

2005

LINCOLN

TOWN CAR

Town Car Signature Limited in Cashmere Tri-Coat with available 17" fluted 9-spoke chromed-aluminum wheels.

AMERICAN ICON

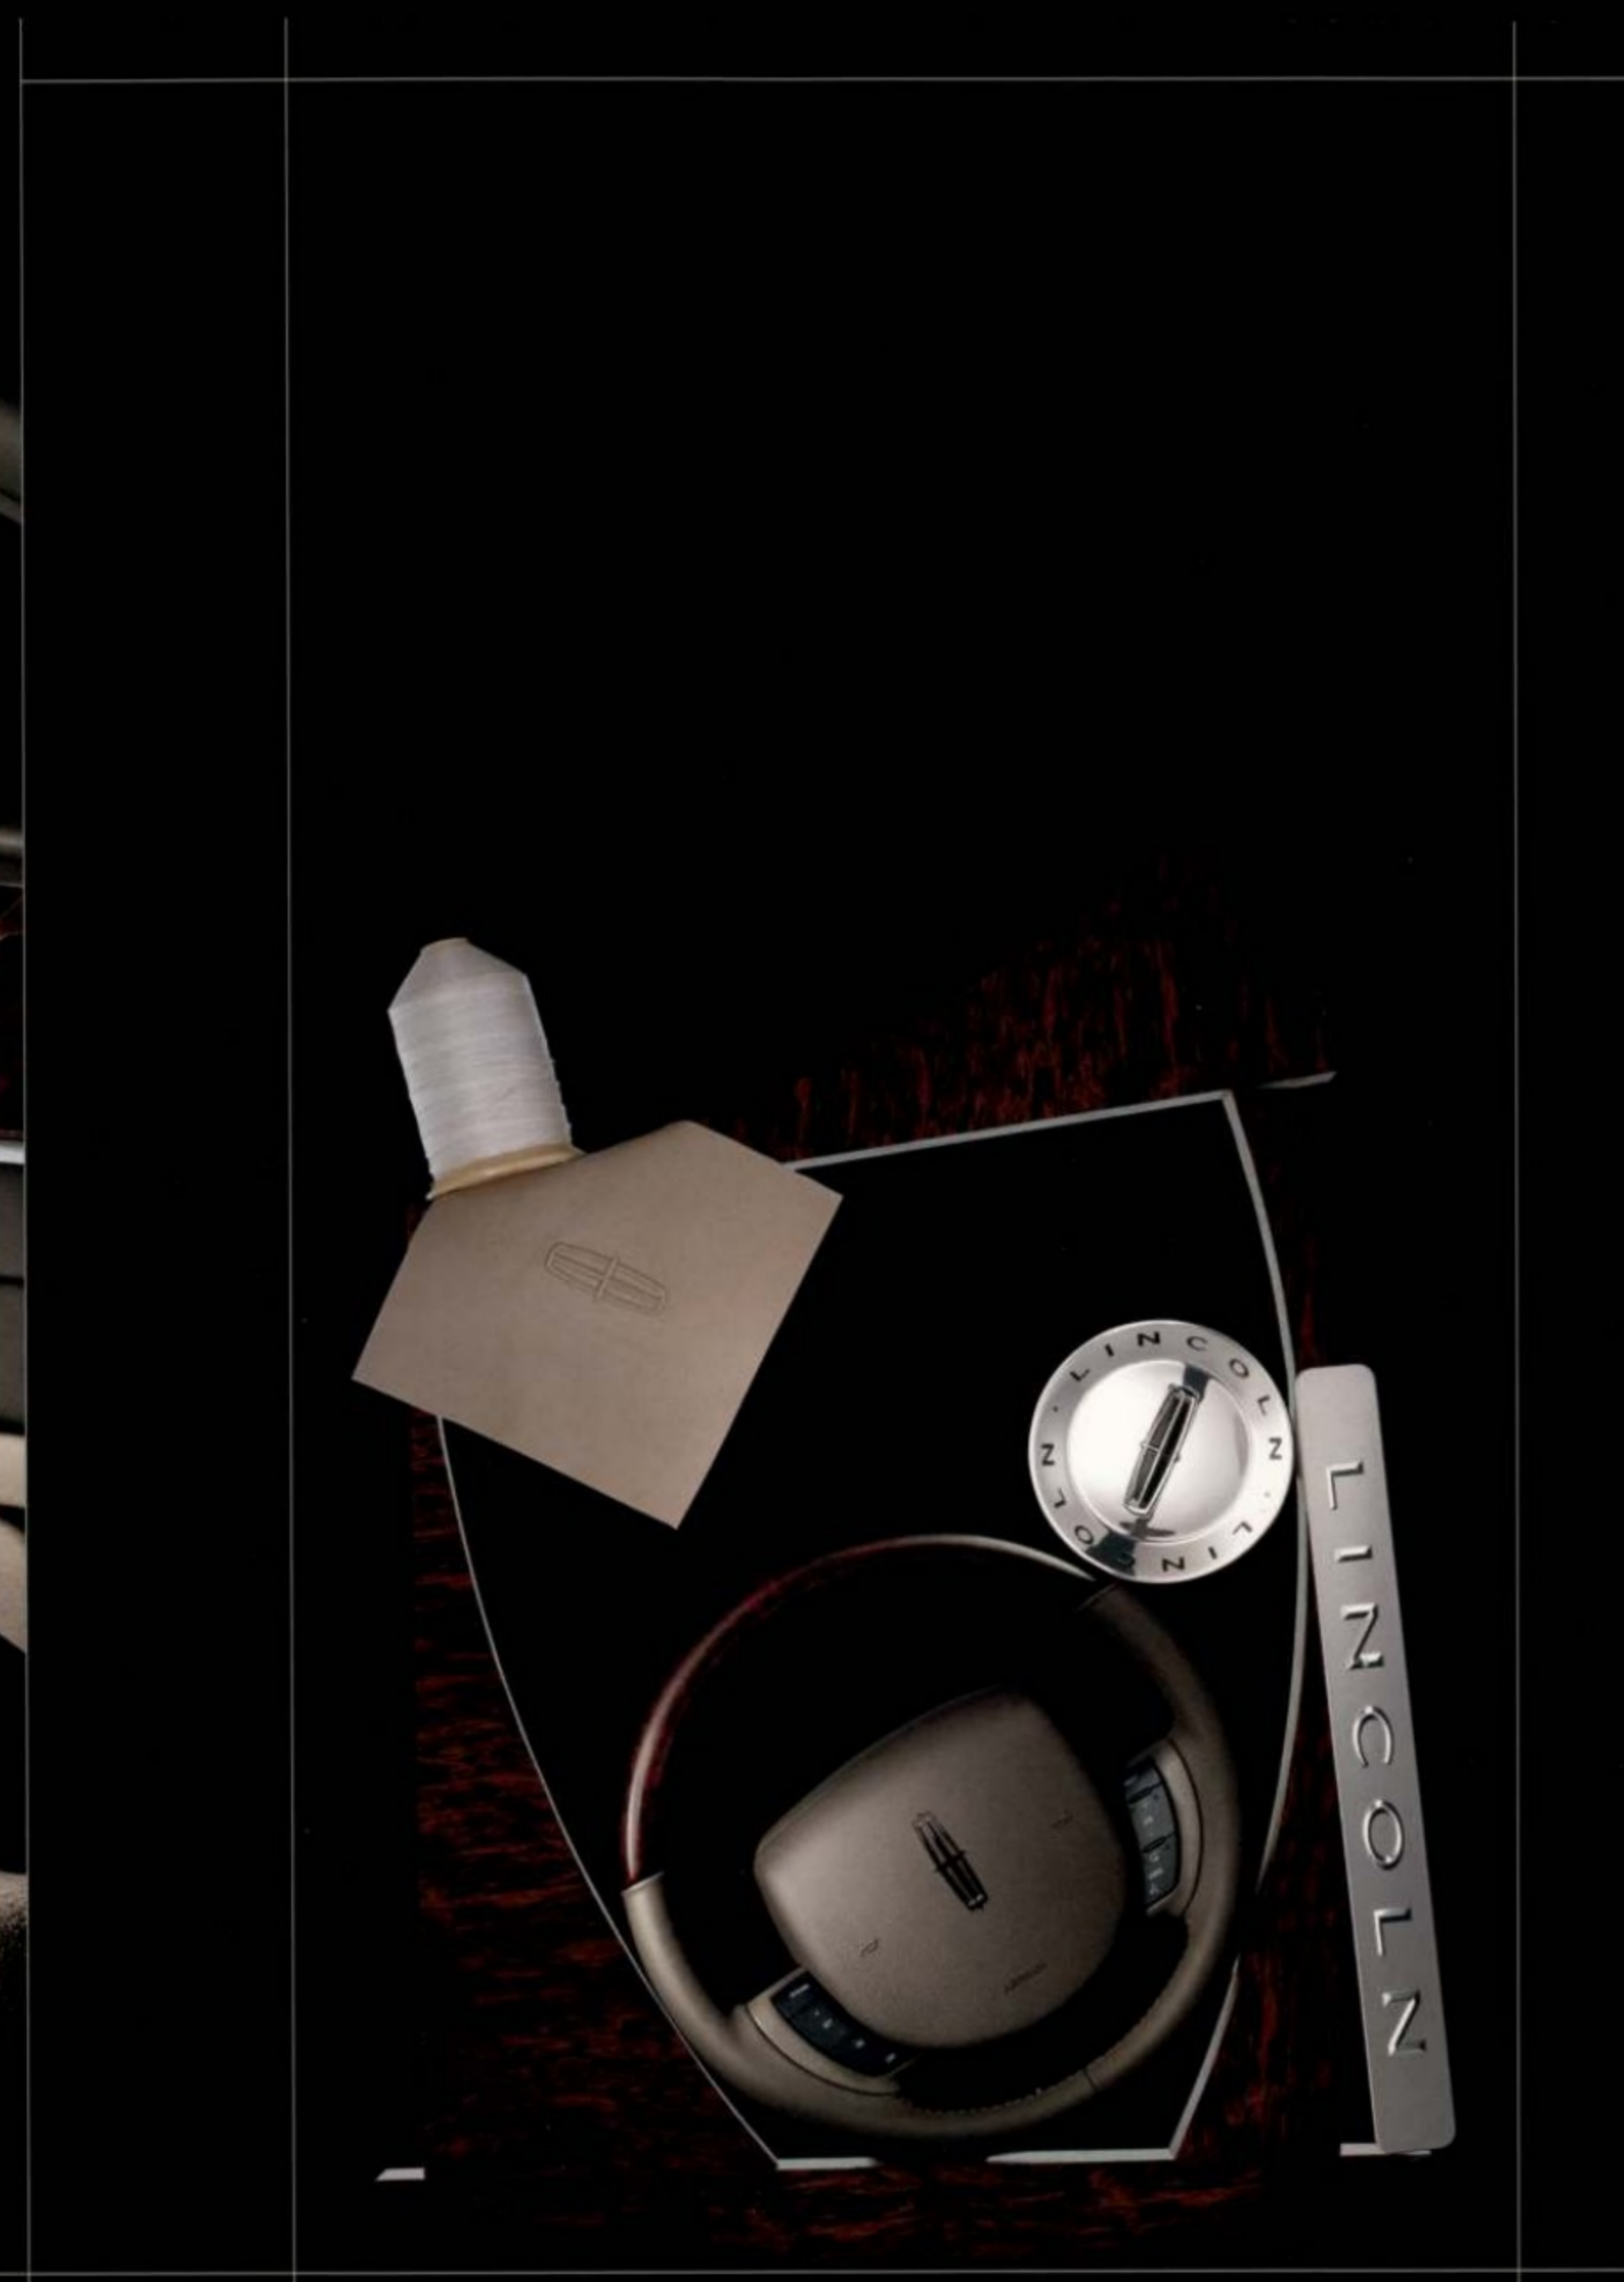

A Category of One.

Decades of continuous refinement have perfected its blend of stately sophistication and sublime luxury. Contemporary lines coalesce with classic design cues to form a confident style; striking from any angle. Its commanding presence and reputation for excellence have established a loyal following. Truly, Lincoln Town Car is one of a kind – recognized by R.L. Polk for having the Highest Model Loyalty in the Luxury Car Category.*

As the flagship of the Lincoln line, Town Car epitomizes the best of everything a Lincoln should be: spacious, smooth