

2000 LeSabre

BUICK®

For generations, LeSabre has helped define the

full-size sedan — offering generous room, true comfort and a reassuring

sense of security and peace of mind to hundreds of thousands

The next generation of a family favorite.

of American families. The all-new 2000 LeSabre is designed not

only to continue that tradition but to enhance it — to offer you and

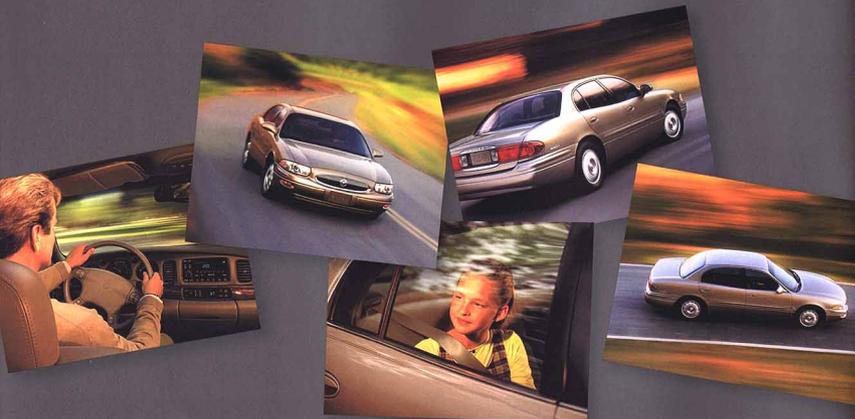

your family more peace of mind than ever before.

Over the years, LeSabre has earned its sterling reputation for meticulous quality and long-lasting dependability. It has garnered numerous awards. And it has

been America's best-selling full-size car for the past seven years.*

So when we redesigned LeSabre from the ground up, it was not to make it different,

but to make it better. The totally new 2000 LeSabre is the smoothest, most comfortable

LeSabre ever — with more safety features, more usable space, more luxury features, an exceptional level of quietness and a confident feeling of driver control.

