The NEW Camry

 **TOYOTA**

Camry XLE V6 shown in Antique Sage Pearl with optional equipment.

When you buy a Toyota product, you can count on excellent quality, reliability and peace of mind—the foundation upon which we have built our reputation. But we believe that peace of mind should not be limited to our products. You can expect the same confidence in our services as you do in our vehicles—from the moment you consider a Toyota and throughout your entire ownership experience.

And it all begins with information. If you would like to learn more about our products, or want to share comments and opinions, you can contact our **Toyota Customer Assistance Center** at 1-800-331-4331. Or you may want to visit @Toyota, our informative interactive website (<http://www.toyota.com>).

And once you've studied the facts, your choice should be easy...as easy as purchasing a Toyota. With Toyota Motor Credit Corporation, you can count on low monthly payments, 24- to 60-month loans and competitive finance rates.

What's more, if you purchase **Toyota's Guaranteed Auto Protection**, we will help you with your lease or loan payments if your vehicle is lost to an accident or theft. And **Toyota Credit Life Insurance and Credit Disability Insurance** can help protect your family's financial security by paying your lease or loan payments if you're not able to do so.

And when we hand you the keys to your new Toyota, you'll be getting the support of more than 1,195 full-service dealerships with state-of-the-art service centers staffed by Toyota-trained technicians and a parts department that's linked to our enormous new distribution center. So if you should ever need parts, don't worry; we'll get them fast.

Of course, you can expect more from your vehicle and its parts when you follow a regular schedule of preventive maintenance. And the **Toyota Auto Care** program makes it easy and economical with scheduled oil and filter changes, 19-point inspections and 24-hour roadside assistance—all available from your participating Toyota dealer.

However, if something should go wrong with your new Toyota, rest assured. It's protected by **excellent warranties** (see page 30 for details) and you can extend your protection with Toyota Extra Care, our **factory-backed vehicle service agreement**.

For nearly 40 years, we at Toyota U.S.A. and our dealer network have been an integral part of America's economy and social fabric. However, we won't be resting on our laurels. Instead, we have dedicated ourselves to your peace of mind...with products of the highest quality and reliability. And services to match. **From beginning to end, you can expect the best from Toyota.**

When you buy a Toyota product, you can count on excellent quality, the foundation upon which we have built our reputation. But we believe we are not limited to our products. You can expect the same confidence in our products—from the moment you consider a Toyota and throughout your ownership.

And it all begins with information. If you would like to learn more about our products, or want to share comments and opinions, you can contact our Customer Assistance Center at 1-800-331-4331. Or you may write to us at Toyota, our informative interactive website (<http://www.toyota.com>).

And once you've studied the facts, your choice should be easy. Whether you are purchasing a Toyota. With Toyota Motor Credit Corporation, you can choose from monthly payments, 24- to 60-month loans and competitive financing options.

What's more, if you purchase Toyota's Guaranteed Auto Protection Plan, you can protect your investment with your lease or loan payments if your vehicle is lost to an accident. And Toyota's Life Insurance and Credit Disability Insurance can help protect your income while you are paying your lease or loan payments if you're not able to do so.

And when we hand you the keys to your new Toyota, you'll be able to rely on our 1,195 full-service dealerships with state-of-the-art service centers, parts departments and a parts department that's linked to our enormous new distribution network. If you ever need parts, don't worry; we'll get them fast.

Of course, you can expect more from your vehicle and its parts. With the Toyota Auto Care program, you can expect a schedule of preventive maintenance. And the Toyota Auto Care program includes scheduled oil and filter changes, 19-point inspections and 24-hour roadside assistance from your participating Toyota dealer.

However, if something should go wrong with your new Toyota, you can expect excellent warranties (see page 30 for details) and you can extend your protection with Toyota Care, our factory-backed vehicle service agreement.

For nearly 40 years, we at Toyota U.S.A. and our dealer network have been committed to America's economy and social fabric.

Instead, we have earned our laurels. Instead, we have earned the respect of automotive experts. And services to match. From the moment you consider a Toyota, you can expect the best from Toyota.

