Toyota Celica

A star is born!

More power to you!

CELICA GTS LIFTBACK

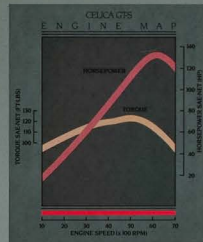

If you thought you knew what sporty performance cars were all about, take a closer look. Celica GTS has just redefined what a sporty performance car can be. Celica has more power from its 2.0 liter twin cam 16-valve engine with computer controlled electronic fuel injection, more style from its sleek aerodynamic body,

more road-hugging handling, from its front-wheel drive and 4-wheel independent suspension, more driver comfort, from its race-inspired front seats and a sound system that puts the performance of the finest home component system on the road. That's the 1986 Celica GTS Liftback and Sport Coupe: more of what you want in driving excitement.

Sit in the new Celica GTS. You know you're in a true sporty performance car when you grasp the steering wheel and scan the full instrumentation. Tap the accelerator and the 2.0 liter twin cam engine springs to life, ready to do more with 155 hp than you can imagine. It's one of the most sophisticated production engines in the world—from Toyota, the leader in twin cam engine technology—a race-bred performer that will take you from 0 to 60 mph in 8.21

seconds. Slip the leather-wrapped shifter into gear. The close-ratio 5-speed manual overdrive or the electronically controlled 4-speed automatic overdrive transmission, available on the GTS Sport Coupe, is ready to make it all happen. As the tach needle winds toward its 6800 rpm redline, you know you have enough power on tap, whether you're charging up a mountain road or cruising on an open highway.

The 1986 Celica has a sleek new shape with improved aerodynamics, and a low drag coefficient of only 0.33. A large air dam, pop-up halogen headlights, a steeply raked windshield and a "pinched-waist" contribute to Celica's smooth, flowing design and wind-cheating style.

Beneath Celica GTS' good looks, there's an entirely new wide-stance, fully independent front-wheel drive chassis that gives improved directional stability and more interior room. The variable assist power rack-and-pinion steering, wide tread and speed-rated 205/60R14 tires improve cornering performance, while a longer wheelbase contributes to a smoother ride. Celica's road-hugging 4-wheel independent suspension system includes MacPherson struts with front and rear stabilizer bars

and gas-filled shock absorbers, for more precise handling, while a front crossmember and upper engine compartment brace contribute to chassis stiffness and improved drivability. All

AERODYNAMIC STYLING

this helps Celica hold the road in a turn of 0.816 g. Finally, there's a front-wheel drive car that truly handles like a sports car.

Come discover the sporty good looks, the outstanding performance and unmatched value of the 1986 Celicas. Whether you select the GTS Liftback or Sport Coupe, the GT Liftback or the GT or ST Sport Coupe, you'll discover why the new Celicas give you more power, more style, more handling—all at an affordable price.

WHO COULD ASK FOR ANYTHING MORE!
Shown with optional equipment. See Features chart for details.

LATERAL ACCELERATION

Fire and Nice!

More Style, More Comfort

GTS LEATHER SPORT SEAT INTERIOR

Take a seat. The performance is about to begin, and it's called Celica GTS for 1986. The interior is designed for driving ease and comfort. The center audio and climate control panel is tilted toward you for easy access. The instrument panel is lowered for better forward visibility, and large analog instruments include a tachometer that redlines at 6800 rpm.

Celica GTS features fully reclining front Sport Seats with a driver's seat that adjusts eight different ways, including power-operated lumbar and lateral support adjustments. You can select the optional glove-soft Leather Package with Sport Seats and coordinating trim, or the standard stylish cloth upholstery. Celica's rear seatbacks fold down for extra carrying capacity. The ergonomically designed interior lets you adjust the steering wheel to your own fit with tilt and telescopic functions.

Play your favorite tape in the Celica GTS optional electronic AM stereo/FM/MPX tuner with full logic cassette deck and 5-way acoustic tone equalizer. An audio profile display shows the equalization curve you've chosen, but the payoff is the sound that surrounds you from the four sophisticated speakers that are mounted in their own enclosures.

There are more convenience features, such as the optional Power Package, soft-touch automatic temperature control air conditioning or the tilt and slide power sunroof.

More comfort and more convenience: that's the 1986 Celica GTS.

Shown with optional equipment. See Features chart for details.

Command Performance!

MORE INTERIOR COMFORTS

SPORT SEAT

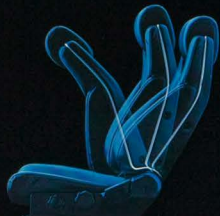

The 8-way adjustable driver's Sport Seat features power lumbar and lateral support controls. A stepless reclining feature includes a memory function, which returns the seat to its original position.

