# POLICE AND SPECIAL SERVICE VEHICLES

**2014 FORD POLICE INTERCEPTORS**

Go Further

## **BIGGER, FASTER, STRONGER – PURPOSE-BUILT FOR LAW ENFORCEMENT**

**The industry's first pursuit-rated, all-wheel-drive (AWD) Police Interceptors are the better choice.** Compared to the Crown Victoria Police Interceptor (CVPI), you get bigger brakes, springs and mpg figures for surer stopping, stabler handling and greater fuel efficiency. You get faster, ultra-tenacious acceleration thanks to higher horsepower combined with standard AWD. With the heavier-duty alternator and radiator, you also get a higher electrical capability and cooling system.

**Sedan and Utility models are made in the USA<sup>1</sup> specifically for police duty.** They hail from the same platform so they share many common maintenance parts (no matter the powertrain), including tires, wheels, brake pads, rotors, calipers and alternator. This makes for proficient fleet management – supported by 5-year/100,000-mile Ford powertrain coverage<sup>2</sup>; plus more than 3,400 Ford Dealerships across North America.

<sup>1</sup>Assembled in the USA with domestic and foreign parts. <sup>2</sup>Whichever comes first. The 5-year/100,000-mile powertrain coverage is an Extended Service Plan – with zero deductibles – that's standard on all Police Interceptors. See your dealer for full details. <sup>3</sup>October 8, 2012. Police Interceptor Sedan with available EcoBoost<sup>®</sup> engine; based on Michigan State Police testing.

✓ **PURSUIT VALIDATED**  
LA County Sheriff's Dept.

✓ **PURSUIT VALIDATED**  
Michigan State Police

✓ **QUICKEST COP CAR ON THE ROAD<sup>3</sup>**  
– Benjamin Preston, *Jalopnik.com*

## PRIORITY ONE: OFFICER PROTECTION

**75-mph rear-impact crash certified.** Ford Police Interceptors continue a proud tradition of being the only pursuit-rated vehicles to pass extreme rear-impact crash testing.

**Ballistic front-door panels<sup>1</sup> are shields of armor.** Manufactured by BLS Textiles, each panel is certified to full NIJ Level III specifications<sup>2</sup> – National Institute of Justice Standard 0108.01. Per LAPD (Los Angeles Police Department) requirements, they're also designed to withstand special-threat rounds<sup>2</sup> – 7.62x39 mm mild steel core type 56, plus 5.56x45 mm M193 and M855.

**A genuine sense of security.** Steel intrusion plates are built into the front seat backs. Hidden rear door-lock plungers<sup>1</sup> are manually operable only by officers in front. And 3 key lock cylinders – on the front doors and decklid/liftgate – provide quick, reliable access with a simple fleet key.

**Virtual force field of assurance.** Safety cell construction helps direct the force of a collision around the occupant compartment. SPACE (Side Protection And Cabin Enhancement) Architecture utilizes a hydroformed cross-vehicle beam between the door frames, solidifying each side. Ultra-high-strength steel reinforcement adds protection. Just in case, the sophisticated Personal Safety System,<sup>TM</sup> Safety Canopy<sup>®</sup> System and front-seat side airbags<sup>3</sup> are at the ready.

## INTELLIGENT AWD<sup>1</sup> IS STANDARD IN THE NAME OF UNRELENTING PURSUIT

**AWD is police-calibrated for aggressive driving, plus enhanced handling<sup>2</sup> and precise control.** By the milliseconds, this self-activating system preemptively distributes torque among all 4 wheels to help prevent wheelslip no matter the road and climate conditions. AWD helps improve traction during inclement conditions or on loose dirt and gravel. It's equally impressive off the line – or in the turns – on completely dry roads. It was co-developed with EVOC (Emergency Vehicle Operator Course) instructors for the utmost responsiveness and performance in challenging situations.

**Police-programmed AdvanceTrac<sup>®</sup> electronic stability control provides the confidence to hit corners hard<sup>3</sup>** Monitoring driving situations – through wheel speeds, steering angle, lateral acceleration, and vehicle rotation for both the vertical yaw axis and horizontal roll axis – AdvanceTrac adjusts automatically. To help avoid skidding and fishtailing, it utilizes the Anti-Lock Brake System (ABS) and all-speed traction control whenever wheelslip, understeer, oversteer or roll motion is detected. Roll Stability Control™ is unique to the Utility: Gyroscopic sensors check body-roll angle at least 100 times per second.

