

S-Class Saloon

Mercedes-Benz

This Brochure is prepared by Daimler AG and it predominantly reflects the capabilities and performance of vehicles sold in Europe. Some characteristics, capabilities performance features and optional extras (e.g. towing systems) may not be available or may not apply in Australia or under Australian conditions. The information in this brochure is therefore indicative, illustrative and provided only for guidance and should not be relied on. To obtain current and accurate information on a vehicle and any options applicable to Australia, contact your local authorised Mercedes-Benz dealer.

What can we offer a well-travelled achiever for the road? How can we surprise someone with an instinct for what is around the next corner? How do we lend a guiding hand to someone how is accustomed to leading the way? In a duly attentive, respectful and appreciative manner. Accommodating their each and every wish to an unprecedented degree. Revel in a car that's always quick to slow things down.

Feel Intelligent Drive.

Experience the new S-Class in glorious HD. With the Mercedes-Benz brochure app for the iPad® and with the Digital Owner's Manual from "Mercedes-Benz Guides" for the iPhone®. Both apps feature a host of films and additional content and are available free of charge from the iTunes Store®.

Fascination.

The illustrations may show accessories and optional extras which are not part of the standard specification.

¹ The driver remains responsible for controlling the vehicle at all times.
The self-parking function (Remote Parking Assist) may not be approved in all countries.

Enjoys plenty of attention.
And returns it in kind.

Not having to prove anything to anyone. And yet doing it every day.

For example, that resources need to be handled prudently. That the height of refinement is still some way down the road. That economy and luxury are not mutually exclusive, but go together perfectly. As if to prove this, the new S-Class now features a new engine generation. With the most intelligent assistance systems in its class. Designed to thrill body and mind.

Always quick to slows things down.

There are so many technologies that make our life faster. In the new S-Class one piece of equipment is premièring that can stop your world for a moment: optionally available ENERGIZING comfort control stands for the intelligent combination and activation of colours, sounds, lights, scents and even seat massages. Subtle vitalising or relaxing effects help to keep the driver fit and composed behind the wheel.

What's the secret behind such composure?

Do you sometimes find yourself asking this question? No other luxury saloon so confidently treads the path between style and status. Finely drawn lines and striking details lend the new S-Class an even stronger presence, without it ever being intrusive. Does this style ring any bells with you?

A detailed view of the front passenger side of a Mercedes-Benz S-Class interior. The image shows the leather-upholstered seat with a quilted pattern, the door panel with a speaker and door handle, and the dashboard area with a diamond-stitched leather panel. The lighting is soft and focused, highlighting the textures and materials.

Personality with aplomb.

Design is also about things that you don't see. When every operating action becomes a sensual experience. When elements appear to hover in space. When suddenly everything works so effortlessly and intuitively. This is the true value of the digital age. This is the true luxury of the new S-Class.

Show who you are. Not what you have.

Character and prestige are literally written all over the face of the new S-Class. The optional MULTIBEAM LED headlamps make a particularly striking impression. A total of 84 LEDs turn illuminating the road into a fine art. An exclusive light design lends the S-Class a distinct appearance in the dark, too.

A close-up photograph of the rear passenger seat in a Mercedes-Benz S-Class. The seat is upholstered in dark brown leather with a quilted diamond pattern. A matching leather headrest is visible. The car's interior trim, including the door panel and window frame, is also in dark brown leather. The lighting is soft, highlighting the textures of the leather and the stitching.

A seat of excellence for high achievers who know just where they want to go.

You'll be more relaxed and focused when you alight than you were when you boarded the vehicle. This is the unique standard of comfort embodied by the S-Class. Multicontour seats with numerous adjustment options fit you to perfection and pamper you on your journey. Six massage programmes, heated armrests and your own cooled compartment – everything revolves around you.

Still the most precious of all attributes: charisma.

There are people who can imbue an entire room with their charisma. And there are saloons whose poise and assurance set a leading example for an entire class of vehicle.

