2024

HORNET

/// 2024 DODGE HORNET

It was born to usher in a new era of muscle. It was built to disrupt the segment—to amplify the ingenuity and performance that makes a Dodge a Dodge. We’ve sharpened our stinger to deliver a muscle Compact Utility Vehicle (CUV) straight from the honeycombs of the industry’s most aggressive hive—this is the Dodge Hornet.

GT

BRACE FOR THE STING

GT SHOWN IN GREY CRAY WITH BLACKTOP PACKAGE AND TRACK PACK

/// DODGE HORNET GT

Built with ingenuity and amped-up attitude, this is muscle in its newest form. Dodge Hornet GT arrives on the scene with a wide stance, aggressive hood lines and a mail-slot-style grille opening sculpted into the fascia. The side fender is adorned with fierce Hornet logo badging.

Opting for the available, race-inspired Track Pack is a major flex. Package highlights include 20-inch Abyss-finish aluminum wheels, Adaptive Dual-Stage Valve Suspension, Red Brembo® brake calipers and more.

GT

GET IN YOUR COMFORT ZONE

/// HEATED AND VENTILATED FRONT SEATS

The performance-focused interior boasts perforated Alcantara® Sport seats that bring a premium feel. Both the driver and front-passenger seats feature 12-way power (including 4-way lumbar adjust) and heat, ventilation and memory settings. Available.

/// GT INTERIOR SHOWN WITH ALCANTARA SPORT SEATS WITH AVAILABLE TRACK PACK

GT

THE DODGE HORNET GT IS THE MOST POWERFUL GAS COMPACT UTILITY VEHICLE (CUV)^{1*}

/// GT PLUS SHOWN IN 8 BALL WITH AVAILABLE TRACK PACK AND BLACKTOP PACKAGE

/// FOREVER AN ICON

Hornet gives sporty vibes with available 20-inch rims and Brembo[®] brake calipers. The finishing shot is delivered by a full-width, all-LED, racetrack taillamp, interrupted only by the first-ever illuminated Dodge Rhombus logo.

HORSEPOWER

LB-FT OF TORQUE

// THE MOST POWERFUL GAS COMPACT UTILITY VEHICLE (CUV)¹

With 268 horsepower and 295 lb-ft of torque, the gas-powered 2.0L Hurricane Turbo engine and 9-speed automatic transmission work in tandem to deliver 0-60 mph in 6.5 seconds. This power makes Hornet GT the Most Powerful Gas CUV!

// 9-SPEED TRANSMISSION

The robust 9-speed transmission allows the engine to run in an optimal speed range, which yields a more responsive launch and better efficiency at highway speeds.

// ADAPTIVE DUAL-STAGE VALVE SUSPENSION

While behind the wheel, select between two distinctive response profiles. **Sport Mode** delivers a stiffer suspension that minimizes body roll and improves cornering control. **Normal Mode** delivers a smooth, soft, compliant feel for incredible ride quality and comfort. Available.

// TORQUE VECTORING

Dynamic torque vectoring distributes torque with electronic precision to each wheel, providing superior road grip and vehicle control. When used with Sport Mode, the system responds as an electronic limited-slip differential.

// GT PLUS SHOWN IN 8 BALL WITH TRACK PACK

INTRODUCING ELECTRIFIED DODGE PERFORMANCE

// BORN TO BE DIFFERENT

There is no shortage of reasons to go electric, but for Dodge, the most important reason is performance. As the brand's first-ever electrified vehicle, the Hornet R/T Plug-in Hybrid Electric Vehicle (PHEV) was engineered to deliver a top track speed of 205 km/h (128 mph), hit 60 mph in just 5.6 seconds and run the quarter mile in 15 seconds.

// R/T PLUS SHOWN IN ACAPULCO GOLD

THE HEAD OF THE HIVE IS ELECTRIFIED

UP TO
288 | 383

HORSEPOWER

/// DODGE HORNET R/T PERFORMANCE HYBRID

The first electrified Dodge vehicle delivers overall power from an all-aluminum 1.3L Turbo engine and an electric motor. The gas engine powers the front wheels via a smooth-shifting AISIN® 6-speed transmission while the electric drive motor powers the rear wheels.

