

2002 BUICK PARK AVENUE

There's an old saying
that still waters run deep.

Not to mention,
smoothly, powerfully and luxuriously.

*S*peak softly
and carry a supercharged V6.

Park Avenue Ultra in Ming Blue Metallic, shown with available equipment. Supercharged V6 on Ultra only.

*B*ecause living well
is the best reward.

Park Avenue in White Diamond, shown with available equipment.

A high-angle, close-up photograph of the front interior of a luxury car. The seats are upholstered in a rich, tan leather with deep stitching and a quilted pattern. The driver's seat is on the right, and the passenger seat is on the left. A steering wheel with a similar leather finish is visible on the right side of the frame. The dashboard and center console are partially visible, featuring wood-grain trim. The lighting is dramatic, highlighting the texture of the leather and creating a sense of depth and luxury. A small bouquet of orange roses is placed on the passenger seat.

A little slice of heaven,
right here on earth.

Park Avenue Ultra interior in Taupe, shown with available equipment.

Take a seat.

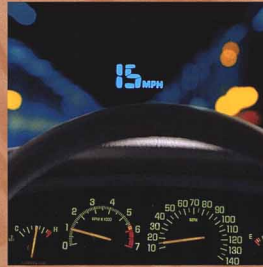

Welcome to Park Avenue. A quiet, sophisticated corner of the world where elegance is the norm and "more" simply never goes out of style. Where the scent of leather mixes easily with authoritative power. Where advanced technology exists in harmony with timeless values. And where we've reserved a place for you — in the most comfortable seat, naturally.

Steering wheel audio and temperature controls* allow you to adjust your radio or temperature setting without taking your hands off the wheel. The Driver Information Center* provides instant and average fuel economy, range and fuel used, and low tire pressure warning. It also allows you to program in your own personal features such as automatic door locks and interior and exterior lighting functions.

The automatic-dimming inside rearview mirror* helps reduce glare behind you. It also houses a compass with digital readout. When you use the remote keyless entry to open the doors, the perimeter lighting system is activated, illuminating the exterior and interior lights simultaneously.

*Standard on Ultra, available on Park Avenue. **Ultra only.

The available EyeCue® HEAD-UP WINDSHIELD DISPLAY projects a wide array of information directly in front of you, including current speed, turn signal operation, high beam status, low fuel warning and more. All helping you to keep your eyes on the road ahead. When set in the delay position, the MOISTURE-SENSING WIPERS* activate automatically as moisture hits the windshield, and increase their speed as the amount of moisture increases.

There's a great deal to absorb.

Exterior lines that suggest both power and refinement. Interior surfaces and seating areas that blend with ergonomic precision. Park Avenue's philosophy has always been dramatic in its simplicity: Provide drivers and passengers with everything they could want — luxury, room, performance and technology — without needless embellishment. Have we succeeded in our mission? You be the judge.

HEATED FRONT SEATS* help take the sting out of cold weather. PERSONAL CHOICE MEMORY SETTINGS* automatically adjust seat and outside mirror positions, lumbar support, climate control, and radio station settings for two different drivers. Taking care of business is easier than ever with Ultra's available CONVENIENCE CONSOLE. It includes a writing surface and auxiliary power outlets. The courtesy of helping your passengers look good is extended with the REAR-SEAT LIGHTED VANITY MIRRORS* that light automatically when opened.

For those who want everything.

To say Park Avenue offers a great number of amenities would be a definite understatement. Inside, you'll find more than enough to satisfy the toughest critic. The luxurious, available ten-way power seats with four-way lumbar support, trimmed in leather, beckon you to take your place behind the wheel. The superb clarity of all of Park Avenue's audio systems will please the most demanding audiophile. And the convenience and comfort found throughout its new Southern Walnut-trimmed cabin will make even the longest journeys pass more easily.

The superb fidelity of the AM/FM stereo/cassette/CD player* is enhanced by the nine-speaker Concert Sound III system†.

Everything is great.

Park Avenue is a beautiful example of what happens when you design a vehicle with a purpose — to make every ride, mile and moment spent in it more enjoyable. In fact, everything about this car is meant to give you, well...everything. That extends beyond the obvious — comfort and luxury — to touches you won't find in many cars. Such as a tire inflation monitor* that helps to inform you if one of your tires is low on air as you drive. And an air filtration system that helps filter pollen and dust before it has a chance to reach you.

