THOSE THINGS THAT ARE...

IT IS THIS THINKING THAT INSPIRED US

TO CREATE PARK AVENUE BY BUICK...

AN AUTOMOBILE DESIGNED TO

STRIKE A PERFECT BALANCE

BETWEEN STYLE AND SUBSTANCE,

TO OFFER ENDURING QUALITY

AND... *luxury,*

pure and simple.

Confident...

IN VIRTUALLY ANY SITUATION

FIRST CAME ANTI-LOCK BRAKES, THEN TRACTION CONTROL.

NOW, WITH THE *StabiliTrak*® SYSTEM,*

PARK AVENUE TAKES DRIVER CONTROL TO THE NEXT LEVEL.

WHEN TURNING ON SLIPPERY SURFACES OR IN

EMERGENCY SITUATIONS — SUCH AS AN UNEXPECTED

OBSTACLE IN THE ROAD OR EVEN A SUDDEN STRONG

GUST OF WIND — *StabiliTrak* IMMEDIATELY

REACTS TO ACTIVELY HELP KEEP YOU ON YOUR

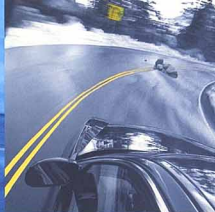

INTENDED COURSE. PARK AVENUE'S HIGHLY ADVANCED

StabiliTrak chassis control system

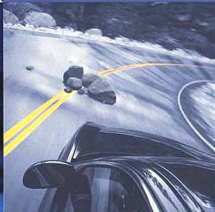

WORKS SMOOTHLY AND NATURALLY BEHIND THE

SCENES — AND YOU'RE CERTAIN TO APPRECIATE

THE ADDED CONFIDENCE IT OFFERS.

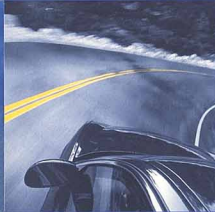

StabiliTrak's sensors — located strategically throughout your Park Avenue — are constantly at work, monitoring your vehicle's stability.

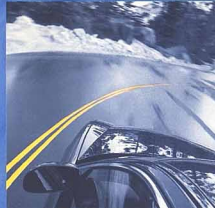

When you begin an emergency maneuver, the sensors immediately detect what's happening and send readings to the computer.

The computer compares the steering wheel angle reading (the direction you wish to go) with the yaw rate sensor reading (the direction your vehicle is actually turning) and takes corrective action by...

...gently applying the front brakes individually. If you are going off course to the right, for example, the left-front brake is applied.

StabiliTrak uses the brakes to enhance your control of the vehicle's direction and help keep you on course.

Reserved...

BUT HIGHLY AUTHORITATIVE

IN PARK AVENUE, YOU EXPERIENCE A REMARKABLY

quiet interior environment,

A NOTABLY SMOOTH AND GRACEFUL RIDE AND FLUID,

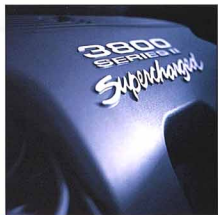

NEARLY effortless handling. YET

EVEN WITH ITS RESERVED DEMEANOR, PARK AVENUE

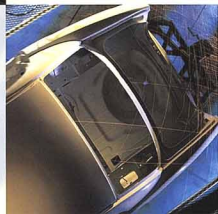

DISPLAYS QUIET BUT *unwavering power* —

RESPONDING READILY TO YOUR EVERY COMMAND.

Park Avenue's refined 3800 Series 11 V6 provides 205 horsepower, while the supercharged version (standard on Ultra) delivers an impressive 240. Both offer ample power on command.

