

TOYOTA

Camry

Every bit brilliant.

Oh what a feeling!

**Over 45 years and counting.
Our history of Australian
built quality.**

It all started way back in 1958. When 13 Toyota LandCruisers were imported into Australia to lend a hand with the Snowy Mountains scheme.

No-one knew it then, but it was the beginning of an important relationship between a country and a carmaker that would not only grow in size and intimacy every year, but break record after record – selling millions of cars, and employing thousands of Australians.

Calling Australia home.

The first Toyota was sold here the following year. And within 5 years we'd gone from simply selling cars in Australia, to building them too. And while you might never have heard of the first car we brought off that production line – the Toyota Tiara – for us, it was the beginning of a whole new chapter in our history.

Today, some 45 years later, the world has changed a lot. But Toyota's commitment here in Australia remains as strong as ever. Since 2002, we've invested more than \$1 billion in the development of our manufacturing facilities

in Australia including the introduction of new models. This state-of-the-art facility has allowed us to build cars with an unprecedented level of quality – and to build more of them for our loyal drivers.

Driving for a brighter future.

But our investment doesn't stop with our cars, it extends to our people. We're proud to back Aussie know-how because today, we employ thousands of Australians throughout the country – in a wide variety of fields. And as we continue to introduce revolutionary technologies such as fuel efficient hybrid engines into our cars, it's not hard to see why our local manufacturing will be leading the new wave of Australian built vehicles.

It all adds up to a very bright future.

For us. For Australia. And for you.

Grande in Ink shown.

Camry

In the search for perfection, Camry's designers have left no stone unturned. The result? A car that continues to set the standard in its class, and that adds up to so much more than the sum of its parts.

Impressive fuel economy and technological sophistication mean Camry exceeds your expectations like never before. From its world class braking package, Active Braking with intelligence (AB-i), right through to Vehicle Stability Control (VSC), Traction Control (TRC), MP3 and USB¹ compatibility, Smart Entry and Start system² and reverse camera^{3,4}, Camry is more than equipped to tackle the most demanding of Australian roads.

And more than ready to please the most discerning of drivers.

With its refined, sleek exterior and prestigious interior, Camry is smooth, quiet, safe, and comfortable. Couple that with brilliant performance and you have a car that is every bit the overachiever.

- 1 Standard on Ateva and optional on Altise. Not all devices will be compatible and functionality will vary depending on the device.
- 2 Only available in Grande.
- 3 Standard on Grande and Ateva (optional extra on Altise).
- 4 Reverse camera is designed as a driver assist device only and should not be used as a substitute for skilled driving and safe parking practices. The area into which the vehicle is to be reversed must be visually monitored by the driver while parking.

Front cover: Grande in Liquid Metal shown.

Sportivo in Wildfire shown.

Designed to impress.

With its smooth flowing lines, stylish grille and sculpted bonnet, Camry has a sweeping, contemporary appearance and a bold on-road presence.

Refined and stylish, Camry is unashamedly sleek. Its low, wide stance not only looks athletic, but also contributes to the car's excellent handling and dynamics.

Modern features, both front and rear, give Camry a more streamlined profile, incorporating curved and expressive

Grande in Ink shown.

head and tail lights, adding to the car's prestigious and progressive feel.

While contemporary wheel designs across all models combine with short front and rear overhangs to deliver improved appearance along with better stability and handling.

Bold wheel arches sweep dramatically into the front bumper, accentuating the muscular front grille and bold emblem – defining features of the Camry.

The Sportivo model boasts unique exterior features that enhance the car's sporty appeal and performance. Differentiated by race-bred, aerodynamic front and rear spoilers and side skirts and a dramatic sports mesh grille, the Sportivo is finished with 17" wheels, low profile Michelin® tyres, sports headlamps and sports suspension.

Camry – A Triumph.

Both inside the cabin and under the bonnet, the Camry features world class intelligent technologies that instinctively interact with the driver and the road, resulting in a truly immersive, safe and enjoyable driving experience.

Automatic headlights and the Grande's rain sensing windscreen wipers, which even adjust for the amount of rain and the speed at which the vehicle is travelling, are just some of the intuitive technologies that set Camry apart.

