

Car care products and chemicals from Toyota keep your car or truck looking new. We took special care to produce a line of products made especially for your car.

We offer a selection of top quality polishes, cleaners, vinyl and leather protectants, car washes, wheel polishes and spot removers. All formulated to maintain the beauty of your new Toyota or help restore the beauty of your old one.

We also designed a top grade line of Toyota Brand Chemicals to help assure continued performance. Our quality line includes brake, carburetor and glass cleaners, white grease, silicone spray, rust penetrant, cements, sealants, and liquid gasket.

We are constantly improving and reformulating our products to keep up with the ever-changing technology Toyota constantly introduces. All these fine products are available at your local Toyota Dealers Parts Department. Whether you want to do-it-yourself, or let the Toyota experts in the Service Department help you, the quality of the Toyota name will always shine through.

OH WHAT FEELING  
**TOYOTA**

### Quality Cars & Trucks, Parts & Service

Toyota dealer parts and service reflect the same quality and dependability you'll find in 1983 Toyota-approved accessories.

A computerized parts inventory control system helps assure availability of Genuine Toyota and

Toyota-approved Parts & Accessories at nearly 1,100 dealers nationwide. Additionally, Toyota-trained service technicians use the latest equipment to care for your Toyota.

Ask your Toyota Dealer for information on these quality Toyota-approved Parts & Accessories.

# TOYOTA APPROVED ACCESSORIES 1983

When you've been one of America's import car leaders for 25 years, you've got some pretty high standards to live up to. We at Toyota meet that challenge with the finest Genuine Toyota and Toyota Approved Accessories.

Each year we manufacture a line of accessories that have been improved, and refined to the finest detail.

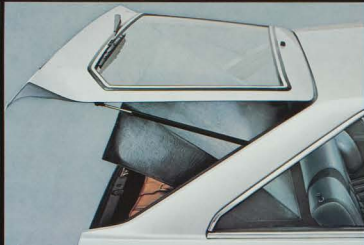

We select only the highest quality material. Demand only the most professional workmanship. We accept only those products that meet our exact specifications. Only when everything meets our standards, can it carry the Toyota name.

We offer a variety of accessories to make you more comfortable, and your car more functional. A Genuine Toyota/Toyota Approved Accessory will give you years of pleasure, and years of performance.

Our complete line of Genuine Toyota Replacement Parts offer the same quality as our original parts. They are made to keep your car or truck running at its peak. Right now, and down the road.

Our dedication to perfection is why we set the quality standards the automotive industry looks up to. This is why millions of Toyota owners wouldn't think of driving anything else.

We'll never be satisfied just riding on our reputation. We're out to build on it.

A

B

All Air Conditioning controls are within easy reach. Shown is the new "ECONOMY" feature for Starlet and Tercel. This is a dual stage system to allow for increased fuel economy when the Air Conditioning is in use.

A. Cargo covers are just what you need to keep your luggage and valuables under cover and protected from the sun. This handsome cover fits snugly and is color coordinated to your interior. It's made from easy care, luxuriously textured vinyl. Cargo covers make a functional and attractive option to selected car lift-back models. They come standard on all Celicas, Supras, Corolla Liftbacks, and selected Tercel models.

B. Genuine Toyota air conditioners provide all season comfort. In warm weather, you'll appreciate the quick cool-down. During cooler months, your

air conditioner can be used with the heater/defogger to quickly demist the interior and defog the windshield. Each unit is

designed to fit properly and to work in perfect harmony with your vehicle's engine to avoid overloading and overheating. Designed on a model by model basis for maximum efficiency, each system incorporates high quality components such as: fuel-efficient rotary

compressor, and an electronic computer that helps prevent engine overloading under all driving conditions. Strategically placed vents circulate conditioned air for maximum comfort. For long-lasting, dependable comfort in all seasons, and a higher re-sale value at trade-in time, ask for a Genuine Toyota Air Conditioner System.

C. Floor mats help maintain the showroom beauty of your Toyota. We took special care to give you a wide selection of beautiful and protective floor mats. Mats are available in sets of two or four. Rubber mats are available for all Toyota cars and trucks. The attractive textured rubber is completely soil and water resistant, easy to clean, and designed to color coordinate with your Toyota's interior

C

In addition to the black mat shown, rubber floor mats are available in grey, light brown, dark wine, and blue.

The mat above (center) is available on the Corolla, Tercel and Starlet. In addition to the blue Mat shown, available colors are black, light brown, grey and dark wine.

The mat above (right) is available on Celica, Supra and Cressida. In addition to the beige mat shown, available colors are blue, black, terra cotta, dark brown, and light blue.

