

NAVIGATOR 2004

LINCOLN

Shown on cover: Navigator Ultimate in Silver Birch Metallic with available 8-spoke chrome aluminum wheels and power running boards.

A S Y O U L I K E I T .

LUXURY WITH A PURPOSE To create a sanctuary of craftsmanship and comfort, Lincoln utilizes only the finest materials. Premium leather surrounds passengers, while rich, American walnut burl wood and satin-nickel accents grace the cabin. Fine, white LED lighting creates an elegant ambience. For exceptional comfort, class-exclusive* heated and cooled front seats are standard on Navigator Ultimate. Seating for 7 people includes glove-soft leather-trimmed captain's chairs in the 1st and 2nd rows. To increase capacity to 8 passengers, choose the flexible 40/20/40 2nd row.

POWER FULL AMENITIES Navigator's class-exclusive* power features provide the effortless versatility that distinguishes this luxury SUV. Consider Navigator Ultimate's standard power liftgate. Simply press a button on the key fob or front overhead console, and the liftgate raises and lowers on its own. Available power running boards offer you and your passengers an extra boost into the cabin. They glide out when a door is opened and retract when the door is closed. And the power-folding 3rd-row seats, standard on Navigator Ultimate, disappear at the touch of a button to create a flat loadfloor.

STAY ON TRACK Navigator's AdvanceTrac® Electronic Stability Enhancement System** automatically provides more control in slick conditions. In certain understeer or oversteer situations, AdvanceTrac adjusts braking, traction control and engine output to correct vehicle direction to better follow steering input. The system's Roll Stability Control utilizes gyroscopic sensors to help the driver maintain control during an obstacle-avoidance maneuver and reduces the likelihood of a rollover event. Standard on Ultimate, available on Luxury.

*Full-size Luxury SUV. **Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions. When AdvanceTrac engages, it is an indication that at least some of the tires have exceeded their ability to grip the road.

THERE ARE THOSE WHO TRAVEL, AND THOSE WHO TRAVEL WELL.

KEY STANDARD EQUIPMENT

NAVIGATOR LUXURY

PERFORMANCE

Brakes - power 4-wheel disc with Anti-lock Brake System, Electronic Brake Force Distribution and Brake Assist

Cooling System - fail-safe