Our world in your hands.

www.mercedes.me – it's all about you. Discover a world of fascinating services, products and innovations that will simplify and enrich your life. Coming straight to you in digital form. And turning our world into your world.

Life can be so fascinating when you're fully connected.

All our connectivity and mobility services plus a host of other fascinating features – all in one place and exclusively for you. That's Mercedes me. Register free of charge today and make the world of Mercedes-Benz your very own at your convenience – on your PC or laptop or in mobile mode via tablet, smartphone or smartwatch. And because your life is forever changing, our services are also continually evolving. Join us now at: www.mercedes.me/welcome

Looking for individual inspiration in real life, too? The Mercedes me Stores are a fascinating phenomenon worldwide – in Beijing, Moscow and Hamburg, for example.

Mercedes me connect connects you with your vehicle – and your vehicle with the whole world. A comprehensive range of convenient connectivity services relating to all areas of your vehicle supports you, ensuring greater safety, closer contact and an even more fascinating driving experience. It's reassuring to stay connected all the time while you're on the move. Mercedes me connect includes Standard Services, which are able to provide you with automatic support in the event of a breakdown or an accident, as well as Remote Online Services – the option enabling vehicle settings to be carried out by smartphone – and lots more besides.

Mercedes me inspire offers special brand experiences and an opportunity to engage in an inspiring dialogue. We aim to share our ideas with you and we would like to know your ideas and wishes. So that we can always offer you the best solutions. A community is available to this end, and you will also find a growing range of offerings and experiences which go beyond the traditional vehicle-related topics – from areas such as events, travel and lifestyle.

Mercedes me move offers access to intelligent mobility solutions: car2go is the pioneer and global market leader in free-floating car sharing, the moovel mobility app pools the offerings from various mobility providers to find the ideal route from A to B. With the mytaxi app you can order a taxi, track its approach live and pay for your journey in a convenient manner. Mercedes-Benz Rent offers vehicles to suit all occasions for short- or long-term rental from an authorised Mercedes-Benz dealer near you. Blacklane enables you to book a chauffeur-driven limousine, FlixBus offers inexpensive, comfortable and environment-friendly trips on long-distance coaches.

Mercedes me assist makes easy work of organising maintenance for your vehicle, providing a convenient online means of locating a Mercedes-Benz dealer in your neighbourhood and arranging a service appointment. The digital service report keeps you up to date on performed service work. The report can be made available to you online just one day after a service. In addition to the current service report, you can also view your vehicle's complete service history and service intervals, and you can print this information out if you so wish.

Mercedes me finance offers you various routes to your vehicle of choice. Mercedes-Benz Bank/Mercedes-Benz Financial Services finds the ideal leasing, financing and insurance solution together with you – tailored to your needs. Our leasing products enable you to drive the latest models at all times while enjoying maximum flexibility, as you pay not for acquisition of the vehicle, but only for its use. You also benefit from attractive monthly instalments. Our financing arrangements enable you to pay for your new Mercedes-Benz in a way that suits your personal budget. You can tailor your monthly instalments to your needs by deciding on an appropriate down-payment and term for your contract. Our individual insurance solutions offer reliable protection for your budget and your vehicle on attractive terms. Your existing financial contracts can be managed conveniently online.¹

¹ Depending on market availability.

Our service: the perfect fit for your Mercedes.

Beyond the car itself, you also acquire something priceless – an exclusive partnership with Mercedes-Benz. For you, this means safety, independence and motoring free of any worries. In other words: the reassuring feeling of driving a Mercedes.

The best for your Mercedes. No-one knows your Mercedes better than our experienced specialists at the Mercedes-Benz workshops. The comprehensive range of services and the high standard of quality ensure that your vehicle is in top condition. We use proven Mercedes-Benz GenuineParts and special tools to this end.

The best for you. Motoring free of any worries right from the word go: with the tailor-made Mercedes-Benz Service Contracts. These offer you the benefits of a reliable basis for long-term planning, permanent control over costs, fixed monthly rates and cost transparency. Plus ideal protection from additional workshop costs.