**Every Police Interceptor® V6 pumps out more horsepower than the CVPI V8.** Generating a formidable 365 hp, the twin-turbo, direct-injection EcoBoost® V6<sup>1</sup> – tuned exclusively for the Sedan – also delivers a powerful flat torque curve across the rev range. The 305-hp flex-fuel<sup>2</sup> 3.7L V6 is now standard on the Sedan, while a 288-hp 3.5L V6 is an option. Output for the 3.7L V6 in the Utility is a stout 304 horses. All of this new-tech V6 muscle earns greater efficiency stripes too.

**Shift points for the 6-speed automatic are programmed to maximize acceleration.** Instantly responding to pursuit mode, the transmission adapts to officer driving habits. Police-tuned electric power-assisted steering (EPAS) ensures light turning effort at low speeds. Suspension components are also fine-tuned for deft maneuvers at any speed.

**Replacement of wear-and-tear components is integral to the 5-Year/100,000-Mile Ford Powertrain Coverage.<sup>3</sup>** This extensive guarantee is further proof of the faith in Police Interceptor dependability. Coverage is backed by Ford Motor Company, honored at all Ford Dealerships, and fixed with Genuine Ford Parts by factory-trained and certified technicians.

# ALL-WEATHER AWD AND A HIGH-POWERED OUTPUT OPTIMIZE CLOSING SPEED FOR RAPID TAKEDOWNS

## 4 INDOMITABLE V6 POWERTRAINS – PAIRED WITH 6-SPEED TRANSMISSIONS – OFFER DISTINCT PERFORMANCE ADVANTAGES OVER THE CVPI AND COMPETITORS:

					
	<b>2013 Utility 3.7L Ti-VCT V6 FFV<sup>2</sup> (Standard)</b>	<b>2013 Sedan 3.7L Ti-VCT V6 FFV<sup>2</sup> (Standard)</b>	<b>2013 Sedan 3.5L Ti-VCT V6 FFV<sup>2</sup> (Optional)</b>	<b>2013 Sedan 3.5L EcoBoost V6 (Optional)</b>	<b>2011 CVPI 4.6L OHC V8 FFV<sup>2</sup> (The Past Standard)</b>

Purpose-built wheels, tires and brakes.

## GO HEAVY-DUTY IN THE LINE OF DUTY

**Heavy-duty wheels are teamed with exclusive police-purposed tires.** Hefty 18" steel wheels are designed to withstand the punishment of daily duty no matter where the trail leads. The 5-spoke design lets the brakes breathe freely and stay cool. Unique Ford Police Interceptor® tires are constructed to maximize grip, handling, roll, rigidity and tread wear. To keep things rolling, the spare is not only full size, it's equipped with a Tire Pressure Monitoring System (TPMS) sensor.

**Heavy-duty anti-lock disc brakes contribute to extreme high performance.** Police Interceptors don't just need to go fast, they must halt rapidly – under control. Developed in association with the Los Angeles County Sheriff's Department and Michigan State Police, this system strikes an ideal balance between stopping power and long wear life. Boasting an increased swept area versus the CVPI, the unique inverted hat-vented rotors are paired with unique calipers for high thermal capacity.

**Heavy-duty EPAS and suspensions respond in the name of control, capability and comfort.** Electric power-assisted steering adjusts to vehicle speed, as well as crowned roads and crosswinds. For smooth, predictable, high-speed handling at every turn, the front and multilink rear suspensions are fully independent – each one also incorporates a brawny stabilizer bar to combat body lean. Helical coil springs and stiffened, gas-pressurized hydraulic shocks are made for the rigors of police work. Premium hubs and bearings are extra large for extra-long durability. Standard on the Sedan and available for the Utility, the unique Ford designed underbody deflector plate helps deflect road debris and guard against scrapes – aspects crucial for the integrity of the oil pan. The plate is meticulously shaped to facilitate ease of oil-filter changes.

**Heavy-duty cooling system regulates extreme heat.** The high-volume radiator, engine oil cooler and transmission fluid cooler – working with the police-calibrated fan and mesh grille – optimize operation in times of pursuit or periods of idling.

**Heavy-duty 220-amp alternator meets demands.** Ample support for radar, lights, radios, cameras, computers and more.

Heavy-duty suspension with protective deflector plate. (Sedan shown.)

Police Interceptor 13" rotor compared to CVPI 11" rotor.

## TAKE THE LAW INTO YOUR OWN HANDS

Ergonomic Police Interceptor Sedan cockpit.

**Purpose-built within.** How an officer enters, exits, sits, shifts gears and uses electronics are just a few of the features meticulously accounted for within the Police Interceptor<sup>®</sup> cabin. Amenities include power-adjustable pedals, **A** a tilt steering column (it's also telescoping on Sedan), **B** and the recessed universal top tray **C** that's ideal for police equipment. A pair of MyFord<sup>®</sup> 4.2" screens **D** and the certified speedometer **E** relay vital information at a glance. For the sake of convenience, the trunk release (a Sedan exclusive) is a push button **F**.