Note: 2 piece floor mats for trucks are available in rubber and carpet in the following colors: blue, black, and light brown.

High grade carpeted mats are Toyota's new premium grade floor mats. They're high grade nylon carpeting with a special backing that contains a support wire to keep the mat flat on the floor, and from slipping out of place. The edges are machine stitched to provide the extra detailing that gives the finishing touch. These mats are color coordinated to the interiors of all Toyota car and truck models.

Luggage Rack shown above. Ski rack adapters for this rack shown on opposite page. Bicycle adapters also available.

B.

Toyota Accessories add comfort, convenience and performance to your new Toyota.

A. **Tercel multi-purpose roof racks** are the perfect space savers for the Tercel wagon. The low profile, black rails match the exterior of your car to give added style. By attaching the rack adapters you can carry anything from bicycles and skis to recreational equipment and all types of luggage.

B. **Genuine replacement parts** are the way to assure your Toyota's best possible performance. All parts are made to factory specifications. You can expect every part that carries the Toyota name to be dependable and long-lasting. We guarantee it.

**Oil filters** keep your oil free of dirt and contaminants because of a special double

filtering element. It keeps your engine running clean, because it's especially designed to fit only Toyotas.

**Air filters** keep your engine free from harmful particles in the air. They use a dependable, triple filtering element that has proven to be highly efficient.

Toyota offers a complete battery line to fit all Toyota models, other imports and many other domestic vehicles. There's no better type battery for fast starts, reduced water loss, reliability and long life.

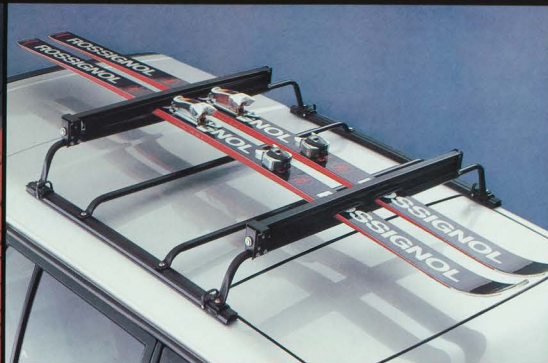

**Spark plugs** fit all Toyotas as well as other imports, and many American vehicles. We offer a patented U-groove high efficiency electrode that

provides for more complete combustion. Toyota offers a complete line of replacement parts including **Block heaters** and **Halogen headlamps**.

C. **Fixed basket roof racks** can really carry the load. They're permanently mounted to both Corolla and Cressida Wagons.

These handsome, stainless steel roof racks hold all types of cargo, and are a welcome addition for those who frequently travel.

D.

**Louvers** are as practical as they are sporty. They reduce glare, and protect carpets and interiors from sun damage. These semi-gloss black louvers are hinged at the top and lift for easy cleaning. They give a dynamic appearance to either the Corolla Sport Coupe or Corolla Liftback, or the Celica GT Liftback and Celica Supra. Look for the Toyota logo on this custom made louver.

E.

**Trim rings** make an ordinary wheel look like a custom wheel. These dramatic stainless steel rings have a patented retention system that is perfect for most 13" and 14" wheels.

F.

**Chassis Gravel Shields** have been especially designed for the Tercel 4WD Wagon. Their purpose is to help protect the undercarriage

components of your Tercel from all terrain damage. The gravel shields are manufactured from a foam cored structural ABS which has extremely high impact and abrasion resistance. It is highly recommended that a chassis gravel shield be installed whenever all-terrain usage is intended.

**Toyota Truck Accessories add value, style and utility.**

**A. Truck mirrors** are custom designed to your needs. They come in two varieties including our right hand factory mirror. In addition, we offer our deluxe Ultra Mirror. This mirror has a custom mount with a heavy duty stainless steel swing arm, and is available with a chrome or matte black finish.

**B. Toyota digital quartz clocks** offer a lighted dial for easy visibility day or night. This electronic, quartz controlled clock is custom mounted in your dash, and gives you accurate timekeeping year after year.

**C. Carpet kits** let you cover the floor of your truck with luxurious nylon tufted carpet. These carpets are backed in durable latex for non-skid, water resistant protection. They're available in blue, black and brown, on 5-speed manual and 4-speed automatic deluxe grade 4X2 trucks.

**D. Body side moldings** help keep the side of your truck free of dings and dents. The matte black finish gives any truck a dramatic, contrasting look, and effective protection.

*Truck shown with Optional Sliding Rear Window Kit.*

**Rear bumpers** add style and flair to your truck. Toyota offers a complete line of rear bumpers for its 14 truck models.