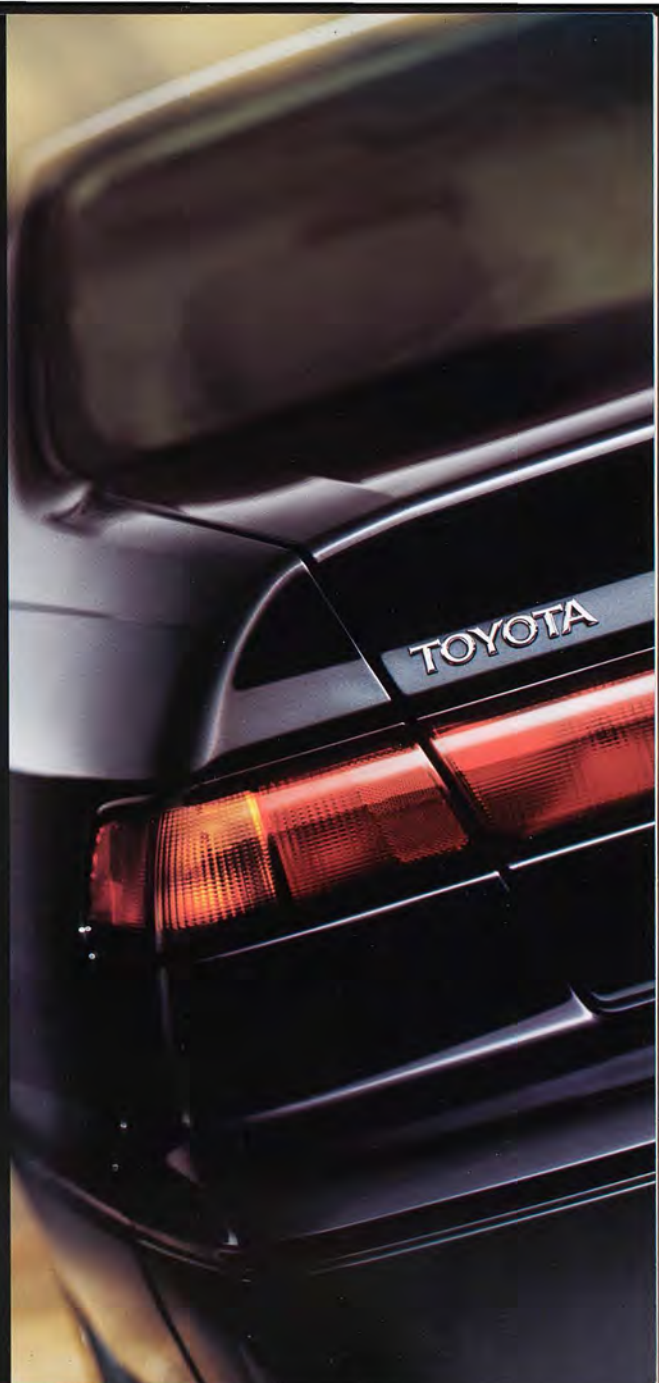

CAMRY

QUALITY AND RELIABILITY

Quality, dependability and reliability. Toyota's reputation continues with the exciting new 1997 Camry. See it for yourself. It's all there—quieter, more powerful and exceptionally smooth. Camry's strong, rigid body has been reinforced and now incorporates new safety features. Body panels fit closely together for improved aerodynamics and a sleeker appearance. And you can add to that a lustrous, high-quality finish.

Built largely in America to Toyota's high quality standards, the new Camry proudly extends the heritage that's earned it the respect of automotive experts. The result? Uncompromising confidence and peace of mind. So come closer and you'll see why Toyota's legendary reputation for dependable performance and reliability keeps getting better with each passing year. With the new Camry, we have dedicated ourselves to building an automobile of the highest quality...after all, you deserve it.

A car that was once named "the best car built in America"^{*} is now better than ever. Presenting the all-new 1997 Toyota Camry—a name renowned for its impeccable style, along with superb performance, comfort, safety and quality. Clean and uncluttered, its striking silhouette heralds the next phase in the evolution of automotive design. Luxurious yet sporty, sophisticated yet athletic, the all-new Camry is a beautiful expression of Toyota's commitment to provide you with a vehicle you will be proud to own and drive. Quieter, more aerodynamic, more agile, more powerful, it's been thoroughly recrafted and reengineered. The result is a driving experience that will not only meet—but exceed—all of your expectations.