**Connect with voice-activated Ford SYNC.<sup>®1,2</sup>** Just press a switch **G** on the steering wheel and speak commands. Once paired, SYNC recognizes a cell phone and supports hands-free voice calling. SYNC Services provides turn-by-turn driving directions<sup>2</sup> custom traffic alerts<sup>2</sup> 911 Assist<sup>®</sup> and much more. SYNC also allows verbal command of devices that are plugged into the USB port. (Visit [ford.com/sync](http://ford.com/sync) for details on the numerous benefits.)

**Radar detection.** While driving, BLIS<sup>®</sup> (Blind Spot Information System) with cross-traffic alert<sup>1,3</sup> can lend an assist before changing lanes – look for an amber warning light in a sideview mirror. When slowly backing up, the system sounds an alert, flashes a light in the sideview mirror, and issues a message-center notice if any vehicles are detected behind.

**More ways to raise awareness.** The ultrasonic Reverse Sensing System<sup>1</sup> issues audible notifications when objects are recognized within 6' of the vehicle while it backs up slowly. Opt for a rear view camera<sup>1</sup> to see what's happening behind.

Convenient console mounting plate.

**Aftermarket cost-savings potential.** Ford Police Interceptors have column-mounted shifters **H** so crimefighters have ample room for equipment. In addition, the center-console space **I** measures a wide-open 9" between the driver and front-passenger seats – matching the width of the CVPI center console. Easily transfer an existing CVPI apparatus directly to an Interceptor. The removable, Ford designed steel console mounting plate is a solid foundation for aftermarket equipment. Channel wiring from the back of the vehicle and/or the instrument panel.

High-tech Ford SYNC with remappable switches.

**Keep hands on wheel and eyes on road.** Minimize distraction while performing police tasks on the go: Ford engineers integrated 4 customizable, auxiliary control buttons **G** on the steering wheel. These remappable switches can connect the driver to aftermarket equipment, including lights, sirens, speakers and canine door releases. Whatever the need, grounded outputs are on board for use with the switches. A pair of 12-volt powerpoints **J** can be put to work too.

## FINEST-EVER PURSUIT-RATED FORD POLICE INTERCEPTOR® SEDAN

**First-rate, front-row comfort.** The power driver's seat accommodates 6 ways. It also includes manual lumbar support and a 4-way adjustable head restraint (the front passenger head restraint is 2-way). Covered in police-grade, heavy-duty cloth, each front-seat incorporates sculpted foam to accommodate a utility belt. Contoured side bolsters ease the constant getting in and out.

**Exemplary rear seat transport.** Access is made easy with wide-opening rear door hinges: a Sedan exclusive. The rear bench maximizes space and is wrapped in heavy-duty vinyl. Door panels are simplified – no mapholders or cupholders – for ease of cleaning. For added security, hidden, manual door-lock plungers can be ordered for each rear door (see page 17 for image).

**Super-capacity trunk.** A wealth of low-liftover room stows equipment out of sight. Pull up the flat load floor for the standard full-size spare stationed inside. It's identical to the other 4 wheels and comes ready-to-roll with a TPMS sensor. A custom-fit electronics tray is available, and so is an auto-running circulation fan to keep conditions temperate for devices in the trunk.

## FIRST-EVER PURSUIT-RATED FORD POLICE INTERCEPTOR® UTILITY

### **A versatile, breakthrough way of thinking about a patrol vehicle.**

This intimidating-to-criminals ride offers commanding views and presence. Head room and leg room are generous throughout. Front seats feature extra-tough cloth, and bolsters enable officers to get in, get going and get out comfortably – even with fully loaded utility belts. There's 6-way power and manual lumbar support for the driver, along with power-adjustable pedals.

**60/40 split-fold bench in back.** Reconfigure it as circumstances dictate, or quickly and conveniently fold the full bench for a capable 85.1 cu. ft. of load space. Recessed seating positions are outfitted in easy-clean vinyl.

**Cargo, carbines and canines too.** Cavernous carry-all room makes the Police Interceptor Utility the perfect choice for K-9 officers and SWAT team members with gear. Devices and dogs can be kept cooler with the available auxiliary air conditioning. Without compromising the 800-lb.-capacity workspace, a full-size spare – complete with TPMS sensor – is stored under the flat load floor.