The best for your mobility. The Mercedes-Benz Mobilo¹ mobility solution provides for motoring free of any worries throughout Europe – covering breakdowns, accidents, minor mishaps and vandalism. The benefits offered by Mobilo include on-the-spot assistance, a replacement vehicle, towing and overnight hotel accommodation, for example. Mobilo comes free of charge for the first two years after initial registration and can subsequently be renewed each time the vehicle is serviced by an authorised service partner, for a period of up to 30 years in all. Whenever you need assistance, you can reach us free of charge throughout Europe on 00800 1 777 7777².

↘ FIND OUT MORE

For the full information on Mercedes-Benz Service Contracts, go to www.mercedes-benz.com – or ask your authorised Mercedes-Benz dealer to draw up an individual offer for you.

¹ Our general terms and conditions apply. The period of validity is extended after each service carried out by an authorised Mercedes-Benz service partner until the due date for the next service – up to a maximum of 30 years after initial registration. ² Roaming charges may apply when calling from abroad.

What would motorsport be without Mercedes-Benz?

The first vehicle to ever win an automobile race was powered by a Daimler engine. The first Mercedes was a racing car. The Silver Arrows – a true legend. Mercedes-Benz has a long tradition of involvement with the world of sport. Motorsport shapes the brand and every vehicle bearing the Mercedes star to this day. Discover the brand's unique history first-hand: at the Mercedes-Benz Museum in Stuttgart.

↘ FIND OUT MORE

Discover just what has been moving the world for over 130 years and take a journey through time as well as through the history of the automobile at the Mercedes-Benz Museum. More than 1500 exhibits await you on 16,500 m² of floorspace, including unique gems such as the oldest surviving Mercedes from 1902 or the legendary gull-wing models. Welcome to a place of innovation:

What would Mercedes-Benz be without motorsport?

3 June 1934 marked the beginning of the Silver Arrows legend in the International Eifel Race at the Nürburgring. Today this legend is more alive than ever: in 2016 the Silver Arrows works team Mercedes-AMG Petronas Motorsport won the Formula 1 constructors' and drivers' titles for the third year in a row, making history by winning 19 of the 21 Grand Prix races. In a spectacular finale in the desert city of Abu Dhabi, Nico Rosberg secured his first world championship title in his Mercedes-Benz F1 W07 Hybrid. The value of these successes extends way beyond the race track: every mile raced advances development in fields such as lightweight materials and hybrid technology for series production.

How are you?

An important question, as your well-being is a key safety factor. That's why the new S-Class actively attends to its passengers' physical and mental well-being. Since 1972, every S-Class has stood for outstanding comfort, but today we are talking about an entirely new quality.

The first car to recharge your batteries.

A colour, a sound, a light or a fragrance – minor stimuli can be enough to change your mood. These and other sources of stimulation are intelligently combined and activated at the push of a button in the S-Class. They serve to vitalise or relax you according to your wishes, thereby enhancing your performance behind the wheel. We call this ENERGIZING comfort control – for a marked boost in driving safety.

Innovations that have everything covered.

The optional Driving Assistance package offers the driver a comprehensive scope of support, with Active Steering Assist including Active Lane Change Assist¹ and Active Brake Assist. Route-based speed adaptation¹ adjusts the vehicle's speed ahead of bends, roundabouts, junctions, toll booths and turning-off manoeuvres when Active Distance Assist DISTRONIC is active. And Active Speed Limit Assist lowers the vehicle's speed in accordance with recognised traffic signs. To make sure you feel safe and secure.

¹ Only available for certain countries.

Mercedes-Benz Intelligent Drive – pointing the way to accident-free and autonomous driving.

Mercedes-Benz is the first automotive manufacturer worldwide to have developed an integral safety concept, with the aim of safe driving, responding in an appropriate manner to hazards, avoiding accidents and mitigating the consequences of accidents. For the occupants of a Mercedes and for all other road users, too.