Should you wish to commune more closely with the great outdoors, the available POWER GLASS SUNROOF slides and tilts, and also includes a power sunshade.

You like things on the cool side but your front-seat passenger likes it warm? The automatic dual zone climate control allows you both to adjust inside temperatures to suit your style. Rear-seat passengers can adjust their air flow with the rear-seat outlet controls.

The available ultrasonic rear park assist system utilizes sonar waves to help identify how close you are to a parked vehicle or certain stationary objects at least ten inches high when you're in reverse. Visual and audio alerts are designed to bring you safely to within one foot of the obstacle.

A M E N I T I E S

*Standard on Ultra, available on Park Avenue.

T True luxury never
goes out of style.

Park Avenue Ultra in Sterling Silver Metallic, shown with available equipment.

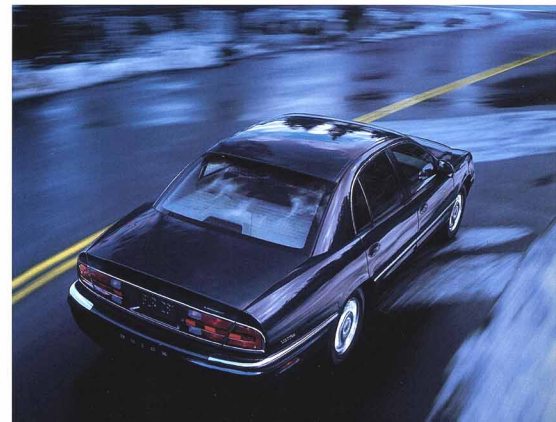

StabiliTrak means confidence.

If you think Park Avenue is only about luxury and comfort, allow us to put the brakes to that thought. It's also about impressive control, courtesy of StabiliTrak®. When turning on slippery surfaces or in emergency situations — such as an unexpected obstacle in the road, or even a sudden gust of wind — StabiliTrak immediately reacts to actively help keep you on course. Your passengers may never feel Park Avenue's StabiliTrak chassis control system at work, but you're certain to appreciate the added confidence it offers.

Control you can count on.

StabiliTrak sensors, strategically located throughout Park Avenue, are constantly at work to assure that you're traveling on your intended course. In an emergency, StabiliTrak's sensors detect any difference between the steering wheel angle and the direction you are actually turning. It immediately takes corrective action by applying either the right or left front brake, as necessary, to help bring the vehicle back under control.

In addition to StabiliTrak, Park Avenue also offers full-range traction control.* Encountering a wheelspin-inducing patch of ice or slippery spot on the road as you begin to pull away or drive along, signals the full-range traction control system to go to work, reducing power and modulating the front brakes until you regain full traction.

C O N F I D E N C E

Luxury at every turn.

When you experience the power and control lurking within Park Avenue, it will be obvious that "highly refined" does not have to mean "highly reserved." Indeed, the modern approach to the luxury car mandates performance be a top priority, so real-world maneuvers like merging onto freeways are accomplished with little effort. And if you can have a little fun doing so, all the better.