In addition, a reverse camera¹ comes standard on the Grande and Ateva (optional on Altise), with the Grande also being equipped with rear parking sensors¹ and an electro chromatic rear view mirror for reduced glare and increased driving safety.

Satellite Navigation

Standard on the Grande is a state-of-the-art Bluetooth™² enabled DVD based satellite navigation system. Through touch screen controls and voice and map guidance, the driver is directed to most destinations in Australia³. A convenient trip recording feature also records the path you have taken for the past 200 km, allowing you to retrace your journey if need be.

Bluetooth™²

Handsfree communication in the Grande is as easy as registering a Bluetooth™² capable mobile on the car's satellite navigation screen. Phone calls can be made and received via the touchpad on screen or the steering wheel controls. The in-cabin microphone can receive voice prompts, allowing you to access voice activated dialling for up to 20 numbers. Your phone's address book is also accessible through the navigation screen once downloaded.

On all other models, Bluetooth™² capabilities are available through the audio system, complete with steering wheel controls⁴.

MP3 connectivity⁵

The auxiliary input feature of the Camry's sound system lets you easily connect MP3 players and other remote devices such as laptops. This simple plug and play technology, combined with user friendly controls, gives you the power to listen to whatever you want in an instant.

Smart Entry and Smart Start

Keyless entry and push button ignition come standard in the Grande only. Quick and convenient, Smart Entry and Start System lets you unlock and switch on the vehicle without having to remove the key from your pocket.

Variable Valve Timing with intelligence (VVT-i) Engine

Under the bonnet, Camry has an all-alloy four-cylinder 2.4 litre VVT-i engine that combines smoothness with power and responsiveness, and improves fuel efficiency by 11% from the previous model.

Technologically advanced VVT-i puts the driver firmly in control, giving them access to maximum power or economy depending on the driver's needs. With 117kW available for overtaking, hill climbing and standing starts, VVT-i automatically adjusts to more efficient settings when cruising.

Intelligent Transmission

Camry's VVT-i engine is matched with an intelligent electronically controlled five-speed automatic with gated shift available across the range. The gated shift allows the driver to manually select a gear and hold it for greater responsiveness and control, when needed.

Sports Suspension

The Sportivo model's sports suspension package delivers an exhilarating ride, with low profile Michelin® tyres providing outstanding grip, and a sharper, flatter steering response. Combine this with engine speed-sensitive power steering and the rigidity of an extra rear brace, and the Sportivo is a true sports driving experience that comes with the extra luxury of dual zone air conditioning.

¹ Reverse camera and ParkAssist are designed as driver assist devices only and should not be used as a substitute for skilled driving and safe parking practices. The area into which the vehicle is to be reversed must still be visually monitored by the driver while parking.

² The Bluetooth™ word mark is owned by The Bluetooth SIG, Inc. Not all devices will be compatible and functionality will vary depending on the device.

³ Current mapping database encompasses major capital and primary national road networks as well as offering some coverage in regional areas.

⁴ Standard on Altise, Sportivo & Grande.

⁵ Not all devices will be compatible and functionality will vary depending on the device.

The background of the page is a dark, high-contrast photograph of a car's interior. It shows the driver's side, including the seat, the center console, and the steering wheel. The lighting is dramatic, highlighting the textures of the leather and the metallic accents. The overall mood is sophisticated and modern.

An alluring place to be.

Designed to integrate driver and vehicle, the Camry's luxury interior is crafted with high attention to detail for superb levels of comfort.

The cabin envelops the driver, with adjustable seats, lumbar support and tilt and telescopic steering wheel putting the driver in the perfect driving position.

Controls and switches are positioned instinctively, exactly where the driver expects them to be. The premium steering wheel on the Grande, for example, incorporates stereo controls for easy access while driving.

Information panels are within natural sightlines. Simple, elegant graphics provide uncluttered information at a glance.

Soft surface finishes and textures invite touch. Visually, the driving environment emphasises pleasing chrome silvers and greys, and even woodgrain-look trim on the Grande. Easy on the eye, these colours and textures reduce glare, keeping the driver focused on the road. Bespoke seat trim textures and colours are also available.

