

# 2007 ESCAPE & ESCAPE HYBRID

# Escape whenever you want

There's a reason it's called the Escape. Actually, there's a bunch of them. Whether your ideal getaway involves the excitement of sun, sand and rushing whitewater, or the tranquility of a secluded cabin in the woods, the 2007 Ford Escape is always ready to go. With excellent fuel economy,\* cavernous amounts of cargo space and the remarkable capability of its optional Intelligent 4WD System, Escape has clearly earned its inspirational name. Now, take the fun-loving nature of the original and add an innovative hybrid powertrain system that delivers 36 mpg\*\* in city driving. What you get is the Escape Hybrid – proof that it *is* easy being Green. The Escape and Escape Hybrid proudly accompany Sport Trac, Explorer, the new Expedition and the all-new Expedition EL in the 2007 lineup of confidently capable Ford SUVs.

**BOLDMOVES**

**Max Power —**  
Escape's available **Duratec 30-3.0L V6 engine** and 4-speed automatic transmission deliver a smile-inducing 200 hp and 193 lb.-ft. of torque. Standard on Escape Limited and XLT Sport, optional on XLT.

[www.fordvehicles.com](http://www.fordvehicles.com)

## Escape like you mean it

Break out with the sporty 200 horsepower of Escape's available Duratec 30-3.0L V6 engine or ease on down the road with the fuel-sipping efficiency\* of its standard Duratec 23-2.3L I-4. Either way, you're sure to enjoy the remarkable maneuverability and optimal control provided by its standard 4-wheel independent suspension and Anti-lock Brake System. For those who like to do their own shifting, a 5-speed manual transmission comes standard with the 153-horsepower Duratec 23. If you prefer the convenience of an automatic, opt for the smooth-shifting 4-speed that's available with either engine. No matter which powertrain combination you choose, you can take pride in the fact that every Ford Escape is classified as a Low Emissions Vehicle. Yet another reason you'll be smiling all the way out of town.

\*EPA-estimated 24 mpg city/29 hwy. with FWD and manual transmission.

Escape XLT in Black

## Escape in luxurious style

Make your getaway in Escape Limited, and you'll instantly transform all your drive time into "me" time. Limited's sleek exterior appearance features trim that is carefully painted to match its body color and stylish 16" bright machined-aluminum wheels that are sure to draw admiring glances. Relax and enjoy the supportive contours of Limited's premium leather-trimmed seats while the automatic headlamps turn themselves on and off as needed. Be sure to add the Luxury Comfort Package, available exclusively on Escape Limited, and treat yourself to these must-have extras:

- Premium Leather-Trimmed Seats with Perforated Inserts
- Heated Front Seats
- Heated Sideview Mirrors
- Reverse Sensing System
- Keyless-Entry Keypad
- Audiophile® Sound System
  - 6-disc in-dash CD changer with MP3 capability
  - 8" subwoofer
  - 320 watts
  - SIRIUS Satellite Radio\* capability

\*See your Ford Dealer or contact SIRIUS at 1-888-539-7474 for more information.

**Helpful Reminder** — When the transmission is placed in Reverse, the **Reverse Sensing System** emits a beeping sound to alert you to the presence of certain objects behind the vehicle. The closer you get, the more quickly it beeps, signaling you to apply the brakes. Available exclusively in the Luxury Comfort Package on Escape Limited and in the Premium Package on Escape Hybrid.

# Escape to anywhere

Some days you just need to get out. Whether you decide to seek someplace totally new or to rediscover an old favorite, you can count on the Escape to take you there. Anywhere. Escape's optional Intelligent 4WD System is always on and always working. The system monitors traction (5000 times per second – much faster than any person could) and automatically adjusts torque distribution as needed to give you maximum grip. So as road conditions change, you can relax and let this smart system take care of the details. Have some fun extras to bring along? Escape provides up to 3500 lbs. of available towing capacity when properly equipped. Planning a motorhome vacation instead? Escape XLS with the manual transmission and Escape Hybrid can be flat-towed behind another vehicle. Anywhere is even more exciting when you make Escape a part of the plan.

**Smooth Rider** — Escape's 4-wheel independent suspension system incorporates an independent rear suspension that allows each wheel to react on its own, so Escape naturally handles well on rough terrain and smooth surfaces alike.

