

A photograph of a street scene. On the left is a tall, ornate black street lamp with multiple lanterns. In the center, a stone archway contains a statue of a crowned figure in a long robe. To the right, a person in a red shirt and black pants is performing a handstand on a paved sidewalk. The background is a wall of reddish-brown stone blocks.

How can you be both

spontaneous and responsible?

Extravagant and practical?

Cautious and spirited?

Introducing the Infiniti QX4. Harmony between luxury and versatility.

The complex, contradictory elements that make up your personality have finally found their soul mate: The new Infiniti QX4, the first sport utility vehicle that does as much to enhance your comfort on the road as to inspire your confidence off it.

Its All-Mode 4WD, for example, is the most technologically advanced system ever engineered in an SUV.

Without taking your hands off the wheel or your eyes off the road (or your mind off the Vivaldi CD you're playing), the QX4 instantly and effortlessly adjusts to changing conditions with exquisite accuracy. When you factor in MonoFrame construction, independent front suspension and rack-and-pinion steering, the QX4 presents the ideal combination of quiet luxury,

responsive handling and muscular durability.

Of course, as befits an Infiniti, the QX4 also comes with the features you'd expect in a true luxury car - all for a base price around \$37,000: leather seating surfaces, dual air bags, remote keyless entry and a 6-speaker Bose audio system with CD player.

We've also made the QX4 as pleasant to own as it is to

drive, with our Infiniti Total Ownership Experience. The defining philosophy of our company, it has made us the Number One Carline in Customer Satisfaction.**

We encourage you to bring all the various elements of your personality to a nearby showroom for a Guest Drive. But please, allow enough time so each gets a turn behind the wheel.
