

THE 2007 CLK-CLASS

Mercedes-Benz

*CLK350 Coupe.*

## The most beautiful moments lie before you.

Life is made up of a series of moments. And each of these moments deserves to be enjoyed to the utmost. With this sentiment in mind, we created the CLK-Class. It was also reason enough for us to develop both the CLK-Coupe and the CLK-Cabriolet - two Mercedes-Benz vehicles that are not only good-looking, but thanks to the 6 and 8-cylinder engines, are highly dynamic and powerful. Step into the CLK-Class now. It's a moment you won't soon forget.

## Could time pass any more beautifully?

The B-pillar separates the front and rear side windows. But what do you get if you leave out the B-pillar? You get one of the most attractive coupes ever built. The absence of the B-pillar means that the view from the car is unobstructed, unfettered, and frankly, unbelievable. So you can see the world in all its pillar-less beauty. What's more, envious outsiders can admire the interior of the CLK that much more easily. Brace yourself. People will stare.

You need not worry about strength, either. Mercedes-Benz engineers have created a super-strong roof structure. In short, you are protected from above.

The CLK-Class. Expect to be admired.

*CLK350 Coupe.*

*CLK350 Cabriolet shown with optional PARKTRONIC and dealer accessory wheels.*

## Find strength in character.

The bold exterior design of the CLK-Class is not only impressive, it's intimidating. It's not only attractive, it's arresting. With its formidable lines, sleek aluminium trim, tinted windows, and distinct radiator grille, you'd be hard-pressed to find a more exceptional balance of power and grace. Take the CLK-Class out for a spin, and take comfort knowing you're exuding a presence that is absolutely second to none.

*CLK350 Cabriolet shown with optional PARKTRONIC and dealer accessory wheels.*

## The difference between +20 and -16 °C: 25 millimetres.

Not only is the CLK-Cabriolet's soft-top a wonderful extension of the CLK-Class' appealing design, it also possesses outstanding soundproofing and heat insulating properties. The fabric roof is only 2.5 cm thick, but its three-layer construction ensures an enjoyable ride even when the weather chooses not to co-operate. The fully electric soft-top closes quickly and easily, in around 20 seconds. The spacious trunk of the CLK is large enough for your luggage whether the soft-top is open or closed.

## Comfort appeals to all the senses.

The elegance of the CLK-Class continues on through from the exterior to the interior of the car. Clear lines and exquisite design dominate. Whether you're the driver or passenger, you're surrounded by splendid style and modern luxury.

Functionality is an equally high priority, as your first glance of the instrument panel will immediately confirm. All the key information is intuitively laid out directly in the driver's field of vision.

CLK550.

## Well designed for your well being.

Electronically adjustable front seats raise the comfort level up another notch, while the memory function brings them automatically into a pre-set position. The seat controls are arranged ergonomically in the door paneling.

The CLK-Class is fitted with standard belt feeders that bring the seat belts closer to the driver and front passenger as soon as the ignition is switched on, ensuring your journey is an enjoyable experience even before it has begun. Travel to any extreme in luxurious comfort with the optional front climate comfort seats, which give the seats themselves both air-conditioning and heat control. The rear passengers benefit from a comparable sense of luxury, with the EASY-ENTRY system. This allows even adults to gain easy access to the rear seats. The front seat backrests fold forward and the whole seat then slides towards the dashboard.

## An indescribable feeling comes from undeniable power.

The CLK-Class triggers emotions that are hard to ignore. Such as the feeling that comes when the engines are really allowed to stretch their legs. Their pulling power is impressive to say the least and their exemplary smoothness is matched by impressive fuel economy and low pollutant emissions. Hold tight as you experience the 268 hp the CLK350 is capable of delivering.

Topping the CLK-Class line are the 8-cylinder high-performance power plants. The new CLK550's 382 hp engine has potential that is just begging to be tapped into any on-road situation. For particularly sporty moments, we recommend the new CLK63 AMG with 475 hp.

Only when maximum torque is available over a wide engine speed range can sufficient power be available at both low and high speeds. CLK350 models put 258 lb-ft of torque at the driver's disposal from 2,400–5,000 rpm. CLK550 models deliver breathtaking performance with 382 hp and a maximum torque of 391 lb-ft at 2,800–4,800 rpm, while the CLK63 AMG tops those figures with 475 hp and 465 lb-ft torque at 5,000 rpm.

*CLK550 Coupe shown with optional PARKTRONIC.*

## The first automatic transmission with seven gears.

The CLK-Class is fitted with the 7G-TRONIC 7-speed automatic transmission. The shorter gearings possible with the 7G-TRONIC means you're always in the best gear for the situation at hand. This cuts fuel consumption, optimizes acceleration, and ensures smooth gear changes. Add to that the ability to skip multiple gears when downshifting, which significantly improves performance. For an even more sporty experience, you can operate the 7G-TRONIC using steering-wheel shift paddles.<sup>1</sup> The two shift paddles are positioned on either side behind the steering wheel, allowing for fast upshifts and downshifts. Such placement and operation opens the door to a new level of driving pleasure. Plus, if you keep the downshift paddle pressed, the transmission will switch automatically to the gear which offers the best acceleration.

<sup>1</sup> Available only on CLK550 models and CLK63 AMG.