[www.fordvehicles.com](http://www.fordvehicles.com)

Escape XLT in Black with available XLT Appearance Package

## Escape with all you've got

From beach chairs to baby gear to this weekend's home-improvement supplies – the Escape is built to handle it – with a flexible interior designed to adapt to your ever-changing cargo-carrying needs. A perfect example: you can leave the rear seats up and invite 3 friends to sit in back. You'll still have up to 29.3 cu. ft. of space available behind them. Or you can access up to 66.2 cu. ft. of cargo space by simply folding the rear seats flat and removing the cushions. To stow small stuff back there, you can just flip up the liftglass. Need to load larger items? Go ahead and raise the entire liftgate. The optional Cargo Convenience Group includes a storage bin in the cargo area floor and a retractable cargo area cover, so you can keep things organized and out of sight. If needed, you can also use Escape's available roof-rail crossbars to carry another 100 lbs. of gear up top.

### Split Decisions —

Escape's standard 60/40 split-folding rear seats make quick work of reconfiguring its spacious rear cargo area.

## Escape on *your* terms

It's your Escape. Make the most of it by keeping yourself informed and entertained. Escape Limited's standard message center can serve up everything from your average fuel economy to the fact that there's a lamp out, and its handy compass feature can help you navigate. For your listening pleasure, SIRIUS Satellite Radio can be added to any of Escape's sound systems to give you over 125 channels of coast-to-coast music, news, sports and entertainment. Plus, all of the CD players and changers feature MP3 capability. The available 320-watt Audiophile® Sound System (left) features a 6-disc in-dash CD changer, automatic volume control and 7 strategically placed speakers that provide deep, powerful vibes. Standard on Escape XLT, XLT Sport, Limited and Escape Hybrid (available in the Convenience Group on XLS), steering wheel-mounted cruise control can help maximize your comfort, especially on those longer road trips. Every detail of Escape is there to help meet the demands of your busy life. It works hard and plays even harder.

### Tone It Down –

An auto-dimming rearview mirror, standard on Escape Limited, helps reduce the harsh glare of headlamps from the vehicles driving behind you.

**SIRIUS**  
SATELLITE RADIO

## Escape in spacious comfort

Designed to help you achieve contentment, Escape is all about ease, which is why we made power windows, door locks and sideview mirrors all standard equipment. Escape's wide stance gives you a full 99.2 cu. ft. of passenger space to share with family and friends. All 5 seating positions get adjustable head restraints and 3-point safety belts, because all of your passengers deserve them. A power 6-way driver's seat is standard on Escape XLT, XLT Sport, Limited and Escape Hybrid to help you customize your position. Escape XLT Sport models feature unique new cloth seating while luxurious leather-trimmed seats and a leather-wrapped steering wheel are standard on Limited and available in the Leather Comfort Group (shown) on XLT and Escape Hybrid. They're the perfect touch for those who like to Escape in style.

**Lean on Me** — Escape's standard floor console features a padded armrest, covered storage for your CDs, a dual cupholder, a power point, and another handy storage bin up front.

**Stay Hydrated** — The dual cupholder in Escape's standard floor console features a removable insert that allows you to make room for larger cups.

**Lighten Up** — Escape's power moonroof opens and closes at the push of a button. It's paired with a mini-overhead console that includes a storage bin and map lights. Available on Escape XLT, XLT Sport and Limited, and with the Premium Package on Escape Hybrid.

