

RAV4 Altitude

Special Edition.

TOYOTA

The sky's the limit.

Take Australia's most adventurous SUV. Then pack it with a range of special edition features, and you don't just have a vehicle with more style, more flexibility, and more fun- you have a vehicle that takes you to the next level.

One look at the Special Edition RAV4 Altitude, and you can't help but be struck by the spirit of adventure. It starts with the silver roof rails, a clear signal of the Altitude's get-away-from-it-all intent. You can see it too in the front fog lights and the 17" alloy wheels – this is a car born for the great outdoors.

But the Altitude isn't just more outgoing, it's more stylish too. With the eye-catching additions of silver front bumper appliqué, 'Altitude' exterior badging, and the availability of Crystal Pearl paint (usually reserved for Cruiser grade and above), the Altitude feels at home in even the loftiest company. And with privacy glass in all the rear windows, you can enjoy your surroundings, without ever feeling surrounded.

Above and beyond.

Inside, the RAV4 Altitude is equally impressive. It still has all the clever storage space and flexibility you'd expect of Australia's original SUV, and the intelligence of driver assist technologies like Vehicle Stability Control (VSC) and Traction Control (TRC), this is a vehicle made for making the most of every day.

And the best place to enjoy it, is in the driver's seat. The Altitude's premium steering wheel and gear knob add an extra layer of luxury to even the most everyday journeys. Featuring an MP3 compatible six-CD display audio system with USB input¹ for compatible iPods^{®2} as well as Bluetooth^{™3} capabilities. RAV4 Altitude not only rises above your expectations, it takes your spirit of adventure to all new heights as well.

Get in. Enjoy.