Mercedes-Benz Intelligent Drive forms part of this integral safety concept. It makes your Mercedes one of the most intelligent automobiles in the world – an “intelligent partner”. The Mercedes-Benz Intelligent Drive assistance systems are able to recognise hazards, provide timely warnings and even intervene autonomously when necessary – by performing braking manoeuvres, for example. In this way, accidents can be prevented or the severity of accidents can be significantly reduced. In order to protect passengers as necessary in case of dangers, additional protective features such as PRE-SAFE® are activated as anticipatory measures. These features vary according to the model concerned.

Many Mercedes-Benz vehicles already offer the option of a Driving Assistance package. The key functions of this package include partially automated driving on motorways, on country roads and in built-up areas. The Driving Assistance package also lends support when changing lane on multi-lane roads, for example during overtaking. This relieves the driver’s workload, as in normal driving they no longer need to brake or accelerate. The driver also receives substantial support with steering – even in bends.

Never before have safety, comfort and measures to reduce the strain on the driver been combined so effectively. This intelligent and pioneering interplay of sensors and safety and assistance systems represents a milestone on the road to autonomous and accident-free driving. And a fascinating new experience into the bargain.

A manifestation of effortless superiority. The new Mercedes-AMG S-Class.

Mercedes-AMG is not just a producer of performance vehicles. AMG is a commitment. A commitment to always go that extra mile. To expect a lot and to give everything. That's how we create exceptional motor cars for exceptional people, producing something totally new in the process. Vehicles which combine high-performance technology that has cut its teeth in the world of racing with uncompromising lightweight design to conjure up a virtually perfect combination of luxury saloon and sports car: the new Mercedes-AMG S 63 4MATIC+ and the new Mercedes-AMG S 65.

Never before have we pushed our aspirations so emphatically to the limit. To extract the maximum from every moment, every mile of the way.

Welcome to the world of AMG.

S 63

Business is all about performance. And efficiency.

Catapult-like acceleration accompanied by the mighty bass of the new, selectable AMG performance exhaust system with twin exhaust tips: a luxury vehicle could hardly be more emotional. And you are in the hot seat at the controls. In the new Mercedes-AMG S 63 4MATIC+, which, with its AMG 4.0-litre V8 biturbo engine generating an output of 450 kW (612 hp) and 900 Nm of torque, accelerates from 0 to 100 km/h in just 3.5 seconds. The AMG SPEEDSHIFT MCT 9-speed sports transmission combines perfectly with the V8 biturbo engine. It boasts extremely fast and smooth gear-shifting. It also raises both dynamics and efficiency to an entirely new level, with combined fuel consumption reduced to 8.9 litres per 100 km. Great performance and a great sense of responsibility.

Thrills up front.

We aimed to create more than just an automobile. It has become a symbol of modern luxury: the Mercedes-AMG S 63 4MATIC+. The signature AMG front with large air inlets on the jet wing and the characteristic grille adorned with the AMG logo are a delight to behold. And the thrill of this car can be boosted still further by selecting one of four driving programs with the AMG DYNAMIC SELECT switch in the centre console to influence the vehicle's characteristics – from comfortable through sporty to particularly sporty – or just as you wish in the Individual program.

Always nicely under control.

Futuristic operating and display elements as well as select, perfectly processed materials. Every move in the interior of the Mercedes-AMG S 63 4MATIC+ becomes a luxury experience. Beginning with the AMG performance steering wheel, right up to the AMG sports seats with specific upholstery, the contours of which ensure excellent lateral

support. The optional 50.8 cm 20-inch AMG forged wheels in a cross-spoke design are an expression of sportiness. Give free rein to this sporty character and your emotions. The large brake disks of the AMG high-performance composite braking system ensure that you stay in control of proceedings at all times – even in extreme driving conditions.

Call it understatement. Call it intelligently well grounded.