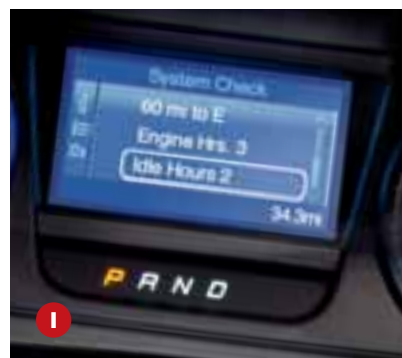

## FOR MATTERS STRATEGIC OR TACTICAL, BE PRACTICAL

**Purposeful tools of the trade are crucial.** From embarking on a raid to engaging in a chase, details make the difference. The full-size spare **A** hidden under the flat load-floor cover is the exact 18" 5-spoke wheel and tire combo as the 4 on the road. Put the spare into high-speed use; it can also be shared among Sedan and Utility models. The Sedan offers a trunk-based exclusive: the sturdy, sliding electronics tray<sup>1</sup> **B**. Sedan and Utility models are equipped with a column-mounted shifter **C**, a universal top tray **D**, an overhead storage console, and dual-purpose red/white dome lighting **E**. Front doors have supplemental tethers **F** to strengthen the hinge action during police work. Hidden door-lock plungers on the rear doors<sup>1</sup> **G** ensure an extra measure of security when a detainee is in custody. A lockable trunk/cargo area vault<sup>1</sup> **H** is sized right for seized small arms. And the engine hour and idle meters **I** help maintain precise service scheduling. When laws need enforcing, count on Ford Police Interceptors.

## 4 WAYS MUNICIPALITIES CAN REAP SOME MAJOR SAVINGS:

**The standard V6 allows for simplified service on both Interceptors.** Air filter, oil filter, spark plugs, battery and transmission are the same for the Sedan and Utility.

**Common maintenance items are inherent to every Police Interceptor,<sup>®</sup> no matter the powertrain.** They include brake pads, rotors, calipers, tires, wheels and alternator.

**To help keep downtime minimized, numerous shared components are exact-spec.** The driver's seat, front-passenger seat, head restraints, power transfer unit and rear differential unit are alike on all Interceptors.

**The Police Interceptor key doesn't contain a costly microchip.** Make a copy or replacement at the local hardware store's going rate. Plus, the entire fleet can be set up to run with one common key design.

# 2014 FORD POLICE INTERCEPTORS

## FEATURES & OPTIONS

### STANDARD FEATURES

9" space between driver's seat and front-passenger seat for aftermarket consoles

12-volt powerpoints: Sedan – 2; Utility – 2

75-mph rear-impact crash tested

All-wheel drive (AWD)

Alternator – Heavy-duty 220-amp

Audio – AM/FM stereo/single-CD player with MP3 capability, clock and 4 speakers (Sedan)

Audio – AM/FM stereo/single-CD player with MP3 capability, clock and 6 speakers (Utility)

Badge – Flex Fuel/AWD

Badge – Police Interceptor®

Battery – Heavy-duty (78-amp-hr/750 CCA)

Brakes – 4-wheel heavy-duty disc with Anti-Lock Brake System (ABS) (police-calibrated)

Built-in steel intrusion plates in both front seat backs

Climate controls – Manual air conditioning

Column shifter

Console mounting plate – Front

Cooling system – Heavy-duty

Cruise control

Easy Fuel® capless fuel filler

Electric power-assisted steering – Heavy-duty

Engine – 3.7L Ti-VCT V6 FFV (Sedan)

Engine – 3.7L Ti-VCT V6 FFV (Utility)

Engine-hour meter

Engine idle meter

Exterior key locks – Driver, front-passenger and decklid/liftgate

Fleet key – Low-cost replacement

Flooring – Heavy-duty vinyl

Fuel tank heat shield (Sedan)

Full-size spare wheel and tire, TPMS

Glass – Solar-tinted (Sedan)

Glass – Solar-tinted 1st row; privacy glass 2nd and 3rd rows (Utility)

Headlamps – Projector-beam halogen

Headliner – Easy-to-drop

Independent front and rear suspensions

Lower grille cover (Sedan)

Mirrors – Power sideview, manual foldaway with integrated blind spot mirrors

MyFord® with 4.2" color LCD display including digital speed readout in police instrument cluster and center stack "smart display"

Power-adjustable pedals

Power door locks

Powertrain mounts – Heavy-duty

Power windows with one-touch-up/-down driver's side with disable feature

Recovery hooks (Utility)

Redundant digital speedometer display

Red/white dome light – 1st row

Scuff plates – Front and rear

Seat – Front heavy-duty cloth, 6-way power driver's with manual lumbar

Seat – Front heavy-duty cloth passenger

Seat – Rear vinyl bench (Sedan)

Seat – Rear vinyl 60/40 split (Utility)

Taillamps – Halogen (Sedan)

Taillamps – LED (Utility)

Tilt/telescoping steering column (Sedan)

Tilt steering column (Utility)

Tires – P245/55R18 all-season BSW

Transmission – 6-speed automatic (police-calibrated)