A 15.5-kWh lithium-ion battery propels the electric motor, which is positioned on the rear axle. This high-power, no-emission solution also gives Hornet R/T electric All-Wheel Drive (eAWD) without the need of an actual driveshaft.

The combined result of both powerplants makes the Dodge Hornet R/T the Most Powerful Compact Utility Vehicle (CUV) with 288 net horsepower and 383 lb-ft of torque.¹ The Dodge Hornet R/T offers up to 573 km (356 miles) of total range.²

/// NOTHING WASTED

Regenerative braking and eCoasting allow Hornet R/T to recover energy that would otherwise be wasted as heat and brake pad wear. Regenerative braking recovers kinetic energy when braking.

/// R/T PLUS SHOWN IN BLUE STEELE

FULL CHARGE AHEAD

// MANY MODES OF OPERATION

Hornet R/T puts the power to choose in your hands through a Sport Mode and three Hybrid Modes, all selectable through a dedicated button on the steering wheel:

Hybrid Mode provides the maximum combined efficiency of the conventional engine and eMotor, minimizing fuel consumption by setting electric priority until a minimum battery level is met.

Electric Mode offers an all-electric, near zero-emission mode and automatically switches to gas when the battery is depleted or when extra power is requested by driver pedal kickdown.

eSave Mode prioritizes the 1.3L Turbo engine in order to maintain or recharge the high-voltage battery.

// CLASS-EXCLUSIVE POWERSHOT³

The Class-Exclusive PowerShot feature is activated by pulling both paddle shifters simultaneously. PowerShot makes power available for 10 to 15 second intervals, delivering up to 30 horsepower and instant torque. The result is that, combined with the Sport setting, PowerShot can shave one and a half seconds off 0 to 60 acceleration, from 7.1 to 5.6 seconds.

// 2.5-HOUR QUICK CHARGING⁵

Charging Hornet R/T is simple and can be done at a public charging station, via an available 7.4-kW Level II charger, or through a conventional 120-volt AC grounded wall outlet. Simply plug the charging cord into the vehicle's charging port located on the driver's side rear fender. Whether home⁴ or away, Hornet R/T can be charged in as little as 2.5 hours.⁵

// 573 KM (356 MILES) OF TOTAL RANGE²

This isn't your typical hybrid—this Hornet is infused with Dodge Brand DNA. The R/T seamlessly switches between electric and gas and can operate on both types of power—electric when you want it, gas when you need it.

// BATTERY DESIGN

Hornet R/T Plug-in Hybrid Electric Vehicle (PHEV) system has a 15.5-kWh, 306-volt lithium-ion nickel-manganese-cobalt battery pack. The pack is fitted with a refrigerant gas-cooling circuit to keep the battery at its optimum temperature.

ACCESS HYBRID OWNERSHIP BENEFITS BY PROVINCE: LICENCE PLATE DESIGNATION AND AVAILABLE ROAD, FERRY AND TOLL PRIVILEGES

WHERE STYLE MEETS COMFORT

/// R/T INTERIOR SHOWN WITH BLACK CLOTH AND LEATHERETTE

/// PURE INDULGENCE

Slide in and get ready for standard premium cloth or available full-leather seating surfaces, eight-way power driver- and front-passenger seats and power sunroof. Regardless of the ambient temperature, available luxuries like a heated steering wheel and heated and ventilated front seats make the ride more comfortable.

/// PADDLE SHIFTERS

Not only do Hornet R/T and R/T Plus steering column-mounted paddle shifters let you upshift or downshift the transmission while driving, when pulled up together, they activate PowerShot for up to an additional 30 horsepower.

/// AUTO-DIMMING REARVIEW MIRROR

Integrated sensors in the rearview mirror can detect headlight glare from the vehicles behind you. The sensors send a charge through the mirrors, which causes the glare to turn dark and can help with driver reaction time and vision.

