

F-SERIES SUPER DUTY®

F-350/F-450/F-550 CHASSIS CAB 09

F-350/F-450/F-550 CHASSIS CABS

LET'S GET TO WORK

MASSIVE CAPACITIES

The 2009 F-Series Super Duty® Chassis Cabs have arrived, and they're more ready than ever to take on the toughest jobs. As you'd expect, they boast massive capacities and exceptional maneuverability, along with the cleanest and quietest Ford truck diesel ever offered – the 6.4L Power Stroke® V8 Turbo Diesel. Choose this top-of-the-line powerplant to get maximum capability from your Super Duty.

DYNAMIC LOOKS

Muscular sheet metal and spectacular interiors join forces with rugged construction, easy upfits, and the versatility to master almost any task. It's easy to see why Super Duty Chassis Cabs have helped make F-Series America's best-selling line of trucks for 31 years in a row.

Vehicles throughout this catalog may be shown with optional and aftermarket upfit equipment. See Specifications section for Footnotes & Disclaimers.

DUAL SEQUENTIAL TURBOCHARGERS

Flatten any mountain pass with the DUAL SEQUENTIAL TURBOCHARGING SYSTEM. The high-pressure ELECTRONIC VARIABLE RESPONSE TURBO (EVRT®) **1** spools up first to provide fast transient engine response. The large LOW-PRESSURE TURBO **2** provides airflow at peak power and torque. With transient response, outstanding low-speed torque and rugged durability, you can expect seamless performance from one end of the tachometer to the other.

POWER STROKE HIGHLIGHTS

- 325 HP @ 3000 RPM • 600 LB.-FT. OF TORQUE @ 2000 RPM ON F-450 AND F-550
- 350 HP @ 3000 RPM • 650 LB.-FT. OF TORQUE @ 2000 RPM ON F-350
- HIGH-PRESSURE COMMON-RAIL FUEL INJECTION
- MICRO-PRECISION PIEZO-ELECTRIC INJECTORS
- QUICK STARTS DOWN TO -20° FAHRENHEIT
- THE QUIETEST FORD TRUCK DIESEL ON THE ROAD

CAST-IRON BLOCK, HEADS & BEDPLATE

This proven architecture stands up to the combustion forces of peak diesel operation while helping to dampen noise and vibration. A one-piece bedplate locks down the crankshaft, replacing traditional bearing caps.

MASSIVE CRANKSHAFT

Producing huge diesel horsepower and torque requires strong, precise components. Power Stroke cranks are forged from micro-alloy steel and machined to tolerances of .005 mm. Precision rotational balancing is the final step.

POWDER-FORGED CONNECTING RODS

Rods are forged in one piece, then their bearing journals are stress-fractured to create bearing caps unique to each rod. This process delivers outstanding strength and dimensional accuracy for high durability and smooth performance.

OIL-JET PISTON COOLING

Big power makes big heat. Special galleries spray cooling jets of oil inside the pistons. This technology optimizes ring life for long-term durability and helps reduce combustion temperatures for improved emissions.

HIGH-CAPACITY OIL PUMP

Keeps 15 quarts of oil circulating for vital lubrication and piston cooling. A super-fine filter keeps dirt in check to help prolong oil and engine life. (Not shown.)

ALTERNATOR POWER

Power-hungry accessories can wear down batteries in nothing flat, so we offer a choice of charging systems to keep them going strong. Gas engines carry a standard 157-amp alternator. The Power Stroke Turbo Diesel has a standard 200-amp alternator, and is available with an optional dual-alternator system that produces an astounding 320 amps.

THE POWER STORY

THE 6.4L POWER STROKE®

V8 TURBO DIESEL

This baby pumps some serious iron. High-pressure common-rail fuel injection helps deliver up to 650 lb.-ft. of torque at just 2000 rpm. It also optimizes fuel efficiency, cold-start capability, and helps make this Power Stroke the quietest Ford truck diesel yet. Innovative technologies also help reduce particulate soot emissions to meet stringent federal standards. Here's the power you'll want for all your heavy lifting.

COMPREHENSIVE COOLING

The engine radiator in this cooling system is especially large, and the high-flow water pump efficiently moves coolant. There are 6 different radiators — including one for the fuel cooling system — designed to support engine emissions and enhance durability, power and torque benefits. An engine-mounted fan shroud improves airflow efficiency, resulting in an overall cooling system that is capable and reliable, especially under extreme towing demands.

