

# Yaris Cross

# OH WHAT A FEELING

You'll feel it with every drive. In every twist and every turn. It's our unwavering commitment to move you, not only today, but well into tomorrow as we relentlessly reimagine the future of mobility.

With our eyes on the horizon, we're committed to creating a future where all of humankind is empowered with the freedom to move.

# Broaden your horizons

Introducing Yaris Cross, the compact car with serious capability that seamlessly integrates urban minimalism with can-do handling and performance to take you further and answer the call of an active lifestyle.

By combining zippy around town agility with a bold SUV presence and optional electric AWD capability (hybrid only), Yaris Cross is built to keep the excitement coming while keeping you comfortably on the move.

It's also packed with cutting edge connectivity and innovations as well as producing all the power you could need with outstanding fuel efficiency. With its generous interior space, enhanced handling and the latest safety features, Yaris Cross is as user friendly on the road as it is behind the wheel.

With Yaris Cross, you'll have it all to explore.

# Go next level

At first sight, you know Yaris Cross is designed to turn heads and take you places.

The minimalist exterior is styled with well-proportioned lines that flow effortlessly from front to rear to make Yaris Cross look strong and ready for action. The larger wheels are accommodated in dramatically flared wheel arches that give a grounded and dynamic on-road stance.

Being built around a robust SUV inspired body structure also provides greater strength and helps deliver a more active driving experience for a vehicle of such compact dimensions. Plus, when it's time to head out for adventure, the smart angular design provides increased interior and luggage space as well as enhanced functionality when loading through the wide tailgate.

Live the ultimate modern lifestyle by standing tall in Yaris Cross.

# Your space to explore

Yaris Cross is compact and seamlessly styled outside, while being remarkably spacious and accommodating within. Everything inside the cutting edge interior has been carefully placed to enhance the feeling of space. The contemporary styling features a more intuitive instrument panel, along with sophisticated soft touch finishes and metallic ornamentation to accentuate the premium atmosphere.

The elevated SUV body shape allows you to enjoy greater visibility, especially ahead, as well as allowing extra space to handle the practical demands of modern life, including greater room between the front seats and deeper, more accommodating legroom.

The power back door on Yaris Cross Urban can be opened with the convenience of a kick sensor, perfect for when your hands are full. The luggage space can accommodate two large suitcases or two large golf bags once the deck board is lowered. The 40:20:40 split folding rear seats provide additional load carrying flexibility.

Enjoy more quality space to move with Yaris Cross.

# In touch with your world

Today we're more in touch with our world than ever before, and now Yaris Cross welcomes an exciting new era in connectivity and convenience.

The 7" touchscreen display features Apple CarPlay<sup>®1</sup> and Android Auto<sup>™,2</sup> to allow seamless connectivity including access to Siri<sup>®1</sup> Eyes Free and Google Now<sup>™,2</sup> voice commands. It also includes a premium 6-speaker audio system with AM/FM/Digital Radio<sup>3</sup> (DAB+) as well as Bluetooth<sup>®4</sup> connectivity, enhanced voice recognition and the reversing camera<sup>5</sup> display with guidelines.

The 4.2" TFT Multi Information Display (MID) provides key driving information right where you need it with dual digital meters fitted across all grades, and these are complemented with the Head-Up Display on Yaris Cross Urban.

You'll be more tuned to the world in Yaris Cross.

# Perform with style

Yaris Cross is made to move and specifically optimised to deliver a crisp and rewarding drive.

The frame and chassis are developed around Toyota's 2<sup>nd</sup> Generation TNGA Platform to ensure a lower centre of gravity, concentrated weight distribution and finely tuned suspension to help provide enhanced handling and superior on-road stability.

You'll also enjoy plenty of highly responsive power with a choice of two technically advanced powertrains.

The 1.5L 3-cylinder petrol engine uses direct fuel injection and high-speed combustion to achieve up to 88kW in power and up to an impressive 145Nm of torque delivered smoothly through the Direct Shift CVT Transmission, whilst achieving highly economical fuel efficiency.