We are driven by an aspiration to keep surpassing ourselves. And this ambition is manifested in the totally new, innovative AMG Performance 4MATIC+ all-wheel-drive system. An electro-mechanically governed clutch variably connects the continuously driven rear axle to the front axle. This means that the optimum torque distribution is calculated continuously, providing the Mercedes-AMG S 63 4MATIC+ with stepless variability from traction-oriented all-wheel drive to full rear-wheel drive. This provides for extremely powerful acceleration manoeuvres, enhanced driving stability and driving safety – on dry roads, in wet conditions or in snow. The AMG sports suspension based on AIRMATIC also ensures optimum roadholding. So who's to stop you?

Exclusive looks. And a sound to match.

Power comes naturally to you. Draw attention to the fact with the signature AMG V12 sound of the AMG sports exhaust system. The Mercedes-AMG S 65 sounds particularly powerful during acceleration and double declutching. At constant speeds, the high-performer adopts a more restrained tone. However you wish to make your mark, you certainly won't go unnoticed.

When the substance lives up to the initial promise.

Power, dynamism and exclusivity are what set the Mercedes-AMG S 65 apart. “V12 biturbo” lettering on the wings, “S 65 AMG” model plate on the boot lid as well as large multi-spoke 50.8 cm (20-inch) AMG forged wheels in ceramic high-gloss polished finish support this impression, which is seamlessly continued in the interior. Excellent side support is provided by the AMG sports seats with strong contouring

and higher seat side bolsters. Finest nappa leather with contrasting topstitching and piping, seat upholstery layout in the AMG-specific diamond design and specifically positioned perforation underline the high-quality look and feel. Welcome to your 7th heaven.

The formula for success: just keep pushing up against the limits.

The new Mercedes-AMG S 65 takes the luxury class to giddy heights. It's all down to an AMG 6.0-litre V12 biturbo engine, which ensures intense driving experiences. The vital statistics alone speak volumes. The engine outputs 463 kW (630 hp) of power, peak torque stands at 1000 Nm. The Mercedes-AMG S 65 accelerates from a standing start to 100 km/h in just 4.2 seconds and attains a governed top speed of 250 km/h (an optional governed top speed as high as 300 km/h is also possible). The AMG sports suspension based

on MAGIC BODY CONTROL applies the unique dynamics safely to the road. You determine how the vehicle feels – at the push of a button with AMG DYNAMIC SELECT. The characteristics of the engine, transmission, suspension and steering alter within a matter of seconds. In addition to the “Comfort”, “Sport”, “Sport+” and “Individual” drive programs, the Mercedes-AMG S 65 exclusively features the “Curve” drive program – for the ultimate in driving enjoyment particularly on winding stretches of road.

It takes a special inner strength to stay on top.

All set for top performance: The AMG 4.0-litre V8 biturbo of the Mercedes-AMG S 63 4MATIC+ is closely related to the engine on board the Mercedes-AMG GT R super sports car. Generating an output of 450 kW (612 hp) and 850 Nm of torque, it sets benchmarks in terms of power and torque. The engine features the tried-and-tested twin turbochargers which are mounted inside the V configuration, rather than on the outside of the cylinder banks – experts refer to this as a “hot inside V”. This basic principle enables a compact engine design and more spontaneous response for the turbochargers. Thanks among other things to its cylinder shut-off system, this is recognised as one of the most efficient series-produced V8 engines in the world.

Prime mover: the AMG 6.0-litre twin-turbo V12 engine. Hand-built according to the “one man – one engine” principle just like the V8 biturbo engine, this powerhouse has an output of 463 kW (630 hp) and peak torque of 1000 Nm. These figures place the Mercedes-AMG S 65 among the front runners in its segment. The strengths of the V12 biturbo engine further include effortless acceleration throughout all speed ranges and smooth running with the striking hallmark AMG V12 sound. In a nutshell: supreme performance with style.

Sharing a special passion: the AMG Private Lounge is our Community centred around the world of AMG. This is where AMG customers come together at top-class events and on the online platform to exchange views about the latest developments from Affalterbach. They benefit from special offers and a direct link to AMG headquarters:

www.mercedes-amg.com/privatelounge/welcome

The AMG Driving Academy stands for an incomparable team spirit: experience performance with like-minded drivers and improve your driving skills at racetrack and lifestyle events held at breathtaking locations around the world.