SEIC

Standard with all powertrains, Stationary Elevated Idle Control boosts engine idle to drive air compressors, hydraulic pumps, generators, etc.; as well as maintaining the 6.4L diesel battery charge under extreme demands. (Final-stage manufacturer or upfitter must supply control switches.)

ONBOARD WIRELESS COMPUTING POWER

A This available Internet-capable in-dash Windows CE computer and communications system, from MAGNETI MARELLI, is the heart of Ford Work Solutions.[™] **B** With its standard wireless keyboard, you can create documents and spreadsheets — even print them if you add the available wireless printer. **C** You can download files from the web via the Sprint[®] Mobile Broadband Network.¹ **D** Full-function, voice-activated navigation from Garmin[®] is also included. Now your office is truly on the road. (To avoid driving distractions, some functions are disabled while the truck is in gear.)

CREW CHIEF[™] With available Crew Chief telematic devices on your trucks, you can tell where every truck in your fleet is, 24/7. **E** Just pull up the website on the Ford Work Solutions in-dash computing system in your truck, or use any computer with web access. Crew Chief, offered by Microlise,[™] shows which truck is closest to the job you need done. It can also provide information that's vital to the life of your trucks and your profits. Included diagnostics and maintenance reports¹ can help keep your maintenance up to date.

GARMIN[™] microlise Sprint

FORD CHANGES THE GAME

Only the toughest name in trucks could assemble this all-star lineup to help you take care of business. From communications and computing to navigation and fleet tracking, every position is filled by a pro. Now, your Built Ford Tough[®] truck can be a productivity powerhouse. Run your business remotely. Combat downtime and track your fleet for top efficiency. You ask, Ford delivers.

E

SMOOTH OUT A ROUGH WORLD

WORK IN COMFORT

INSIDE INFORMATION

You get more done when you're comfortable, and this bold, spacious interior delivers big-time. There's lots of smart storage, including a handy dash-top tray. The available center console is deep enough to hold a laptop, and the cabin is constructed of quality materials, including a Quiet Steel® bulkhead that helps make this one peaceful machine.

FORD SYNC,® powered by Microsoft,® is the latest voice-activated communications and entertainment system technology. Simple voice commands let you control most Bluetooth®-enabled mobile phones and popular digital media players. It's versatile, affordable and optional exclusively on select Ford vehicles.²

A XL sports a rugged vinyl reclining front seat with integrated head restraints.

B Upper and lower front door pockets offer lots of storage on XLT and LARIAT.

C XLT and LARIAT Crew Cabs come standard with a FlexFold™ 60/40 split fold-flat rear seat. Its many configurations, plus a steel loadfloor, set the standard for versatility.

D Above the large, well-organized center stack, a dash-top tray keeps frequently used items close at hand. An optional Premium Sound System includes MP3 capability. Dual-zone Electronic Automatic Temperature Control is standard on LARIAT. The Rapid-Heat Supplemental Cab Heater is available on diesel trucks equipped with the TorqShift® transmission. It quickly and automatically helps raise the cabin temperature to a comfortable level (not shown).

XLT Crew Cab 4x4 • Camel Premium Cloth • Optional Front Captain's Chairs with Center Console and Other Available Equipment

F-550 LARIAT Crew Cab • Pueblo Gold • Aftermarket Service Body Upfit • Other Available Equipment

MAKING WORK EASIER

THE RIGHT EQUIPMENT

Sophisticated engineering can help you squeeze into pretty tight spaces. On F-450 and F-550, a front suspension and steering system with large wheel cuts and a wide front axle deliver a full U-turn in as little as 42.3' curb-to-curb. Crew Cab doors open wide for easy access, and a standard engine-hour meter helps you keep maintenance on schedule. F-Series Super Duty® works hard to make your life easier.

A A WIDE FRONT AXLE on F-450 and F-550 contributes to big wheel cuts and sharp steering angles, so you can turn tight when it counts.

B POWER TAKEOFF (PTO) provision is standard on the 6-speed manual transmission and optional on the TorqShift® automatic. Available only on the 6.8L V10 and 6.4L Power Stroke® V8 Turbo Diesel.³

C CREW CAB REAR DOORS open extra-wide (76°) for no-hassle loading and unloading.

D CHOOSE YOUR RATINGS and get the right heavy-duty axles, springs, shocks, and standard front and rear stabilizer bars for the job.

E TWIN-COIL MONOBEAM FRONT SUSPENSION Standard on F-350 4x4 and all F-450/F-550 Super Duty models, this rugged design eliminates interleaf friction and helps reduce axle windup.

