

INFINITI 1993

You need to experience the effortless acceleration.

The crisp cornering. The authority of its brakes.

You need to feel its reassuring smoothness.

You need to see the personality of its lines and the way every

piece is fitted to the next. And hear its

extraordinary acoustics. Then you will know why we say

true driving luxury is an experience.

And that the best way to appreciate Infiniti[®] automobiles –

the Q45[™] performance luxury sedan, the

J30[™] personal luxury sedan, and the G20[™] luxury sports sedan –

is to drive them.

The Total Ownership Experience[™] 16-17 • Features/Specifications 18-19

Q45

PERFORMANCE LUXURY SEDAN

Its lines are simple and elegant. The design is innovative, not just a refinement of existing luxury cars. Yet the luxurious outward appearance also hints at inspiring performance. A smooth, aerodynamic shape that creates a slippery 0.30 coefficient of drag. Wide, aggressive steel-belted radial tires. Nearly flush glass that allows the wind to slip quietly past.

This is the Infiniti Q45. A thoughtful balance of luxury and performance. A driver's car with rewarding passenger amenities.

The performance of the Q45, by any measurement, is inspiring. Its 4.5-liter, aluminum-alloy V8 offers 0-60 acceleration in 6.7 seconds. Its electronically-limited top speed is 150 mph. And its low-end torque is as impressive as its high-end performance. Or to put it another way, it is quicker and faster than most sports cars — and certainly most luxury sedans — on the road today.

Working in conjunction with this powerful

278-horsepower engine is an electronically-controlled four-speed overdrive automatic transmission that glides seamlessly through gear changes and responds to every driving situation, from steep grades to highway passing, with quiet grace. Ride and performance are refined further by the Q45's advanced four-wheel independent multi-link suspension and viscous limited-slip differential, providing exceptional steering

response and high-speed stability as well as superior cornering and handling.

The result of these thoughtfully integrated systems is not only extraordinary performance, but also extraordinary control. Whenever you are behind the wheel of the Q45, you feel relaxed, in touch with the road, able to respond — consistently and easily — to every driving challenge.

The exceptional body panel fit of the Q45 is designed not only to look good, but to feel good as well. Noise and vibrations that might otherwise find their way into the cabin are eliminated, helping to make the car feel tight and secure.

The Q45's combination of active and passive safety systems — including standard driver's side air bag — is so complete, it provides one further benefit. It protects your peace of mind.

The elegance of the Q45 interior can be appreciated on many levels. The tailored simplicity. The soft colors and gentle contours. The pleasant "feel" of switches and finish detailing. But it is the ergonomic sophistication that makes it what it is. A driver's car.

Analog gauges are arranged logically in front of you, bathed in the soft glow of an electroluminescent background. The oversize numbers can be read at a glance. You move your hand to adjust a switch and it is there, where you would expect it to be. The rich, leather appointed interior,

Bose® Audio System and automatic temperature control — along with dozens of other comfort features — make you feel relaxed and in control.

And to tailor the Q45's performance to your individual driving style, Infiniti offers a number of additional choices.* The Q45 Touring Package (Q45t) with Super HICAS™ — the most advanced four-wheel steering ever developed — combines the comfort, elegance and natural driving feel of the Q45, with an extra dimension of sophisticated, sports performance. The advanced Infiniti Traction Control™ offers a sophisticated system

that reacts to and helps correct loss of traction automatically and instantaneously.

And the Full-Active Suspension™ Model (Q45a) gives you the world's first available active suspension. Recognized by *Road & Track*® as one of the "10 Best Cars In The World," the Q45a neutralizes forces acting on the vehicle by actively generating precise counterforces, lowering the wheels, and allowing them to raise, like the legs of a skier going over moguls. The result is a level of performance, comfort and safety well beyond what you've ever experienced before.

*Infiniti Full-Active Suspension Model, optional Infiniti Traction Control and optional Touring Package cannot be combined.

®Road & Track, 12/90.

The Q45 is a driver's car. Distracting clutter has been eliminated by reducing switches to a required minimum. Controls can be reached without effort. Buttons follow the natural arc of the hand for easy operation.

Infiniti's dealer-installed Mobile Communicator™ cellular telephone has been carefully integrated into the Q45's interior design. The Q45 is pre-wired for trouble-free installation, and the phone is factory-engineered for optimum clarity, and thoughtfully positioned for ease of use.

Dealer installed trunk-mounted Sony® compact disc autochanger shown.