*Camry XLE V6/Best car built in America. Automobile Magazine, March 1993. Most Camrys are built in the U.S.

The 1997 Camry's sleek aerodynamic design evolved from early concept illustrations like this one.

Camry XLE V6 shown in Blue Dusk Pearl with optional equipment.

The fully independent MacPherson strut suspension system has been redesigned for improved maneuverability, stability and control.

Highly effective sound-absorbing materials—acoustic, resin and other newly engineered composites—have been placed in strategic areas for a quieter interior.

A reinforced passenger cell provides overall structural strength and helps reduce vibration and road noise for a smoother, quieter ride.

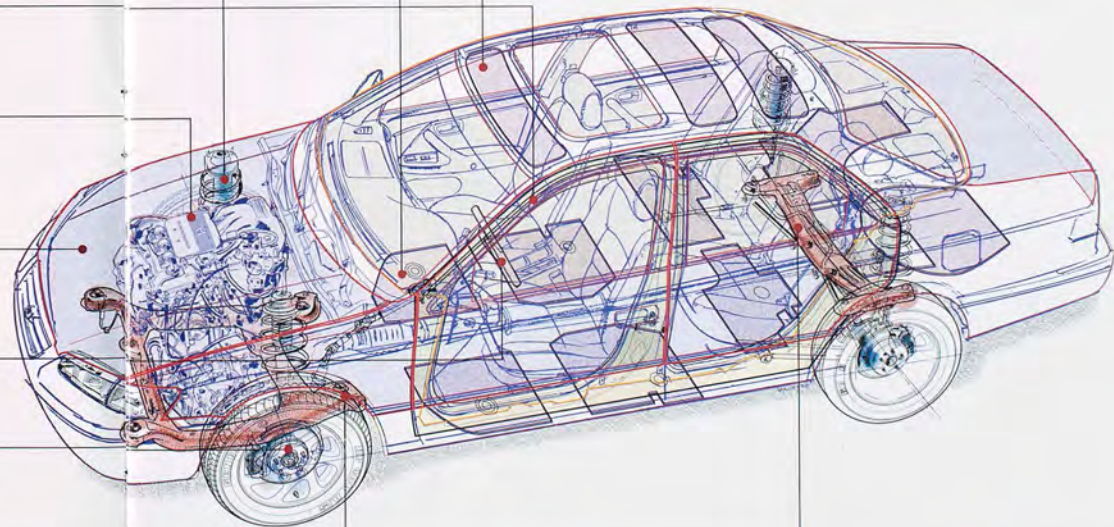

More powerful engines, V6 or 4-cylinder, create the bulk of their torque at low rpm for excellent throttle response and impressive mileage.*

High-tensile-strength steel body panels help increase overall durability without adding excess weight. And a special anti-corrosion treatment helps maintain that durability.

A new steering-wheel frame made from a magnesium alloy helps reduce road and engine vibrations for better steering feel and increased comfort.

For quick, fade-resistant stops, all V6 models are equipped with large, power-assisted 4-wheel disc brakes.

Special front and rear sub-frames—the front cradles the engine, the rear isolates the suspension—help provide a quieter ride.

Peel back its beautiful new exterior and you'll see further evidence that this is, indeed, the very best Camry ever built. To give you a smooth, quieter, more comfortable ride, the wheelbase has been lengthened, structural integrity has been raised to a new level and strategic areas have been reinforced and refined. Both the 16-valve 4-cylinder engine and the 24-valve V6 have been fine-tuned to produce more horsepower while maintaining Camry's excellent fuel economy.* Even the windows have new High Solar-Energy Absorbing (HSEA) glass. As a result, infrared and ultraviolet rays are dramatically reduced. And that's beneficial to interior fabrics.

To help suppress wind and road noise, door seals have been carefully analyzed and reinforced with additional weather stripping. Flush-mounted body panels fit closely together for a sleeker, more aerodynamic appearance. (Front door pillar cross-section shown.)

Camry is one of the most aerodynamic sedans on the market. Its new shape helps optimize the flow of air around and over the hood and cabin for excellent performance and a quieter ride.