F 4-WHEEL DISC ANTI-LOCK BRAKE SYSTEM (ABS) Every Super Duty Chassis Cab features ABS as standard equipment. Massive vented discs cool quickly and provide a large swept area for sure and controlled stopping power.

INTEGRATED TRAILER BRAKE CONTROLLER (TBC)⁴ An improved user interface makes this optional controller easy to operate. The result is seamless braking while towing even the heaviest loads. The design looks great and eliminates messy mounting and wiring of aftermarket installations. A built-in trailer disconnect alarm and a Ford limited warranty complete the package. (See your dealer for limited warranty details.)

UPFITTER SWITCHES These standard switches can operate high-power relays for heavy-duty accessories. Integrated with the instrument panel, their handsome design fits your truck. This super-clean installation is pre-wired and ready to go.

FRONT STEP BUMPER Standard on every 2009 Super Duty, routine maintenance is a cinch with this feature. The deep step gives you a stable platform.

FUEL TANK OPTIONS

40-gallon aft-of-rear-axle is standard; 19-gallon midship is optional. Choose both on diesel DRW models for up to 59 gallons of fuel capacity.

SOLID FOUNDATION

No matter the upfit, Super Duty Chassis Cabs provide tough, versatile platforms. Aftermarket installations go smoothly, which can help add to your bottom line.

ALL-AROUND RIG

Flat frame rails with a width of 34" accept a wide range of aftermarket bodies. Easy upfits put your new truck to work right away.

OVER-CAB CHOICE

A low-cab design makes F-Series Super Duty a great choice for over-cab upfits.

LONG-HAUL EXHAUST

Stainless steel construction resists corrosion.

PICKUP BOX DELETE

Available from the F-250/F-350 Super Duty pickup line, pickup box delete offers a rear frame width of 38" for certain applications. Save the cost of a new body by transferring a body you already own from your old truck. Just another fleet only option to get the right Built Ford Tough® truck for the job. Note: Pickup box-delete frame rails have kick-up flanges and are not flat.

GET IT ANY WAY YOU WANT IT

TOUGH TRUCKS

The 2009 Super Duty® Chassis Cab is designed to suit a huge range of applications. Thick C-channel frames, heavy-duty axles, and sturdy suspensions team up on rock-solid foundations to support flatbed, dump, service, stake, landscape, van bodies and more. Three cab styles and multiple seating configurations help you meet your specific crew requirements. Factory-installed upfitter switches are standard. Standard manually telescoping trailer tow mirrors give you a clear rear view – even with a big trailer out back. And an available integrated Trailer Brake Controller optimizes electric trailer brake performance (standard on XLT and LARIAT; optional on XL). For more than 30 years, features, flexibility and capability have earned F-Series Chassis Cabs a rugged standing among businesses far and wide.

REGULAR CAB

The 3-across front seat works well for many delivery and service applications. An all-vinyl full seat is standard on XL. A premium cloth 40/20/40 split seat is included on XLT models. (F-550 XLT shown.)

SUPERCAB

4 doors give you easy access, with room for 3 rear-seat passengers or extra cargo. Front seats are the same type and trim as Regular Cab on XL and XLT; LARIAT includes a leather-trimmed split bench. In back, a fold-up bench comes standard in vinyl on XL, in cloth on XLT and in vinyl on LARIAT. (F-350 LARIAT shown.)

CREW CAB

Maximum accommodations and flexibility. 3-up seating front and rear; full-size doors for both rows. XL has an all-vinyl front seat; a cloth 40/20/40 split front seat is standard on XLT. LARIAT upgrades that to leather trim. XL gets an all-vinyl fold-forward rear bench, XLT steps up to a cloth FlexFold™ 60/40 split rear bench, and LARIAT has the same seat in leather trim. (F-550 LARIAT shown.)

POWERSCOPE™ MIRRORS

Designed specifically for Super Duty, these available large mirrors adjust, fold and telescope almost 3" on each side of the truck at the touch of a switch. They include heated glass, integrated turn signals, and clearance lamps. The manually adjustable heated spotter mirror provides excellent all-weather visibility. No other mirror in the class⁵ offers this much functionality and convenience.

