

MERCURY COMET 1975.

Mercury Comet with Custom Options.

The car with a little Cougar in it.

If you've thought the only way to save on gas is to drive a plain little economy car, we'd like to introduce you to the 1975 Mercury Comet with a little Cougar in it. You can see a touch of the big cat's luxury in its deeply padded interior, in its comfortably contoured, reclining bucket seats, in the rich wood-grained paneling along the dash and deluxe steering wheel, in the shaggy carpeting throughout. But with all its beautiful style, Comet is engineered to give you more economy than ever before. Its suspension is tuned to steel belted radial ply tires. And those radials come as standard equipment. They not only save on gas, they give you many thou-

sands more miles of tread life over conventional tires. Solid state ignition is a saver, too. It is virtually maintenance free and improves economy over long periods due to more dependable spark plug performance. Mercury Comet has big car ideas and big car stamina put together in a compact size.

Standard equipment on the Mercury Comet with Custom Exterior Option: 250-IV "Six" engine • Fully synchronized 3-speed manual transmission • WSW steel-belted radial ply tires • Locking steering column • Front and rear bumper guards • Luxury level sound package • Dual hydraulic brake system with warning light • Manual front disc

brakes • Blend-Air heater with 3-speed blower • Full-length bodyside molding with Odense grain vinyl insert • Odense grain vinyl roof • Dual body paint stripes • Deluxe colour-keyed wheel covers • 2-speed windshield wipers w/washers.

Custom Interior Option: 22-oz. cut-pile carpeting • Deluxe colour-keyed seat belts • Leather-wrapped steering wheel • Dual beam dome lamp • Day/night rearview mirror • Reclining front bucket seats • Lighted glove box • Cigar lighter. *Did you know every Mercury is engineered to reduce maintenance costs — such as a lifetime water pump and radiator hose that needn't be replaced for 50,000 miles?*

Mercury Comet 2-Door Sedan with Custom interior and exterior options also shown

Mercury Comet and Mercury Comet GT

Even our lowest priced Comet, shown below, is designed with big-car ideas and big-car soundness. Like routine maintenance-reducing solid-state ignition. Improved rubber suspension insulation to quiet the ride. Solid unibody construction with steel side beams in the doors and double-wall luggage deck construction. A tough little car built to give you great value at low cost for as long and as far as you drive it. Or if you like your small car sporty as well as tough, our Comet GT has plenty of what it takes.

Standard features on the Mercury Comet: 250-IV "Six" engine • Fully synchronized 3-speed manual transmission • BSW steel-belted radial tires • Locking steering column • Deluxe sound package • Dual hydraulic brake system with warning light • Manual front disc brakes • Blend-Air heater with 3-speed blower • Two speed windshield wipers w/washers • 12-oz. cut-pile carpeting • Lighted ashtray • Glove box • Cigar lighter • Colour-keyed instrument panel with lighted dash • Deluxe steering wheel

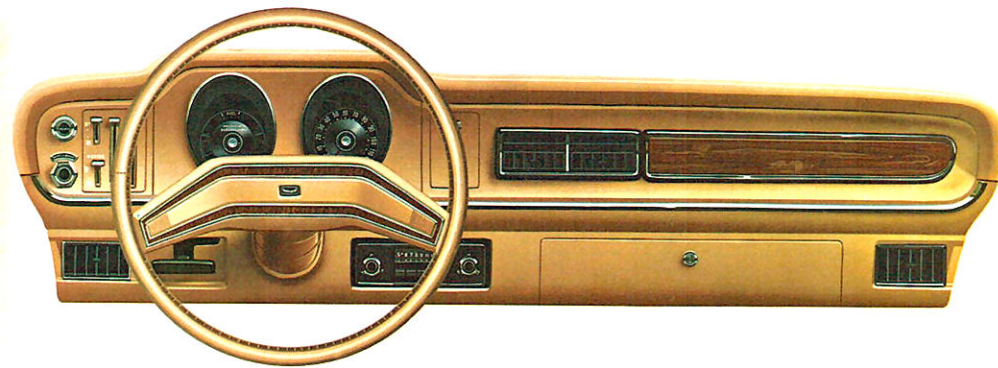

• Ford Motor Company Safety Design Features. *Did you know your 1975 Comet has new-type door latches designed to remain secured in side impact?*
Exclusive added features on Mercury Comet GT (shown right): Colour-keyed hood scoop • Dual racing mirrors • Black hub caps with bright trim rings • Blackout grille, headlight doors and lower back panel • Reclining bucket seats in super-soft expanded vinyl • Black instrument panel with bright molding • Leather-wrapped steering wheel • Tape stripes with GT logo.

*Mercury Comet GT 2-Door Sedan
Shown with cast aluminum wheels, raised white letter tires and bumper protection group.*

Mercury Comet 4-Door Sedan with Custom Options
