THE HOLDEN

UTE SERIES II

THE HOLDEN UTE HAS ARRIVED READY FOR WORK

For over forty years the Holden Ute has been an icon in the Australian workplace, from building sites in the cities, to farms in the remotest areas of the outback.

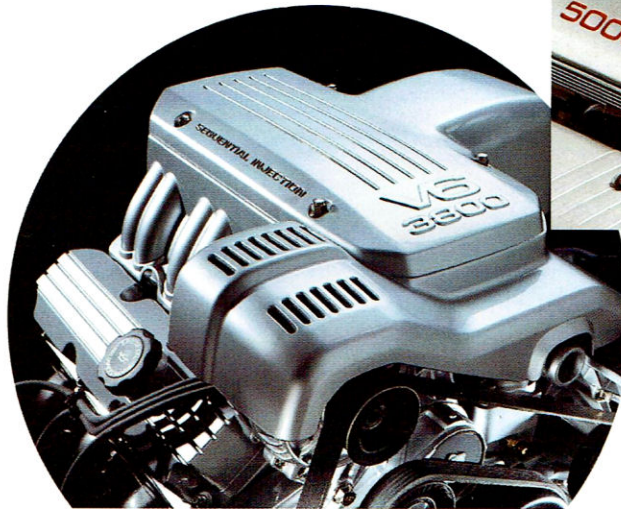

Now, the Holden Ute Series II continues the tradition, with the power to take on the big jobs, and the comfort and styling you'd expect of many sedans.

The brilliant ECOTEC V6 delivers peak power of 147kW and 304Nm of torque. While the 'S' Ute has the option of a 168kW Holden 5 litre V8 engine. Matched to both engines is the renowned German Getrag 5 speed manual transmission*.

*available on V8 from December 1997. GPBR0186

And the Holden Ute Series II scores with 14% greater volume carrying capacity and clearly better fuel economy than its nearest competitor.

Inside, you'll find all the cabin comfort of a modern sedan, right down to the remote control exterior mirrors, a power socket for easy installation of a mobile phone and even an audible Speed Alert system on the 'S' Ute.

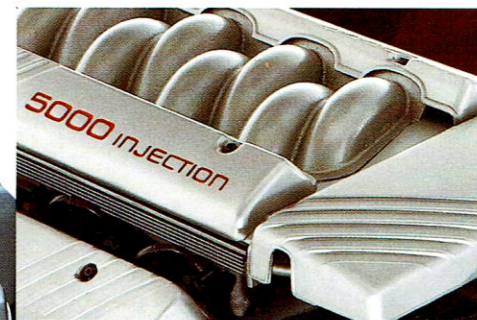

security system, with keyless entry, plus the option of both driver and passenger airbags.

The Holden Ute Series II has the technology to provide a smooth, safe driving environment, with load sensing braking through four wheel power

The Holden Ute Series II has it all: power, comfort, efficiency and style.

For more information see your nearest Holden Dealer, or call 1800 035 464 for a brochure.

disc brakes, and coil spring rear suspension.

It also offers a world class