Trunk/cargo area – Flat load floor

Underbody deflector plate (Sedan)

Universal top tray for police equipment

Wheels – Heavy-duty 18" steel 5-spoke

### SAFETY & SECURITY

AdvanceTrac® electronic stability control (Sedan)

AdvanceTrac with RSC® (Roll Stability Control™) (Utility)

Airbag – Front-passenger knee (Utility)

Airbags – Front-seat side, plus Safety Canopy® System (side-curtain airbags) and rollover sensor

Battery saver

Child-safety rear door locks

Ignition-wired trunk release (Sedan)

LATCH – Lower Anchors and Tether Anchors for Children in rear outboard seating positions

Personal Safety System™ for driver and front passenger includes dual-stage front airbags, safety belt pretensioners, safety belt energy-management retractors, safety belt usage sensors, driver's seat position sensor, crash severity sensor, restraint control module and Front-Passenger Sensing System

SOS Post-Crash Alert System™

Tire Pressure Monitoring System

Traction control

### DRIVETRAINS

Police Interceptor Sedan (AWD) – Standard	<input type="checkbox"/> P2M
Police Interceptor Sedan (FWD) – Optional	<input type="checkbox"/> P2L
Police Interceptor Utility (AWD) – Standard	<input type="checkbox"/> K8A

### POWERTRAINS

<b>Sedan</b>

Vinyl Wrap – roof only	<input type="checkbox"/> 148	<input type="checkbox"/> 91H
Vinyl Wrap – front doors only	<input type="checkbox"/> 149	<input type="checkbox"/> 91J

**LIMITED MAINTENANCE PACKAGES**

An exclusive Ford Extended Service Plan (ESP) program for the Police Interceptor. Select the level of maintenance that will best meet your needs – each package includes an engine oil/filter change, tire rotation and extensive Multi-Point Inspection at 3,000- or 5,000-mile intervals as outlined below.

	<b>Sedan</b>	<b>Utility</b>
75,000 miles (assumes 5,000-mile intervals = 15 service events)	<input type="checkbox"/> 521	<input type="checkbox"/> 50A
75,000 miles (assumes 3,000-mile intervals = 25 service events)	<input type="checkbox"/> 522	<input type="checkbox"/> 50B
100,000 miles (assumes 5,000-mile intervals = 20 service events)	<input type="checkbox"/> 523	<input type="checkbox"/> 50C
100,000 miles (assumes 3,000-mile intervals = 33 service events)	<input type="checkbox"/> 524	<input type="checkbox"/> 50D
125,000 miles (assumes 5,000-mile intervals = 25 service events)	<input type="checkbox"/> 525	<input type="checkbox"/> 50E
125,000 miles (assumes 3,000-mile intervals = 41 service events)	<input type="checkbox"/> 526	<input type="checkbox"/> 50F
150,000 miles (assumes 5,000-mile intervals = 30 service events)	<input type="checkbox"/> 527	<input type="checkbox"/> 50G
150,000 miles (assumes 3,000-mile intervals = 50 service events)	<input type="checkbox"/> 528	<input type="checkbox"/> 50H

**WHEELS**

Standard: Set of 5 heavy-duty 18" 5-spoke steel wheels with center caps (5th wheel is full-size spare)

Optional: Set of 4 heavy-duty 18" full-face wheel covers with metal clips (Sedan 64L/Utility 64B)

## QUALITY-ASSURED FREE-STANDING OPTIONS

**Ensure compatibility and capability with police equipment authorized by Ford.** Components and installation are verified through the comprehensive Ford Quality System – with exacting evaluation in terms of crash testing, cycle testing, vibration testing, hot/cold testing, humidity testing, corrosion testing and the like. Obtain the latest product and technical information quickly and easily: View Police Modifier bulletins and download the industry-exclusive *Sedan & Utility Police Modifier Guide* at [ford.com/fordpoliceinterceptor](http://ford.com/fordpoliceinterceptor) (scroll down to “GET UPDATES” and then click on “Brochures/Upfit Guide”).