Become a part of the “World’s Fastest Family”: www.mercedes-amg.com/driving-academy

Still want more? With the Customer Racing programme, Mercedes-AMG Motorsport offers the ideal platform for professional motorsport – and in the Mercedes-AMG GT3 it has a racing car designed specifically for this field of use. A fully integrated range of services stands for motorsport that meets the highest standards:

www.mercedes-amg.com/customerracing

At the AMG Performance Studio we create cars that are perfectly tailored to your wishes and desires. No limits are placed on our experts’ creativity, who demonstrate their unparalleled craftsmanship and attention to detail in areas as varied as special technical components, extravagant paintwork finishes and the most exclusive interior appointments imaginable, to produce one-off masterpieces.

Enter the world of AMG. Experience true driving performance.

We don't just build cars.
We make dreams come true.

That special aura. Outside and in. The new Mercedes-Maybach S-Class.

The imposing radiator grille serves as a figurehead announcing the strong presence of the Mercedes-Maybach S-Class. The legendary name shines resplendently in the grille. The elegant side view with chrome highlights on the B-pillar and the chrome-trimmed bumpers emphasize the distinct character of the Mercedes-Maybach S-Class. The triangular side windows are a typical example of the loving attention to detail. The wheels are exquisite gems. Three wheel designs have been evolved exclusively for the new Mercedes-Maybach S-Class. The Maybach forged wheels with 10-hole trim, for example.

Special hallmarks
of exquisite class.

Mercedes-Maybach

The image shows the rear passenger area of a Mercedes-Maybach S-Class. Two individual seats are visible, upholstered in a light-colored, quilted leather with a diamond pattern. A central console with a dark wood or leather finish is positioned between the seats. The seats have large, adjustable headrests. A small Maybach logo is visible on the seat cushion. The overall atmosphere is one of luxury and comfort.

Quietly confident. The interior of the Mercedes-Maybach S-Class.

Travelling in the new Mercedes-Maybach S-Class surpasses all expectations. The feeling of space is indescribable. No other saloon in the world offers such a quiet environment in the rear. And the Chauffeur package provides for plenty of rear legroom. Enjoy the comfort of luxurious, ergonomically perfect individual seats with leg rests. If you wish to attend to business, the extended-length business console included in the optional First Class rear suite can be transformed at wish into a desk. When your work is done, the seats can be moved into a comfortable reclining position at the push of a button.

A grand vision transported into the here and now.

The Mercedes-Maybach S 600 Pullman is more than the continuation of a great and unique history. It marks the rejuvenation of a prestigious saloon of historic dimensions. With an overall length of 6.50 metres, the Mercedes-Maybach S 600 Pullman leaves all contenders in its wake, combining supreme exclusivity and individuality with the ultimate in space and comfort.

Mercedes-Benz is one of the founding partners of the “Laureus Sport for Good Foundation”.

Since the foundation was established in 2000, Mercedes-Benz has been supporting and promoting the aims and values of this worldwide non-profit-making programme: to use social sports projects to improve the lives of children and young people who are disadvantaged or suffering from illness. Laureus has become a fundamental element of Mercedes-Benz’s social responsibility. Every new Mercedes is an ambassador embodying these values. In buying a Mercedes you are supporting the “Laureus Sport for Good Foundation”.

Take-back of end-of-life vehicles. At the end of its long life, you can return your S-Class to us for environment-friendly disposal in accordance with the European Union (EU) End-Of-Life Vehicle Directive. But that day lies a long way off.

A network of vehicle take-back depots and dismantlers is available to make returning your vehicle as easy as possible for you. You are welcome to return your vehicle to one of these establishments free of charge. In so doing, you will be making a valuable contribution towards closing the recycling cycle and preserving resources.

For further information about the recycling and disposal of end-of-life vehicles and take-back conditions, please visit your national Mercedes-Benz website.
