3-yr/36,000 mile
bumper-to-bumper,
5-yr/60,000 mile

powertrain,
5-yr/100,000 mile
anti-corrosion
limited warranties.**

DECISION 47

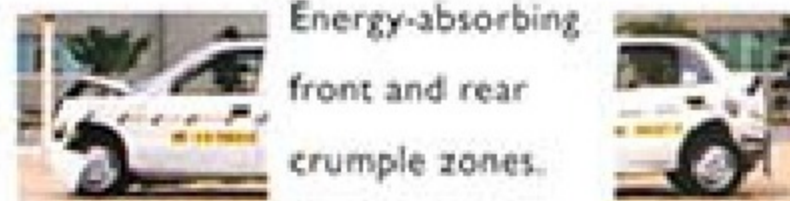

DECISION 18

An engine that adjusts
itself for less frequent,
less costly
tune-ups.

DECISION 10

Energy-absorbing
front and rear
crumple zones.

DECISION 74

Fold-down seat for
3-door that increases
interior space to
104 cubic feet.

SOME OF THE
BEST IDEAS
ON THE ROAD.
HYUNDAI

THE RESULT OF A THOUSAND DECISIONS, ALL DRIVEN BY DECISION

Before there is one part, one piece of metal or rubber, before there is anything else, there is an idea. And a series of decisions that bring that idea to life. Perhaps it is this fact, most of all, that makes the all-new Accent a car well worth your consideration.

Accent began with the decision to bring state-of-the-art automotive thinking to the most affordable car in America. From that point on, everything we did was meant to serve that first decision.

The result is a car that abounds with state-of-the-art thinking. The kind of airbag deployment system, single side-panel construction and available 4-channel ABS braking that just didn't come in affordable cars until now. The kind of advanced technology you only used to find in cars like BMW, Volvo, or Mercedes-Benz.

This is a car to take seriously because it takes you seriously. To enjoy because it affords you true driving pleasure. To feel good about because, in buying one, you have made a very good decision.

Speaking of which, the all-new Accent is now available at 490 Hyundai dealers all over America. And you can call 1-800-826-CARS for dealer locations and more information. So please call or stop by. And see what happens when you bring state-of-the-art thinking to affordable cars.
