribution (EBD) and Brake Assist (BA).

ABS minimises skidding while allowing you to brake in the shortest practical distance.

The sophisticated EBD feature reduces stopping distances by maximising braking power to the wheels with the most grip.

Another feature of AB-i is Brake Assist. BA anticipates your needs by automatically interpreting a quick, hard push of the brake pedal as potentially dangerous situation. When this happens it instantly supplements braking power, slowing the car more rapidly.

TRACTION CONTROL (TRC) AS STANDARD

When accelerating in conditions such as wet or gravel roads, or with one wheel on a more slippery surface, TRC prevents the front wheels from slipping, helping the driver maintain traction.

VEHICLE STABILITY CONTROL (VSC) AS STANDARD

VSC employs the technology of the braking and traction control systems to help anticipate and control skidding when cornering. By reducing engine output as well as controlling the brakes individually on all 4 wheels, VSC assists you when the corner is surprisingly tight or slippery.

If for any reason the Camry experiences a front or rear wheel slide when cornering, VSC will help you bring the vehicle back on course.

SRS AIR BAGS

All Camry models now come with 6 SRS airbags, which deploy according the intensity of the collision, minimising injury from both the accident and the deployment of the airbag itself. Front driver and passenger SRS airbags along with dual side and full-length curtain SRS airbags provide protection throughout the entire cabin.

FUEL CONSUMPTION & EMISSIONS

Fuel consumption is modest at 8.9L/100 km for the manual and has been reduced down to 8.8L/100 km for the automatic.

With regular unleaded petrol, the Camry easily meets Australian emission standards and stringent Euro IV standards. The Camry is also able to use petrol with up to 10% ethanol content (E10) resulting in even lower greenhouse gas emissions.

ENVIRONMENT & RECYCLING

Camry is manufactured with the environment in mind. Environmentally conscious manufacturing processes are designed to ensure waste and energy usage are kept to a minimum.

The car is easier to recycle thanks to new material markings, dismantling marks and special slits in the connecting joints. More recyclable materials (such as Toyota Super Olefin Polymer, Toyota Plastic Olefin and Thermo Plastic Urethane) are used generously throughout the vehicle.

CAMRY. TOYOTA GENUINE ACCESSORIES.

Whether you want to add style, functionality or safety, you'll find whatever you're looking for in this comprehensive range of Toyota Genuine Accessories for the Camry.

TOYOTA GENUINE ACCESSORIES ARE COVERED BY OUR TOYOTA WARRANTY*

**All Toyota Genuine Accessories purchased and fitted to a Toyota are warranted for the remainder of the New Vehicle Warranty or 12 months, whichever is greater. Toyota Genuine Accessories purchased from an authorised Toyota Dealer over the counter are warranted from the date of purchase for 12 months. Conditions apply. All warranties are additional to the implied warranties under the Trade Practices Act 1974.*

Δ ParkAssist is designed as a driver assist device only and should not be used as a substitute for skilled driving and safe parking practises. The area into which the vehicle is to be reversed must be visually monitored by the driver while parking.

**** Towbar capacity subject to regulatory requirements, towbar design, vehicle design and towing equipment limitations.*

† Current navigation mapping database encompasses major capital and primary national road networks, as well as offering some coverage of regional areas.

^ The Bluetooth word mark is owned by Bluetooth SIG, Inc. Bluetooth™ will only operate with telephones enabled with compatible Bluetooth™ wireless technology (HFP (Hands Free Profile) v1.0 and OPP (Object Push Profile) v1.1 international standards). OPP functionality only works on satellite navigation equipment.

◦ Requires fitment of centre cluster fascia panel.

*** The Rear Reversing Camera does not provide a comprehensive view of the entire rear area of the vehicle and should only be used as an aid for viewing when reversing.*

Bluetooth™ Steering wheel control for phone use is not compatible if this Audio unit is fitted.

~ iPod is a registered trademark of Apple Inc.

Some Toyota Genuine Accessories are not applicable to all Camry models. See your Dealer for advice regarding Toyota Genuine Accessories. Pictured Accessories are all sold separately.

For a comprehensive guide on the entire range of Toyota Genuine Accessories, visit our website at accessories.toyota.com.au.

Camry Altise in Silver Ash pictured is accessorised with Toyota Genuine 18" Kappa Alloy Wheels, Rear Spoiler, Bonnet Protector, Headlamp Covers, Slimline Weathershields and ParkAssist Clearance Parking Sensors.

RAPTOR ALLOY WHEEL
(16" X 7")

Applicable for Altise,
Ateva & Grande.