J30

PERSONAL LUXURY SEDAN

Into a world that honors individuality, comes a car that's perfectly at home. The new J30 personal luxury sedan. A car which complements, rather than overwhelms, the personality of its owner. And artfully balances assertive performance, elegant styling and luxurious amenities with the cutting-edge technologies of the future.

This and more is the J30. The new luxury car from Infiniti that's destined to become a classic.

To drive the J30 is to experience an uncommonly rewarding balance of luxury, grace and performance. Your driving pleasure begins with the refined power of its technologically advanced 3.0-liter 210-horsepower V6 engine, working in partnership with an electronically controlled four-speed overdrive transmission. To keep your ride comfortable, quiet and stable, the J30 features a uniquely configured four-wheel independent suspension system, with front extended travel MacPherson struts and rear double-isolated multi-link suspension for high-speed stability and enhanced cornering response.

Inside the J30, the rewards continue. The

interior ambience is warm and intimate, with a pleasing interplay of soft, gathered leather and fine, handworked walnut accents. In keeping with Infiniti's philosophy, the J30 comes with an impressive list of standard amenities, including a custom-tailored Bose® Audio System, in-dash compact disc player, dual illuminated visor mirrors and 8-way power driver's and passenger's seats. Occupant safety is addressed through an extensive network of features which include dual air bags, Anti-Lock Braking System (ABS), front seat belts with pre-tensioners, federal 5 mph bumpers, an anti-theft system, and a keyless remote entry system which also unlocks the trunk.

The glow of warm, handworked walnut and the romance of rich, gathered leather surround you in the J30's finely crafted interior. Standard amenities abound and enhance your sense of pleasure and relaxation. Comfort and convenience features include 8-way power seat positioning for both driver and passenger and an advanced automatic temperature control system with an environmentally friendly, ozone-safe refrigerant.

Optional J30 Touring Package shown.

The J30's extensive accident avoidance and passenger protection network — including driver's and passenger's side air bags — enhances occupant confidence and well being. The J30's outstanding performance characteristics help you avoid road mishaps, while body strength and restraint systems protect you in the event of an accident.

G20

LUXURY SPORTS SEDAN

Its lines are contemporary. A sleek shape that achieves a fuel-efficient 0.30 coefficient of drag. But its sophisticated design goes well beyond the traditional goals of aerodynamic efficiency. A low hoodline expands driver visibility. A sophisticated cabin-forward design increases interior space and passenger comfort. The rear deck provides exceptional trunk capacity. And nearly flush glass and headlights allow the wind to slip quietly past.

This is the Infiniti G20. The advanced performance of a true driver's car with the comfort, luxury and efficiency of a family sedan.

The G20 is both fun to drive and practical to own. The high-output 16-valve 2.0-liter DOHC engine, for example, not only delivers 0-60 acceleration in just 8.5 seconds (manual transmission), but also offers impressive gas mileage.

But the G20's eye-opening performance goes far beyond the engine compartment. It has been described by automotive writers as one of the best handling front-wheel drive sedans in the world. Contributing to the G20's stable handling and maneuverability is the first-ever application

of Infiniti's advanced multi-link suspension system to a front-wheel-drive automobile. The multi-link design, borrowed from the Infiniti Q45, keeps the front tires nearly square to the pavement for enhanced traction and a level of control previously unheard of in a front-wheel-drive automobile.

By efficiently packaging both the engine and front suspension, the passenger cabin has been moved forward, creating additional roominess in both the interior — enough for five passengers — as well as expanding trunk capacity.

Standard luxury items include air conditioning, power windows with "one touch down" driver's window, dual outside power mirrors, cruise control, two-speed wipers with variable intermittent feature, rear window defroster with timer, power trunk and fuel filler door releases and an anti-theft system. Plus an Anti-Lock Braking System (ABS) and many other safety features.

The G20's crankshaft is equipped with eight counterweights to give it perfect rotational balance, which is effective in suppressing wasteful engine vibration and in minimizing power losses.

