### Rear Air Deflector\*

Dust and dirt on your rear window may impede visibility. The Navigator's Rear Air Deflector directs the airflow over the rear window to carry away dust and dirt. Aerodynamic shape allows for full view of high mounted stoplight. Navigator's Rear Air Deflectors are available primed or fully painted to match your vehicle's color. **\$199.00**

### Vehicle Security System\*

Protect your valuable investment with a Navigator Vehicle Security System. The system features two remote control transmitters which lock or unlock all doors and illuminates the interior lights from up to 50 feet away. The transmitters also provide personal protection. If your vehicle is bumped or if the glass is broken, the impact shock sensor activates the alarm. System automatically resets itself 60 seconds after the alarm has been triggered. A highly visible red warning light indicates the system is armed and operating. A valet parking switch allows you to safely override the system. **\$149.00**

**NOTE: Vehicles equipped with a Navigator Vehicle Security System may be eligible for insurance discounts in some states/provinces.**