POWER LUMBAR SEAT CONTROL

MORE FEATURES

There are more conveniences, including a heavy-duty rear window defogger and wiper, and optional steering wheel-mounted cruise control.

DRIVER'S SEAT WITH MEMORY RECLINE FUNCTION

REAR WINDOW WIPER/WASHER

POWER PACKAGE

The optional Power Package includes power windows, door locks and dual power remote controlled outside mirrors with defoggers.

ERGONOMICALLY DESIGNED INSTRUMENT PANEL

POWER MIRROR CONTROL

POWER PACKAGE

POWER REMOTE CONTROLLED MIRRORS WITH DEFOGGER

CUSTOMIZED STEERING

A memory-type tilt steering wheel lets you reposition the wheel for easy entrance/exit and then return it to its exact driving position. The wheel also telescopes for maximum comfort.

TELESCOPIC STEERING WHEEL

CENTER CONSOLE

VARIABLE-LENGTH POWER RACK AND PINION STEERING

ELECTRONIC AM STEREO/FMMPX TUNER, CASSETTE AND 3-WAY ACOUSTIC TONE EQUALIZER

EQUALIZER SETTINGS

MORE GOOD SOUNDS

The optional electronic AM stereo/FMMPX tuner features a full logic cassette deck and a 5-way acoustic tone equalizer. Choose one of the five equalizer curves with graphic analog display. Four large enclosure-mounted speakers put you in the middle of true high-fidelity sound.

Shows with optional equipment. See Features chart for details.

Performance by Design

MORE PERFORMANCE

AERODYNAMICS
The 1986 Celica GT-S is a hi-tech, aerodynamically styled car. Fully retracting halogen headlights, flush surfaces and smoothly sculptured body panels control airflow. Celica slips through the wind with ease.

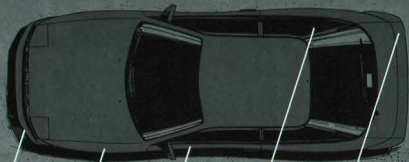

RETRACTABLE HALOGEN HEADLIGHTS

AERODYNAMIC STYLING

A E R O D Y N A M I C S

The front air dam diverts airflow from underneath the car for reducing drag.

The contoured side panels enhance Celica's dramatic lines and help reduce drag.

Celica's pinched waist in a power-lid, dynamic design that's also efficient.

The flush curved glass of the large rear and quarter windows sweeps around corners for improved visibility and helps smooth airflow.

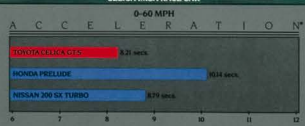

Celica's flush rear bumper is integrated with the body to help reduce air turbulence.

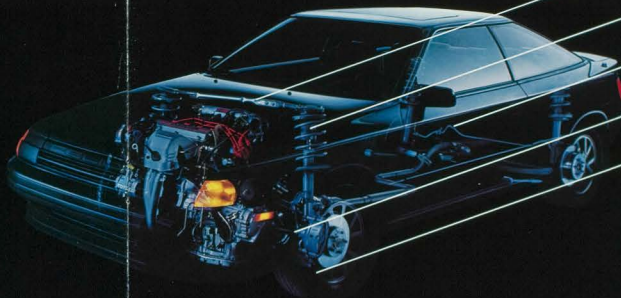

ALLOY WHEELS WITH SPEED-SANDED RADIAL TIRES

CELICA IMSA RACE CAR

4 - W H E E L I N D E P E N D E N T S U S P E N S I O N

An engine compartment brace on the GT-S improves chassis rigidity for better handling.

The front suspension includes MacPherson struts with offset coil springs, sway bar, and ventilated power-assisted disc brakes.

The large rear stabilizer bar, dual-link rear suspension and gas-filled shock absorbers help improve traction and handling.

Celica's equal-length drive shafts provide low torque steer.

Front-wheel drive places the maximum weight of the vehicle over the driving wheels for improved traction.

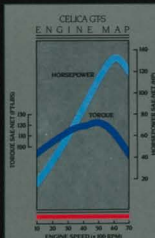

Front Suspension

Rear Suspension

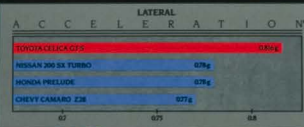

2.0 LITER TWIN CAM ENGINE

VENTILATED DISC BRAKES

4 VALVES PER CYLINDER

DUAL CHROME TIPPED EXHAUST

MORE PERFORMANCE
The 1986 Celica GT-S drivetrain is designed for top performance—from the 2.0 liter twin cam 16-valve electronically fuel-injected engine, to the ventilated power-assisted disc brakes, and right down to the dual chrome-tipped exhaust.