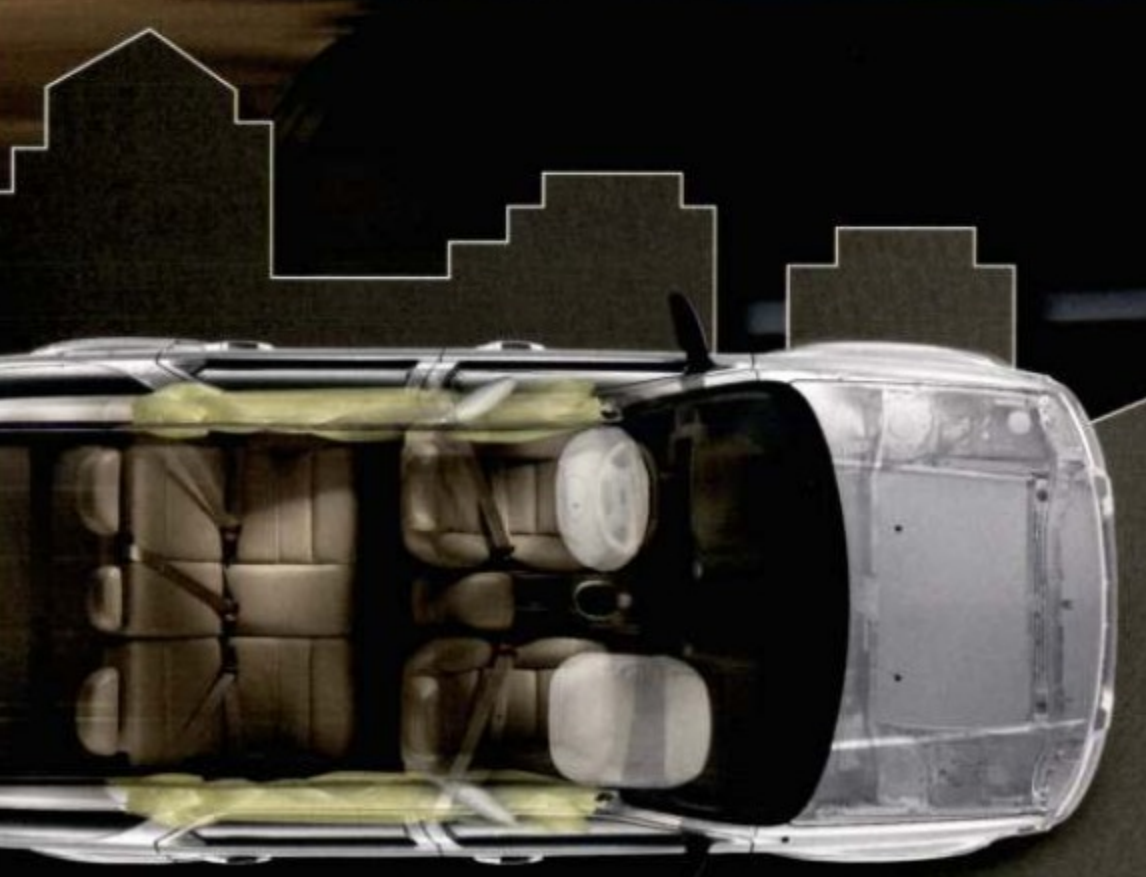

## Escape with confidence

Every Ford Escape is filled with active and passive safety features designed to help you feel safe and secure, no matter your destination. Strategically placed front and rear crumple zones help absorb the force of an impact, directing it away from you and your passengers. Every door gets ultra-high-strength steel reinforcement for protection in side-impact collisions. A standard perimeter alarm helps enhance security on Escape XLT, XLT Sport, Limited and Escape Hybrid (available in the Convenience Group on XLS). Plus, you'll find all of these essential systems standard on every Escape:

- Anti-Lock Brake System
- Tire Pressure Monitoring System
- SecuriLock® Passive Anti-Theft System
- Remote Keyless-Entry System

**Safety Matters** — Escape's innovative **Personal Safety System**® uses a network of sensors to enhance protection for the driver and front passenger in certain frontal collisions. The system customizes the deployment of Escape's standard dual-stage driver and front-passenger (single-stage passenger on Escape Hybrid models) airbags based on several criteria, including the driver's-seat position, whether the front safety belts are in use, and the overall severity of the impact. The latest in occupant-sensing technology, the Front-Passenger Sensing System plays an important role within the Personal Safety System. It measures the amount of pressure exerted on the seat to determine whether the front-passenger airbag should be activated or not. A message illuminates on the instrument panel to indicate when the airbag has been automatically disabled.

**Added Protection** — The **Safety Package** combines our Safety Canopy™ System with front-seat side airbags. The Safety Canopy System includes 1st- and 2nd-row side-curtain airbags and a sensor that directs their deployment in the event of a rollover or certain side-impact collisions. The side-curtain airbags are designed to remain inflated longer to enhance protection through a rollover event. The Safety Package is optional on all Escape and Escape Hybrid models.