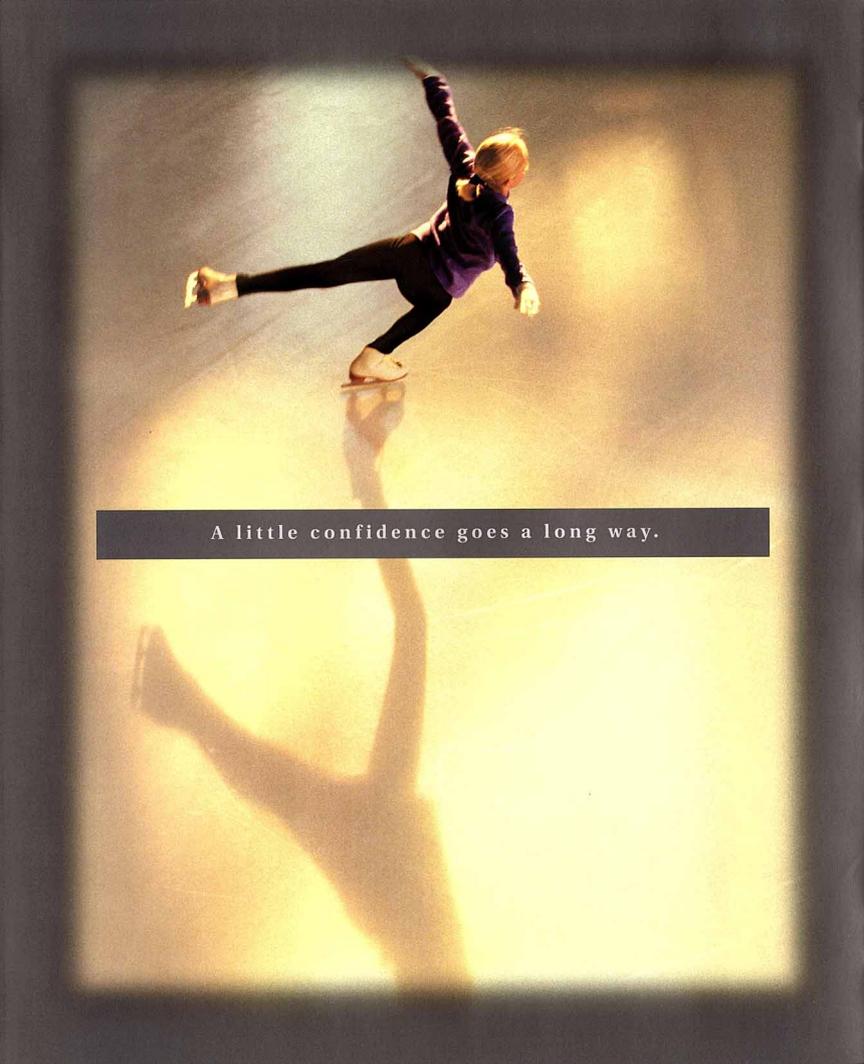

We invite you to get to know the best LeSabre yet — the 2000 LeSabre by Buick.

*Based on B. L. Pole 1992-1998 model year registrations.

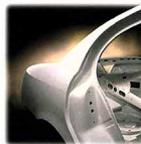

LeSabre Limited Sedan in Light Bronzemet Metallic, shown with optional Gran Touring Suspension Package, including 16-inch aluminum wheels.

A little confidence goes a long way.

Adding to your sense of assurance, the impressive **full-range traction control system (optional)** senses drive-wheel slippage at any speed and automatically reduces engine torque and modulates the brakes until you regain a better grip on the road.

The feeling of solidity and stability in the 2000 LeSabre is due in great part to its **rigid body structure, which has a 62 percent higher torsional stiffness than the previous generation.**

To help you maintain your concentration while driving, the **EyeCue® Head-up Windshield Display** provides a range of important information — while you keep your eyes on the road.*

*Included in the optional Driver Confidence Package.

The refined 205-horsepower **3800 Series II V6 engine** provides power in reserve for on-command response when merging onto a freeway, climbing a steep grade or passing a slow-moving truck.

When you feel confident, you feel in control. The 2000 LeSabre is designed to inspire a sense of confidence with its responsive handling. Its rigid body structure helps make this LeSabre exceptionally quiet, and a longer wheelbase and wider track, combined with a redesigned suspension, make it the smoothest riding LeSabre ever. Automatic rear level control suspension helps maintain a level

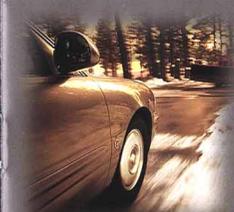

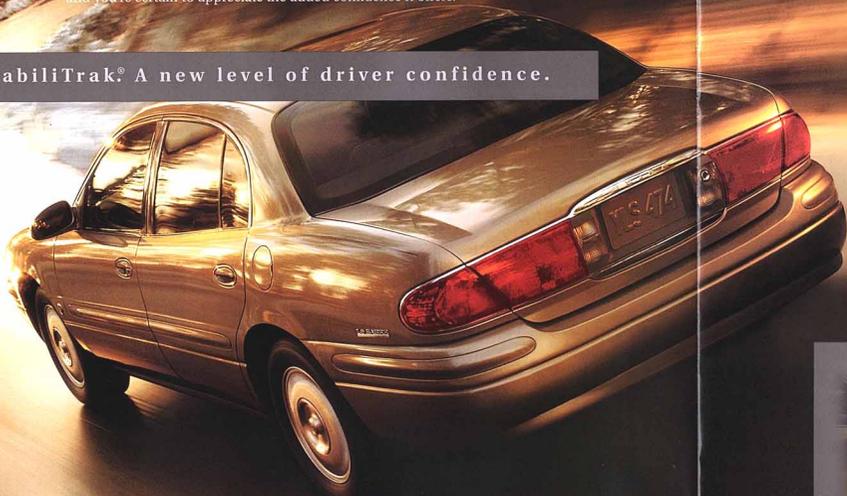

Control

ride, loaded or unloaded. The 2000 LeSabre will give you a feeling of control you'll have to experience to appreciate.

First came anti-lock brakes, then traction control. Now, LeSabre offers the highly advanced StabiliTrak system.* When turning on slippery surfaces or in emergency situations — such as an unexpected obstacle in the road or even a sudden strong gust of wind — StabiliTrak immediately reacts to actively help keep you on your intended course. LeSabre's StabiliTrak chassis control system works smoothly and naturally behind the scenes — and you're certain to appreciate the added confidence it offers.

StabiliTrak®. A new level of driver confidence.