The Camry's sound insulation technology means a quieter, less fatiguing drive while allowing full appreciation of the car's powerful Bluetooth™¹ compatible stereo system. The Altise comes equipped with six speakers, while the Grande has eight speakers including two dual cone speakers. And USB compatibility comes standard on Ateva, and is optional on Altise.

The cavernous boot has an impressive 535 litre capacity with 60/40 split-fold rear seats (except on Sportivo – which features a ski port and a 504 litre capacity) for easy access from the cabin to the boot and the ability to transport those longer items.

In keeping with its racing pedigree, the Sportivo model is distinguished by a unique interior including sports seating with large side bolsters for increased support when cornering, black and silver accents and a premium steering wheel.

¹ The Bluetooth™ word mark is owned by The Bluetooth SIG, Inc. Not all devices will be compatible and functionality will vary depending on the device.

A range of excellence.

The Camry range covers the luxurious, the sporty and the practical, with style and sophistication assured at every level. The Grande provides an opulent premium experience; the Sportivo gives you sporty handling and styling; the Ateva combines comfort and style; and the Altise offers the perfect combination of practicality and sophistication.

Grande in Liquid Metal with optional moonroof shown.

Sportivo in Wildfire shown.

GRANDE

The flagship of the Camry range, the Grande is an essay in sophisticated luxury technology. It is differentiated by a prestigious leather-accented interior and stylish woodgrain-look trim; an optional power tilt and slide glass moonroof with sunshade, Audio Visual Navigation system⁴ with Bluetooth^{TM1} phone technology; steering-wheel mounted phone and audio controls; rain-sensing windscreen wipers; power rear sunshade; an eight speaker stereo (eight speakers including two dual cone speakers); Smart Entry and Start System; and an electro chromatic rear view mirror that adjusts to reduce glare - all appointments designed to impress and appreciate.

The exterior styling is enhanced by a subtle chrome trimmed grille, door handles and exhaust diffuser. Along with 17" alloy wheels, rear parking sensors have been installed and an exclusive chrome garnish houses a reverse camera³.

SPORTIVO

The performance model of the Camry range, Sportivo has sports suspension; sports headlamps; additional body bracing; sports mesh grille; front foglamps; 17" alloy wheels with Michelin[®] Energy sports low-profile tyres; rear access hatch to boot; an Aero Kit which consists of a sports front bumper, side skirts and a rear lip spoiler; chrome exhaust diffuser; sports front seats with power adjustment including eight-way driver's and six-way passenger's adjustment; black sports seat trim; dual zone climate controlled air conditioning; premium steering wheel with audio and trip-computer controls; chrome door handles, premium gear-shift lever and parking brake lever; rear-seat centre armrest with two cup holders; rear-seat centre head restraint; multi-function trip computer; analogue sports instrument cluster; six-speaker Bluetooth^{TM1} enabled audio with six disc in-dash CD changer; MP3 connectivity; external temperature reading; shift position indicator in instrument cluster; alloy sports pedals and Sportivo metallic front-door scuff plates.

The Sportivo is also differentiated by a sports suspension pack which gives a sharper steering feel and response and additional rigidity thanks to the inclusion of firmer springs and dampers and a rear brace.

1 The BluetoothTM word mark is owned by The Bluetooth SIG, Inc. Not all devices will be compatible and functionality will vary depending on the device.

2 Not all devices will be compatible and functionality will vary depending on the device.

3 Reverse camera is designed as a driver assist device only and should not be used as a substitute for skilled driving and safe parking practices. The area into which the vehicle is to be reversed must still be visually monitored by the driver while parking.

4 Current navigation mapping database encompasses major capital and primary national road networks, as well as offering some coverage of regional areas.

5 Standard scheduled servicing (normal operating conditions) up to the first 4 services. Excludes Government and Rental vehicles. Contact your Toyota Dealer or go to advantage.toyota.com.au for other exclusions and eligibility.

PAY NO MORE FROM ONE LOGBOOK SERVICE TO THE NEXT WITH TOYOTA SERVICE ADVANTAGE.

New Toyotas come with Toyota Service Advantage. That means you'll pay the same low capped-price from one logbook service to the next for the first three years or 60,000km, whichever comes first⁵. So you'll enjoy the peace of mind of knowing in advance what your servicing costs will be.