## You'll want to spend all day driving the long and winding road. And likely all night, too.

Driving enjoyment in the CLK-Class comes courtesy of DIRECT CONTROL, a technology package that ensures the suspension, transmission and steering will act in harmony. The result is amazingly agile handling and an ultimately dynamic driving sensation. Safety features include the Electronic Stability Program (ESP®), which helps stabilize your vehicle in critical situations. For enhanced safety when cornering in the dark, your CLK-Class is equipped with active Bi-Xenon headlamps<sup>1</sup> with the integral active light function. When set to low-beam, the headlamps follow the driver's steering movements and can enhance illumination of the road on bends by up to 90%. The active light function also incorporates the cornering light function, which automatically activates the foglamp on the inside of a sharp bend at speeds of up to 30 km/h.

The CLK-Cabriolet comes with head/thorax air bags, which can improve safety in lateral collisions. These air bags are fitted in the outer edges of the front seat backrests and inflate to cover part of the door paneling and closed side window. If a collision exceeds a certain severity, they are deployed on the side of the car exposed to the impact. The automatic rollover bars are another reassuring safety feature built into the CLK-Cabriolet. If the car is in danger of turning over, the rollover bars integrated into the rear head restraints can be deployed in a split-second.

<sup>1</sup>Optional as part of the Bi-Xenon Headlamps Package on CLK350 models.

*CLK350 Coupe shown with Active Bi-Xenon headlamps.*

*CLK63 AMG Cabriolet.*

## High performance in three letters: AMG.

With its AMG 6.3-litre V-8 engine producing 475 hp and 465 lb-ft of torque, the CLK63 AMG Cabriolet has the heart of a champion athlete. This high-performance model also comes with dynamic AMG body styling, including front and rear apron and side skirts, plus an AMG spoiler lip on the trunk lid. A sport exhaust with two tailpipes, and the exclusive 18" 5-spoke AMG light-alloy wheels complete the picture. Inside the car, the driver is greeted by fine Nappa leather appointments, AMG sport seats, the ergonomic AMG sport steering wheel with shift paddles, the AMG instrument cluster with RACETIMER and AMG aluminium trim.

*CLK350 Cabriolet shown with dealer accessory wheels.*

## Make your driving experience as individual as your signature.

When it comes to creating very special interior and exterior features, the *designo* team is unbeatable. Whether you're looking to turn your CLK-Class into an exquisite overall work of art, or you'd simply like to add the odd highlight, your taste is our command.

Our *designo* team can offer a wide variety of exclusive paint finishes and fine leather for your CLK-Class. Exquisite trim elements like *designo* Black Piano lacquer or *designo* Natural Oak grain with a silky matte finish will also help make your CLK-Class truly stand out. One particularly alluring example of the options on offer is the gearshift in leather/*designo* wood. In the coupe, the optional *designo* Alcantara roof liner is available in Anthracite, Pebble Beige or Alpaca Grey, which gives the CLK-Class a very special finishing touch.

## Refine and elevate.

Customize every angle of your CLK-Class with genuine Mercedes-Benz accessories, and drive away in an automobile that's as unique as you are. All genuine Mercedes-Benz accessories are designed and manufactured to the highest standards for design, engineering, quality, form and function. It's your chance to further refine and elevate an automobile that's already one of a kind.

### Roof box

Make your way to the slopes in perfect comfort while keeping your equipment safely stowed above you. Strap on your skis and let the attractive design of the roof box speak for itself.

### 17" "Sadachiba" 5-spoke multi-piece light-alloy wheels

Enjoy added design and extra shine from the high-shine surface of these attractive light-alloy wheels. Roll along on four wheels of pure style.

### iPod® Integration Kit

You've spent time carefully filling your iPod® with the great music you love. Now you can enjoy every minute of every song as you cruise in your CLK-Class, courtesy of the iPod® Integration Kit.

### Chrome plate mirror housing

Turn even more heads with the unique radiance and lustre that comes with the addition of chrome plated mirror housing.

# Mercedes-Benz Customer Care

## 24-hour Roadside Assistance

During the basic warranty coverage of 48 months and the time duration of the optional Extended Limited Warranty, Mercedes-Benz Roadside Assistance will be at your service. We'll bring you some gas, replace a flat tire with your spare, or jumpstart your car. In the event of a mechanical breakdown, if attempts by our Roadside Assistance technician have not made your vehicle safely operable, towing service will be provided to the nearest Mercedes-Benz dealership. Assistance is available 24 hours a day, every day, to anyone driving a Mercedes-Benz anywhere in Canada or the continental U.S.<sup>1</sup>

## Wear and tear coverage

For 24 months or 40,000 km (whichever comes first) many items normally considered "wear and tear," such as light bulbs, brake pads and discs, are covered. If necessary, an authorized Mercedes-Benz dealer will replace these parts at no charge to you.

## Customer service

Owning a Mercedes-Benz means that when you have a question, we're here to help. Customer Service is open from 9 a.m. to 5 p.m. EST, Monday through Friday, and is staffed with knowledgeable Mercedes-Benz people who can talk you through the finer points of working your car's audio system – or even assist you in locating the nearest Mercedes-Benz dealership. Just call 1-800-387-0100. It's that simple.

## Mercedes-Benz warranties

The Mercedes-Benz New Car Limited Warranty covers defects in materials or workmanship for 48 months or 80,000 km, whichever occurs first. To widen your window of confidence, you can opt for a Mercedes-Benz Extended Limited Warranty as well.<sup>2</sup>

## Trip interruption reimbursement

If a breakdown covered by your New Car Limited Warranty occurs more than 80 km from your home, leaves your Mercedes-Benz vehicle inoperable or unsafe to drive, and requires overnight repairs, we've got you covered. You will be reimbursed up to \$500 for hotel accommodations and up to \$600 for alternate travel expenses per incident while your car is being repaired at an authorized Mercedes-Benz dealership.

## Log on to learn more