1 StabiliTrak's sensors — located strategically throughout your LeSabre — are constantly at work, monitoring your vehicle's stability.

2 When you begin an emergency maneuver — for example, when avoiding someone who is taking more than their fair share of the road — the sensors immediately detect what's happening and send readings to the computer.

3 If the computer determines a difference between the steering wheel angle reading (the direction you wish to go) and the yaw rate sensor reading (the direction your vehicle is actually turning), it takes corrective action by...

4 ...applying the front brakes individually. If you are going off course to the right, for example, the left brake is applied.

5 StabiliTrak uses the brakes to enhance your control of the vehicle's direction and help keep you on course.

*Included in the optional Driver Confidence Package.

The idea is to help hold you in place.

The idea behind the 2000 LeSabre's innovative front Catcher's Mitt™ seats' is to help hold you in place. The front seats are easy to slide into, but in a low-speed rear-impact collision, these high-retention seats are designed to absorb energy and pocket the occupant's pelvis and lower back, and the self-aligning head restraints rotate forward to help reduce the head motion that may cause neck injury. The Catcher's Mitt seats are a first for any

Safety

American-built car, and just one of many safety and security features in the 2000 LeSabre.

Front outboard seats only.

In addition to front air bags, the 2000 LeSabre also includes dual front side air bags for added safety. And please, always use your safety belts.*

*Always use safety belts and proper child restraints, even with air bags. Children are safer when properly secured in a car seat. Front seat side-impact air bags help reduce the risk of certain injuries to front seat occupants in side impacts. See the Owner's Manual for more safety information.

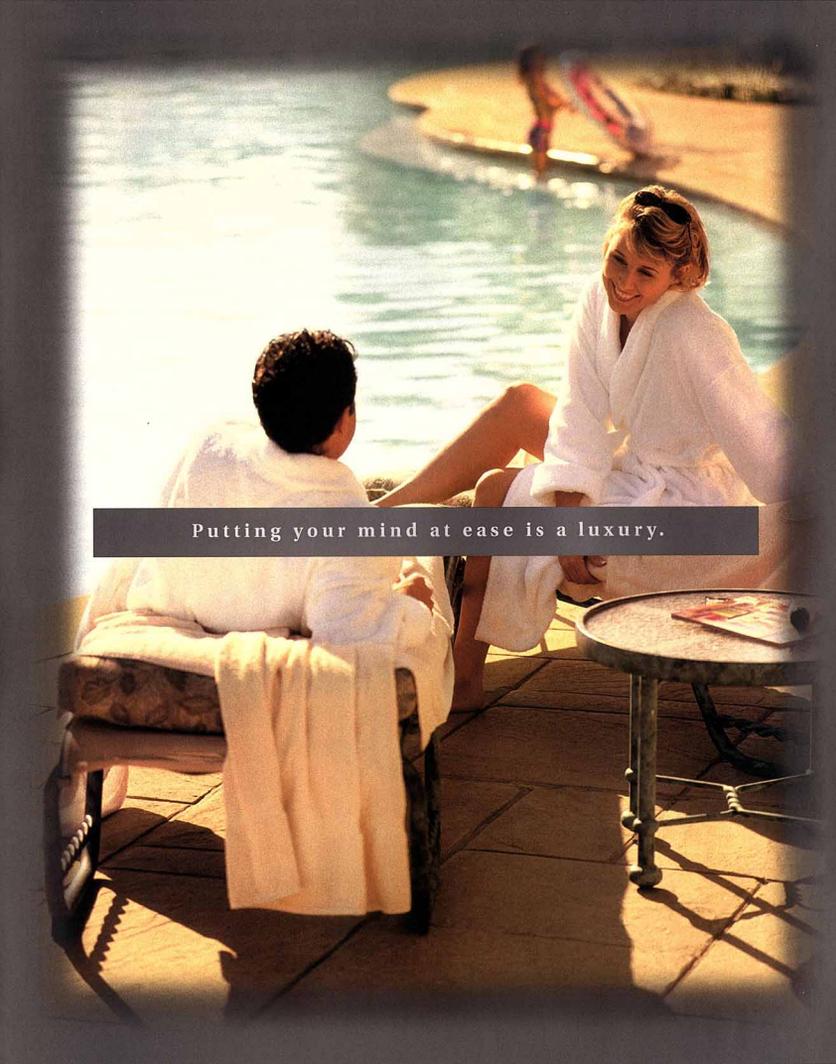

The power remote outside rearview mirrors are wider and higher than the previous model, to give you a better view of what's going on behind you. They also fold inward in case they get bumped in a car wash or tight garage.