*For details, see EPA mileage statement on page 31.

Camry LE V6 shown in Classic Green Pearl with optional equipment.

Camry LE V6 shown in Black with optional equipment.

At Toyota, we are committed to your safety and that of your passengers, and the new 1997 Camry is a shining reflection of that commitment. The integrity of Camry's strong, unitized body structure has been enhanced from top to bottom, front to rear and side to side for excellent protection. Among its many new safety features is an optional Traction Control System (TRAC). Available on V6 models with automatic transmissions, it improves stability and control by reducing wheelspin when accelerating on slippery surfaces. Other benefits include side-door impact beams, energy-absorbing crumple zones and dual front air bags. And ABS* modulates brake pressure to help you maintain steering control during sudden stops on dry, wet or slippery pavement. Even the pillars and door trim have been designed to reduce the risk of injury if the force of a collision impacts passengers against the vehicle's interior. So thoroughly thought out and extensively engineered, the 1997 Camry surrounds you with a multitude of safety features.

*ABS standard on V6 models; optional with 4-cylinder engine.

With the addition of a center-seat shoulder belt, all rear-seat passengers now have 3-point belts with ALR/ELR systems. Emergency Locking Retractors (ELR) are designed to lock in a sudden stop and Automatic Locking Retractors (ALR) can be manually locked at any length so it's easier to secure a child's safety seat without a locking clip.

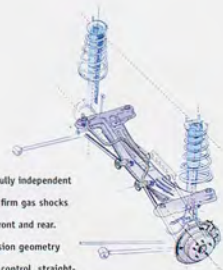

During frontal impact, the engine supports are designed to drop down to help prevent the engine and other components from entering the passenger compartment.

Camry's driver-side and front passenger-side air bags are a Supplemental Restraint System (SRS) designed to inflate in a severe frontal collision. In all other accidents, seatbelts offer

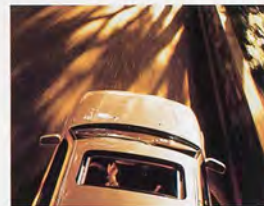

primary protection, and the air bags will not inflate. Do not sit or place objects close to an air bag. To minimize the risk of severe injury or death in all types of crashes, seatbelts must be worn at all times by all vehicle occupants. Do not use rearward-facing child seat in any front-passenger seat. The force of a deploying air bag SRS may cause serious injury. For more information on air bags and instructions on child seat usage, see the Owner's Manual.

Camry's redesigned fully independent suspension features firm gas shocks and stabilizer bars, front and rear. Recalibrated suspension geometry now provides better control, straight-line stability and maneuverability.

The steering column now incorporates an energy-absorbing plate and break-away lower column to help protect the driver in the event of a frontal collision.

Camry's styling, performance, comfort and convenience reach their highest levels in the top-of-the-line XLE. Equipped with your choice of two more powerful engines—a 133-hp,* 16-valve, 4-cylinder or a 194-hp, 24-valve, 3.0-liter V6—the XLE quickly lives up to the promise of its aerodynamic form. Shifts are smooth and precise thanks to the standard 4-speed electronically controlled automatic overdrive transmission with intelligence (ECT-I).** The ride is what you might expect of a more expensive luxury sedan. And it handles with a more secure grip of the road. When you're braking on slippery surfaces, standard 4-wheel Anti-lock Brakes will help you maintain better steering control, while sporty alloy wheels reduce unsprung weight for improved handling and performance. So how do you top this kind of driving experience? We have our ways. How about a few options, like a power tilt/sliding glass moonroof with sunshade, luxurious leather-trimmed seats or a Premium 3-in-1 ETR/Cassette/CD with 6 speakers? Camry XLE—the best just got better.

**133 hp on models equipped with California emission.
 **4-speed electronically controlled automatic overdrive transmission (ECT) without intelligence on 4-cylinder models.
 †Electrically Thru Brakes.