## It is easy being Green

Practicing the 3 Rs (*reduce, reuse and recycle*) may sound like a lot of work, but driving the Escape Hybrid can make it easy. Of course, it's not going to rinse and separate your bottles. (Sorry about that.) But it will *reduce* the amount of the earth's natural resources you require for daily driving, by employing our innovative hybrid powertrain technology to help maximize your fuel efficiency. It will also *reuse* its own power during a process called Regenerative Braking. The Escape Hybrid will actually *recycle* energy that's created when you brake and use it to recharge the battery as you drive, so you'll never need to plug it in. You can just gas up and go, go, go. Turns out it *is* easy being Green in the Ford Escape Hybrid.

\*2005 Fuel Economy Guide and Green Vehicle Guide  
from the Environmental Protection Agency and Department of Energy

The Ford Escape Hybrid helps you use less gas, which helps your bank account *and* the environment. Although greenhouse gases are still released during the vehicle assembly process, we at Ford are working to reduce these emissions by improving the energy efficiency of our plants. With the 2007 Ford Escape Hybrid, we're taking our environmental commitment a step further by funding clean energy projects (such as wind energy) designed to reduce greenhouse gas emissions by the same amount required to build the vehicle. It's just one more way that Ford is *Driving American Innovation*.

## Discover the difference

The Escape Hybrid puts near-zero emissions, incredible fuel efficiency, and an extended driving range all within your reach. For starters, it meets California's strict Advanced Technology Partial Zero Emissions Vehicle (AT-PZEV) requirements by achieving Super Ultra Low Emissions Vehicle II (SULEV II) standards, plus zero evaporative emissions standards, and offers extended emissions warranty coverage.\* It also happens to deliver an impressive 36 mpg\*\* in city driving. At that rate, you'll be able to drive 400-500 miles on one tank of gas! The hybrid powertrain system operates in pure Electric Drive mode, using no gas and emitting virtually no harmful pollutants, whenever you're stopped in traffic or idling at a light. So Escape Hybrid really thrives in stop-and-go situations. In fact, front-wheel-drive models achieve city fuel economy that's up to 109% better than the average V6-equipped SUV!† Start down the path toward a brighter tomorrow in the Ford Escape Hybrid.

\*SULEV II and AT-PZEV are ratings approved by the California Air Resources Board. Vehicles sold in federally regulated states meet the Environmental Protection Agency's Tier 2/Bin (3) emissions standards. \*\*EPA-estimated mpg based on FWD configuration. Actual mileage will vary. See Escape Hybrid specifications for details. †15-gallon fuel tank. ††Based on comparison of EPA-estimated fuel economy data for all 2006 SUVs equipped with conventional V6 engines.

### Hybrid Powertrain Components –

- A. **Vehicle System Controller** – Coordinates 3 modes of operation
- B. **Gas Engine** – 2.3L I-4 Atkinson-cycle engine runs only when necessary
- C. **eCVT** – Electronically controlled Continuously Variable Transmission uses a single planetary gear set to facilitate its seamless operation, and also houses the electric traction and generator motors
- D. **Regenerative Braking** – Employs the electric traction motor to recapture energy that would otherwise be lost, then uses it to recharge the battery pack
- E. **Battery Pack** – 330-volt Nickel-Metal-Hydride (NiMH) battery pack supplies power to the electric traction motor

## Recharge yourself

We all need a boost now and then – that’s the key to the lively V6-like acceleration performance of the Escape Hybrid. In Hybrid Drive mode, the electric traction motor is used to give the gas engine an extra boost of power. To call upon this mode whenever you need it, just step on the accelerator. Of course, Hybrid Drive is only 1 of the 3 main modes of operation. The others are Electric Drive and Idle Charging. Electric Drive mode powers the vehicle by electric energy alone, while Idle Charging mode uses the gas engine to charge the battery when the vehicle is not in motion. A vehicle system controller acts as the brain of the operation, automatically coordinating the modes to maximize your fuel efficiency while delivering an optimal driving experience.

**Team Player** — Escape Hybrid’s 2.3L I-4 engine uses Atkinson-cycle combustion to make the most of each drop of gas. It also produces 124 lb.-ft. of torque and teams up with the electric traction motor to deliver 155 net hp.

**Dedicated to Recycling** — Escape Hybrid’s Regenerative Braking process captures the kinetic energy that’s created when you brake and uses it to recharge the battery pack.

**Power Source** — Located at the cargo area floor, Escape Hybrid’s 330-volt battery pack supplies electrical energy to start the engine, to drive at low speeds, and to boost acceleration.