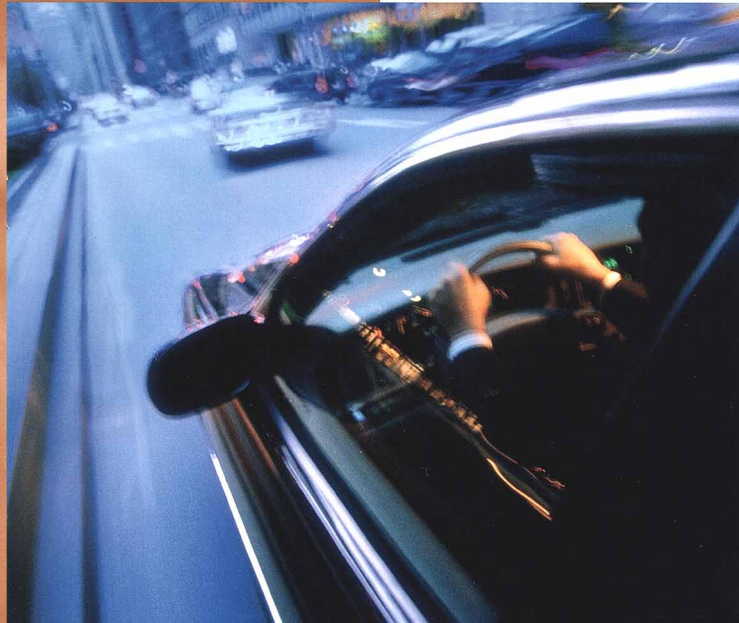

FOUR-WHEEL DISC BRAKES are designed to help stop a vehicle surely and securely. **ANTI-LOCK BRAKES** help you retain steering control during hard braking. Naturally, we've combined both of these features in every Park Avenue. The available **GRAN TOURING SUSPENSION** includes specific 16" Gran Touring aluminum wheels, performance tires and dealer-programmable magnetic variable-effort steering. It all combines to offer impressive handling and road feel to the driver. The **REAR LEVEL CONTROL** system automatically levels the rear of the vehicle when heavy loads are carried in the trunk.

Ultra's **SUPERCHARGED 3800 V6** powerplant seamlessly delivers 240 horsepower at your command without any of the lag sometimes associated with turbocharged engines.

Performance you can grade on a curve.

When the road takes an S-turn for the better, Park Avenue is ready to take advantage of the situation. It offers a 205-horsepower 3800 Series II V6 — rated one of the 10 Best Engines of the 20th Century.** Ultra goes a step further with its 240-hp, supercharged V6. All this performance is harnessed by four-wheel anti-lock disc brakes and an available Gran Touring suspension.

When you're pulling into a parking spot, you don't want your steering to feel heavy. When you're at speed on the highway, you don't want your steering to feel too light. That's the idea behind Park Avenue's magnetic variable-effort steering: It automatically adjusts the "weight" of the power steering depending on your speed.

Park Avenue's rigid unitized body structure also contributes to a reassuring sense of solidity, stability and predictable, sure-footed control. Park Avenue is remarkably quiet, due in no small part to its triple door seals, flush-mounted door handles and abundance of sound-deadening materials.

*Standard on Ultra, available on Park Avenue.
**Ward's AutoWorld, January 2000.

Elegance
without the extraneous.

Park Avenue in Medium Red Pearl, shown with available equipment.

Cutting-edge technology. Personal service, no matter where you are. An unparalleled level of security and information services. When you have OnStar® onboard, you have one of the world's most advanced mobile satellite/cellular communications networks at your command. Plus, a wide variety of special service and calling plans to choose from makes OnStar even more valuable and indispensable to you, now and down the road. For more information, call 1-800-ONSTAR-7 or visit www.onstar.com.

With OnStar's Safety and Security Plan[†] a touch of a button immediately connects you with an OnStar Advisor, who can contact emergency service providers 24 hours a day. If your car is stolen, OnStar can track it. Lock your keys inside and OnStar can unlock your doors, just about anywhere. It can even diagnose an engine problem as you drive.

