Passenger Car charging station vehicle charging station Wallbox								
existing	A0009060407	Mercedes-Benz Wallbox with fixed charging cable	 <p>The Mercedes-Benz Wallbox with fixed charging cable is a charging station for private or commercial use at home or at a place of work. It allows fast, safe and convenient charging of battery electric and plug-in hybrid vehicles. With a charging capacity of up to 11 kW, your vehicle can be charged much faster and more conveniently than at a standard domestic power outlet. The extensive safety features of the Wallbox ensure reliable charging of your Mercedes-Benz passenger car as well. The fixed charging cable has a length of approx. 6 m. Technology: Integrated DC residual current monitor. Temperature management to prevent overheating. Degree of protection IP54. Charging cable lock: integrated locking mechanism ensures that charging cable cannot be pulled out during the charging process and that current will only flow if the vehicle is correctly connected to the Wallbox. Usage: Approved for outdoor and indoor use. Wallbox can be adjusted to available current. Integral LED lights and intuitive icons indicate Wallbox status (power/charge status/fault). Improved cable management with locking of charging plug in parking bay. Cable length approx. 6 m. Access authorisation controlled via key switch. Charging capacity of up to 11 kW/3-phase, 230 V/400 V, 16 A.</p>	X	X			now