**E. Tube bumpers** give your truck a contemporary look. The chrome model is constructed from aircraft quality aluminum for lighter weight and heavier protection. The sporty version is designed with a semi-gloss baked enamel finish. Both tube bumpers can handle a straight hitch for 2WD trucks or a Toyota 4" drop hitch for a 4WD truck.

**F. Step bumpers** are designed exclusively for Toyota's line of small trucks. They are constructed from high strength steel for reduced weight and increased performance. Step bumpers are available with either a shiny chrome finish or a black matte finish for a sportier look.

**G. Exclusive diesel stripes** give your diesel truck very sporty styling. The handsome flair design accentuates the diesel name in gold or silver colored bands.

**Sliding window kits** can make your truck driving more convenient, more versatile, and a lot more comfortable. The two-section, center sliding tinted window makes it easy to improve ventilation.

**4" drop hitch and straight tow hitch** gives your 4WD or 2WD truck the capability to haul numerous kinds of equipment and recreational vehicles.

**H. Trim rings** make an ordinary wheel look like a custom wheel. These dramatic stainless steel rings have a patented retention system that is perfect for most 13" and 14" wheels.

AM/FM/MPX Stereo Radio Model 1221 (P/N 86120-14450)

Auto-Reverse Cassette Player Model 1801 (P/N 86260-19045)

**Two speaker sound systems for Corolla, Tercel and Starlet.**  
Five pre-set stations, 40 watts total output, special automatic circuits to enhance reception, and reduce interference.

**Automatic tape reversing, loudness compression, locking fast-forward and rewind, precision tape transport mechanism, and "LTM" Lifetime Metal tape head.** Use with Model 1221 radio shown above.  
Note: Cannot be used with Starlet. For Starlet use AM/FM/MPX radios with cassette Models 161 and 190.

Imagine a radio with a face panel that illuminates key controls to end fumbling in the dark. Or one that automatically tunes into your favorite program at the precise moment it begins. These and other technologically advanced sound components are available now from your Toyota dealer, your complete Sound Source.

All genuine Toyota stereo radios pictured here feature from 15 to 80 watts of power, pre-set station buttons and automatic electronic circuits that replace manual controls, for clear reception, interference suppression and reduced noise and

**Track Sound Systems.**  
Our highest grade track radio includes: feather touch ten station electronic memory, micro-computer electronic tuning, processor computer circuit, seek tuning, 40 watts total output, and special automatic circuits for superlative reception.

Five pre-set stations, 16 watts total output, and special automatic circuits for clear reception including lock effect transistors in FM tuner to enhance reception during constantly changing driving conditions.

Automatic reversing at end of tape, loudness compression, normal and metal/CO<sub>2</sub> tape capability, "LTM" Lifetime metal alloy tape head, locking fast forward and rewind, and precision tape transport mechanism.  
Note: Use with Model 5222 or Model 1441 radios shown above.

Five pre-set stations, 16 watts total output. Automatic reversing at tape end, metal/CO<sub>2</sub> tape capability, loudness compression circuitry, locking fast forward and rewind, and the latest in FM sound enhancement technology.

Electronic Tuning AM/FM/MPX Stereo Radio Model 1441 (P/N 08600-35040)

AM/FM/MPX Stereo Radio Model 5222 (P/N 08600-35021)

Auto-Reverse Cassette Player Model 253 (P/N 08690-00253)

AM/FM/MPX Stereo Radio/Auto-Reverse Cass. Model 180 (P/N 08600-35050)

static, including: Automatic Separation Control (ASC), Impulse Noise Quieting (INO), Automatic Treble Control (ATC), and Soft Muting circuits.

A genuine Toyota auto-reverse cassette deck can be added to any radio on these pages. Our cassette decks feature precision tape transport mechanisms, LTM "lifetime metal" alloy tape head, twin flywheels for stable speed in both directions, an anti-rolling system to absorb road shocks and prevent tape damage, and dual galvanometer speed control for clear sound.

Toyota combination systems combine the best features of an AM/FM/MPX stereo radio and a cassette deck into one compact, in-dash unit, with no sacrifices.

**Advanced Features From Toyota.**

**CrO<sub>2</sub>/metal tape** Metal and chromium-dioxide cassette tapes were developed for use in finer sound equipment because they provide a much-improved performance over normal tape. These tapes provide an extended frequency response, overall improvement in sound clarity and reduced tape hiss. Ideally, playback of a chromium-dioxide or metal tape should be on a cassette unit that has a proper switch for its use, but these tapes have excellent sound on any machine.

**Dolby® NR (Noise Reduction)** Many commercially available tape cassettes are recorded using the Dolby® NR system to reduce high frequency tape noise (or hiss). Dolby® is offered on some models to increase your enjoyment.

