THE AVIATOR GIVES YOU THE CHOICE OF STANDARD BUCKET OR AVAILABLE 40/20/40 BENCH SEATING IN THE SECOND ROW, PROVIDING ROOM FOR SIX OR SEVEN PASSENGERS, RESPECTIVELY. THE STANDARD THIRD-ROW BENCH SEAT ALSO FOLDS DOWN FLAT FOR ADDED CARGO SPACE.

An available Rear Seat Entertainment
System with DVD player will help keep
your rear seat passengers entertained
while you stay focused on the road ahead.
This includes a ceiling-mounted, flip-down
7-inch color LCD screen with independent
volume and power controls, two wireless
headphones, and a remote control.

Unable to find your keys? Have you locked your keys in your vehicle? No problem. The 2003 Lincoln Aviator is equipped with a stylish and functional programmable keypad located on the driver's side door. Keyless entry is made possible with a personalized identification number that you can easily set and reprogram as needed.

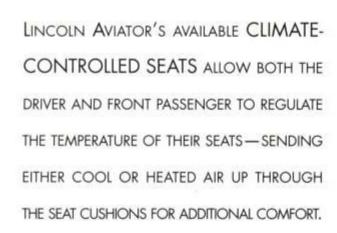

Luxury extends into the Aviator's back seats with independent fan and temperature controls for the auxiliary climate control system. And with the available 40/20/40 second-row bench seat, rear-seat passengers can access cupholders contained within the front console unit.

AVIATOR'S POWERFUL, RESPONSIVE 4.6-LITER 32-VALVE DOHC INTECHTM V8 ENGINE DELIVERS AN IMPRESSIVE 300 LB.-FT. OF TORQUE AND UP TO 7,300 LBS. OF TOWING CAPACITY, WHILE STILL QUALIFYING AS A LOW EMISSIONS VEHICLE (LEV) NATIONWIDE.

AN AUTOMATIC 5-SPEED OVERDRIVE TRANSMISSION HELPS ACCENTUATE AVIATOR'S POWERFUL, BEST IN CLASS 302-HORSEPOWER ENGINE. AND THE DYNAMIC TORQUE CONVERTER OFFERS A STRONG PERFORMANCE FEEL, QUICK STARTS AND RESPONSIVE ACCELERATION.

AVIATOR'S FOUR-WHEEL INDEPENDENT
SUSPENSION WITH COIL SPRINGS AND
MONOTUBE SHOCK ABSORBERS PROVIDE
HEIGHTENED PERFORMANCE TO HELP ENSURE
A SMOOTH RIDE AND RESPONSIVE HANDLING.

Of course, the Aviator comes with convenient and very intuitive center-stacked Audio and Dual Zone

Electronic Automatic Temperature

Controls that allow the driver and front passenger easy access to the stereo, as well as the ability to enjoy different temperature settings.

Do you like fresh air? Do you like the sun?

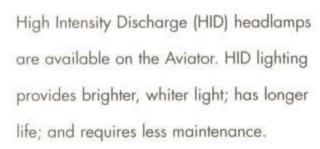

Then may we suggest the power moonroof, available on the Lincoln Aviator. Open the moonroof with a touch of a button, located on the overhead console, for easy access to the sun, the moon, and the stars.

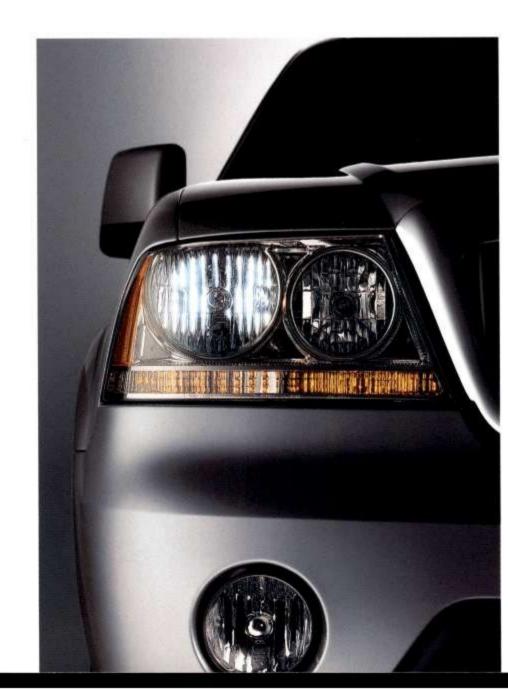

STORAGE SPACE, THE LINCOLN AVIATOR
WAS DESIGNED WITH CONVENIENT STORAGE
COMPARTMENTS ON THE DOOR TRIM
OF ALL FOUR DOORS. THE FRONT-ROW
COMPARTMENTS ARE RETRACTING AND
CAN EASILY ACCOMMODATE CDS, MAPS,
BOOKS, AND OTHER SMALL ITEMS. IN
ADDITION, THE FRONT-ROW DOOR ARMRESTS
ALSO OPEN UP TO REVEAL STORAGE BINS
THAT CAN HOLD SUNGLASSES AND CELL
PHONE ACCESSORIES, TO NAME A FEW.