*Based on independent test data. Shows with optional equipment. See Features chart for details.

REAR SPOILER
The rear spoiler contributes to better performance by controlling airflow and reducing drag.

REAR SPOILER

A GT with more

Here, in one package, is beauty and function at its best.

Take a sleek new style with more aerodynamic efficiency, give it front-wheel drive for more directional stability and power it with a 2.0 liter electronically fuel-injected engine matched to a 5-speed manual overdrive gearbox for sporty performance. Then add power-assisted rack-and-pinion steering and an ergonomically designed interior. That's the 1986 Celica GT Liftback.

Comfortable and stylish front bucket seats include a driver's seat which has lumbar and bottom seat cushion tilt adjustments.

There's plenty of cargo space in the Liftback: the fold-down split rear seatbacks let you carry long loads easily; and the rear deck cargo cover conceals your luggage.

The standard electronic AM stereo/FM/MPX tuner with four speakers surrounds you with brilliant high-fidelity sound. Celica's center audio and climate control panel is tilted toward you for easy access and you can choose the new optional digital dash. The steering wheel tilts, and has an optional telescoping function for maximum convenience. A 4-speed automatic overdrive transmission is available.

If you're looking for a true GT that offers more, the 1986 Celica GT is it.

Shown with optional equipment. See Features chart for details.

CELICA GT INTERIOR

CELICA GT LIFTBACK

Classy Coupes

CELICA GT AND ST SPORT COUPES

The 1986 Celica GT and ST Sport Coupes give you aerodynamic styling, sporty performance, precise handling and plenty of standard features.

Both models feature slanted windshields and flush-curved rear glass, pop-up headlights and front air dam. Teamed with a 2.0 liter electronically fuel-injected engine and a 5-speed manual overdrive transmission, the Celica Coupes provide spirited front-wheel drive performance.

The 1986 Celica GT Sport Coupe has contoured cloth front bucket seats, which include a stepless recline adjustment, memory functions, and lumbar and bottom seat cushion tilt adjustments. Celica rear seats feature split seatbacks with a trunk pass-through. There's a tilt steering wheel with memory, an automatic-off headlight system to save your battery and an electronic AM stereo FM/MPX tuner with 4 speakers and a power antenna. For easy shifting, you can choose an optional 4-speed automatic overdrive transmission.

The Celica ST Sport Coupe, the most affordable Celica, features comfortable cloth seats with a stepless reclining adjustment and memory, digital clock, and an AM/FM/MPX receiver with four speakers. There's the convenience of variable assist power rack-and-pinion steering and a 5-speed manual overdrive transmission as standard equipment.

If you're looking for more quality and value in a single package, choose a 1986 Celica GT or ST Sport Coupe.

Shown with optional equipment. See Features chart for details.

THE TOYOTA TOUCH

What is the Toyota Touch? It's an obligation. And a commitment to you. When you purchase a Toyota car, truck, or van, we want you to derive more satisfaction and receive more value than any one else can give you. Toyota dealers are committed to providing the extra effort, the special touch, that you deserve when you buy a Toyota.

The Toyota Touch begins with design and engineering that combine innovation, performance, reliability, styling and economy in every Toyota. Our ongoing goal is to be the best in automotive technology.

The Toyota Touch means using advanced manufacturing techniques, including the most creative use of robotics, to ensure that the Toyota you purchase is in superb condition when you take delivery.

According to surveys of Toyota owners, the Toyota Touch has tangible value. Toyota cars receive the highest rating among small cars for having the lowest incidence of recurring problems after one year of ownership* Toyota trucks and vans lead their class for owner satisfaction and

are unsurpassed for excellence of condition at delivery, according to owners surveyed after one year of ownership**

But the Toyota Touch means more than product excellence. The Toyota Touch means that you come first, and that it's our commitment to make sure that you are well satisfied with your total ownership experience.

We give you a 12-month/12,500-mile product warranty that states, "every Toyota is tested and inspected at every stage of manufacture and is also covered by Toyota's limited powertrain warranty of 2 years/24,000 miles." But our commitment is even stronger than that.

The Toyota Touch is our way of doing business with you. It means that every step of the way, from our first visit or phone call to a Toyota dealer—through purchase and delivery—to after-sales service, we're committed to your satisfaction.

GET MORE FROM LIFE—BUCKLE UP!