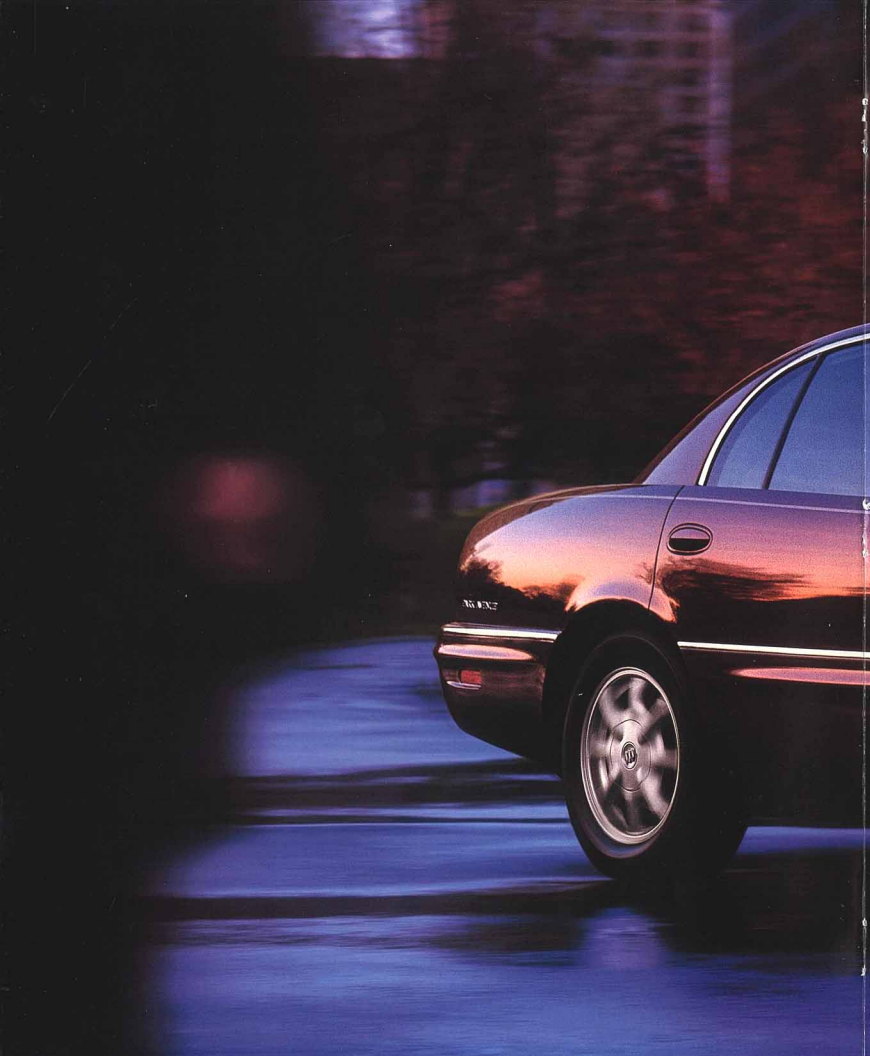

The inviting quietness is the result of many elements, including triple door seals, flush-mounted door handles, an abundance of sound-deadening materials and a very rigid body structure.

Park Avenue's rigid unitized body structure also contributes to a reassuring sense of solidity, stability and predictable, surefooted control.

PHOTOGRAPHY BY [unreadable]

IT IS IMMENSELY SATISFYING
WHEN EVERYTHING YOU NEED AND

everything you want...

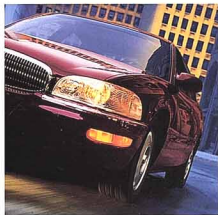

...COME HARMONIOUSLY TOGETHER.

Park Avenue in Medium Red Pearl, shown with optional equipment.

Full-range traction control ingeniously detects drive-wheel slippage at any speed and automatically reduces torque and modulates the brakes until you regain a better grip on the road.¹

In addition to front air bags, Park Avenue also includes dual front side air bags for added safety.² And please, always use your safety belts.

The tire inflation monitoring system automatically alerts you when one of the tires contains less air pressure than the other three.³

FROM ITS STRONG STEEL SAFETY CAGE TO ITS SIDE DOOR

BEAMS, PARK AVENUE IS ENGINEERED TO PROVIDE

YOU WITH A SENSE OF SECURITY AND CONFIDENCE.

