—Not Available. *Some colors not available on all models. Toyota 4WD vehicles are designed to meet off-road driving requirements. Abuse use may result in bodily harm or damage. We encourage responsible operation to protect you, your vehicle and the environment.

MILEAGE ESTIMATES
EPA EST MPG/HWY MPG 

*Remember: Compare these mileage estimates to the EPA "Estimated MPG" of other vehicles. You may get different mileage depending on how fast you drive, weather conditions and trip length. Actual highway mileage will probably be less than the "Highway Estimate."

Specifications and equipment based on information available at time of printing and are subject to change without notice. Specifications are for Mainland U.S.A. and may differ in other regions. Color vehicle and others shown with optional equipment (not featured on chart). For details on options, accessories and specifications in your area, contact your Toyota dealer. See "1984 Toyota Accessories" brochure for additional Toyota-approved accessories.

BUCKLE UP. IT'S A GOOD FEELING!

- Safety experts say "Buckle up!" Here are a few good reasons why:
- Properly adjusted seat belts help the driver maintain better control.
- Generally the safest place in a collision is inside your vehicle. Seat belts can help keep you there.
- Small children should be provided with a child restraint system dynamically

tested to meet federal standards. Select one carefully.

- The seat belts in the 1984 Toyota 4Runners are designed to meet or exceed all government requirements, and are also engineered for simple operation and maximum comfort.
- Front seat belts with Emergency Locking Retractors allow freedom of normal movement but under severe changes in vehicle motion, they automatically lock to restrain body movement.
- On the 4Runner SR5, rear outer seat belts with Automatic Locking Retractors self-

lock in position. The center rear seat has a lap belt.

- Familiarize yourself with the operation of your Toyota's seat belts, and remember: buckle up... it's a good feeling!

QUALITY PARTS AND SERVICE

- Every Toyota is tested and inspected at every stage of manufacture. Toyota dealer parts and service reflect the same dedication to quality and dependability. A computerized parts inventory con-

trol system helps assure availability of Genuine Toyota and Toyota-approved parts at nearly 1,100 dealers nationwide.

- And every new 4Runner is covered by Toyota's 2-year/24,000-mile limited powertrain warranty.* Count on Toyota dealers to help you keep that Toyota feeling.

*See your Toyota dealer for details.

TOYOTA

OF WHAT FEELING

4RUNNER

BY TOYOTA

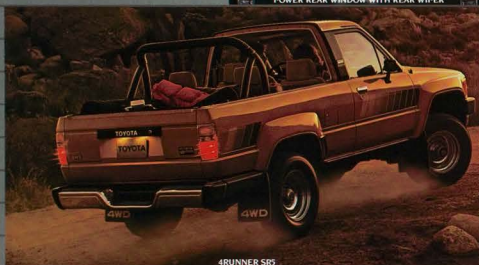

Versatile Room
4Runner SR5's fully carpeted interior has plenty of room for five adults and a generous amount of gear and equipment. Too. The split rear seatbacks fold down to provide a spacious cargo area more than 6½ feet in length.

TOYOTA
POWER REAR WINDOW WITH REAR WIPER

Power Features

4Runner features a power rear window with an available rear window wiper/washer. The 4Runner SR5's optional Power Package includes power side door windows, and automatic power antenna.

4RUNNER SR5

Proven Reliable
4Runner's husky 2.4 liter SOHC engine has proven itself in millions of tough Toyotas. Its broad power band makes 4Runner equally at home on the highway and in the high country.

7-WAY ADJUSTABLE SPORT SEAT

Choice Comfort

Front reclining, low-back bucket seats with adjustable headrests and center console are standard on 4Runner. For the SR5, optional Sport Seats with a driver's side 7-way adjustable seat provide tailor-made comfort.

Introducing an exciting new kind of 4-wheel drive sport utility vehicle: the all-new 4Runner from Toyota.

Take the overall reliability built into every Toyota, the proven off-road performance of the gutsy Toyota 4x4, plus a roomy, comfortable interior, and you have the Toyota 4Runners.

For running the ridges, crossing rivers where there are no bridges and going where there are no roads to run, the 4Runners do it in style. Plus, the SR5 model is one of the few sport

utilities to offer full five-passenger seating. Its convenient split rear seatbacks can be folded flat for increased cargo space, providing more than 6½ ft. of room.

For outdoor fun in the sun, the rear top is removable. Put it back on and you've got snug weather protection and plenty of room to keep cargo under lock and key. Under the top is a hefty steel roll bar semi-padded on the 4Runner SR5.

On road or off, the 4Runners offer the proven dependability of Toyota

4-wheel drive engineering. The high-torque 2.4 liter SOHC engine has earned a reputation for reliability from city streets to the Sahara.

And its economical operation plus 17.2 gallon gas tank gives the 4Runner SR5 a highway cruising range of more than 440 miles! The crisp 5-speed overdrive transmission lets 4Runner cruise the highways effortlessly and efficiently. When the pavement stops or the weather gets rough, it's time

to put the 2-speed transfer case into action, and feel the high-stepping

4Runner's 4-wheel traction take on the meanest kind of terrain with a higher minimum running ground clearance than any small sport utility vehicle.

4Runner is ready for serious off-roading with a forged-steel front tow hook and steel skid plates under the fuel tank and transfer case.

The Toyota 4Runners have plenty of thoughtful conveniences, too. The rear window is power operated and the tailgate opens with one hand.

Inside, there are covered storage compartments on both sides of the rear cargo area. On the 4Runner SR5, a passenger seat walk-in device makes rear seat access and exit easy.

If your idea of fun is following roads that lead nowhere and going where few others can go, 4Runner is for you. 4Runner is adventure.

*See EPA mileage statement on back cover. Shown with optional equipment. See Features chart for details.
