

2007 GRAND MARQUIS

LS Ultimate

Built for life in Canada

2007 Grand Marquis

With 224 hp and 275 lb.-ft. of torque, the 4.6L SOHC powerplant in Grand Marquis is the only standard V-8 engine in its class.* When you choose Grand Marquis LS Ultimate, you'll have robust horsepower and torque leading your way. Electronic Throttle Control manages all that muscle for smooth shifts from the 4-speed electronic automatic transmission with overdrive. Grand Marquis also creates a relaxed, refined ride, with its rear air suspension, gas-pressurized shock absorbers and a rear stabilizer bar.

Sure handling results from an independent front suspension, gas-charged shocks, and speed-sensitive, variable-assist power rack-and-pinion steering. For added stability, a 4-wheel disc Anti-lock Brake System helps you maintain control during hard braking, while the standard All-Speed Traction Control improves grip on loose or slippery surfaces.

The 2007 Grand Marquis has the largest trunk in its class, offering 583 cubic litres (20.6 cu. ft.) of cargo space. And that's no typo. It can hold a whole lot of groceries or 6 golf bags. In the versatility department, Grand Marquis truly shines.

*6-passenger Large Car class.

Grand Marquis LS Ultimate shown in Norse Blue Metallic.

Still Sized Just Right

Isn't it nice to know that Grand Marquis still values the items you cherish? Like class-leading interior space, where family and friends can travel together — in one car — and in complete comfort. Or thoughtful design and functional features that are still standard equipment: 8-way power driver and right-front-passenger seats; illuminated visor vanity mirrors for both the driver and front passenger; cruise control; tilt steering column; and carpeted floor mats. With woodgrain accents and seating for up to 6, everyone is perfectly pampered.

In Grand Marquis, you can be as utterly practical or as elegantly stylish as your tastes demand. A wood- and leather-trimmed steering wheel with secondary audio and climate controls fits comfortably in your hands, while Electronic Automatic Temperature Control maintains your chosen cabin temperature. Premium heated leather-trimmed seating and a power moonroof let you create a Grand Marquis ambience all your own. A range of audio systems accommodates your tastes in music — as well as formats. The Dual-Media system plays CDs and cassettes, while the available Audiophile® Sound System includes a 6-disc in-dash CD changer along with 8 speakers and a subwoofer.

For safety's sake, the Personal Safety System® is always on guard. In certain frontal collisions, its sophisticated sensors govern the deployment of the front airbags and operation of the safety belt pretensioners to provide protection for the driver and right-front passenger. Front and rear crumple zones absorb impact forces and divert them away from occupants. Steel beams in the side doors add structural stability, absorb energy, and help reduce cabin intrusion in certain side impacts.

U.S. model shown.

SPECIFICATIONS

STANDARD FEATURES

POWERTRAIN/FUNCTIONALITY

4.6L SOHC V-8 engine (FFV late availability)
 4-speed electronic automatic transmission with overdrive
 2.73:1 axle ratio