For added confidence, the four-wheel anti-lock disc brakes help you maintain steering control and help prevent skidding on most slippery surfaces, especially during hard braking.

Lincoln LS Limited Sedan in Light Bronzemet Metallic, shown with optional Gran Touring Suspension Package and optional sunroof.

Putting your mind at ease is a luxury.

The Advanced Personal Choice memory settings (optional on Limited) allow different drivers to program their own preferences into the remote keyless entry, including seating position, lumbar and recliner adjustments and outside mirror position.

An optional trunk-mounted 12-disc CD changer is part of a wide range of available audio systems that includes the Concert Sound 11 six-speaker system (standard on Limited) and an optional combination CD/cassette player.

The optional convenience console, included with five-passenger seating, provides a writing surface, dual cup holders, auxiliary power outlets and rear-seat ComforTemp controls.

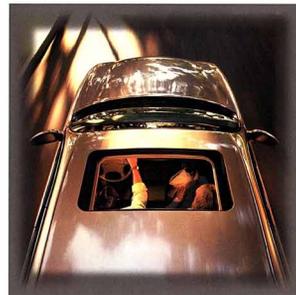

Dual automatic ComforTemp (standard on Limited) allows the driver and front passenger to select individual temperature settings and also includes bi-level controls for rear passengers.

LeSabre's idea of luxury is something that makes you feel more comfortable. The 2000 LeSabre offers a wide range of functional luxury features. The optional power sliding sunroof, for example, includes a tilt feature and a retractable sunshade. When activated, the optional rain-sensing wipers come on and adjust speed automatically as moisture hits the windshield. And the Driver Information Center (standard on Limited, optional on Custom)

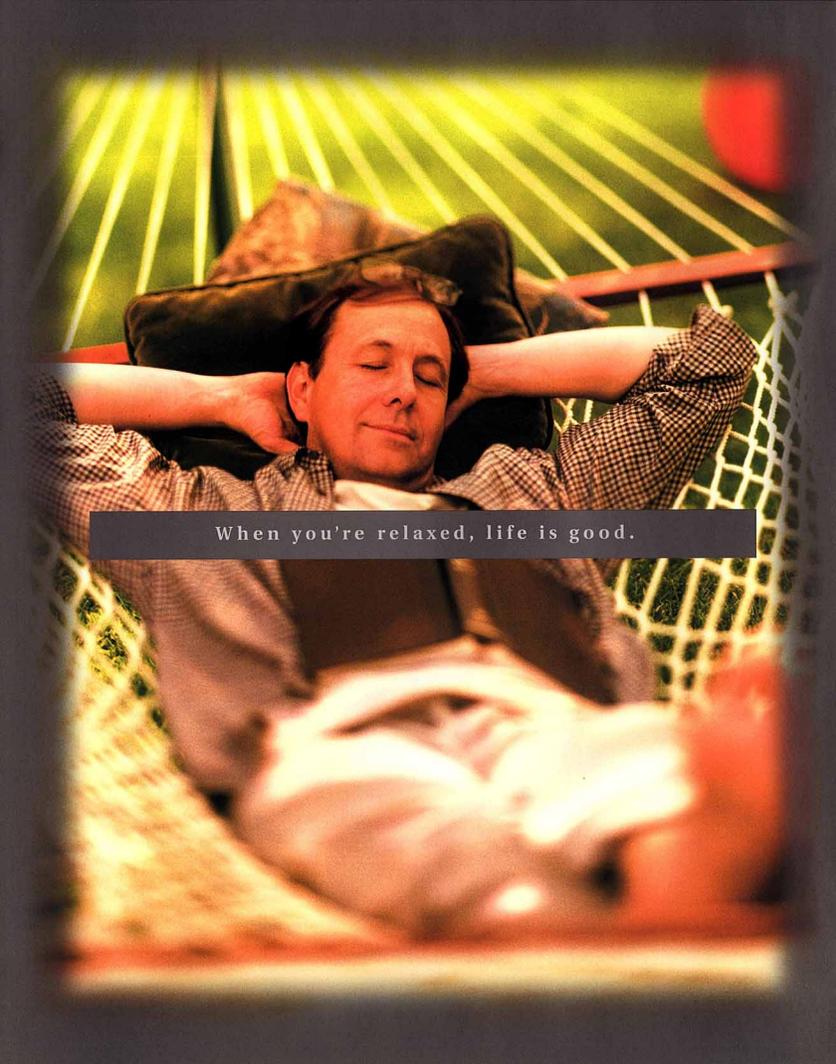

Luxury

includes a trip computer, fuel reminder and a tire inflation monitor. These are things that offer true peace of mind.