STANDARD FEATURES

SAFETY/SECURITY	
4-wheel power disc brakes with Anti-lock Brake System (ABS)	
Airbags ⁶ – Driver and right-front passenger	
Alert chimes – Headlamps-on, key-in-ignition and door ajar	
Belt-Minder [®] front safety belt reminder	
Brake/shift interlock (with automatic transmission)	
Child-safety-seat top tether anchors (Regular Cab front-passenger seat and all rear seating positions)	
Fuel pump inertia shutoff switch	
Height-adjustable safety belts – Front-outboard positions	
Passenger airbag deactivation switch (Regular Cab, SuperCab)	
Safety belt energy-management retractors – Front-outboard positions	
Side-intrusion door beams	
SOS Post-Crash Alert System ⁷	
MECHANICAL	
5.4L SOHC 3-valve V8 engine (F-350 SRW)	
6.8L SOHC 3-valve V10 engine (F-350 DRW/F-450/F-550)	
6-speed manual overdrive transmission with Power TakeOff (PTO) provision (F-350/F-450; PTO obstructed by catalyst placement on 5.4L engine; 6.8L engine with manual transmission may require exhaust pipe re-routing to fit aftermarket PTO)	
100,000-mile tune-up interval ⁸ (gas engines)	
Auxiliary rear springs	
Battery saver	
Fail-safe engine cooling system (gas engines)	
Fuel tank – 40-gallon capacity aft-of-rear-axle	
Manual 4-wheel-drive system with manual locking hubs (4x4 models only)	
Power steering	
Stabilizer bars – Front and rear	
Stainless steel exhaust system (major components)	
Stationary Elevated Idle Control (SEIC) ⁹	
Steering damper	
Trailer tow prep – 7-wire harness (blunt cut) with relays	
INTERIOR	
Assist and ride handles	
Coat hooks – 1 (Regular Cab), 2 in rear of cab (SuperCab and Crew Cab)	
Dome light (front and rear with Crew Cab)	
Flip-open rear quarter windows (SuperCab)	
Instrumentation – Engine-hour meter, speedometer, tachometer, trip odometer, voltmeter (man. trans.), oil pressure, coolant temperature, transmission temperature gauge (auto. trans.), air filter minder (diesel only), fuel gauge, indicator lights and turbo boost (diesel only)	
Power points – 2 on instrument panel	
Upfitter switches – 4 on instrument panel	
EXTERIOR	
Bumper – Front step	
Front fender moldings with integrated mud flaps (F-450/F-550)	
Roof clearance lamps	
Solar-tinted glass	
Tow hooks – 2 in front	
Windshield wipers – Intermittent

Note: 5th-wheel trailer weights shown. See your Ford Dealer for conventional trailer weights.

Note: Trailer weights shown assume 1000 lbs. second-unit body weight. Be sure combined weight of vehicle and trailer does not exceed listed GCWR. Trailer kingpin weight should be 15-25% of total loaded trailer weight. Make sure that the vehicle payload (reduced by option weight) will accommodate trailer kingpin weight and the weight of passengers and cargo added to the towing vehicle. The addition of trailer kingpin weight, and the weight of passengers and cargo cannot cause vehicle weights to exceed the rear GAWR (Gross Axle Weight Rating) or GVWR (Gross Vehicle Weight Rating). These ratings can be found on the vehicle's Safety Compliance Certification Label.

FOOTNOTES & DISCLAIMERS

- ¹Service fee required.
- ²Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Microsoft is a registered trademark of Microsoft Corporation. The Bluetooth word mark is a registered trademark owned by the Bluetooth SIG, Inc.
- ³PTO obstructed by catalyst placement on 6.8L engine with manual transmission, which may require exhaust pipe re-routing to fit aftermarket PTO.
- ⁴TBC verified to be compatible with electrically actuated drum brakes only.
- ⁵Class is Traditional Chassis Cab trucks under 22,000 lbs. GVWR.
- ⁶Always wear your safety belt and always deactivate the passenger airbag when using a rear-facing child-safety seat with Regular Cab and SuperCab models. Always wear your safety belt and always secure children in the rear seat with Crew Cab models. Passenger airbag may be deleted.
- ⁷SOS hardware may become damaged or the battery may lose power in a crash, which could prevent operation. Not all crashes will activate an airbag or safety belt pretensioner.
- ⁸Under normal driving conditions with routine fluid and filter changes.
- ⁹Final-stage manufacturer must supply control switches.
- ¹⁰Included as part of the Power Equipment Group on XL.
- ¹¹Service not available in Alaska or Hawaii. See your Ford Dealer or contact SIRIUS at 1-888-539-7474 for details. "SIRIUS," the SIRIUS dog logo and "The Best Radio on Radio" are registered trademarks of SIRIUS Satellite Radio Inc.
- ¹²Included as part of the XL Décor Group.
- ¹³Restrictions and special instructions apply. See your Ford Dealer for information.
- ¹⁴Option and other restrictions apply. See your Ford Dealer for information.
- ¹⁵F-350 DRW/F-450/F-550 weights shown are for 141" wheelbase Regular Cab or 176" wheelbase Crew Cab models. For 165," 189," 200" and 201" wheelbase models, weights may be somewhat less (usually not more than 200 lbs., or 400 lbs. with 201" wheelbase).
- ¹⁶Available with High-Capacity Trailer Tow Package only.
- ¹⁷Ambulance Prep Package F-350 DRW; tire front track is 74.1"; rear tire outside width is 95.2."
- ¹⁸6.8L V10 engine standard with DRW Chassis Cabs. 5.4L V8 optional with DRW Regular Cab. See your Ford Dealer for powertrain availability in California Emissions States.
- ¹⁹New for 2009.
- MAGNETI MARELLI is a registered trademark of Magneti Marelli Holding S.p.A.
- Sprint is a registered trademark of Sprint Nextel. Sprint Mobile Broadband Network reaches over 248 million people (including data roaming). Coverage not available everywhere. See sprint.com/coverage for details.
- Garmin is a registered trademark of Garmin Ltd.
- Microlise Group Limited is a company registered in England and Wales with company number 1670983.
- Quiet Steel is a registered trademark of Material Sciences Corporation.