Sedan (62D) **A**

**B** Sedan (13P)

**B** Utility (86P)

**C** Sedan (97D)/Utility (85R)

**D** Sedan (97T)

**E** Sedan (19T)

**E** Utility (63V)

**F** Sedan (63P)/Utility (52P)

**G** Sedan (96P)/Utility (18X)

## FREE-STANDING OPTIONS

**A. Trunk electronics tray** – Aluminum, retractable locking tray installed at plant (no height adjustment)

**B. Front headlamp housings** – Eliminate need to drill or modify housing assemblies; for police application with incremental hole for side marker lights

**C. Rear console plate** – Interfaces with front console mounting plate and extends through 2nd-row occupant area to seat bottom (acting as wiring conduit on top of transmission tunnel)

**D. Trunk circulation fan** – Wired to ignition to turn on; circulates air from the cabin to the trunk

**E. Trunk/cargo area storage vault** – Lockable; ideal for contraband/small arms; located in driver's side trunk/cargo area well

**F. Hidden door lock plunger** – Manual lock rod; 2nd-row door handles inoperable

**G. 100-watt siren/speaker** – Includes wire

**Pre-wiring for grille lamp, siren and speaker<sup>1</sup>** – Electrical harness inlay (14290): Inlay includes (2) light connectors that support up to (3) LED lights each (in engine compartment), (1) grille LED light connector that supports (2) LED lights, and (1) front driver's side speaker siren cable (not pictured)

# QUALITY-ASSURED LIGHTING SOLUTIONS (DO-IT-YOURSELF)<sup>1</sup>

## HEADLAMP HOUSING (SEDAN 13P/UTILITY 86P)

**Front headlamp housing:** Eliminates the need to drill or modify housing assemblies; for police application with incremental hole for side marker lights.

## FRONT HEADLAMP LIGHTING SOLUTION (SEDAN 661/UTILITY 66A)

**Front headlamp housing:** Eliminates the need to drill or modify housing assemblies; for police application with incremental hole for side marker lights.

**Police headlamp:** Includes halogen base projector beam headlamp, plus (2) multifunction Park/Turn/Warn (PTW) bulbs for wig-wag simulation, and (2) white hemispheric lighthouse LED side warning lights.

### TAILLAMP LIGHTING SOLUTION (SEDAN 662/UTILITY 66B)

Sedan

Utility

**Police taillamp:** Includes halogen base lamp, plus (2) rear integrated hemispheric lighthouse LED side warning lights in taillamps (Sedan – red lens; Utility – white lens).

### REAR LIGHTING SOLUTION (SEDAN 663/66C)

Sedan

Utility

**Police rear lighting:** Includes (2) backlit flashing linear high-intensity LED lights with surround cover (driver's side red/passenger side blue). Sedan lights are mounted inside the back window and Utility lights are mounted to the inside of the liftgate glass.

Sedan

Utility

**Police rear lighting:** Includes (2) backlit flashing linear high-intensity LED lights (driver's side red/passenger side blue). Sedan lights are mounted on the inside of the trunk decklid and Utility lights are installed on the inside lip of the liftgate. Lights activate when trunk/liftgate is open.

# QUALITY-ASSURED UPFIT SOLUTIONS (INCLUDES WIRING)<sup>1</sup>

## TRUNK UPFIT PACKAGE (SEDAN 854)

**A. Trunk electronics tray** – Aluminum, retractable locking tray installed at plant (no height adjustment)

**B. Trunk circulation fan** – Wired to ignition to turn on; circulates air from the cabin to the trunk

**C. Rear console plate** – Interfaces with front console mounting plate and extends through 2nd-row occupant area to seat bottom (acting as wiring conduit on top of transmission tunnel)

**D. Wiring harness** – Includes (2) light cables for up to (3) linear high-intensity LED lights; (2) 50-amp battery ground circuits in trunk power distribution junction box (PDB); trunk power distribution box (PDB); (1) 10-amp siren/speaker circuit (IP to trunk); trunk circulation fan wiring (IP to trunk); pre-wiring for grille LEDs, siren and speaker; and rear lighting circuits (IP to trunk)

## LIGHT CONTROLLER PACKAGE (SEDAN 855)

**A. Trunk electronics tray** – Aluminum, retractable locking tray installed at plant (no height adjustment)

**B. Trunk circulation fan** – Wired to ignition to turn on; circulates air from the cabin to the trunk

**C. Rear console plate** – Interfaces with front console mounting plate and extends through 2nd-row occupant area to seat bottom (acting as wiring conduit on top of transmission tunnel)

**D. Wiring harness** – Includes (2) light cables for up to (3) linear high-intensity LED lights; (2) 50-amp battery ground circuits in trunk power distribution junction box (PDB); trunk power distribution box (PDB); (1) 10-amp siren/speaker circuit (IP to trunk); trunk circulation fan wiring (IP to trunk); pre-wiring for grille LEDs, siren and speaker; and rear lighting circuits (IP to trunk)

**E. Control system** – Includes PCC8R controller, control head and wire

## CARGO WIRING UPFIT PACKAGE (UTILITY 67G)

**C. Rear console plate** – Interfaces with front console mounting plate and extends through 2nd-row occupant area to seat bottom (acting as wiring conduit on top of transmission tunnel)