The latest generation Toyota Hybrid System produces enhanced power with optimised gearing for a more lively drive, especially with a choice of ECO and POWER driving modes, as well as providing outstanding fuel economy and lower emissions. The battery pack is also efficient, light and compact, allowing for increased interior space.

The Toyota Hybrid System also comes with the option of adding unique electric AWD. This uses a separate high-torque electric motor to independently power the rear wheels, further enhancing driving performance and increasing the traction and control in slippery conditions.

An aerial photograph showing a winding asphalt road that curves through a dense green forest. In the background, a rugged mountain range with layered rock formations is visible under a clear sky. The lighting suggests a bright, sunny day.

# Hybrid technology, that's future forward.

The Yaris Cross Hybrid delivers impressive acceleration and enviable fuel efficiency, with the ability to travel up to 947km on one tank.<sup>6</sup> In addition, it provides a calmer, more responsible driving experience than ever before.

With Yaris Cross Hybrid, even greater fuel efficiency now means no compromise on serious power.

Toyota has led the way in hybrid technology for 23 years. And as we continue to drive the future of mobility, it's easy to see why millions of drivers worldwide have made the switch.

# The Hybrid System

## Four Key Benefits

Toyota Hybrid's latest technology gets you moving powerfully and smoothly every time. Enjoy an uncompromising drive with responsive, dynamic performance.

## Further

You don't have to plug in a Toyota Hybrid – the battery charges as you drive, using the engine or energy captured when decelerating or braking. So you can be confident a Toyota Hybrid will take you further for less.

## Quiet

The quieter and calmer experience in a Toyota Hybrid is proven to deliver one of the most satisfying and enjoyable drives on the road, with no compromise on vehicle responsiveness. It's why millions of hybrid drivers choose never to go back to petrol-only engines once they've made the switch.

## Reliable

Toyota's Hybrid System offers the reliability and quality you can always expect from Toyota. Tested and trusted for 23 years – so no matter where you go, you'll have peace of mind in every drive.

## Powerful

Experience an uncompromising drive in a Toyota Hybrid with responsive, dynamic performance. You get impressive off-the-line torque that gets you moving powerfully and smoothly every time.

## Starting off

The electric motor is used primarily. Power stored in the battery is used to turn the motor.

## Full acceleration

Power is provided by the petrol engine in addition to the electric motor. Output is maximised for acceleration.

## Braking and deceleration

The electric motor functions as a generator to recharge the battery by itself. No fuel is used, so there are minimal CO<sub>2</sub> emissions.

## Normal driving

A mix of petrol and electric is used for best economy, depending on the conditions. The battery is recharged where possible.

## At rest

With the car brought to a stop, the petrol engine cuts off. The system automatically avoids idling to conserve fuel and reduce CO<sub>2</sub> emissions.

# Raising the safety standard

When it comes to safety, Yaris Cross provides you with the reassurance of Toyota's advanced safety features including innovative Toyota Safety Sense<sup>5</sup> technology as standard.

Coupled with an impact absorbing body structure to help disperse impact away from the driver and passengers, there are also eight SRS airbags to help protect you, including a front row SRS centre airbag to help keep front row passengers separated.

The Anti-lock Braking System (ABS) helps prevent wheel lock-up and skipping, while Vehicle Stability Control (VSC) helps counteract oversteer

or understeer when cornering. Traction Control (TRC) automatically controls engine output or applies the brakes to any wheel that's skidding on slippery surfaces or where there's variable grip. Emergency Brake Signal (EBS) alerts trailing vehicles if you're forced to make a sudden stop.<sup>5</sup>

Plus, you'll have the protection of intuitive Toyota Safety Sense<sup>5</sup> (TSS) technologies, including Intersection Turn Assistance, Lane Trace Assist (LTA), Pre-Collision Safety (PCS) system with pedestrian and daylight cyclist detection, Lane Departure Alert (LDA) and Dynamic Radar Cruise Control with Road Sign Assist (RSA).<sup>5</sup>

# Toyota Safety Sense

At Toyota, we believe it's simply not enough to say "safety comes first" – we prove it. That's why, in our ongoing pursuit of creating ever safer cars, now and into the future, we developed Toyota Safety Sense<sup>5</sup> (TSS). A suite of active safety features designed to help support safe driving and help protect you and your passengers.

