LAND CRUISER

1983 TOYOTA
LAND CRUISERS.
THE RUGGED
OFF-ROADERS.

The 4-wheel drive Land Cruisers—Hardtop and Wagon—are for those who believe their vehicles should be, above all, rugged and dependable. That's because Land Cruiser people go places they simply can't get to in ordinary vehicles.

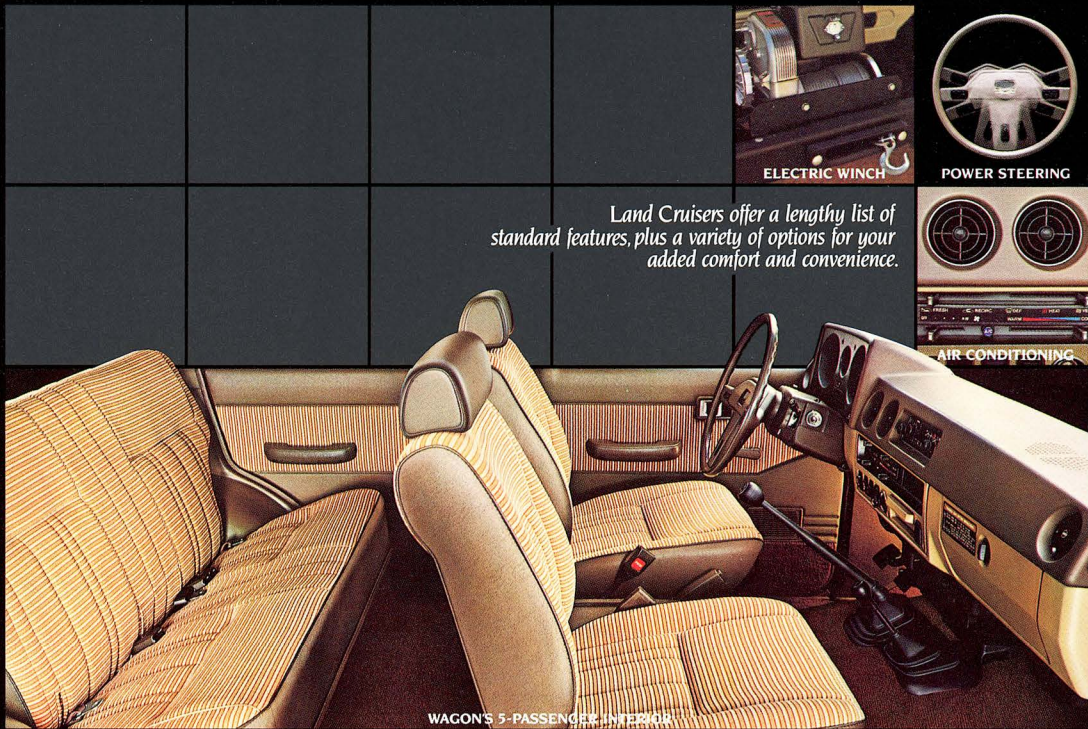

Land Cruisers are ready to go. You don't have to add costly equipment for off-roading, because these rugged Toyotas come equipped with tough-terrain suspension, heavy-duty running gear and plenty of daylight underneath to help keep you going after the roads stop.

The big 4.2 liter 6-cylinder engine that

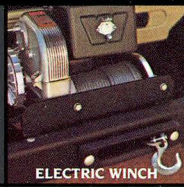

powers the Land Cruisers churns out a mountain of torque—200 ft-lbs at 1800 rpm—in the power range where most off-roading is done. A tough-built 4-speed synchromesh transmission gives passenger-car shifting ease. When you're ready to head for the hills, a durable 2-speed transfer

case lets you put the power to all four wheels so you can go where you couldn't go before.

Whether you're an adventurer or camper, farmer or rancher, cavern-exploring spelunker or weekend prospector, Land Cruiser is just what you need to get away from it all—and back again.

1983 LAND CRUISER FEATURES AND OPTIONS

The Land Cruiser Hardtop is as rugged as it looks. Steel skid plates protect the transfer case and gas tank. It has a forged steel front tow hook, extra-capacity radiator, heavy-duty battery and alternator, and more.

The Wagon is the tough off-roader for those who like to hit the trail in comfort. It shares the Hardtop's 4-wheel drive powertrain and most of its heavy-duty components. Plus, it has added comforts and conveniences like power steering, tilt steering wheel, power-booster Flo-thru ventilation, rear window wiper and electric

defogger, durable cloth upholstery, and full carpeting. You can personalize your Land Cruiser with various options and Toyota-approved accessories; check the chart above, or see your Toyota dealer for complete details.

BUCKLE UP...IT'S A GOOD FEELING.

Toyota urges you to use your seat belts every time you drive. Our seat belts are designed not only to meet or exceed government requirements for effectiveness, but also to be comfortable and easy to use. Buckle up... it's a good feeling!

OH WHAT A FEELING!