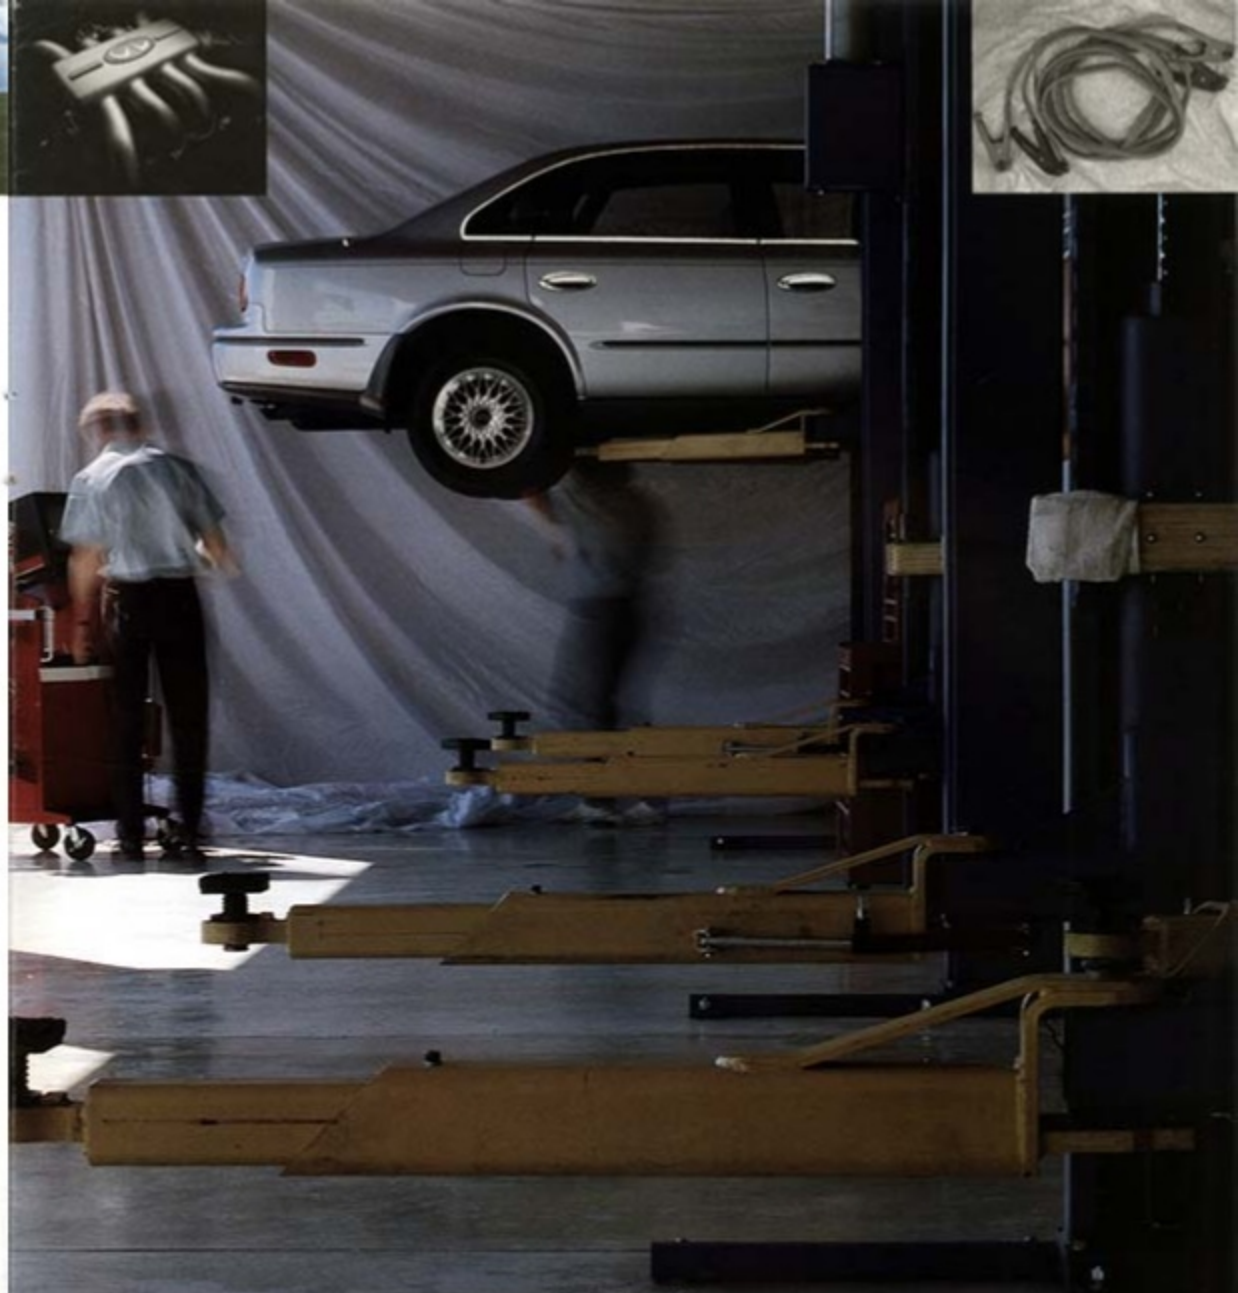

The luxury of owning an Infiniti begins in the quiet, understated decor of the showroom. And with the professionalism of the sales staff. It continues on the road, in the safe, comfortable way the car feels. The way it looks, and the way it responds—almost intuitively—to your commands.