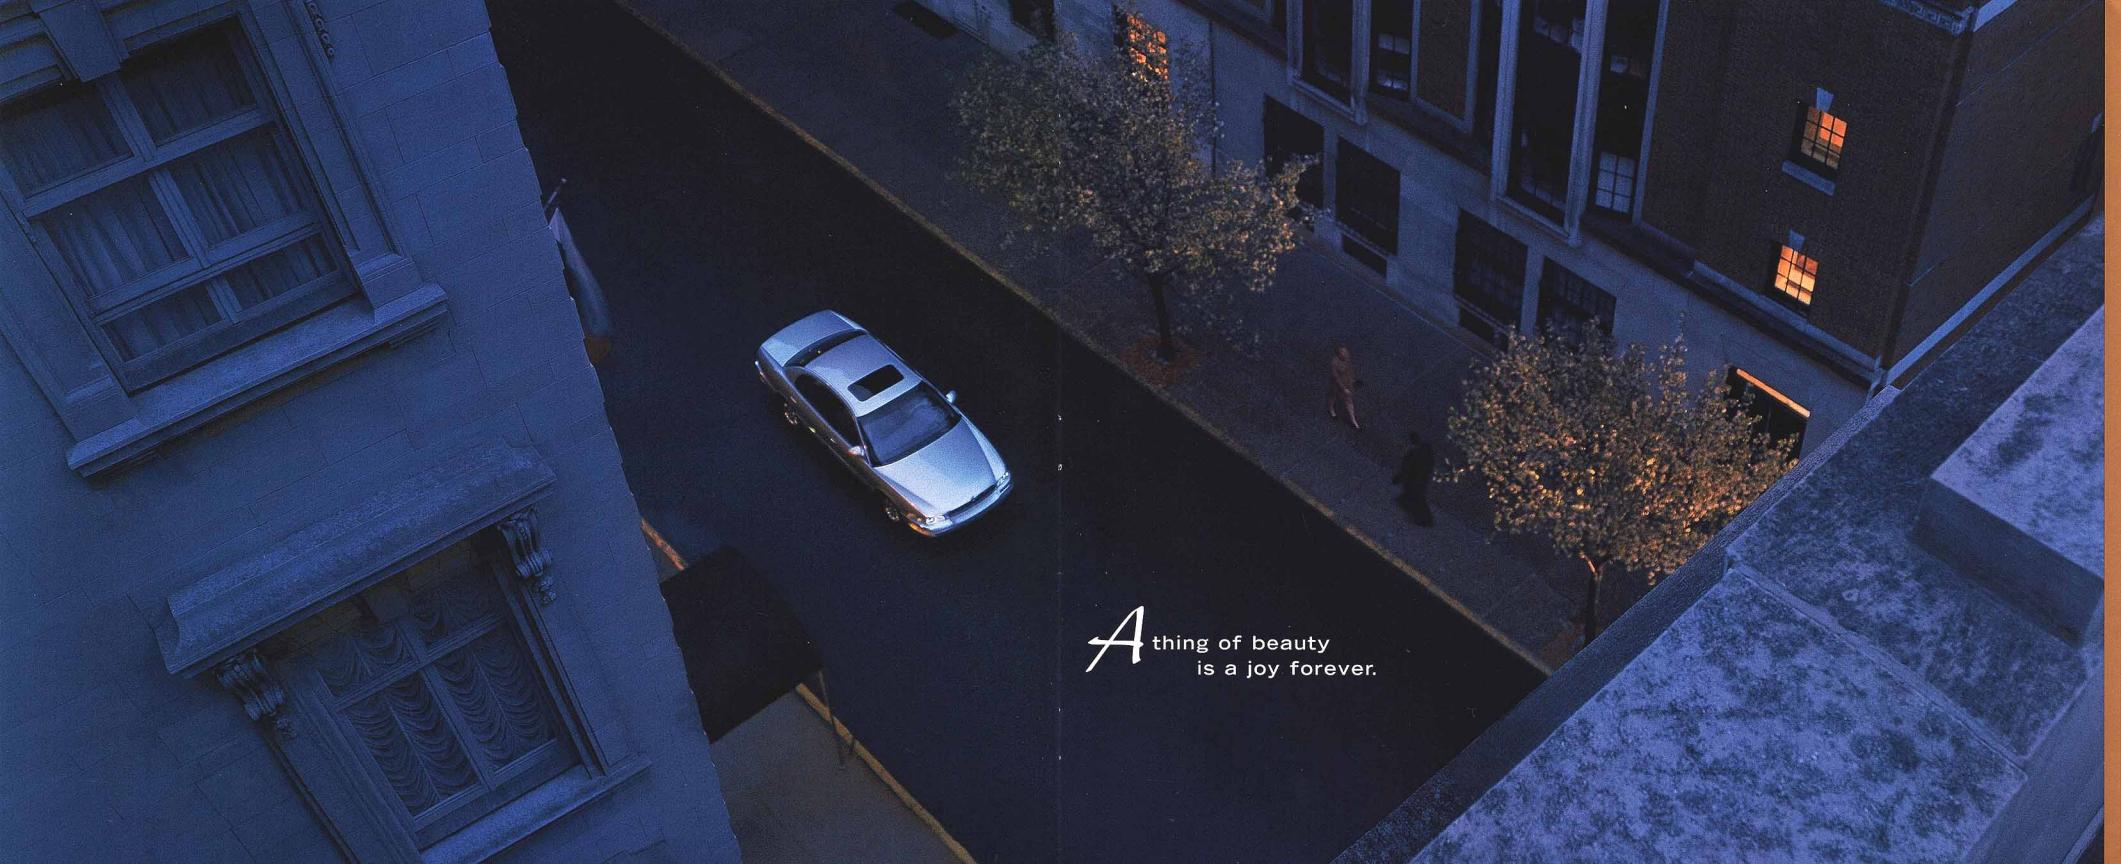

S E R V I C E

Perhaps the ultimate luxury.