**Impulse Noise Quieting (INO)** is a device which automatically silences ignition and other electrical type noise from your car and from other vehicles around you.

Soft muting is a circuit which replaces manual controls to reduce static and noise when signals become weak.

**Automatic Separation Control (ASC)** involves sophisticated automatic circuitry which constantly varies stereo (left and right channel) separation to provide optimum noise free sound.

**Automatic Tone Control (ATC)** Automatically adjusts the treble response when high end noise is being picked up.

AM/FM/MPX Stereo Radio Model 1321 (P/N 86120-14480)

Electronic Tuning AM/FM/MPX Stereo Radio Model 1421 (P/N 86120-14500)

Auto-Reverse Cassette Player Model 1901 (P/N 86260-19045)

**Four speaker sound systems for Corolla, Tercel and Starlet.**

Six pre-set stations, four separate amplifiers for 80 watts total output, backlit control display, "equalizers" separate bass and treble controls and loudness compensation circuit, and four-way balance controls.

Our most advanced electronic radio with leather touch lens station memory, quartz computer tuning circuit, clock-timer automatically tunes to a pre-selected station at a preset time, four separate amplifiers for 80 watts total output, backlit control panel, "equalizer tape" separate bass and treble controls and loudness compensation circuit.

Automatic tape reversing Dolby® NR to reduce tape hiss, plus normal and CrO<sub>2</sub>/metal tapes. "LTM," Lifetime Metal tape head, electronic speed control. Use with Models 1321 or 1421 shown above. Note: Cannot be used with Starlet. For Starlet use AM/FM MPX radios Models 161 and 190 shown opposite.

**High quality speaker set Model 031** (shown in center photo) Set contains two speakers with 25 watt power handling capability, dual cone design offers full range frequency response (effective range 85-15,000 Hz ± 3 dB), attractive metal mesh grill and 5" hole diameter. (P/N 08691-12051)

**Sound Ideas for your enjoyment.**

Toyota is your source for a total sound system. Great care is taken from initial design to ensure that all Toyota radios, cassette units and speakers sound right, fit right and complement your vehicle's interior. Toyota cassette units are quality built with precision drive mechanisms that withstand the roughest daily driving, and still deliver great sound.

Toyota's full-range speakers work in harmony with radios and cassette units to deliver clean, crisp sound. Your Toyota dealer is the source for correct sound system installation. Toyota optimum design connectors quickly and correctly integrate sound units into your vehicle's wiring. Toyota sound unit support hardware holds each unit precisely and securely in place.

**Two or four speaker radio/cassette combinations for Celica, Corolla, Tercel and Starlet.**

Five pre-set stations, 15 watts total output power, two or four speaker capability, repeat track repeats play after repeats, Impulse Noise Quieting, and locking fast forward and rewind.

All of the features of Model 161 above plus automatic reversing at tape end, Dolby® noise reduction to reduce hiss, normal and CrO<sub>2</sub>/metal tape capability, separate bass and treble controls, and tape direction indicators. Both Models 161 and 190 have exclusive circuitry for sound enhancement and interference reduction.

**Electronic Tuning AM/FM MPX Stereo Tuner with Auto-Reverse Cassette (Model 1621) and Seven Band Graphic Equalizer/Power Amplifier (Model 1701)** Our highest grade four speaker system for Corolla and Tercel (five speaker model with sub-wwoofer is a factory option only for Celica/Starlet).

(Model 1621) Feather touch lens station electronic memory, frequency synthesized "quartz controlled" electronic tuning, micro-processor computer circuit, seek tuning, backlit control display, automatic tape reversing, Dolby® noise reduction for reduced tape hiss. "LTM" Lifetime Metal tape head and precision tape transport mechanism. (P/N 08605-12093)

(Model 1701) Seven band adjustment graphic equalizer, four amplifiers with 80 watts total output power and two channel output power level display, "Phase Diffusion" alters polarity of speakers to create a feeling of depth and backlit control display. (P/N 00019-12824)

Note: Models 1621 and 1701 must be used together.

Your Toyota dealer has a wide variety of quality radios and cassette players to choose from. For professional installation backed by coast to coast service, go to the Sound Source — your Toyota dealer.

AM/FM Stereo Radio/Cassette Model 161 (P/N 08600-00161)

AM/FM/MPX Stereo Radio/Auto-Reverse Cass Model 190 (P/N 08600-00190)

Electronically amplified mini antennas raise to only 15", and give you crystal clear AM and FM reception even in weak signal areas. Special electronic circuitry at the base of the antenna provides an AM gain of 8 dB, and an FM gain of 12.5 dB. This electronic antenna comes with a satin black anodized finish, and has a simple under-lender mounting system.\*