Better still, your Toyota will be serviced by Toyota-trained Technicians who know your vehicle inside out and only ever use Toyota Genuine Parts. For the full benefits of Toyota Service Advantage consult a Toyota Dealer or visit advantage.toyota.com.au

Ateva in Ink shown.

Altise in Silver Ash with optional reversing camera shown.

ATEVA

The sophisticated Ateva model is enhanced by a range of additional standard features including dual-zone auto air conditioning; front foglamps; six-speaker audio system; a reverse camera³; velour seat trim; power-adjustable driver and front-passenger seats; eight-way driver's seat adjustment including lumbar support and six-way passenger-seat adjustment; driver and passenger vanity mirror with illumination; rear seat centre armrest with two cupholders; interior chrome door handles, rear-seat centre head restraint; multi-function trip computer; premium steering wheel with audio and trip-computer controls; premium gear-shift lever; premium parking brake lever; Bluetooth^{TM1} enabled six disc in-dash, Display CD changer; MP3 and USB connectivity²; chrome trimmed grille and internal door handles; body coloured mudflaps; and an external temperature readout.

ALTISE

Designed for discerning drivers, the Altise model comes with world class features. From a safety perspective, Driver Assist Technology (DAT) which includes Active Braking with intelligence (AB-i), Vehicle Stability Control (VSC) and Traction Control (TRC) comes standard. As well as driver and front passenger, dual side and curtain SRS airbags.

In addition, there is a 2.4 litre Variable Valve Timing with intelligence (VVT-i) engine and a gated five speed intelligent electronic automatic transmission, cruise control, 16" alloy wheels and tyres, power driver's lumbar support and a six speaker, Bluetooth^{TM1} capable sound system with MP3 player capability², with steering wheel controls.

Other features included standard are air conditioning, power windows and mirrors, remote central locking and boot release, automatic on/off projector-type low-beam headlights, and driver and passenger vanity mirror with illumination.

Options include; reverse camera³ and 6 disc in-dash Display Audio CD changer with 3.5mm AUX input for portable audio players, USB input² and Bluetooth^{TM1} capability. Or 16" steel wheels (replaces 16" alloy wheels).

World class safety as standard.

Driver and front passenger, front side and full length curtain SRS airbags

Whiplash Injury Lessening (WIL) front seats

Toyota Safe -T-Cell

Inside and out, Camry has been designed, engineered and reinforced with your safety in mind.

Thanks to Toyota's Safe-T-Cell technology, occupants are protected by energy absorbing material in the door trims, pillars and roof side rails. The front seats employ Toyota's WIL (Whiplash Injury Lessening) design to reduce the chance of neck injury in a rear-end collision as well as pre-tensioner and force limiter seatbelts in case of front on collisions.

Camry also features LED stop lamps that activate quicker than traditional filament light bulbs, giving the driver behind increased reaction time.

Camry also has a range of features that reduce the chance of injury to pedestrians, including crash energy absorbing brackets in the front fenders and a specially designed bonnet structure with reduced 'hard points' and increased clearance to under-bonnet engine components.

DRIVER ASSIST TECHNOLOGY (DAT)

Camry's Driver Assist Technologies (DAT) include Toyota's Active Braking with intelligence (AB-i) and Vehicle Stability Control (VSC) with Traction Control (TRC) as standard, providing exceptional handling and control.

ACTIVE BRAKING WITH INTELLIGENCE (AB-i) AS STANDARD

AB-i is a world class braking package made up of an Anti-skid Braking System (ABS), Electronic Brake-force Distribution (EBD) and Brake Assist (BA).

ABS minimises skidding while allowing you to brake in the shortest practical distance.

The sophisticated EBD feature reduces stopping distances by maximising braking power to the wheels with the most grip.

Another feature of AB-i is Brake Assist. BA automatically interprets a quick, hard push of the brake pedal as potentially dangerous situation. When this happens it instantly supplements braking power, slowing the car more rapidly.

TRACTION CONTROL (TRC) AS STANDARD

When accelerating in conditions such as wet or gravel roads, or with one wheel on a more slippery surface, TRC prevents the wheels from slipping, helping the driver maintain traction.

