

COMBO

HOLDEN COMBO. THE LITTLE BIG VAN.

IT COSTS VERY LITTLE, BUT HAS A BIG APPETITE.

Australia has never seen anything quite like the new Holden Combo, a purpose built van which combines all the economy of a small sedan with much lower running costs than any one tonne van around and a surprisingly large cargo area.

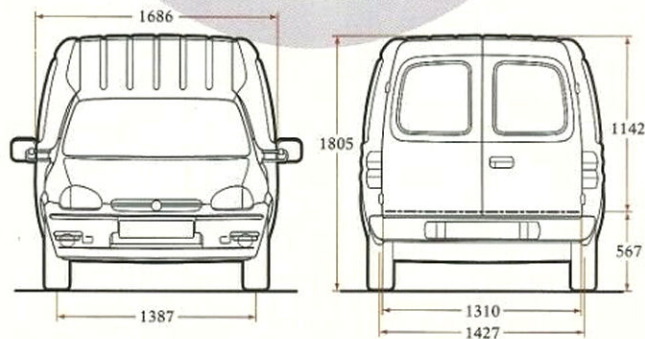

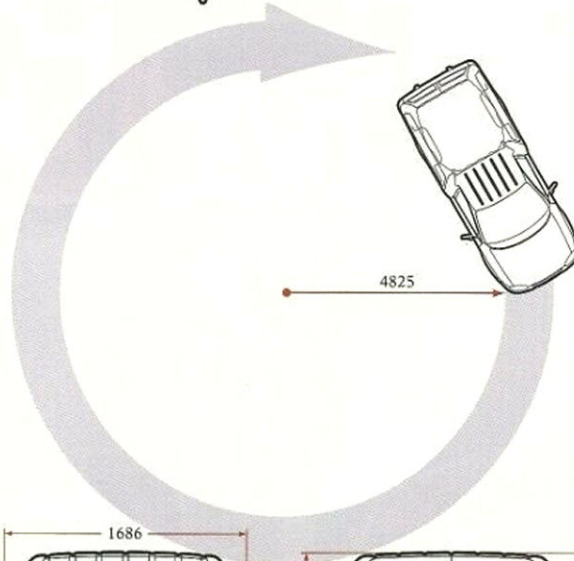

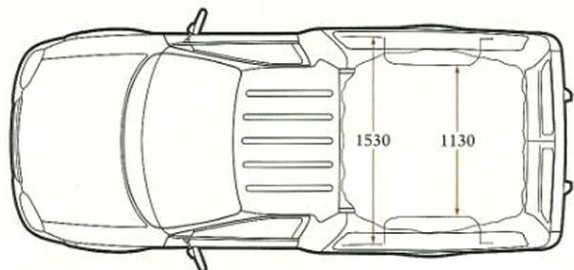

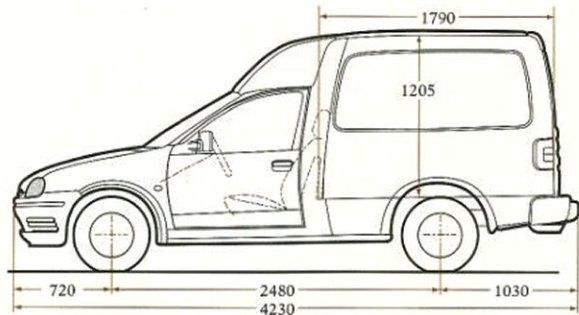

Businesses of all shapes and sizes will find Combo's unique design suitable for carrying not just large loads, but awkward ones as well.

There's simply nothing in Australia which can compare with these facts and figures:

■ Big 545 kg payload ■ Priced significantly lower than the cheapest one tonne van available

■ Service intervals are every 15,000 km or 12 months (5,000 km later than all one tonne vans) reducing service costs and downtime to a minimum ■ 8.5 litres/100 km city cycle, 6 litres/100 km highway cycle (better urban fuel economy than all one tonne vans according to AS2877 test) ■ Operating costs (fuel, tyres, service and repairs) could be up to 27% less than one tonne vans.*

*Based on a survey of base level fleet vehicles travelling 30,000 km per annum and serviced according to the manufacturer's recommended schedule.

SO FUNCTIONAL YOU'LL THINK IT'S A SMALL TRUCK.

The Holden Combo is designed to meet the demands of fleet operators and small business owners, making it a completely functional vehicle with high load bearing capabilities: the perfect combination of practicality and strength.

- A torquey 1.4 litre engine with 5-speed manual transmission
- Vertical full height 'barn' doors open either 90 or 180 degrees to allow easy accessibility to the load area
- Heavy duty rear suspension for greater stability and control under all drive and load conditions
- Extra load space above entire cabin for long loads
- Substantially reinforced front sub frame.

■ A driver's airbag is available for added protection should you choose.

We're sure you'll agree, Combo's amazing versatility sets it streets apart from anything else on the road today. For more information see your nearest Holden Dealer, or call 1800 035 464.