BUSINESS PREFERRED NETWORK

Each of the select dealerships in our Business Preferred Network (BPN) is committed to providing quality commercial-oriented products and service, as well as special financing and billing arrangements, to businesses that rely on Ford products. As a BPN customer, your business vehicles receive priority service at your BPN dealership to help get your vehicle back on the road quickly.

FINANCIAL SERVICES

Our commercial purchase plans and lines of credit offer attractive rates, negotiable terms and business-friendly options. If you prefer to lease, our CommercialLeaseSM programs offer a wide variety of package options to meet your needs. For additional information, please visit our website at www.fordcredit.com/comlend/.

COMMERCIAL LENDING SERVICES

New Vehicle Limited Warranty. We want your Ford Super Duty[®] ownership experience to be the best it can be. So under this warranty, your new vehicle comes with 3-year/36,000-mile Bumper-to-Bumper Coverage, 5-year/60,000-mile Powertrain Warranty Coverage, 5-year/50,000-mile Safety Restraint Coverage, and 5-year/unlimited-mile Corrosion (Perforation) Coverage – all with no deductible. Please ask your Ford Dealer for a copy of this limited warranty.

Roadside Assistance. Covers your vehicle for 5 years or 60,000 miles, so you have the security of knowing that help may be only a phone call away should you run out of fuel, lock yourself out of the vehicle, or need towing. Your Ford Dealer can provide complete details on all of these advantages.

For a purchase or lease, the **Ford Extended Service Plan (ESP)** gives you "Peace-of-Mind" protection designed to cover key vehicle components and protect you from the cost of unexpected repairs. Ask your dealer for an ESP, the only service contract backed exclusively by Ford and honored at all Ford dealerships.

Comparisons based on 2008 competitive models (Traditional Chassis Cab trucks under 22,000 lbs. GVWR), publicly available information and Ford certification data at time of printing. Some features discussed may be optional. Vehicles throughout this catalog are shown with optional and aftermarket upfit equipment. Features shown may be offered only in combination with other options or subject to additional ordering requirements or limitations. Dimensions and capacity ratings shown may vary due to optional features and/or production variability. Following publication of the catalog, certain changes in standard equipment, options and the like, or product delays may have occurred which would not be included in these pages. Your Ford Dealer is the best source for up-to-date information. Ford Division reserves the right to change product specifications at any time without incurring obligations. Body manufacturers are responsible for compliance certification of the completed vehicle. The Ford New Vehicle Limited Warranty and any government certification made by Ford shall cover only the vehicle as manufactured by Ford and shall not extend to any addition, modification or change of or to the vehicle by the Ford Authorized Pool Account.

QUALITY TRUCKS.

F-Series trucks have a reputation for quality that has made them America's best-selling line of trucks for 31 years in a row.

GREEN TRUCKS.

Ford truck engines are leaders with Ford Clean Diesel Technology.™ And more fuel efficient engines are on the way.

SAFE TRUCKS.

Rugged frames not only provide heavy-duty capability, they can help provide improved safety performance in certain side-impact collisions.

SMART TRUCKS.

The new Ford Work Solutions™ options bring you high technology and productivity tools that help get the job done.