VEHICLE STABILITY CONTROL (VSC) AS STANDARD

VSC employs the technology of the braking and traction control systems to help anticipate and control skidding when cornering. By reducing engine output as well as controlling the brakes individually on all 4 wheels, VSC assists you when the corner is surprisingly tight or slippery.

If for any reason the Camry experiences a front or rear wheel slide when cornering, VSC will help you bring the vehicle back on course.

SRS AIR BAGS

All Camry models come with 6 SRS airbags, which deploy according the intensity of the collision, minimising injury

in the event of an accident. Driver and front passenger SRS airbags along with dual side and full-length curtain SRS airbags provide protection throughout the entire cabin.

FUEL CONSUMPTION & EMISSIONS

Fuel consumption is a modest 8.8L/100 km¹.

With regular unleaded petrol, the Camry easily meets Australian emission standards and stringent Euro IV standards. The Camry is also able to use petrol with up to 10% ethanol content (E10) resulting in even lower greenhouse gas emissions.

ENVIRONMENT & RECYCLING

Camry is manufactured with the environment in mind. Environmentally conscious manufacturing processes are designed to ensure waste and energy usage are kept to a minimum.

The car is easier to recycle thanks to new material markings, dismantling marks and special slits in the connecting joints. More recyclable materials (such as Toyota Super Olefin Polymer, Toyota Plastic Olefin and Thermo Plastic Urethane) are used generously throughout the vehicle.

¹ Fuel consumption will vary depending on driving conditions/style, vehicle conditions and options/accessories. Source of fuel consumption data: ADR81/02 combined cycle.

Camry. Toyota genuine accessories.

Whether you want to add style, functionality or safety, you'll find whatever you're looking for in this comprehensive range of Toyota Genuine Accessories for the Camry.

Raptor Alloy Wheel (16" x 7")
Applicable for Altise, Ateva & Grande

Kappa Alloy Wheel (18" X 7.5")

Alloy Wheel Lock Nut Set

Front Corner Clearance ParkAssist² Parking Sensors (2-Head Kit) & Reverse Parking Sensors (4-Head Kit)
(Sold Separately) Reverse ParkAssist² not applicable on Grande

Front Weathershields
(Sold Separately)
Slimline weathershields also available

Bonnet Protector & Headlamp Covers
(Sold Separately)

Rear Spoiler
Applicable for Altise, Ateva & Grande

1200KG Towbar (Braked Capacity), Towball & Trailer Wiring Harness
(Sold Separately)³

AERO Roof Racks
(2 BAR SET)

FollowMe[®] Sound and Navigation⁴ System
Includes Bluetooth^{TM5}, video, and is compatible with some iPods^{®10}, MP3 and USB thumbdrives⁹

Satellite Navigation System^{4,8,6}
Includes 4-in-Dash MP3/CD Changer & Radio with Bluetooth^{TM5} Handsfree communications⁶ & (optional) Reverse Camera² compatibility

Bootliner

Camry Altise in Silver Ash pictured is accessorised with Toyota Genuine 18" Kappa Alloy Wheels, Rear Spoiler, Bonnet Protector, Headlamp Covers, Slimline Weathershields and ParkAssist Clearance Parking Sensors.

Kayak Carrier
(Roof Racks Sold Separately)

4 & 6 Ski Carrier (Sold Separately)
(Roof Racks Sold Separately)

Pacific 200 Roof Pod
Also available in 600 & Atlantis 200
Roof Pod (Sold Separately)
(Roof Racks Sold Separately)

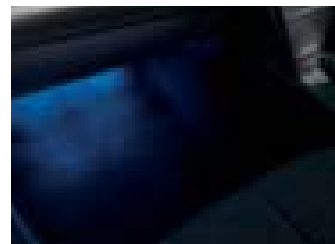

Pro Ride Bicycle Carrier
(Roof Racks Sold Separately)

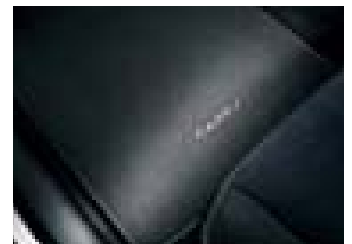

Seat Covers – Front & Rear⁷
(Sold Separately) Grey applicable for Altise & Ateva. Sandstone applicable for Ateva only. Front Seat Covers are Airbag Compatible