DOMINEERING DESIGNS

R/T PLUS SHOWN IN HOT TAMALE WITH BLACKTOP PACKAGE AND TRACK PACK

EXTERIOR HORNET R/T

Aggressive lines and functional hood vents are just the beginning of this performance-oriented exterior. Hornet R/T announces its presence with a throaty rasp, floating through the chrome dual exhaust tips. Staunch braking power comes from the ultimate braking performance, with the only Brembo[®] fixed-caliper system in the segment.³ Available in Anodized or Red, the brakes feature Dodge branding, 1.65-inch pistons, and larger disc diameter compared to the standard system for enhanced stopping power.

BEST-IN-CLASS TOTAL STANDARD SCREEN SIZE⁶

/// A TECHNOLOGICALLY ADVANCED EXPERIENCE

Hornet delivers a premium driving experience through a combined Best-in-Class total standard screen size that includes 22.55 inches of in-vehicle display screen space.⁶ Located in the instrument cluster, a Largest-in-Class standard 12.3-inch digital cockpit instrument cluster⁷ allows you to toggle through the speedometer, fuel economy and trip mileage and view available full-screen navigation.⁸ Information is displayed in three separate zones and allows the driver to customize the crisp, clear graphics.

A standard 10.25-inch Uconnect[®] 5 touchscreen lets you view images and information from advanced safety systems, such as the rearview camera's dynamic grid lines, or operate features like the Dual-Zone Automatic Temperature Control, radio features and more.

THE EVOLUTION OF THE CONNECTED DRIVE

ALEXA BUILT-IN⁹

Ask Alexa to stream music, navigate to points of interest, check the weather, view your calendar, build shopping and to-do lists, or answer general questions. Available.

CONNECTED TRAFFIC AND TRAVEL SERVICES¹⁰

Connected search, traffic and travel services keep you moving toward your desired destinations. Subscription required. Available.

MAPS OVER THE AIR (MOTA)

Get updates to your navigation⁸ system at the push of a button. Updates are sent via a wireless connection and installed automatically. Available.

SIRIUSXM[®] WITH 360L¹¹

Enjoy a personalized experience with on-demand audio, content recommendations and more variety. Available.

UCONNECT[®] 5

Uconnect 5, with its large, full-colour, 10.25-inch touchscreen, integrates with your iPhone with wireless Apple CarPlay¹² and your smartphone with Android Auto.^{TM12} Opt for a Wi-Fi Hotspot,¹³ and up to eight devices can connect. The system delivers greater personalization features and operating speeds that are five times faster compared to the previous generation. Standard.

START YOUR CAR FROM AFAR

Send destinations, lock the doors, check fuel status and more using the available Dodge Skill for Amazon Alexa¹⁴ or the available Dodge Action on Google on your voice assistant-enabled devices.

SIRIUSXM¹¹

Tune in and travel well. SiriusXM connects you with the ultimate entertainment experience, including over 160 channels of ad-free music, plus sports, news, talk and comedy. Six-month trial included. Standard.

DODGE CONNECT¹⁰

Enjoy a suite of safety and convenience features, including SOS Call,¹⁵ lock/unlock or start¹⁶ your car from virtually anywhere and much more. Three-month trial included. Available.

PHONE/TEXT

Pair up to eight phones, make calls, use voice commands to hear and respond to texts,¹⁷ select media stations and access navigation.⁸ Includes wireless Apple CarPlay¹² support with your connected iPhone and wireless Android Auto¹² compatibility. Standard.

 R/T PLUS SHOWN IN 8 BALL WITH TRACK PACK

GET THE BEATS BUMPING

/// HARMAN KARDON® PREMIUM AUDIO SYSTEM

Get in, crank the tunes and feel like you're in your own VIP section. Standard on Hornet GT Plus and R/T Plus, the Harman Kardon Premium Audio System delivers a solid 465 watts of total system output through a subwoofer and 14 well-positioned speakers.

NO-COMPROMISE SECURITY

1

2

3

4

1 AUTO HIGH-BEAM HEADLAMP CONTROL
Intelligent auto high-beam headlamps automatically switch on and off when appropriate. When travelling on a dark road with no traffic, high beams automatically turn on. If a vehicle with headlights on approaches up to 609.6 metres (2,000 feet) away or taillamps are detected up to 152.4 metres (500 feet) away, the system will dim to low beams to avoid hindering the vision of the other driver.