With Camry's 97 cubic feet of interior space, you have plenty of room to enjoy the added luxury and function of

the XLE. This year, the multi-adjustable power-operated driver's seat is joined by a power front passenger's seat. Like all Camrys, the seats have been redesigned for greater ergonomic comfort and support and come tailored in a distinctive cloth fabric. Or, for an added touch of elegance, there's the optional Leather Trim Package. Features like cruise control, dual lighted vanity mirrors, available dual heated outside mirrors and an anti-theft keyless entry system help make driving safer and more convenient. And when the temperature starts to rise, the standard CFC-free air conditioning will help you and your passengers stay cool and comfortable. Dial-type controls let you adjust your climate without taking your eyes from the road. In addition to providing you with lots of room, Camry also makes good use of it. There's even more storage space than last year, including a 29-percent-larger glove box, and a new overhead console that keeps your sunglasses or garage-door opener out of the way but well within easy reach.

The new front seat cup holder's design and location provides a firmer hold on your drink. A turn-over spring greatly improves the opening and closing of the cup holder door.

The rear seat cup holder has been designed to accommodate different types of beverage containers.

Camry XLE V6 interior shown in optional Dak Leather Trim.

Like the XLE, the new Camry LE has been reengineered to deliver a level of performance that will not only satisfy—but impress—the most discriminating of drivers. With its choice of more powerful engines, responsive variable-assist power steering and road-smoothing 4-wheel independent suspension, you can merge confidently onto freeways and nimbly pick your way through grinding city traffic. 4-wheel disc brakes—standard with the V6—help assure quick, fade-resistant stops. And when you're forced to make a sudden stop, the LE's standard 4-wheel Anti-lock Brake System (ABS) helps you maintain better steering control, even on slippery pavement.

Not only is there a large trunk in the new Camry LE, it's also easier to load and unload. And with a convenient accessory cargo net, you can keep small items from shifting around.

AVIATION CENTER

If having your own sense of "personal space" as you drive is high on your list of priorities, you'll love the new Camry LE. Like all Camrys, it's so roomy that even when all five seats are occupied, the comfort level is still superb. And a 5-way adjustable driver's seat is standard. As you look around, you'll see that details like the richly upholstered seats and extra-thick cut-pile carpeting give the LE's interior a plush, elegant ambience. Power conveniences include door locks, outside mirrors and windows with a driver-side one-touch "auto-down" feature. Just a quick touch lowers your window. It joins air conditioning and cruise control on LE's long list of standard features. Even the sun visors have been redesigned with new extensions that expand window coverage. An auxiliary power port lets you plug in your portable phone and expand your mobile office. And for entertainment, you'll find the high-quality Deluxe ETR/Cassette stereo most accommodating, and, thanks to its in-glass antenna, reception is excellent. Camry

LE—the best just got better.

*Electrically-Operated Radio.

Value has long been associated with the Camry name. And for 1997, it finds its most succinct expression in the

new CE, the most affordable Camry. It comes standard with a 5-speed manual transmission or you can choose an optional 4-speed automatic.* Either one quickly transfers power, yet the Camry remains remarkably frugal with a gallon of gas.** Ride, handling and control are all up to Camry's elevated standards. And its spacious interior is very well-equipped. From little amenities like four cup holders, optional power outside mirrors and new telescopic rear outboard headrests to practical features like the 60/40 split fold-down rear seat, auto-off headlamps and remote releases for hood, trunk and fuel door, the CE is filled with those things that make driving more pleasant. Dual air bags (SRS)† and child-protector rear door locks are standard, naturally. And for toddlers, a new optional integrated Child Restraint Seat (CRS)‡ folds out from the right rear passenger area.

*Automatic transmission not available with Camry CE V6.
 **For details, see EPA mileage statement on page 31.
 †See page 13 for more information about SRS.
 ‡See Specifications Chart on page 30 for availability.

Camry CE V6 shown in Frosted Iris Metallic with optional equipment.