Yaris Cross features the latest TSS driver assistance technologies, aiming to recognise and help avoid certain hazards and collisions, giving you and your passengers greater peace of mind wherever you're headed. Please visit [toyota.com.au](https://toyota.com.au) for vehicle and specification information.

## Lane Trace Assist

When driving on highways and freeways, Lane Trace Assist uses a camera to detect lane markings when cruise control is active. It is designed to alert you and provide steering assistance to help avoid drifting, and keep you centred in your lane.<sup>5</sup>

## Pre-Collision Safety (PCS) system with pedestrian and daylight cyclist detection

Pre-Collision Safety system with pedestrian and daylight cyclist detection is a multi-stage warning system. Using an integrated camera and radar to help detect other vehicles in front of you, the PCS is designed to assist the driver where there is a likelihood of frontal collision with cars and pedestrians during day or night, or cyclists during the daytime. PCS includes a visible and audible alert of possible collisions, additional braking force to assist when you're braking, and if a collision appears to be unavoidable automatic braking to help mitigate impact.<sup>5</sup>

Toyota  
Safety  
Sense

## Road Sign Assist (speed signs only)

Road Sign Assist was developed to help recognise certain road speed signs and provide information to you. It displays the most recently recognised speed limit on the Multi Information Display.<sup>5</sup>

## Intersection Turn Assist

Intersection Turn Assist helps prevent accidents at intersections by detecting oncoming cars and pedestrians crossing the street when the vehicle is turning.<sup>5</sup>

## Lane Departure Alert with steering assist

Lane Departure Alert with steering assist is designed to help prevent vehicles drifting from their lane by monitoring road markings, and providing a visible and audible alert should it detect any deviation from the lane. It may also apply additional steering force if needed to help you stay in your lane.<sup>5</sup>

## Active Cruise Control

Active Cruise Control is designed to help keep a constant distance between vehicles. It uses a milliwave radar to monitor the gap between your vehicle and the one in front, automatically accelerating or slowing down when needed to help you maintain a set distance.<sup>5</sup>

# Toyota Connected Services<sup>7</sup>

3 years complimentary access<sup>7</sup>

Driving should be easy, enjoyable and safe. That's why inside every connected Toyota you'll find a suite of advanced features focused on safety, convenience and a better driving experience.

To learn more, please visit [toyota.com.au/connected](http://toyota.com.au/connected)

## myToyota Connect<sup>8</sup>

In a world driven by information, the myToyota Connect app allows you to seamlessly integrate your smartphone with Toyota Connected Services. You can receive diagnostic details including the odometer and fuel level, as well as access to your Owner's Manual. You can also see travel details,<sup>9</sup> such as time and distance on the road plus the last known location and parking spot.

## Automatic Collision Notification<sup>11</sup> (ACN)

Every second counts when assistance is needed the most. Should an airbag deploy or a severe collision be detected by the impact sensors, Toyota Automatic Collision Notification (ACN) is designed to automatically connect with our 24/7 Toyota Emergency Assistance call centre. If you're unable to communicate or respond, we'll immediately contact emergency services and direct them to your vehicle's location.

## Stolen Vehicle Tracking<sup>10</sup> (SVT)

Should the unthinkable unfortunately occur, you'll have the peace of mind of knowing Toyota Stolen Vehicle Tracking (SVT) is designed to help find your missing vehicle. After filing a stolen vehicle report to the police, and providing your VIN and police report number to a Toyota Stolen Vehicle Assistance agent, the agent will validate your SVT subscription and initiate tracking. They can then provide updates to the police to assist with the potential recovery of your vehicle.