LeSabre Limited Interior in Taupe, shown with leather-trimmed seats and other optional equipment.

When you're relaxed, life is good.

Ten-way power seats for both driver and front passenger (standard on Limited) include a seat back recliner and manual lumbar adjustment, so they're supportive as well as relaxing.

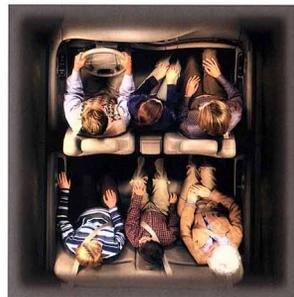

Along with the added luxury of leather-trimmed seats (optional on all LeSabre models), the inviting warmth of heated front outboard seats is standard on LeSabre Limited.

Compared to the previous generation, LeSabre's 18 cubic foot trunk is larger, has a wider opening and provides a low lift-over height, for easy loading and unloading.

The storage drawer in the instrument panel is just one of 10 different storage areas standard in the 2000 LeSabre. There are more interior storage areas than in any other full-size car, and almost as many as in some sport utility vehicles.

The 2000 LeSabre is designed to make you feel thoroughly comfortable. It has genuine

room for six passengers, and though *Comfort*

it's about the same size outside as the 1999 model, it offers noticeably more hip room front and back. The front seats have been redesigned for solid support and real accommodation. And, in addition to laboratory testing, they have been ComforTeam-tested in many miles of real-world driving. LeSabre is renowned