## Green gets it done

100% Hybrid and 100% SUV. The Escape Hybrid gives you all the benefits of our innovative hybrid powertrain system on top of all the compact SUV essentials, including the “fun-to-drive factor,” flexible seating for 5 and lots of cargo space. In fact, the competition\*\* can't even come close to Escape Hybrid's maximum cargo capacity of 65.5 cu. ft. with the rear seats folded and the cushions removed. Plus, you can equip Escape Hybrid with our optional Intelligent 4WD System, while the Toyota Prius and Honda Civic Hybrid are only available in 2-wheel drive. When it comes to capability, Ford Escape Hybrid naturally stands above the rest.

\*\*Toyota Prius's trunk space maxes out at 16.1 cu. ft., while Honda Civic Hybrid offers only 10.4 cu. ft.

Escape Hybrid's optional Premium Package (shown) is a convenient way to add all these excellent features at once:

- Monochromatic Exterior in Your Choice of 5 Colors
- Automatic Headlamps
- Heated Sideview Mirrors
- Hybrid Energy/Navigation/Audiophile® System
  - Energy-flow diagram
  - Full navigation capabilities
  - 6-disc MP3-capable CD changer
- Premium Leather-Trimmed Seats
- Leather-Wrapped Steering Wheel
- Heated Front Seats
- 110-Volt AC Power Outlet
- Illuminated Visor Vanity Mirrors
- Rear Floor Mats
- Retractable Cargo Area Cover
- Reverse Sensing System

**Time to Accessorize** — The 110-volt power outlet works like an AC outlet in your home. So you can take all sorts of essentials to your next tailgate party: extra lights, a radio, even a small TV.\* Available exclusively on Escape Hybrid.

## Genuine Ford Accessories

Engineered by Ford for excellent fit and long-wearing durability, Genuine Ford Accessories offer you serious style and quality. When installed by your Ford Dealer at the time of purchase, they're backed by a 3-year/36,000-mile limited warranty.\* And now, Ford's new vehicle Accessorizer puts personalization in the fast lane. This exciting new online tool lets you see how Genuine Ford Accessories will look on your Escape, Escape Hybrid or any other Ford, Lincoln or Mercury vehicle. Take it for a test drive at [www.fordaccessoriesstore.com](http://www.fordaccessoriesstore.com).

[fordaccessoriesstore.com](http://fordaccessoriesstore.com)

\*12-month/12,000-mile limited warranty if Genuine Ford Accessories are not installed by a Ford Dealer or are purchased after initial vehicle sale. See your dealer for details.

## SPECIFICATIONS

### MODEL HIGHLIGHTS

Each series includes the standard equipment of the previous series, except where additions/exceptions are noted.

#### ESCAPE XLS

Duratec 23-2.3L I-4 engine • 5-speed manual transmission or available 4-speed automatic • 15" styled-steel wheels • Grey molded-in-color front and rear bumpers and bodyside moldings • Black roof side rails • AM/FM stereo/single-CD player with MP3 and SIRIUS Satellite Radio capability • Cloth seats

#### ESCAPE XLT

4-speed automatic transmission • 16" aluminum wheels • Front fog lamps • Roof side rails with 2 horizontal crossbars • Privacy glass • AM/FM stereo/6-disc in-dash CD changer with MP3 and SIRIUS Satellite Radio capability • Premium cloth seats with 6-way power driver's seat • Cruise control • Perimeter alarm • Floor mats

#### ESCAPE XLT SPORT

Duratec 30-3.0L V6 engine • 16" bright machined-aluminum wheels • P235/70R16 all-season OWL tires • Body-color front and rear bumpers, bodyside moldings and wheel-lip moldings • Black side step bars, door handles and liftgate molding • Keyless-entry keypad

#### ESCAPE LIMITED

Monochromatic exterior appearance • Premium leather-trimmed seats • Overhead console with dual storage bins • Automatic headlamps • Auto-dimming rearview mirror • Message center with compass display • Illuminated visor vanity mirrors

#### ESCAPE HYBRID

Contains equipment exclusive to Escape Hybrid.  
16" aluminum wheels • Fog lamps • Molded-in-color grey front and rear fascias and bodyside cladding • Power Group with power windows, door locks, mirrors and remote keyless-entry system with 2 key fobs • Privacy glass • Roof rack side rails • Premium cloth low-back front bucket seats with map pockets • Premium cloth 60/40 split rear seat with tip-fold-flat latch • AM/FM stereo with 6-disc in-dash CD changer with MP3 and SIRIUS Satellite Radio capability • Floor shifter and console with 2 cupholders and storage bin • Power 6-way driver's seat