2 AUTOMATIC EMERGENCY BRAKING WITH PEDESTRIAN DETECTION¹⁸
Intelligent sensors help locate and track pedestrians and cyclists you may not see. If necessary, the system can automatically apply the brakes to help avoid hazardous situations. Standard.

3 LANE KEEP ASSIST¹⁹
The system provides a visual and haptic warning should the system detect the vehicle is straying from the lane, and if no driver correction is detected, then counter steering is automatically applied to maintain the vehicle in the lane. Standard.

4 360° SURROUND-VIEW CAMERA SYSTEM²⁰
Activated when in Reverse, the system provides a bird's-eye view of the vehicle and its surroundings, enhanced by dynamic grid lines to better navigate around nearby objects and narrow turns. Available.

ADVANCED SAFETY TECH

1 ADAPTIVE CRUISE CONTROL WITH STOP AND GO (ACC STOP AND GO)¹⁹

When in use, the system maintains a driver-selected set distance from vehicles in the lane ahead. When slower traffic is detected, ACC Stop and Go can automatically adjust its speed all the way down to 0 km/h. The system will also stop and start the vehicle during stop-and-go traffic. Standard.

2 TRAFFIC SIGN RECOGNITION²¹ AND INTELLIGENT SPEED ASSIST (ISA)¹⁹

By using the forward-facing cameras and navigation⁸ software, high-tech systems work together to identify the legal speed limit on most roads. The ISA helps enable drivers to maintain a set speed using a programmed system. Scanners observe the road ahead for traffic sign markers, then adjust vehicle speed and following distance accordingly. Available.

3 DROWSY-DRIVER DETECTION¹⁹

By using visual and audible alerts, the system can notify and suggest to the driver to take a break when they have driven a prolonged period of time or if steering behaviour signals fatigue. Available.

4 BLIND-SPOT MONITORING (BSM)¹⁹ SYSTEM WITH REAR CROSS-PATH DETECTION¹⁹

When a vehicle is detected in your blind spot, an indicator light in the sideview mirror illuminates. The Rear Cross-Path Detection feature also uses this radar to help detect possible obstructions behind your vehicle when you're slowly backing out of a parking spot or driveway. Standard.

A FULL-SENSORY EXPERIENCE

1 DRIVER-CENTRIC COCKPIT

The teched-out interior prioritizes the driver's experience. A digital cluster and central display screen that is tilted toward the driver make information easy to read. The buttons on the centre stack are easily in reach. Intuitively placed buttons on the flat-bottom leather steering wheel let you choose between Sport and standard driving modes.

2 GO CORDLESS

Forgot your charging cable? No worries, Hornet makes charging on the go easy. Simply place your smartphone on the pad located under the Uconnect® touchscreen for cord-free charging. Standard on GT Plus and R/T Plus only.

3 PUSH-BUTTON START AND SPORT MODE

Inside and out, Hornet takes a performance-centric approach. A push-button start delivers a high-tech feel when starting the engine. The steering was fine-tuned with performance and control in mind and includes a Sport Mode button. When activated, drivers will experience sharper throttle, higher RPM upshifts, tighter steering, and full power and torque.

4 REAR SEAT WITH SKI PASS-THROUGH

Keep the 60/40 split-folding rear seats up for maximum seating capacity. When room for longer gear like skis is needed, Hornet has the ingenuity to make this Compact Utility Vehicle (CUV) into a long-item hauler. Fold down a portion of the rear seat to enhance the overall cargo space.

1

2

Properly secure all cargo.

3

4

PERFORMANCE IS A YEAR-ROUND COMMITMENT

 GT PLUS SHOWN IN Q BALL

ALL-WHEEL DRIVE (AWD)

This Hornet doesn't hibernate in the winter. Thanks to standard on-demand AWD, Hornet makes the most of every season and every road. Typically, the front wheels on Hornet receive all of the power, but the moment the system detects slippage, power to the front wheels is disengaged and 100 percent of the engine's torque is directed to the rear wheels. The AWD system works with the vehicle's Electronic Stability Control (ESC)²² System to deliver precise front-to-rear torque control while preserving unrelenting drive.