and, above all, solid. In fact, Town Car was the first automobile ever to receive the highest government crash test ratings in all 5 categories (driver frontal impact, passenger frontal impact, front-seat side impact, rear-seat side impact, and Rollover Resistance Rating) – an achievement it has garnered 3 years in a row now (2003–2005).

Ultimately, the 2005 Lincoln Town Car defines the difference between those who simply travel, and those who Travel Well.

*According to R.L. Polk statistics for the Luxury Car Category in the 2003 model year, Town Car ranked highest by having the greatest percentage of households return to purchase or lease another Town Car.

To deliver on the highest of expectations, Lincoln utilizes only the finest materials to create a sanctuary of craftsmanship and comfort inside every Town Car. Cushioned seats are trimmed in glove-soft premium leather, delivering just the right balance of armchair ease and optimum support. American walnut burl wood adds a rich, traditional accent while fine, white lighting provides a clean, contemporary ambience. And the crowning touch, in the center of the instrument panel, is the Lincoln timepiece.

POWER PLAY

To personalize your experience behind the wheel, Town Car is at your service with standard 8-way power front seats; power-adjustable brake and accelerator pedals; and dual, power, heated sideview mirrors. Town Car Signature Limited and Signature L add driver's-side memory to these features, and heating controls to the power front seats.