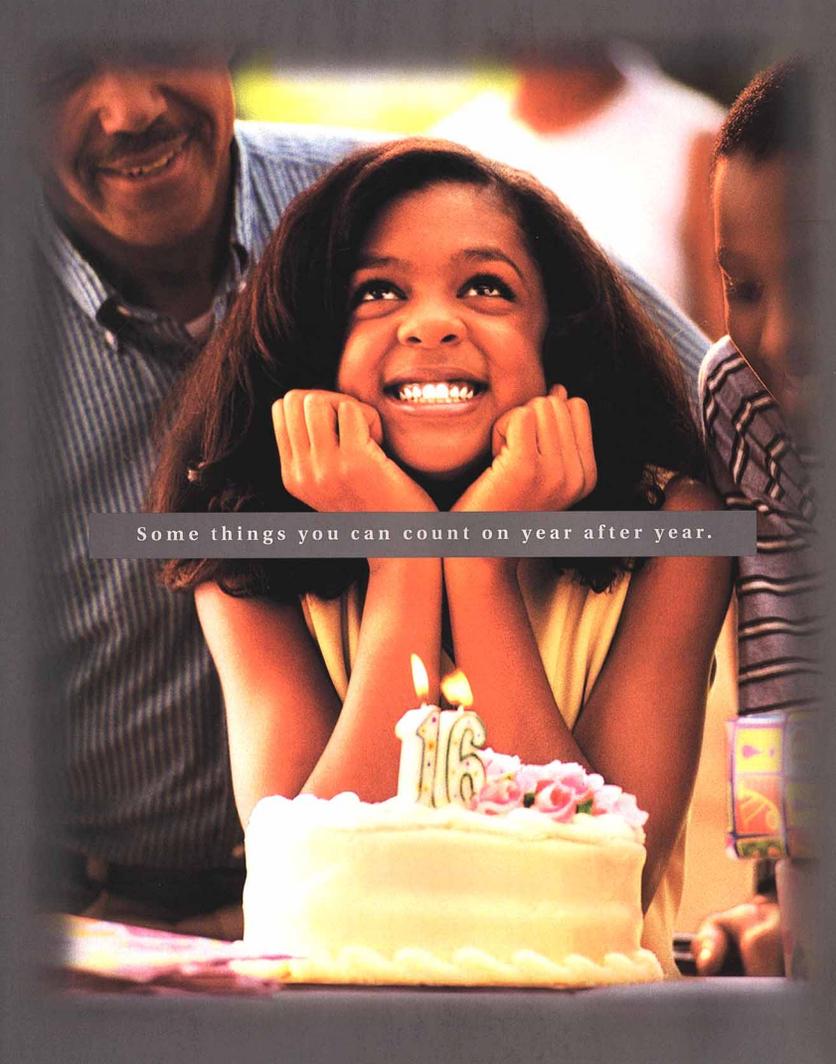

for comfort, and this is the most comfortable LeSabre ever.

LeSabre Limited driving environment in Taupe, shown with optional equipment.

LeSabre Custom Sedan in Sterling Silver Metallic, shown with optional equipment.

Some things you can count on year after year.

LeSabre achieves remarkable fuel efficiency for a full-size car — especially one with such responsive performance. It gets an EPA-estimated 19 miles per gallon in the city and 30 miles per gallon in highway driving.

*LeSabre incorporates platinum-tipped spark plugs, long-life engine fluids and other components that allow you to drive up to 100,000 miles before your first scheduled tune-up.**

*Maintenance needs vary with different uses and driving conditions. See Owner's Manual for more information.

Cruise control is standard — and the controls are conveniently located on the steering wheel, so they're easy to see and easy to operate.

Twilight Sentinel[®] automatically turns your headlights on as night falls. Other Convenience Plus features include delayed entry and exit lighting, lockout protection, Battery Run-down Protection and more.

LeSabre has a well-earned reputation for value and reliability, from its durable Custom cloth interior to its long list of standard features.

Value

The 2000 LeSabre is designed not only to maintain but to enhance that reputation. It comes standard with a diversity radio antenna for improved reception, remote keyless entry and PASS-Key[®] III theft-deterrent system, plus much more. From its chip-resistant paint to its after-sales support system, LeSabre is built for a lasting relationship. You'll be impressed — for a long, long time.

It's always nice to have a travel companion.

OnStar™ With the optional OnStar® service,

you just push a button and reach an Advisor who is always there when you need personal assistance on the road.

OnStar can call emergency service providers or roadside assistance, send a signal to unlock

your car by remote and more — over

250 service categories in all. If your air bag

is deployed, OnStar automatically sends

a call for help. OnStar can even track your

OnStar

car if it's stolen. OnStar's premium package

can also give you directions, find

an ATM or a restaurant and much more.

Simply push a button and OnStar is at your command.

Once in use, OnStar is a hands-free communication service designed to enhance your sense of security.

When you finally run low on fuel in your LeSabre, OnStar can locate the nearest service station — even if you're looking for a specific brand.

Need a hotel or motel as you travel? Prefer one with an indoor pool? One that's off the beaten path? OnStar can help.

If you're in a strange town and have a sudden urge for Italian sauces or Mexican salsas — or burgers and fries — just call OnStar.

The beginning of a long relationship.

We want you to have more than a quality automobile, we want you to have a quality ownership experience as well.

That's why Buick's Quality Plus program is standard on every 2000 LeSabre.

These are just some of its advantages:

Quality Plus Delivery. Your LeSabre will be ready to go when you pick it up, and you'll be thoroughly familiarized with its many features.

New Vehicle Limited Warranty. You're covered

Quality Plus

for 3 years/36,000 miles, whichever comes first.¹ **Courtesy Transportation.** When you come in for service, we'll give you a ride to wherever you need to go within 10 miles of the

dealership.² **Roadside Assistance.** Available 24 hours a day throughout the warranty period. **Customer Assistance.** If you have questions or need assistance, just call our

toll-free number: 1-800-4A-BUICK.

¹See your dealer for details. Excludes normal maintenance. ²See your dealer for details.

