HERE'S THE INFORMATION YOU REQUESTED.

#### Thank you for your interest in the all-new Ford Freestar.

It's easily the most versatile minivan out there. Why? Because we built Freestar with real-life demands in mind. From the 3rd-row Tailgate Bench Seat™ to more than 10 convenient storage spots, Freestar has what it needs to adapt. Looking for a vehicle that protects your family first and foremost? Then Freestar has you covered. It's not only our safest minivan ever, it also offers more safety and security features than any of its competitors — like the optional Safety Canopy™ System.

Can't wait to drive one? The experience is closer than you think. You have been pre-approved for credit, up to the amount listed below. We've included the location of your local Ford Dealer, as well as current offers you can use toward a new Ford Freestar. To take advantage of your pre-approval and the other offers listed, simply bring in your brochure to this dealer or any Ford Dealer you wish. One test-drive and you'll discover just how versatile Freestar is.

You have been pre-approved by Ford Credit and your local Ford Dealer for \$35,000.\* Offer expires 1/15/04.

\*Pre-approved credit is subject to the following conditions: All of your Ford Credit accounts, if any, must be in good standing, and your income must be sufficient to cover normal living expenses and your vehicle payment at the time of transaction. For new vehicles, the pre-approved amount applies to the manufacturer's suggested retail price (MSRP). If you have any questions regarding your pre-approval credit offer, just call Program Headquarters at 1-800-235-5346. Please note that information contained in your credit record was used to generate your name for this offer. The offer of credit was extended because you met the credit criteria established by Ford Motor Credit Company. The credit offer may be withdrawn if it is found that you no longer meet the established credit criteria. You have the right to notify any credit bureau that you do not wish to have information from your credit report used in future offerings involving pre-approved credit. # Last row or first? We're flexible.

The all-new 2004 Ford Freestar comes packed with over 100 innovations engineered to suit any lifestyle – like a 3rd-row seat that changes at your whim. Simply pull a lever and it reverses into a rear-facing bench, aptly named the 3rd-row Tailgate Bench Seat.™ Perfect for camping, sideline cheering and, well, of course, tailgating.\* Its head restraints have been integrated into the seat so there's no need to remove them before folding it totally flat into the floor. And when the second-row seats are removed, an unbelievable 134 cu. ft. of cargo space is there for the loading. So, whether you're watching the second half or just packing it in, Freestar has the amazing ability to adapt to whatever life requires.

\*3rd-row Tailgate Bench Seat™ should be changed and used only when vehicle is stopped and in park.

Rear-facing third-row seat is not intended for passenger seating while vehicle is in motion.

The innovative 3rd-row Tailgate Bench Seat™

dual-bin storage pockets in each front door. 4 You'll be hard-pressed to find a more flexible interior. Or, inviting for that matter. From the optional leather-trimmed seats to the four easy-to-read instrument panel gauges to the choice of a single CD or 6-disc in-dash CD player, Freestar has everything you need for a day of traveling or a trip around the block.

## The extra mile.

The first time you get into a Freestar, you'll probably be impressed with its flexible interior. Or the many places where you can stow and tuck your belongings. But the more you get in it, the more you'll discover how many conveniences it has to offer. There's the available Reverse Sensing System that uses ultrasonic sensors to detect objects behind the vehicle. The closer you get, the quicker the alert tone beeps. And available power adjustable pedals make it easy to find the most comfortable driving position for your height. You can even keep passengers content with the tri-zone climate controls that allow driver, front and rear passengers to adjust the temperature to their liking. But keep looking. You're sure to find something else you didn't know about Freestar.

### Ford Freestar vs. Dodge Grand Caravan

The all-new Freestar has a lot going for it – including something the Dodge Grand Caravan does not, the innovative 3rd-row Tailgate Bench Seat.™ But that's not the only difference. Freestar also offers the largest engine available in a minivan – the new 4.2L V6 which delivers best-in-class torque so you can breeze down the road. Take a look and see how Ford Freestar stacks up against the Dodge Grand Caravan in other areas. Then experience the real thing with a test-drive. And for even more comparisons, visit www.fordvehicles.com.

This automatic dimming rearview mirror adjusts whenever glare is detected and comes with a built-in compass. The mirror is available with or without outside temperature readings.

The Yakima® Load Warrior bike rack and sport box combination makes it easy to go from extra storage up top to a day on the trail. Its weather-resistant, heavy-duty steel construction provides lightweight durability and fits easily on your factory roof rack. Includes cargo stretch net.

The Rear Seat DVD Entertainment System features a flip-down seven-inch LCD screen that folds into the headliner when not in use. Comes with remote control and two wireless headphones.

## Our safest minivan ever.

How did we do it? By offering more safety and security features than any other minivan. First, there's the available, and patented, Safety Canopy™ System. It features a segment-exclusive rollover sensor, side curtain airbags and first-row side impact airbags\* The side curtain airbags deploy from the headliner on both sides to cover all three rows and stay inflated longer than other airbags. As a result, this system is among the best types of protection a minivan could offer.

Then we made improvements to the design of the minivan itself. By unitizing body construction, we created a "safety cell" that features front structural rails specially designed to help transfer and dissipate the energy of an impact. Add to that the impressive, and standard, Personal Safety System™ with technologies that include sensors to calculate the driver's seat position relative to the steering wheel, set the proper level of airbag inflation and not only recognize safety belt use, but also the severity of the crash.

And finally, we made a priceless sense of security available by offering the AdvanceTrac™ Electronic Stability Enhancement System. This system uses advanced sensors to monitor driving input and vehicle responses. That way, in certain understeer or oversteer situations, it can make braking and throttle adjustments to help correct vehicle direction. One more reason Freestar can be considered our safest minivan ever.

\*Always wear your safety belt and secure children in the rear seat.