The PREMIUM SERVICE PLAN augments the Safety and Security Plan by providing access to over five million service listings, including hotels, restaurants, dealerships, hospitals and ATMs. OnStar Advisors can help make reservations, purchase tickets or get you almost anywhere. PERSONAL CALLING^{**} is available with either plan. It connects you with a nationwide wireless service. This voice-activated system dials the number for you, allowing you to keep your hands on the wheel and your eyes on the road. ONSTAR VIRTUAL ADVISOR[†] is an added benefit to Personal Calling subscribers, providing up-to-date information on stocks, sports scores, weather, news, even your e-mail.

*One-year OnStar Safety and Security service agreement standard on Park Avenue models with SE Package and Ultra models. OnStar uses existing emergency service providers and cellular telephone and satellite technologies. Vehicle electrical system must be operating for OnStar to work. Call 1-800-ONSTAR-7 or visit www.onstar.com for system limitations and details.
**Existing OnStar service agreement required. Additional usage charges apply for Personal Calling. Available in select markets. OnStar voice recognition system may not work with all voices. †Existing OnStar service contract required. Advance payment of Personal Calling minutes required. Additional charges apply. Available in select markets.

A thing of beauty
is a joy forever.

Buick. It's all good™

Completely beautiful. Beautifully complete. No matter which Buick you get into, you'll find it to be so well-equipped, inside and out, that your toughest decision may well be deciding on the color. It's why, year after year, Buicks are recognized by leading consumer publications and the automotive press for their remarkable value and desirability. It's why Buick owners are so loyal, returning to their dealer year after year. With so much going for them — and you — it's easy to see why.

Buick, the official car of the PGA TOUR, is proud to be associated with golfing great Tiger Woods and to support the Tiger Woods Foundation. Together, we're encouraging youth to dream big dreams and reach their highest potential.

A word about this brochure. We have tried to make this brochure comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Some information may have been updated since the time of printing, so please check with your Buck dealer for complete details. Buck reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times. **Child safety.** Children are safer if they are secured in a rear seat using the appropriate child safety seats and restraints, which is why General Motors recommends that child safety seats be properly secured in a vehicle's rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. Front seat side-impact air bags help reduce the risk of injury to front seat occupants in side impacts. See your vehicle Owner's Manual and child safety seat instructions for more safety information. **Engines.** Buck is equipped with engines produced by different operating units of GM. Its subsidiaries or suppliers to GM worldwide. **Assembly.** Buck and its components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Bucks with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you. **Updated service information.** Buck regularly sends its dealers useful service bulletins about Buck products. Buck monitors product performance in the field. We then prepare bulletins for servicing our products better. You can receive these bulletins too. Ask your dealer or, for ordering information, call 1-800-551-4123. **Warranty.** The GM 3-year/36,000-mile New Vehicle Limited Warranty covers repairs for any new Buck, including labor and parts, to correct any defects in material or workmanship occurring during the warranty period. The complete terms, including those that will be covered for 3 year/36,000 miles, whichever comes first. (Excludes normal maintenance.) See your Buck dealer for terms of this limited warranty. **The GM Care[®]** For information or to apply for The GM Care[®] call 1-800-800-CARE. **SmartLease[®] by GMAC.** For information about SmartLease or any of the other quality GMAC financing options, see your Buck dealer or call 1-800-32-SMART. **GM Mobility Program[™]** Buck recognizes the importance of mobility to everyone's life and, therefore, offers financial assistance to persons with disabilities through the General Motors Mobility Program. This program can provide up to \$1,000 reimbursement toward the cost of aftermarket mobility equipment for drivers or passengers. For details and free resource information, call 1-800-323-9935 (TTY users: 1-800-833-9935).
