A polished, confident Type A personality.

DISCOVER STYLE AND STRENGTH

4.2L V-6 ENGINE
BEST-IN-CLASS TORQUE
263 LB.-FT. OF TORQUE
201 HORSEPOWER

To set the 2006 Mercury Monterey apart, we've provided much of what you didn't expect in your minivan. Like satin-aluminum-finish accents inside and out for a distinctly modern flair. Or available class-exclusive heated *and* cooled front seats. Of course, Monterey also provides all the minivan versatility you'd expect. In fact, if your to-do list is a mile long, Monterey is the perfect traveling companion. **Standard dual power-sliding doors** and an available power liftgate make entry, exit and loading effortless. Its 3rd-row seat holds 3 comfortably, folds flat into the floor when not in use, and also becomes a rear-facing Tailgate Bench Seat™ for relaxing at sporting events or fireworks displays.* While this space and functionality enable you to accomplish all your goals for the day, Monterey's power will actually help you enjoy it.

Under the hood, Monterey's 4.2L V-6 engine gives you **best-in-class torque** to accelerate, haul and pass with authority and confidence. The largest engine in a minivan, the 4.2L V-6 delivers 201 hp and 263 lb.-ft. of torque, a fact you'll appreciate when all 7 seats are occupied and the cargo storage well is full. Shifting is smooth and effortless, thanks to fast-acting hydraulics in the electronically controlled 4-speed automatic transmission. And thanks to a 26-gallon fuel tank, you'll have a **generous driving range of over 500 highway miles.**

*3rd-row Tailgate Bench Seat should be changed and used only when vehicle is stopped and in Park. Rear-facing 3rd-row seat is not intended for passenger seating while vehicle is in motion.

AVAILABLE LEATHER-TRIMMED SEATS IN CHARCOAL WITH LIGHT FLINT PERFORATED INSERTS

3RD-ROW TAILGATE BENCH SEAT...

FOLDS FLAT INTO THE FLOOR...

CREATING 71.6 CU. FT. OF CARGO SPACE

In here, just taking your seat is extraordinary.

SEATING SATISFACTION

There are no ordinary seats in the Mercury Monterey. Starting up front, available **class-exclusive heated and cooled leather-trimmed seats** for the driver and front passenger are offered with perforated leather or Preferred Suede® inserts. Warming or cooling the seats is easy with convenient instrument panel controls. It's a feature not available on any other minivan.

In the 2nd row, standard captain's chairs, complete with armrests, give passengers their own seats. A 2-person bench seat is also available. For easy access to Monterey's 3rd row, just fold and tumble the seats forward with the pull of a lever. Thanks to a gas-assist strut, it can be done with one hand. If you're after maximum cargo room, the 2nd-row seats can be removed completely and the 3rd-row seat can be folded into the floor – opening up a **cavernous 131.6 cu. ft. of space**.

In its upright position, Monterey's 3rd-row Tailgate Bench Seat™ can hold 3 passengers comfortably. But that's far from the end of its uses. At family outings or sporting events, it **quickly and easily tips backward** to create a comfortable, rear-facing tailgating seat.*

- AVAILABLE COMFORT PACKAGE:**
- ELECTRONIC AUTOMATIC TEMPERATURE CONTROL (EATC)
 - UNIVERSAL GARAGE DOOR OPENER
 - POWER PASSENGER'S SEAT
 - AUTO-DIMMING REARVIEW MIRROR

*3rd-row Tailgate Bench Seat should be changed and used only when vehicle is stopped and in Park. Rear-facing 3rd-row seat is not intended for passenger seating while vehicle is in motion.

MERCURY

STANDARD WOOD- AND LEATHER-TRIMMED STEERING WHEEL (INTERIOR SHOWN WITH AVAILABLE EQUIPMENT)

You've got stuff. Monterey has plenty of solutions.

FRONT DOOR STORAGE

131.6 CU. FT. OF CARGO SPACE

IN-DASH STORAGE

CARGO MANAGEMENT

REAR CARGO NET

CARGO STORAGE WELL

EVERYTHING IN ITS PLACE

Throughout Mercury Monterey, you'll discover **innovative storage bins, compartments, nets and wells** perfect for your on-the-go lifestyle. Up front, a door storage system features dual-bin storage pockets with room for maps, magazines and even a beverage. To keep small items close at hand yet out of the way, an in-dash storage compartment in the top of the instrument panel is the perfect spot for cell phones and PDAs. In the 2nd row, storage in the sliding doors provides an easy reach for rear-seat passengers, while fold-away cupholders on the sides of the 2nd-row captain's chairs keep drinks close at hand. And since accidents happen, their breakaway design allows for easy reconnection.

In back, Monterey's deep cargo storage well helps keep items upright when the 3rd-row seat is in the forward-seating position. An available Cargo Management System brings further sophistication to that area. When extra storage is needed, the 3rd-row seat folds neatly into the storage well to open up almost 72 cu. ft. of cargo volume for larger items.

For really big toys, like a pair of jet skis or a boat, **Monterey can tow up to 3500 lbs.** when equipped with the available Class II Trailer Tow Prep Package.

AVAILABLE CARGO MANAGEMENT SYSTEM:

- STORAGE BIN WITH DIVIDERS
- RETRACTABLE CARGO AREA COVER

AVAILABLE TRAILER TOW PREP PACKAGE (CLASS I OR II):

- TRAILER TOW WIRING
- HIGH-SPEED/AMBIENT TEMPERATURE PACKAGE (CLASS II)

REAR CLIMATE CONTROLS

Technologically speaking, it's loaded.