Scuff Plates – CHROME (Front & Rear Sets) & Illuminated (Front Set) (Sold Separately)

Interior Illumination

Carpet Floor Mats – Front & Rear Set
Grey applicable for all grades. Sandstone applicable for Ateva & Grande

TOYOTA GENUINE ACCESSORIES ARE COVERED BY OUR TOYOTA WARRANTY¹

- All Toyota Genuine Accessories purchased and fitted to a Toyota are warranted for the remainder of the New Vehicle Warranty or 12 months, whichever is greater. Toyota Genuine Accessories purchased from an authorised Toyota Dealer over the counter are warranted from the date of purchase for one year. Conditions apply. The Toyota Genuine Accessories Warranty does not limit and may not necessarily exceed your rights under the *Competition and Consumer Act 2010*.
- The Reverse Camera and ParkAssist are designed as driver assist devices only and should not be used as a substitute for skilled driving and safe parking practises. The area into which the vehicle is to be reversed must be visually monitored by the driver while parking.
- Towbar capacity subject to regulatory requirements, towbar design, vehicle design and towing equipment limitations.
- Current navigation mapping database encompasses major capital and primary national road networks, as well as offering some coverage of regional areas.
- The Bluetooth™ word mark is owned by The Bluetooth SIG, Inc. Not all devices will be compatible and functionality will vary depending on the device.

6 Requires fitment of centre cluster fascia panel.

7 Fitment of Front Seat Covers which are not compatible with Front Seat Side airbags may adversely affect airbag deployment and may result in serious injury.

8 Applicable for Altise, Ateva & Sportivo.

9 Not all devices will be compatible and functionality will vary depending on the device.

10 iPod® is a registered trademark of Apple Inc.

Some Toyota Genuine Accessories are not applicable to all Camry models. See your Dealer for advice regarding Toyota Genuine Accessories. Pictured Accessories are all sold separately.

For a comprehensive guide on the entire range of Toyota Genuine Accessories, visit our website at accessories.toyota.com.au.

Sportivo in Wildfire shown.

Technology terms

ACTIVE BRAKING WITH INTELLIGENCE (AB-i)

AB-i is a world class braking package made up of Anti-skid Braking System (ABS), Brake Assist (BA) and Electronic Brake-force Distribution (EBD).

ANTI-SKID BRAKING SYSTEM (ABS)

ABS allows the driver to continue to steer around an obstacle under emergency braking. It prevents the wheels from skidding by rapidly 'pulsing' each brake independently, helping the driver retain control of steering whilst minimising stopping distance.

BRAKE ASSIST (BA)

Designed to assist the driver in emergency braking situations, BA interprets a quick, hard push of the brake pedal as emergency braking and supplements the braking power so that the car slows more rapidly.

DRIVER ASSIST TECHNOLOGY (DAT)

DAT is the collective term for the active safety technologies which may include VSC, TRC and AB-i. These technologies optimise braking response and grip on the road and provide enhanced control to avoid accidents.

DVD BASED SATELLITE NAVIGATION (AVN – Audio Visual Navigation)

DVD Satellite Navigation finds the right route faster and has more map storage capacity than traditional CD ROM

based systems. Current mapping database encompasses major capital and primary national road networks as well as offering some coverage in regional areas.

ELECTRONIC BRAKE-FORCE DISTRIBUTION (EBD)

EBD minimises stopping distances by maximising braking power to the wheels with the most grip. This is effective when the vehicle's stability is unsettled due to a sudden swerve when braking or when you're braking with a load in the boot or with passengers in the rear.

TRACTION CONTROL (TRC)

TRC is a safety technology that senses when a wheel slips under acceleration and brakes each wheel independently and reduces engine power, distributing appropriate power to the wheel with the greatest traction.

VEHICLE STABILITY CONTROL (VSC)

VSC prevents loss of control by dampening understeer (front wheel sideways skid) and oversteer (rear wheel sideways skid).

VVT-i ENGINE

Variable Valve Timing with intelligence (VVT-i) improves low and mid-range engine torque, enhancing fuel economy and reducing emissions. It also maximizes engine power at higher revs.