DISCLAIMERS: 1] Based on IHS's Compact UV segment, current available competitor information and horsepower. 2] Driving range based on manufacturer's estimates with a fully charged battery and a full tank of gas. Actual kilometres may vary. 3] Based on IHS's Compact UV segment and current available competitor information. 4] Installation and configuration requirements may apply. Before purchasing or installing the in-home Level II home charging station, customer should ensure that the system is compatible with their home's electrical system. Electrical system upgrades may be necessary to ensure compliance with all applicable codes and regulations. Please consult a professional installer for full details. 5] With the available Level II charger. 6] Based on the latest competitive information, IHS's Compact UV segment and a total screen size of 22.55 inches. 7] Based on IHS's Compact UV segment, current available competitor information, the base standard content and 12.3-inch cluster size. 8] Never program while driving. GPS mapping and 3D navigation may not be detailed, available in all areas or reflect current road regulations. 9] Vehicle must be properly equipped with a Uconnect 5 NAV system. Requires a Wi-Fi Hotspot data plan and linked Amazon account to run Alexa in the vehicle. 10] All vehicles properly equipped to receive Dodge Connect services come with a three-month trial of Assistance Package or Assistance + Navigation Package (if equipped), five years of Vehicle Performance Package, and 10 years of Safety and Security Package effective from the date of purchase or lease of a new vehicle. Enrolment in trial is required to receive services. Upon expiration of trial period, purchase of a subscription is required to continue or renew services. Services are available on equipped vehicles purchased within the United States, Canada and Puerto Rico. Services can only be used where cellular coverage is available. See the applicable Terms of Service for complete terms and conditions, including service limitations. 11] If you decide to continue service after your trial, the subscription plan you choose will continue and you will be charged according to your chosen payment method at then-current rates unless you cancel your services. Fees and taxes apply. Some services and features are subject to device capabilities and location availability. Please see the SiriusXM Customer Agreement at www.siriusxm.ca/terms for complete terms and how to cancel, which includes calling SiriusXM at 1-888-539-7474. All fees and programming are subject to change, provided that we will notify you in advance of any price change. We use personal information in accordance with our Privacy Policy, available at www.siriusxm.ca/privacy. 12] Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice controls, when it is safe to do so. Requires compatible iPhone. See retailer for phone compatibility. Data plan rates apply. To wirelessly use Android Auto on your car display, you need a compatible Android smartphone with an active data plan. You can check which smartphones are compatible at g.co/androidauto/requirements. 13] Three-month/TGB trial included with the purchase or lease of a new vehicle. Upon expiration of the trial period, purchase of a subscription is required. Wi-Fi Hotspot available through third-party subscription. Requires Internet-enabled mobile device. See retailer for details. This feature is not intended for use by the driver while the vehicle is in motion. Always drive carefully. 14] Compatible with properly equipped Uconnect systems on eligible vehicles. Vehicle must be enrolled with Dodge Connect, be in an active and usable cellular range, and have an active subscription. 15] Vehicle must be enrolled with Dodge Connect, be in an active and usable cellular range, and have an active subscription. SDS Customer Care agent directs emergency assistance to your vehicle's location. 16] Vehicle must be enrolled with Dodge Connect, be in an active and usable cellular range, have an active subscription and be properly equipped with remote features. Remote Vehicle Start is not available on all vehicles. You are responsible for using remote features in accordance with any laws, rules or ordinances in effect in your vehicle's location. 17] Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. 18] This system is an alert system for the front of the vehicle. It is not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use brakes to avoid collisions. 19] This is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of their surroundings and be prepared to take corrective action to avoid collisions. 20] Always check entire surroundings visually before proceeding. 21] Traffic Sign Recognition is not a substitute for safe and attentive driving. Factors including weather and condition of the traffic sign can impact the recognition and display of the sign. Always check traffic signs visually while driving. 22] No system can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. 23] Not compatible with all garage door openers.