**D. Engine wiring harness** – Includes (2) light cables for up to (6) linear high-intensity LED lights, (2) grille light connections, (2) 50-amp battery ground circuits in right-hand rear-quarter power distribution junction block (PDB), (1) 10-amp siren/speaker circuit (engine to cargo area)

**E. Control system** – Includes PCC8R controller, light relay center, control head, cable from controller to control head (console to cargo area), and wire

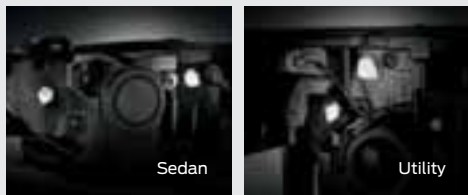

Wiring overlay harness with lighting and siren interface connections (not shown)

Pre-wiring for grille lamp, siren and speaker (not shown)

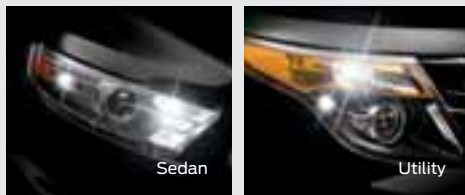

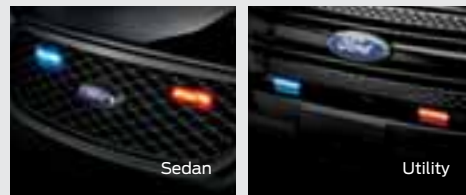

## READY-FOR-THE-ROAD PACKAGE (SEDAN 856/UTILITY 67H)

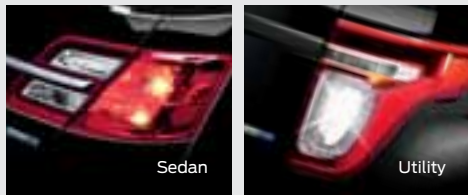

**Front headlamp housing:** Eliminates the need to drill or modify housing assemblies; for police application with incremental hole for side marker lights.

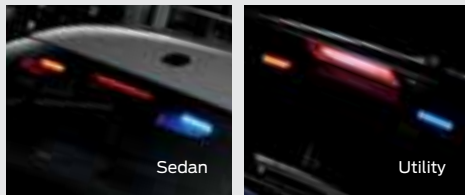

**Police headlamp:** Includes halogen base projector beam headlamp, plus (2) multifunction Park/Turn/Warn (PTW) bulbs for wig-wag simulation, and (2) white hemispheric lighthouse LED side warning lights.

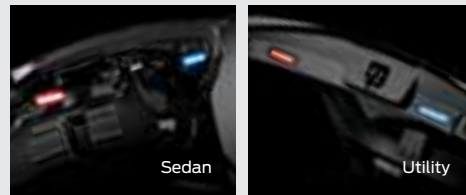

**Grille LED lights:** Includes (2) backlit flashing linear high-intensity LED lights (driver's side red/passenger side blue).

**Police taillamp:** Includes halogen base lamp, plus (2) rear integrated hemispheric lighthouse LED side warning lights in taillamps (Sedan – red lens; Utility – white lens).

**Police rear lighting:** Includes (2) backlit flashing linear high-intensity LED lights with surround cover (driver's side red/passenger side blue). Sedan lights are mounted inside the back window and Utility lights are mounted to the inside of the liftgate glass.

**Police rear lighting:** Includes (2) backlit flashing linear high-intensity LED lights (driver's side red/passenger side blue). Sedan lights are mounted on the inside of the trunk decklid and Utility lights are installed on the inside lip of the liftgate. Lights activate when trunk/liftgate is open.

**Trunk storage vault (Sedan only):** Lockable; ideal for contraband/small arms; located in driver's side trunk.

**Trunk electronics tray (Sedan only):** Aluminum, retractable locking tray installed at plant (no height adjustment).

**Trunk circulation fan (Sedan only):** Wired to ignition to turn on; circulates air from the cabin to the trunk.

**Rear console plate:** Interfaces with front console mounting plate and extends through 2nd-row occupant area to seat bottom (acting as wiring conduit on top of transmission tunnel).

**Hidden door lock plunger:** Manual lock rod; 2nd-row door handles inoperable.

**100-watt siren/speaker:** Includes wire.

**Control system:** Includes CenCom™ controller, control head and wire

**Wiring harness (Sedan):** Includes (2) light cables for up to (3) linear high-intensity LED lights; (2) grille light cables; (2) 50-amp battery ground circuits in trunk power distribution junction box (PBD); (1) 10-amp siren/speaker circuit; pre-wiring for grille LEDs, siren and speaker.

**Wiring harness (Utility):** Includes (2) light cables for up to (6) linear high-intensity LED lights; (2) grille light cables; (2) 50-amp battery and ground circuits in right-side rear-quarter; (1) 10-amp siren/speaker circuit to engine cargo area; pre-wiring for grille LEDs, siren and speaker.