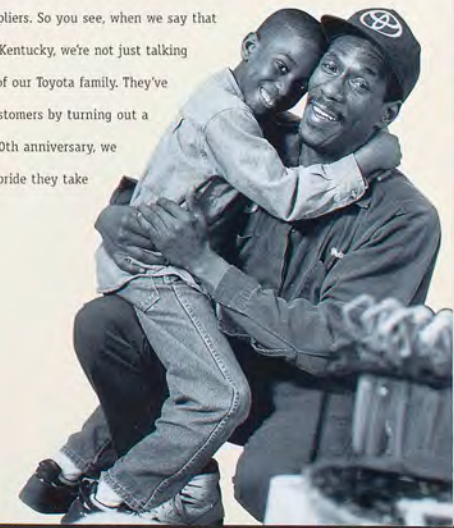

Time and again, the Toyota Motor Manufacturing Kentucky (TMMK) facility in Georgetown, Kentucky, has been acknowledged as one of the finest in the country. In all, TMMK has received dozens of awards and citations for company achievement as well as civic involvement. A decade has passed since the ground-breaking took place for Toyota's first new American manufacturing facility. And in that time, it has established—and maintained—a solid track record for producing vehicles and engines that satisfy and exceed the expectations of hundreds of thousands of American drivers. But if you want to examine the reasons for this unparalleled success, you have to look well beyond TMMK's advanced technology and state-of-the-art equipment. Granted, they're important. However, at Toyota, we're also firmly committed to the belief that the well-being of our employees goes hand in hand with the

production of a top-quality product. And that's why the workplace environment at Toyota Motor Manufacturing Kentucky is so exceptional. Among TMMK's features is a 24-hour child development center that has received accreditation by the National Association for Education of Young Children—an honor only four percent of all centers receive nationally. Here, over 320 children of TMMK team members learn and

play right next door to where their parents are working. Which means that our employees are able to more fully concentrate on the job in front of them. And that, in turn, is passed along to you in the form of Toyota's legendary quality, dependability and reliability. Today, nearly all Camrys sold in the United States are built by Americans—over 6,500 people committed to giving you the best car possible—with many of its parts supplied by over 250 U.S. suppliers. So you see, when we say that we're proud of the achievements of Toyota Motor Manufacturing Kentucky, we're not just talking about a facility. We're talking about real people—the members of our Toyota family. They've truly earned the respect of the automotive industry and our customers by turning out a product of world-class quality. And on the occasion of TMMK's 10th anniversary, we salute each and every one of them for their dedication and the pride they take in a job well-done.

OPTIONS AND ACCESSORIES

There's no better way to express your sense of individuality and style than with Toyota's selection of quality options and accessories. From color-coordinated floor mats to wheel locks and a protective front mask, there are a number of ways to personalize and protect your new Toyota Camry. But remember, Toyota vehicles are built with popular combinations. Not all options are available separately. For assistance, see your Toyota dealer. He or she can help you locate the Camry that's right for you.

You can extend and enhance Camry's dynamic new styling with a deck-mounted, color-keyed rear spoiler.

Genuine wood accents add an extra dash of elegance to Camry's beautifully sculpted instrument panel.

Camry LE V6 shown in Cashmere Blue Metallic with optional equipment.

Every Toyota Car and Truck has excellent warranty coverage. However, given Toyota's worldwide reputation for quality, reliability and dependability, you may never find out just how good our new vehicle warranty really is. But, should you ever need it, we've definitely got you covered:

Basic Coverage: All components other than normal wear and maintenance items are covered for 36 months/36,000 miles.

Powertrain Coverage: Your engine, transmission/transaxle, front-wheel drive, rear-wheel drive, seatbelts and air bags are covered for 60 months/60,000 miles.

Rust-through Coverage: Corrosion perforation of sheet metal is covered for 60 months/unlimited miles.

Service Adjustment Coverage: Components that may have been improperly adjusted at the factory are covered for 12 months/12,500 miles (24 months/18,000 miles in New York state).

Federal Emission Defect Coverage: Federal emission components are covered for 36 months/36,000 miles.

A Federal Emission Performance Warranty applies to those vehicles registered in states and local jurisdictions that require a periodic EPA-approved inspection and maintenance program.

California and Massachusetts Emission Coverage: Additional emission warranties may apply to vehicles sold new in these states.

Service Part or Accessory Warranty covers any Toyota-approved part or accessory for 12 months and unlimited miles. If the vehicle has more than 12 months left on its basic warranty and the part or accessory is installed by a Toyota dealer, then it benefits from the same coverage as the vehicle. Car covers, however, are limited to 12 months and batteries are pro-rated after 12 months.

See your Toyota dealer for details about the new vehicle warranty. In addition, there may be times when we will establish a special policy adjustment which will further defray repair costs.