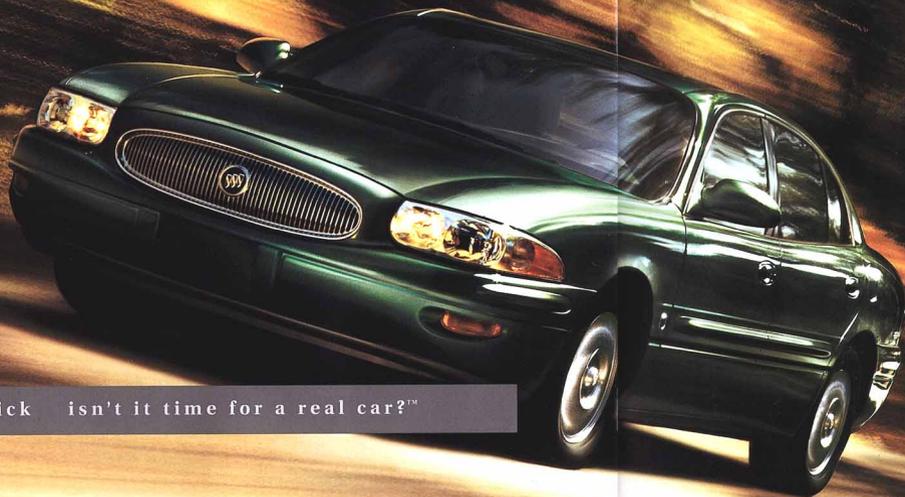

The 2000 LeSabre has so many new features, you may not be familiar with all of them. Your dealer will explain everything before you drive away.

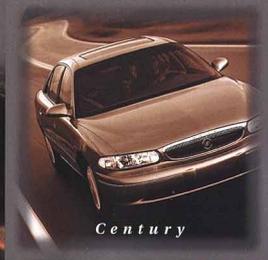

When you bring your LeSabre in for service, there's no need to arrange for someone to pick you up. Your dealer will arrange a ride to your destination.¹

LeSabre's emergency roadside assistance is available around the clock, seven days a week, for the life of your warranty.

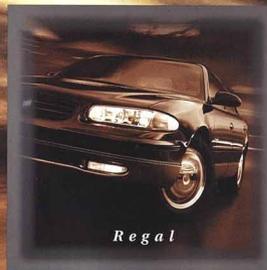

Buick isn't it time for a real car?™

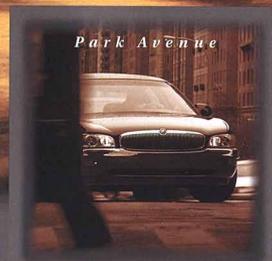

Century

At Buick, we offer real cars through and through, like the 2000 LeSabre. Cars that are solid and substantial, with more power than you may ever need. Cars that are unapologetically comfortable, with wide seats and room to stretch. Cars that are accommodating enough for your family and stylish enough for a night on the town. Buicks are designed to fulfill your desire for a thoroughly enjoyable driving experience.

real power. real comfort. real style.

Regal

Park Avenue

A word about this catalog. We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Some information may have been updated since the time of printing, so please check with your Buick dealer for complete details. Buick reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times.

Child safety. Children generally are safer if they are secured in a rear seat using the appropriate child safety seats and restraints, which is why General Motors recommends that child safety seats be properly secured in a vehicle's rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See your vehicle Owner's Manual and child safety seat instructions for more safety information.

Engines. Buicks are equipped with engines produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. **Assembly.** Buicks and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Buicks with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you. **Updated service information.**

Buick regularly sends its dealers useful service bulletins about Buick products. Buick monitors product performance in the field. We then prepare bulletins for servicing our products better. You can receive these bulletins too. Ask your dealer or, for ordering information, call 1-800-551-4123. **Warranty.** The GM 3-year/36,000-mile New Vehicle Limited Warranty covers repairs for any new Buick, including labor and parts, to correct any defects in material or workmanship occurring during the warranty period. The complete vehicle (including tires) will be covered for 3 years or 36,000 miles, whichever comes first. (Excludes normal maintenance.) See your Buick dealer for terms of this limited warranty. **The GM Card.** For information or to apply for The GM MasterCard[®], call 1-800-8GM-CARD. **SmartLease[®] by GMAC.**

For information about SmartLease or any of the other quality GMAC financing options, see your Buick dealer or call 1-800-32-SMART. **GM Mobility Program.** Buick recognizes the importance of mobility to everyone's life and, therefore, offers financial assistance to persons with disabilities through the General Motors Mobility Program. This program can provide up to \$1,000 reimbursement toward the cost of aftermarket mobility adaptive equipment for drivers or passengers. For details and free resource information, call 1-800-323-9935 (TTY users: 1-800-833-9935).