ALL-AROUND CONVENIENCE

With every passing day, technology plays an ever-increasing role in our lives. In Mercury Monterey, technological advancements are used to make every drive more enjoyable for you *and* your passengers. **Standard Forward and Reverse Sensing Systems** (the small circles you see on the front and rear bumpers), which alert you to the distance of objects in front of or behind the vehicle when parking, are just one example of the unexpected delights that Monterey provides. Easy movement into and out of the vehicle is made possible by **standard dual power-sliding doors**. They open and close with the touch of a button on the remote keyless-entry transmitter, and with handy controls located inside the vehicle. For easy access to the cargo area, just press a button on the transmitter and Monterey's available **power liftgate** opens and closes on its own.

Tri-zone climate control allows the driver, front passenger and rear occupants to control their comfort levels independently. Up front, the system automatically maintains 2 different temperature settings. For the convenience of 2nd- and 3rd-row passengers, a high-capacity auxiliary system provides both temperature and fan controls. While they're cooling off, rear-seat passengers can enjoy a movie on the available **Rear-Seat DVD Entertainment System**. Mounted in the ceiling, its flip-down 7" LCD screen is large enough for even 3rd-row guests to enjoy the show. A convenient infrared remote controls the player, while 2 sets of wireless headphones allow passengers to listen in private and not disturb others. For your listening pleasure, Monterey's standard **premium AM/FM stereo with 6-disc in-dash CD changer** features a 140-watt power amplifier and speed-sensitive volume control.

MERCURY

DARK TOREADOR RED METALLIC: MONTEREY WITH AVAILABLE EQUIPMENT

MONTEREY'S AVAILABLE ADVANCETRAC IMPROVES CONTROL ON SNOWY, GRAVEL-COVERED OR RAIN-SOAKED ROADS

You place a premium on safety. We do too.

A CURTAIN OF PROTECTION

Monterey's **standard Safety Canopy™ System** features **side-curtain airbags for all 3 rows, front-seat side airbags and a rollover sensor**. In certain types of side-impact collisions, side-curtain airbags deploy from the headliner and stay inflated longer – enhancing head protection for all outboard passengers.

Personal Safety System® Since your safety is of the utmost importance, our Personal Safety System is standard on Monterey. To enhance protection for the driver and front passenger in certain frontal collisions, the system uses a network of smart sensors to **customize the deployment level of the dual-stage front airbags** based on several criteria: whether a front passenger is present and his/her weight range; the position of the driver's seat; whether the front safety belts are in use; and the overall severity of the crash. These details help the system deploy the front airbags in just the right manner, at just the right time.

Front-Passenger Sensing System (FPSS) The latest in occupant-sensing technology, the FPSS plays an important role within the Personal Safety System.

It determines whether the front-passenger airbag should be activated or not. By verifying safety belt usage and the amount of pressure exerted on the seat, it can detect a large or small person, even a purse or shopping bag, in the front-passenger's seat. Then it activates or deactivates the airbag accordingly to provide the most appropriate level of protection.

In slippery conditions such as ice, gravel and rain, every driver wants one thing: more control. **Advancetrac® provides it – automatically.** Monterey's available Advancetrac® constantly monitors driver input and vehicle responses through a network of advanced sensors. In certain understeer or oversteer situations, Advancetrac automatically makes braking and throttle adjustments to match the vehicle's direction to the driver's intention. If an accident is unavoidable, know that Monterey has received the **government's highest 5-Star frontal crash test safety rating** (2004-2005). In addition, Monterey has earned **Best Pick** honors** 2 years in a row (2004-2005) from the Insurance Institute for Highway Safety – its highest award.

*Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions. **Based on 40-mph frontal offset crash test. mercuryvehicles.com

MERCURY

Bringing more serenity to your day (and night).

FEEL SAFE – DRIVE SAFE

Monterey is **brimming with innovative features** that lend a feeling of serenity and security to your everyday driving. In fact, from its reinforced structure to its available self-sealing tires, Monterey has over 40 standard and available safety and security features.

A standard remote keyless-entry system includes 2 key transmitters, which control the door locks, dual power-sliding doors and available power liftgate. In addition, settings for the **standard power-adjustable pedals**, power driver's seat and power sideview mirrors can be remembered for 2 different drivers. Plus, if you can't reach your keys, just enter your personal code into the **standard driver's-side keypad** and you're in. As you get comfortable in the driver's seat, make sure the power-adjustable pedals are set to a position that's right for you. Instead of moving the driver's seat closer to the steering wheel, move the brake and accelerator pedals up to 3" to improve your comfort behind the wheel. Set it once, and every time you put your key in the ignition the pedals will adjust to your desired setting. On the road, a message center in the instrument panel helps to keep you informed of vital vehicle and trip functions, such as distance-to-empty, outside temperature, compass readings and more.

The 4-wheel power disc brakes in the **standard Anti-lock Brake System (ABS)** feature dual-piston front calipers for exceptional braking performance, while ABS offers enhanced steering control during hard braking or on slippery surfaces. And Electronic Brake Force Distribution automatically balances brake force proportioning for various vehicle load conditions. Should you encounter a piece of scrap iron or a nail in the road, available **self-sealing tires** seal up small holes before you're left stranded.

For added security at night, **standard security approach lamps** on the sideview mirrors illuminate the ground around the vehicle – automatically – when you press the unlock button on the remote key transmitter or pull an exterior door handle.

STANDARD FEATURES

POWERTRAIN/FUNCTIONALITY

4.2L SPI V-6 engine

4-wheel power disc brakes with Anti-lock Brake System (ABS)

Electronically controlled 4-speed automatic transmission with overdrive