New on Town Car is the symphonic Lincoln Soundmark™ THX®-Certified Car Audio/Navigation System. A 6-disc in-dash CD changer supplies continuous music, while THX certification ensures that 8 Audiophile speakers and a subwoofer provide concert-hall-quality sound. In these plush confines, nothing could be finer – especially with the hospitality of a voice-activated/touch-screen Navigation System that combines DVD mapping with Global Positioning System (GPS) satellite technology. Through a microphone in the auto-dimming rearview mirror, the system understands over 170 voice commands and verbally guides you to your destination. A 6.5" color LCD screen presents high-quality graphics, while touch-screen simplicity and Map, Destination and Menu buttons make it intuitively easy to use. Available on Signature Limited and Signature L, the system can also be equipped with the SIRIUS Satellite Radio service,* adding over 100 channels of coast-to-coast music, news and entertainment.

*See your Lincoln Mercury Dealer for SIRIUS installation and activation details.

EFFORTLESS COMMAND

A Smooth Delivery of Power and Prestige.

All 2005 Town Cars are driven by our supremely capable and reliable 4.6L SOHC V-8 engine. With 239 hp and 287 lb.-ft. of torque, power delivery is smooth, whether pulling away from a stoplight or passing on the open road. A dual exhaust system keeps engine noise to a minimum.

Quiet strength comes from Town Car's full-size frame – the foundation of its legendary, hushed ride. Hydroformed front frame rails optimize the location of suspension components for enhanced handling and precise steering. Monotube shock absorbers react quickly for greater control; stabilizer bars help keep the body level when turning; and load-leveling rear air springs smooth out the ride.

A standard Anti-lock Brake System (ABS) helps maintain steering control during hard braking, while All-Speed Traction Control improves traction on loose or slippery surfaces by using a combination of brake and engine control to reduce wheel spin. After all, crisp steering, impeccable poise, and a velvety ride are all hallmarks of the Town Car experience.

Town Car Signature Limited with available Pro Series Package in Cashmere Tri-Coat with Light French Silk Metallic accent.

Superb Storage.

If you need to take it with you, Lincoln Town Car has a place to put it. Trunk cargo space is best-in-class* with 21.0 cu. ft., providing ample room for the longest vacation or the most successful shopping spree. On Signature models, lowering the trunk lid within 1.5" of closing activates a power pull-down feature that latches it for you. For more convenience, Town Car Signature Limited (shown below in Silver Birch Metallic) and Signature L include a Full-Power Trunk Lid, so loading and unloading are as effortless as possible. Just press the key fob button to fully open and close the trunk lid – automatically. An available trunk organizer helps keep your items upright.

*Traditional Full-size Luxury Car class.

The Elegance of Style and Space.

Whether you have the wheel or are relaxing in back, effortless control is at your fingertips. The mere push of a button creates a privileged world of personalized Town Car satisfaction. For starters, power-adjustable brake and accelerator pedals (below) allow each driver to move the pedals just where they like them. Extended Rear Park Assist audibly alerts you if you come within 15 feet of an object when in Reverse. Dual-zone Electronic Automatic Temperature Control (right) automatically maintains the selected temperatures of the driver and right-front passenger. On Signature Limited and Signature L, heated driver and right-front-passenger seats take comfort to a whole new level. To indulge rear-seat passengers in Signature L, heated rear seats are available as part of the Rear-Seat Amenities Package, which also includes a center folding armrest with duplicate audio and climate controls, dual power points, dual cupholders and a storage bin. To expand your horizons, an available power moonroof (below right) on Signature Limited models lets you bring in just enough of the great outdoors.

Space reigns supreme in the 2005 Lincoln Town Car. Inside, there's spacious room for 6, with best-in-class front head room, and front and rear shoulder and hip room. The roomiest interior in its class resides in the plush environs of Signature L, which features a wheelbase that's extended a full 6" beyond other Town Car models. Out back, pop the trunk to uncover best-in-class cargo capacity of 21.0 cu. ft., enough room for a week's worth of vacation necessities or the golf clubs of your entire foursome. An available trunk organizer (right) helps items stay upright and provides a flat loadfloor. Town Car's overhead console (below) houses a wealth of convenient features, like an electronic digital compass to help you get your bearings, and a HomeLink® Universal Transceiver that allows you to control up to 3 remotely controlled devices (e.g., garage door, security lighting and estate gate). For efficient space management, the bi-directional front-row center armrest (below right) opens toward either the driver or front passenger, making it easy to retrieve stored items.

SIGNATURE

Performance

All-Speed Traction Control
 Brakes - power 4-wheel disc Anti-lock Brake System (ABS)
 Cooling System - fail-safe
 Drivetrain - rear-wheel drive
 Engine - 4.6L SOHC 16-valve V-8