The Toyota Advantage.

CAPPED PRICE SERVICING

Pay no more from one logbook service to the next with Toyota Service Advantage.

New Toyotas come with Toyota Service Advantage. That means you'll pay the same low capped-price from one logbook service to the next for the first three years or 60,000km, whichever comes first¹. So you'll enjoy the peace of mind of knowing in advance what your servicing costs will be. Better still, your Toyota will be serviced by Toyota-trained Technicians who know your vehicle inside out and only ever use Toyota Genuine Parts. For the full benefits of Toyota Service Advantage consult a Toyota Dealer or visit advantage.toyota.com.au

The Toyota Guarantee.

We are confident that all of our vehicles will be as reliable and dependable as you need them to be. We understand that a new car purchase can often be a big decision. You need to feel confident that not only are you making the right decision now, but you are making a decision that won't end up costing you dearly in the future. That is why every new Toyota is proudly backed by a 3 year/100,000km warranty² (whichever occurs first), which provides you with peace of mind and care free motoring.

Extend your peace of mind.

The Toyota Extra Care Extended Factory Warranty allows you to extend your original factory warranty for up to 3 years and is available on most new and used Toyota vehicles, providing you with protection from unexpected repair bills and more importantly a little extra peace of mind³. Should you break down we also offer Roadside Assist, a reliable breakdown service with round the clock reassurance and assistance. Toyota Extra Care is that extra helping hand when you need it most. For more details visit toyotaextracare.com.au

All the insurance coverage you could need.

Could you afford costly repairs or having to replace your vehicle altogether? At Toyota Insurance⁴ we understand that your vehicle is a critical part of your life and can offer you a motor insurance solution designed specifically for Toyota vehicles. Our Comprehensive Motor Vehicle Insurance benefits include⁴:

- Replacement of your Toyota vehicle with a new Toyota following a total loss if your vehicle is less than 3 years old and has travelled less than 100,000km
- Genuine new Toyota parts replacement promise for Toyota vehicles less than 5 years old
- Genuine Toyota Quality Repair Guarantee on authorised repairs for the duration of your vehicle ownership

Toyota Insurance also offers optional Finance Gap Insurance, Payment Protection and Extended Warranty Insurance⁴. Visit toyotainsurance.com.au for more details about the coverage we offer.

Finance to get you in the driver's seat.

Toyota Financial Services⁵ can offer you a range of easy vehicle finance options available for you to organise conveniently at your preferred Toyota dealership. Whether you require a simple personal vehicle loan, a novated lease for you or your employees, or serviced leasing on your small-business tool of trade vehicles, we can help. Toyota Financial Services is the best way to finance your Toyota, visit toyotafinance.com.au to find out why.

1 Standard scheduled servicing (normal operating conditions) up to the first 4 services. Excludes Government and Rental vehicles. Contact your Toyota Dealer or go to advantage.toyota.com.au for other exclusions and eligibility.

2 New Vehicle Warranty expires 3 years from date of first delivery or 100,000 kms, whichever occurs first. Refer to the warranty conditions. The New Vehicle Warranty does not limit and may not necessarily exceed your rights under the *Competition and Consumer Act 2010*.

3 The Toyota Extra Care Extended Factory Warranty Agreement is between Toyota Motor Corporation Australia Limited ABN 009 686 097 (TMCA) and the purchaser of the motor vehicle and is administered by Toyota Financial Services (TFS) a division of Toyota Finance Australia Limited ABN 48 002 435 181 on behalf of TMCA. Terms and conditions apply. Available on most new and used Toyota vehicles up to 8 years old that have travelled less than 120,000 kms. For more information visit toyotaextracare.com.au

4 Terms and conditions apply. Before making a decision about any of the insurance products, please refer to the current Product Disclosure Statement (PDS) for the relevant product available from participating dealers, via the Toyota Insurance website at toyotainsurance.com.au or by calling 137 200. Toyota Insurance is a division of Aioi Nissay Dowa Insurance Co., Ltd. ABN 39 096 302 466 AFSL Number 254489 (Andia).

5 Toyota Financial Services is a division of Toyota Finance Australia Limited ABN 48 002 435 181.