For a feeling of elegance, the Aviator has been equipped with a handsome, genuine leather-trimmed and woodgrained steering wheel. The steering wheel also includes speed control, duplicate audio and climate controls, and a tilt feature, which allows the driver to position the wheel to perfectly meet his or her individual needs.

THE PERSONAL SAFETY SYSTEM,
STANDARD WITH AVIATOR, IS A COMPREHENSIVE
DRIVER AND FRONT-SEAT PASSENGER RESTRAINT
PACKAGE. THIS SYSTEM INCLUDES DUAL-STAGE
DRIVER AND FRONT PASSENGER AIRBAGS¹,
FRONT SAFETY BELT PRETENSIONERS, FRONT
ENERGY-MANAGEMENT SAFETY BELT RETRACTORS THAT HELP REDUCE THE FORCE OF THE
BELTS ON THE OCCUPANTS' CHESTS, AND
FRONT CRASH SEVERITY AND DRIVER'S SEAT
POSITION SENSORS WHICH TAILOR AIRBAG
DEPLOYMENT FOR A VARIETY OF FRONTIMPACT SITUATIONS AND HELP ENHANCE
OCCUPANT PROTECTION AND SAFETY.

ALWAYS WEAR YOUR SAFETY BELTS AND SECURE CHILDREN IN THE REAR SEAT.

AN AVAILABLE PREMIUM SOUND SYSTEM WITH AM/FM STEREO AND 6-DISC IN-DASH CD SYSTEM USES SEVEN SPEAKERS, INCLUDING AN 8-INCH SUBWOOFER, TO CREATE PRECISE, CRISP SOUND REPRODUCTION. TO ENHANCE THE VERSATILITY OF YOUR AUDIO SYSTEM, THE PERSONAL AUDIO SYSTEM (INCLUDED WITH THE AVAILABLE REAR SEAT ENTERTAINMENT SYSTEM) IS A FEATURE THAT ALLOWS INDEPENDENT LISTENING TO DIFFERENT AUDIO SOURCES. SO WHEN HEADPHONES ARE USED IN THE REAR SEAT, FOR EXAMPLE, FRONT AND REAR SEAT PASSENGERS CAN CHOOSE TO LISTEN TO THE SAME AUDIO SOURCE OR CHOOSE DIFFERENT SOURCES.

The Aviator comes standard with large color-keyed folding exterior mirrors.

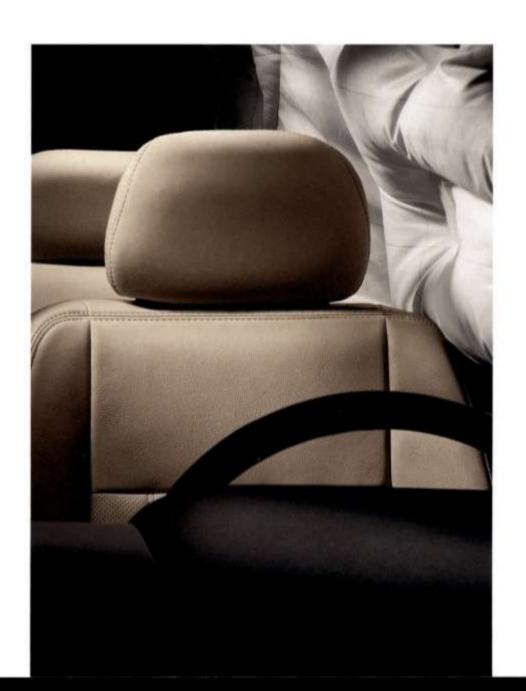

The electronically controlled mirrors automatically heat up to quickly melt ice and snow. They also house prominent turn signals, and security approach lamps, and include a reverse tilt feature. And, of course, the mirrors can be programmed to remember your preferred settings.

Because drivers come in varying sizes and stature, the Aviator is equipped with power-adjustable brake and accelerator pedals. Traveling up to three inches, these pedals allow you to assume a comfortable driving position, while maintaining a safe distance from the steering wheel in the event of airbag deployment.

WHEN BACKING UP, THE AVIATOR DRIVER
WILL BENEFIT FROM THE ADDED CONVENIENCE
OF STANDARD REAR PARK ASSIST.
THIS FEATURE SOUNDS A CLEARLY AUDIBLE
WARNING SIGNAL, WHICH INCREASES IN
INTENSITY AS AN OBJECT IS APPROACHED,
ALERTING THE DRIVER TO USE EXTRA CAUTION.

THE AVIATOR IS EQUIPPED WITH A SPEEDSENSITIVE, VARIABLE-ASSIST RACKAND-PINION STEERING SYSTEM.
THIS REDUCES THE EFFORT REQUIRED FOR
PARKING AND LOW-SPEED MANEUVERS.
AT HIGHWAY SPEEDS, POWER ASSIST IS
MINIMAL, WHICH HELPS DRIVER CONTROL
WHILE INCREASING DRIVING CONFIDENCE.

The standard side-impact curtain¹ airbags, as part of the Safety Canopy™ system, offer another level of safety and security. When used with properly worn safety belts, they provide the driver and front passenger and second-row outboard passengers with added protection in certain side collisions. ¹ Always wear your safety belt and secure children

in the rear seat.