But some of the most rewarding luxuries of owning an Infiniti are on-going. Our commitment to keeping the cost of ownership low. Our comprehensive, no deductible limited warranties: a 4-year/60,000-mile new vehicle limited warranty that covers all components, including the engine, transmission and driveline parts; a 7-year/unlimited mileage limited corrosion

warranty; and a 6-year/70,000-mile limited powertrain warranty. The convenience of a free loan car when you bring your own car in for a scheduled service appointment, subject to availability. The peace-of-mind that comes from our 24-hour Roadside Assistance Program.

There is also the luxury of dealing with knowledgeable sales, service and parts personnel—people who have gone through the most comprehensive training program in the industry. And dozens of other quietly rewarding experiences that make owning an Infiniti a source of continuing pleasure.

We call this the Total Ownership Experience.™

The Total Ownership Experience lasts season after season. It is the reassurance of comprehensive warranties; Roadside Assistance; a computerized diagnostic system to streamline repairs; and small details like a clean car after every service appointment.

Q45 FEATURES

EXTERIOR

Power sliding aluminum sunroof with rear tilt and "one-touch to open" features • Dual power remote control heated outside mirrors • Front and rear color keyed splash guards • Cast alloy wheels

SEATING AND INTERIOR TRIM

Driver's 8-way power seat with door-mounted remote control and built-in lumbar support • Automatic driver's seat and steering wheel entry/exit system and two position memory • Leather appointed interior • Carpeted floor mats

COMFORT AND CONVENIENCE

Air conditioning with automatic temperature control • Cruise control • Electronic tilt and telescopic steering column and wheel • Power windows, door locks and outside mirrors

SAFETY/THEFT PREVENTION

Driver's side air bag • Anti-theft system

AUDIO SYSTEM

Bose® Audio System with four speakers and amplifiers • Pre-wiring for Infiniti cellular phone and antenna

MODEL AVAILABILITY/OPTIONS

Full-Active Suspension Model (Q45a) • Infiniti Traction Control with all-season tires • Q45 Touring Package (Q45t) with 4-wheel steering (Super HICAS)

Q45 SPECIFICATIONS

ENGINE

V8, DOHC • 4.5-liters • 278 Horsepower @ 6000 rpm • Torque (SAE Net) 292 lbs.-ft. @ 4000 rpm • 32 valves with electronically-controlled variable valve timing • Sequential multi-point fuel injection system

DRIVETRAIN

Electronically-controlled four-speed overdrive automatic transmission with lock-up torque converter and viscous limited slip differential

BODY/CHASSIS/SUSPENSION

Four-wheel independent multi-link suspension • Front stabilizer bar

STEERING AND BRAKING

Electronically-controlled speed-sensitive power rack-and-pinion steering • Power assisted four-wheel disc brakes, front-vented, Anti-Lock Braking System (ABS)

PERFORMANCE

Acceleration	0-60 mph	6.7 seconds*
	0-1/4 mile	15.1 seconds*

	32 mpg	29 mpg

WHEELS AND TIRES

Infiniti specifies high performance tires on most Infiniti models to provide superior performance on dry roads. High performance dry road tire performance in snow and ice will be substantially reduced. Available all-season or snow tires will have better snow traction than high performance tires and may be more appropriate in some areas. Availability of factory installed all-season tires varies by geographic location and model. (Please see participating dealers for details.)

To ensure that every Infiniti owner experiences the same high level of driving enjoyment, our standard equipment includes many features that other manufacturers consider optional. For a more complete specification listing, see the Q45, J30 and G20 comprehensive brochures.

¹EPA-estimated figures are for comparison purposes only. Actual mileage may vary depending on driving conditions. Figures for other models will vary.

Infiniti Division of Nissan Motor Corporation in U.S.A. strongly encourages you to use your seat belt/shoulder belt whenever you drive.

The experience of owning an Infiniti goes far beyond the rewards of driving. It is also the reassurance of having a car that lasts. Where paint resists premature

aging. Where quality construction extends its life. And mechanical systems are reliable. It is the luxury of having servicing done correctly the first time. And dealer personnel who treat you with as much professionalism and courtesy after the sale as before. In short, Infiniti offers you an on-going sense of satisfaction. If you would like to know more about this unique experience, we encourage you to contact your local Infiniti dealer.