## STANDARD FEATURES

### MECHANICAL

4-wheel independent suspension  
100,000-mile tune-up interval\*  
Front-wheel drive  
Fuel tank — 16.5-gallon capacity  
Intelligent 4WD System (4WD models only)  
Power rack-and-pinion steering  
Stabilizer bar — Front  
Unibody construction

### SAFETY/SECURITY

3-point safety belt restraint system for all seating positions  
4-wheel Anti-lock Brake System (ABS)  
Adjustable head restraints at all seating positions  
Battery saver with headlamps-off delay  
Belt-Minder® safety belt reminder  
Brake/shift interlock with automatic transmission  
Fuel pump inertia shutoff switch  
Headlamps-on alert chime  
Height-adjustable shoulder safety belts — Front  
Key-in-ignition alert chime  
LATCH system for child-safety seats — Rear-outboard positions  
Personal Safety System\*\* — See page 15  
Remote keyless-entry system with 2 key fobs  
SecuriLock® passive anti-theft system  
Side-intrusion door beams  
Tire Pressure Monitoring System (TPMS)

### SEATING

Dual, reclining front bucket seats  
60/40 split-folding rear seats  
Removable rear-seat cushion

### INTERIOR

Accessory delay for power windows  
Air conditioning  
Assist handles — 2 front, 2 rear†  
Cargo area floor hooks (4)  
Floor console — Storage bin and dual cupholder with removable insert  
Glove compartment with lock  
Head restraints — Adjustable (5)  
Illuminated-entry system  
Power door locks with child-safety rear door locks  
Power point — Front console  
Power windows — With one-touch-down driver's-side feature  
Rear floor heat ducts  
Tachometer  
Tilt steering wheel  
Visor vanity mirrors — Dual, covered

### EXTERIOR

Grille — Black surround with black mesh center  
Headlamps — Aerodynamic halogen clear-lens  
Liftgate with flip-up glass  
Mirrors — Power sideview with manual-fold feature  
Rear-window defroster  
Roof side rails (with crossbars on XLT, XLT Sport and Limited)  
Solar-tinted glass (door, quarter windows and rear window)  
Windshield wipers — Front: variable-intermittent with washer; rear: 2-speed with washer

\*Under normal driving conditions with routine fluid and filter changes.  
\*\*Always wear your safety belt and secure children in the rear seat.  
†Rear assist handles not available with Safety Package.

### New Vehicle Limited Warranty

We want your Ford Escape or Escape Hybrid ownership experience to be the best it can be. So under this warranty, your new vehicle comes with 3-year/36,000-mile Bumper-to-Bumper Coverage, 5-year/50,000-mile Safety Restraint Coverage, and 5-year/unlimited-mile Corrosion (Perforation) Coverage — all with no deductible. Escape Hybrid is also covered by an 8-year/100,000-mile Hybrid Limited Warranty\* Please ask your Ford Dealer for copies of these limited warranties.

\*10-year/150,000-mile Hybrid Battery Limited Warranty in California, Maine, Massachusetts, New York and Vermont. See dealer for details.

Get the ride you want. Whether you plan to lease or finance, you'll find the choices that are right for you at Ford Credit. Ask your Ford Dealer for details, or check us out at [www.fordcredit.com](http://www.fordcredit.com).

Choose the insurance program that's designed for your vehicle — Ford Motor Company Insurance Services. Our program helps you receive the rates and service you deserve. Call 1-877-367-3847, or visit us at [www.fordvip.com](http://www.fordvip.com) for a no-obligation quote. Insurance offered by American Road Services Company (in CA, American Road Insurance Agency), a licensed agency and subsidiary of Ford Motor Company.

For a purchase or lease, the Ford Extended Service Plan (ESP) gives you "Peace-of-Mind" protection designed to cover key vehicle components and protect you from the cost of unexpected repairs. Ask your dealer for an ESP, the only service contract backed exclusively by Ford and honored at all Ford Lincoln Mercury dealerships.

# ESCAPE HYBRID SPECIFICATIONS

# Amazing

days like this aren't  
meant to be wasted  
sitting in that little cube.  
Especially when my  
new hat needed  
to see the sun.