THE WIDE ARRAY OF STANDARD SAFETY FEATURES

INCLUDES *four-wheel anti-lock disc brakes,*

UPPER CHILD SEAT ANCHORS AND ARTICULATING,

FOUR-WAY FRONT HEAD RESTRAINTS. WHEN PARK AVENUE'S

ABS AND TRACTION CONTROL⁴ ARE ENHANCED

WITH THE *StabiliTrak*

SYSTEM,⁵ YOU FEEL EVEN

MORE ASSURED — IN VIRTUALLY

ANY DRIVING SITUATION.

Reassuring...

WHEN CIRCUMSTANCES THREATEN

¹Standard on Ultra, optional on Park Avenue.
²Always use safety belts and proper child restraints, even with air bags.
³Children are safer when properly secured in a rear seat. Front side air bags help reduce the risk of certain injuries to front seat occupants in side impacts. See the Owner's Manual for more safety information.

THOUGHTFUL, CONVENIENT FEATURES ARE A HALLMARK

OF PARK AVENUE'S DESIGN. THE OPTIONAL

EyeCue® Head-up Windshield Display,

FOR EXAMPLE, PROVIDES A RANGE OF KEY

INFORMATION WHILE YOU KEEP YOUR EYES ON THE ROAD.

THE ELECTROCHROMIC INSIDE REARVIEW MIRROR

HELPS REDUCE GLARE BEHIND YOU.* A rear-seat

pass-through, REMOTE TRUNK RELEASE

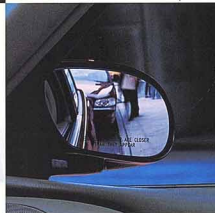

AND AN AIR FILTRATION SYSTEM

ARE ALL STANDARD.

*When set at the Delay position, the rain-sensing wipers activate automatically as moisture hits the windshield — and they increase their speed as the amount of moisture increases.**

When you use the remote keyless entry to open the doors, the perimeter lighting system is activated, illuminating Park Avenue's exterior and interior lights simultaneously.

*When in reverse, the parallel park assist can be programmed to automatically adjust the outside passenger mirror to provide the driver with a clear view of the curb area.**

*Standard on Ultra, optional on Park Avenue.

A word about this catalog We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Some information may have been updated since the time of printing, so please check with your Buick dealer for complete details. Buick reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times.

Child safety Children generally are safer if they are secured in a rear seat using the appropriate child safety seats and restraints, which is why General Motors recommends that child safety seats be properly secured in a vehicle's rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See your vehicle Owner's Manual and child safety seat instructions for more safety information.

Engines Buicks are equipped with engines produced by different operating units of GM, its subsidiaries or suppliers to GM worldwide.

Assembly Buicks and their components are assembled by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Buicks with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

Updated service information Buick regularly sends its dealers useful service bulletins about Buick products. Buick monitors product performance in the field. We then prepare bulletins for servicing our products better. You can receive these bulletins too. Ask your dealer or, for ordering information, call 1-800-551-4123.

Warranty The GM 3-year/56,000-mile New Vehicle Limited Warranty covers repairs for any new Buick, including labor and parts, to correct any defects in material or workmanship occurring during the warranty period. The complete vehicle (including tires) will be covered for 3 years or 56,000 miles, whichever comes first. (Excludes normal maintenance.) See your Buick dealer for terms of this limited warranty.

The GM Card® For information or to apply for The GM MasterCard® call 1-800-8GM-CARD.

SmartLease® by GMAC® For information about SmartLease or any of the other quality GMAC financing options, see your Buick dealer or call 1-800-52-SMART.

GM Mobility Program™ Buick recognizes the importance of mobility to everyone's life and, therefore, offers financial assistance to persons with disabilities through the General Motors Mobility Program. This program can provide up to \$1,000 reimbursement toward the cost of aftermarket mobility adaptive equipment for drivers or passengers.
