

*Presenting the best of seven great cars.*

*It combines the best features of some of the greatest cars in the world.*

If you were to start a collection of some of the finest cars in the world, would you include a Porsche? Ferrari? Volkswagen? Cadillac? Lincoln? Rolls-Royce? Mercedes Benz?

How about an Audi 100 LS? It has many of the same features that make the others great.

Like front-wheel drive and radial ply tires for a tight grip on the road. Rack-and-pinion steering, giving you precise steering control. And power brakes with front discs.

But handling features aren't all that we have in common with the great ones. Each 100 LS is equipped up front with inertia-type safety belts. Bucket seats. And flo-through ventilation which at 45 mph completely changes the air every 40 seconds. It keeps the temperature within the passenger compartment constant, within 3 degrees. And assures your back-seat passengers of being every bit as comfortable as those in the front.

Where comforts stop, luxuries begin. Standard on every 100 LS is an African hardwood veneer dashboard with a resettable trip distance recorder and electric clock. Plus turn signals, headlight dimmer switch, horn and automatic windshield washer/wiper control built onto the steering column.

There's a center console between the two front seats. And a roomy glove compartment.

Something else you'll like about the Audi is its 185.2 easy-to-park inches can comfortably seat a family of 5. And its 26 cu. ft. trunk can hold the same amount as cars much larger in size.

Finally, each new Audi comes with a 12/20 Warranty. This means that if a problem arises during the first 12 months or 20,000 miles due to defective materials or workmanship at the factory, we'll make the repairs.\*

So now you have a decision on your hands. How to get all the features we've talked about? By buying the seven cars mentioned above? Or one of ours?

The Audi 100 LS. It's the easiest way to own a collection of seven great cars.

## *The Audi 100 LS.*

## *Seven great cars made even grander.*

After you've built a car like the 100 LS, what can you possibly build next?

An Audi 100 GL.

The GL stands for Grand Luxus. And it's the grandest, most luxurious Audi there is.

It has front-wheel drive. Rack-and-pinion steering. Power brakes with front discs. In fact, everything that makes the LS impressive.

But what makes the 100 GL different is an automatic 3-speed transmission. It's part of the standard equipment.

A front center floor console, conveniently built between the two front seats. And to make it even more convenient, we've built a rear-window defogger control, courtesy light, ashtray and cigarette lighter into it.

Seats. Fabulously comfortable seats, richly covered in corduroy and leatherette.

Outside there are special wheel covers.

Tinted glass in all the windows.

And to top it off, a beautiful vinyl roof.

So if you'd like a 100 LS, but you'd like it a little grander, take a look at the Audi 100 GL.

It's a lot of cars for the luxury.

## *The 100 GL.*

## *Seven great cars at a great price.*

Are you the kind of person who likes to get down to basics? Who likes the features of the Audi, but can do without some of the extras?

If that's the case, maybe you should take a look at the Audi 100.

It's still the best of seven great cars.

As on all the Audis, the 100 comes with the same front-wheel drive. Rack-and-pinion steering. Power brakes with front discs.

It has the same amount of space. Bucket seats. An engine that gets about 26 miles to the gallon.

About the only thing it doesn't have is some of the extra bits of chrome and some of the extra conveniences.

The Audi 100\*. It's a lot of cars, for even less money.

## *The Audi 100.*

\*Audi 100 model is not available in Canada.

**100/100 LS/100 GL**

<b>ENGINE:</b>	No. of cylinders	4 cylinders, in-line, water cooled	
	Displacement	114.2 cu. in. (1871 cc)	
	Compression ratio	8.2:1	
<b>ENGINE DESIGN:</b>	Cylinder block	Cast iron	
	Cylinder head	Light alloy	
	Cooling system	Water cooled with pump	
	Lubrication	Full pressure system	
	Carburetion	1 dual-throat, two-stage carburetor	
<b>ELECTRICAL SYSTEM:</b>	Rated voltage	12 volt with alternator	
	Battery	55Ah	
	Ignition	Battery, coil & distributor	
<b>DRIVE TRAIN:</b>	Location of engine	At front, ahead of front axle	
	Clutch	Single dry plate/Automatic: Trilok torque converter	
	Transmission	4-speed, fully synchronized/Automatic: 3-speed automatic	
	Location of shift lever	Floor console	
<b>CHASSIS AND SUSPENSION:</b>	Frame	Welded; pressed steel sections unitized with body	
	Front suspension	Independent, with upper and lower control arms (stabilizer on 100 LS)	
	Front springing	Coil spring and shock absorber, 1 per wheel	
	Rear suspension	Torsion crank axle with built-in stabilizer and Panhard rod	
	Rear springing	Transversely mounted round section torsion bars and telescopic shock absorber. 1 torsion bar per wheel	
	Foot brakes	Power-assisted dual hydraulic brake system. Inboard disc brakes on front wheels, drum brakes on rear./Automatic: twin caliper disc brakes.	
	Hand brake	Mechanical, on rear wheels	
	Brake Diameter	Front (disc) 11.02 in., Rear (drum) 7.87 in.	
	Effective braking area	Front 16.28 sq. in., Rear 45.26 sq. in.	
	Rims	4½ x 14 steel	
	Tires	165 SR 14	
	Steering	Rack and pinion	
	<b>CAPACITIES:</b>	Engine	Approx. 8.5 pints U.S./7 Imp. pints
		Standard Transmission	4.2 U.S. pints/3.5 Imp. pints
		Automatic	ATF 1.6 U.S. gals./1.3 Imp. gals.
Fuel tank		15.3 U.S. gals./12.7 Imp. gals.	
	Radiator	8 quarts U.S./1.66 Imp. gals.	
<b>DIMENSIONS:</b>	Wheelbase	105.3 in.	
	Front track	56.0 in.	
	Rear track	56.1 in.	
	Overall length	185.2 in.	
	Overall width	68.1 in.	
	Overall height (unloaded)	56.1 in.	
	Ground clearance (loaded)	6.2 in.	
	Turning circle	36.7 ft.	
	Trunk space	23 cu. ft.	
<b>WEIGHTS:</b>	Dry weight	2 door—2442 lbs., 4 door—2467 lbs., Sunroof—add 29 lbs.	
	Max. permissible weight	2 door—3483 lbs., 4 door—3483 lbs.	
<b>PERFORMANCE:</b>	Top speed	105 mph	

**Our 1-Year 20,000 Mile Warranty**—If the owner maintains and services the vehicle in accordance with the Audi maintenance schedule and if any part of a new Audi becomes defective within 12 months or 20,000 miles after delivery, whichever comes first, any authorized Porsche Audi dealer in the United States or Canada, to which the customer delivers the car, will repair or replace the defective part free of charge for material and labor with a new or factory reconditioned part, provided that the defect has not become so due to accident, misuse, negligence, unauthorized alteration, the installation of non-genuine parts, or from use of the vehicle in rallies or races; nor does warranty cover normal maintenance services or replacement of service items such as spark plugs, ignition points, air and fuel filters, lubricants and fluids, light bulbs and windshield wiper blades.