## SOS Emergency Call<sup>12</sup>

If the situation ever arises where you require urgent assistance, it's comforting to know help can be available at the touch of a button. In the event of a genuine emergency, you can speak directly to a Toyota Emergency Assistance agent, 24/7, simply by pressing the dedicated SOS button in your vehicle. If required, they can direct emergency services to your vehicle's location.

# The Toyota Advantage

When you join the Toyota family, you get so much more than a new car feeling. You get a lifetime of benefits keeping you moving now and well into the future.

Discover your Toyota lifetime of advantages at [toyota.com.au](http://toyota.com.au)

## Discover the freedom of Toyota Access

Toyota Access puts you in complete control when buying a new car, with lower monthly repayments. Drive out of the Dealership with a clear road ahead then drive back a few years later with more options at your disposal than ever before. Whatever stage you're at in life, Toyota Access puts you in the driver's seat with flexibility and assurance.<sup>18,19</sup> To discover Toyota Access for yourself, visit [toyota.com.au/toyota-access](http://toyota.com.au/toyota-access)

## Capped price servicing

A new Toyota means you don't have to worry about unexpected service costs. Every Toyota comes with a low, capped price service cost for a set number of years/kilometres. Pay the same low capped price from one eligible logbook service to the next for up to 5 years or 75,000km, whichever occurs first (including Toyota Genuine parts, labour and fluids).<sup>20</sup> For the full benefits, consult a Toyota Dealer or visit [toyota.com.au/advantage](http://toyota.com.au/advantage)

## Toyota Warranty Advantage

Every new Toyota is built to exceptional standards, and from 1 January 2019, Toyota vehicles are backed by a 5-year/unlimited kilometre warranty. If your vehicle is properly serviced and maintained per its Warranty and Service Book, we'll extend your engine and driveline warranty for an additional 2 years, giving you peace of mind for years to come. In the event of a claim covered by warranty, you are covered by a 60-day money back guarantee and 7 years emergency assistance including expenses related to car hire, towing or even accommodation if required.<sup>21,22</sup> For more information, visit [toyota.com.au/owners/warranty](http://toyota.com.au/owners/warranty)

## Your battery goes further

The hybrid battery used by Toyota requires no maintenance, charges automatically while you drive and never needs to be plugged into a power supply. From 1 January 2019, Toyota Hybrid batteries are backed by a 5-year/unlimited kilometre warranty. Complete an annual hybrid battery health check according to Toyota specifications during routine maintenance, and we'll extend your hybrid battery warranty to 10 years.<sup>23</sup>

## Finance to get you going

If you need a little help, Toyota Finance can offer you a wide range of vehicle financing options. With Toyota Finance, you'll have the peace of mind of dealing with one of Australia's leading vehicle finance corporations with over 30 years experience. And with a range of flexible products and services to suit almost every need and circumstance, Toyota Finance can help find the right package for you or your business.<sup>24</sup>

## Insurance options

Our Comprehensive Motor Vehicle insurance policy is packed with great benefits including: agreed value cover, new vehicle replacement if your Toyota is written off within the first 3 years, use of Toyota Genuine Parts, and a Lifetime Repair Guarantee on repairs authorised by Toyota Insurance.<sup>25</sup> For more information, visit [toyota.com.au/insurance](http://toyota.com.au/insurance)

## Extend your peace of mind

Whether it's a flat tyre, lost keys or a flat battery, Toyota Roadside Assist is never more than a phone call away. Available 24 hours a day, 7 days a week, our technicians are there to help you get back on the road.<sup>26</sup> For more information, visit [toyota.com.au/insurance/roadside-assistance](http://toyota.com.au/insurance/roadside-assistance)