Applicable for Sportivo (chrome
rear only), Altise, Ateva & Grande.

INTERIOR ILLUMINATION

**CARPET FLOOR MATS -
FRONT & REAR SET**
Grey applicable for Altise &
Sportivo. Sandstone applicable
for Ateva & Grande.

TECHNOLOGY TERMS

ACTIVE BRAKING WITH INTELLIGENCE (AB-i)

Active Braking with intelligence is a world class braking package made up of Anti-skid Braking System (ABS), Brake Assist (BA) and Electronic Brake-force Distribution (EBD).

ANTI-SKID BRAKING SYSTEM (ABS)

ABS allows the driver to continue to steer around an obstacle under emergency braking. It prevents the wheels from skidding by rapidly 'pulsing' each brake independently, helping the driver retain control of steering whilst minimising stopping distance.

BRAKE ASSIST (BA)

Designed to assist the driver in emergency braking situations, BA interprets a quick, hard push of the brake pedal as emergency braking and supplements the braking power so that the car slows more rapidly.

DRIVER ASSIST TECHNOLOGY (DAT)

DAT is the collective term for the active safety technologies which may include (VSC), (TRC) and (AB-i). These technologies optimise the level of steering, braking response and grip on the road and provide enhanced control to avoid accidents.

DVD BASED SATELLITE NAVIGATION (AVN - AUDIO VISUAL NAVIGATION)

DVD Satellite Navigation finds the right route faster and has more map storage capacity than traditional CD ROM based systems. Current mapping database encompasses major capital and primary national road networks as well as offering some coverage in regional areas.

ELECTRONIC BRAKE-FORCE DISTRIBUTION (EBD)

EBD minimises stopping distances by maximising braking power to the wheels with the most grip. This is effective when the vehicle's stability is unsettled due to a sudden swerve when braking or when you're braking with a load in the boot or with passengers in the rear.

TRACTION CONTROL (TRC)

TRC is a safety technology that senses when a wheel slips under acceleration and brakes each wheel independently and reduces engine power, distributing appropriate power to the wheel with the greatest traction.

VEHICLE STABILITY CONTROL (VSC)

VSC prevents loss of control by dampening understeer (front wheel sideways skid) and oversteer (rear wheel sideways skid).

VVT-i ENGINE

Variable Valve Timing with intelligence (VVT-i) improves low and mid-range engine torque, enhancing fuel economy and reducing emissions. It also maximizes engine power at higher revs.

A service to meet all of your needs.

The Toyota Guarantee.

We are confident that all of our vehicles will be as reliable and dependable as you need them to be. We understand that a new car purchase can often be a big decision. You need to feel confident that not only are you making the right decision now, but you are making a decision that won't end up costing you more in the future. That is why every new Toyota is proudly backed by a 3 year/100,000km warranty⁽¹⁾ (whichever occurs first), which provides you with peace of mind and care free motoring.

 **TOYOTA WARRANTY**

Extend your peace of mind.

When you purchase your new or used⁽²⁾ Toyota, you can extend your original factory warranty⁽³⁾ for up to 3 years. Providing you protection from unexpected repair bills and more importantly a little extra peace of mind.

Should you break down we also offer Roadside Assist, a reliable breakdown service with round the clock reassurance and assistance.

Toyota Extra Care is that extra helping hand when you need it most. For more details visit toyotaextracare.com.au

 **TOYOTA EXTRA CARE**

All the insurance coverage you could need.

Could you afford costly repairs or having to replace your vehicle altogether? At Toyota Insurance⁽⁴⁾ we understand that your vehicle is a critical part of your life and can offer you a motor insurance solution designed specifically for Toyota vehicles.

Our comprehensive motor vehicle insurance benefits include:

- Replacement of your new Toyota if it is a total loss so long as it is less than 3 years old and has travelled less than 100,000kms
- Genuine new Toyota parts replacement promise for Toyota vehicles less than five years old since the date of first registration
- Genuine Toyota quality repair guarantee for the duration of your vehicle ownership.

Toyota Insurance also goes further by offering Finance Gap Insurance and Payment Protection Insurance.

Visit toyotainsurance.com.au for more details about the coverage we offer.

 **TOYOTA INSURANCE**

Finance to get you in the driver's seat.

Toyota Financial Services⁽⁵⁾ can offer you a range of easy vehicle finance options available for you to organise conveniently at your preferred Toyota dealership.

Whether you require a simple personal vehicle loan, a novated lease for you or your employees, or serviced leasing on your small-business tool of trade vehicles we can help.

Toyota Financial Services is the best way to finance your Toyota, visit toyotafinance.com.au to find out why.