# ESSENTIAL RESOURCES

## FORD ESP IS AVAILABLE FOR ALL FORD SPECIAL SERVICE VEHICLES

Upgrade your protection: Select the extended warranty that best suits your needs. There are 4 plans available that wrap around or extend the powertrain warranty – PowertrainCare, BaseCare, ExtraCare, PremiumCare – with comprehensive coverage for up to 7 years and 125,000 miles on new vehicles. In addition, drop-off first-day rental is included on all plans.

## Extended Service Plan

## HOW MANY ESSENTIALS CAN YOU FUND THIS YEAR?

The Ford Credit Municipal Lease/Purchase Finance Program is a flexible funding method available to state and local governments to finance "essential use" equipment. This program can help you acquire needed vehicles at today's prices, while taking advantage of low, tax-exempt interest rates and avoiding large lump-sum expenditures.

**FORD CREDIT**  
Municipal Finance

### BENEFITS

- Maximize limited budget funds, as only the current year's lease payments are included in the operating budget
- Accumulate equity with each payment and realize ownership with a final payment of \$1 at lease end
- No down payment or security deposits are required
- Avoid the repercussions of a tax increase, or the expense and complexity of a bond issue to finance equipment acquisitions
- Optional Ford Extended Service Plans and vehicle accessories may be included in the amount financed; Ford Credit Municipal Finance handles all of the financial arrangements, offering highly competitive rates that provide lower payments
- Flexible payment schedules, including monthly, quarterly or annual payments, can be arranged to meet your financial requirements – consult your tax advisor to determine whether you qualify for tax-exempt financing

### LEARN MORE

- Contact your local Government Account Manager or your Ford Dealer Commercial Account Manager
- Visit [fordcredit.com/municipal-finance](http://fordcredit.com/municipal-finance)
- Call 1-800-241-4199

## VEHICLE SPECIAL ORDER (VSO)

VSO provides special paint options that are not currently offered through regular or fleet-only production. If you are looking for special equipment not currently offered, please contact your Ford Dealer to help determine whether or not your request is feasible. Visit [fleet.ford.com](http://fleet.ford.com) to see what VSO can develop for you.

**New option development (VSO inquiries).** The establishment of new VSO options is initiated by customer requests called "VSO Inquiries." All requests are received, reviewed and approved by the VSO department to ensure the end product is compatible with regular- and limited-production options. The end product must also meet Ford Motor Company standards for quality, durability, safety and performance.

**Production timing.** VSO vehicles with existing VSO options take 60 – 90 days to go from order receipt to production. For vehicles with newly developed VSO options, please include the development timing provided with the inquiry response. For your fleet-planning purposes, VSO production typically begins a month after Job 1 and balances out one month prior to Job Last.

**VSO equipment and paint option availability.** To view current equipment and special paint options, have your dealer access the VSO Ordering Guide at [fmcdealer.com](http://fmcdealer.com). This guide is live and options are always up to date.

## GENUINE FORD COLLISION REPLACEMENT PARTS

Dependability is crucial. To do your job, you depend on every piece of your equipment to function as it was designed. The same goes for your police unit, and if you're ever in an accident, you can depend on genuine Ford collision replacement parts: sheet metal, bumpers and lights to help restore your vehicle to pre-accident condition. Genuine Ford collision parts are equal in quality, fit and structural integrity to the original parts that came on your vehicle because they are the same parts used in the production of new vehicles. Designed, engineered, and produced by Ford Motor Company to meet Federal Motor Vehicle Safety Standards. Cheap imitation parts can't make that claim. So don't settle for anything less dependable than genuine Ford collision replacement parts.

## QUALITY FLEET CARE

Quality Fleet Care is a centralized billing service you can use to make a single monthly payment on behalf of your entire fleet for maintenance and repairs performed at participating Ford Dealers and Quick Lane Tire & Auto Centers. Over-the-counter part purchases at participating Ford Dealers can also be included. There is no enrollment fee, no per-vehicle fee and no administration fee for warranty-covered repairs. Plus, you preset your drivers' spending limits, which cannot be exceeded without your approval. Visit [fleet.ford.com/qfc](http://fleet.ford.com/qfc) or call 1-800-367-3221 for more information.

# POLICE ADVISORY BOARD MEMBERS

**An industry first.** Acting as a liaison and resource for law-enforcement agencies nationwide, the Police Advisory Board (PAB) provides frank and direct feedback on the products, programs and policies of Ford. These 26 officials help refine current vehicles and create future offerings. Input on safety, reliability and durability is essential to serving unique police operational needs, and proves invaluable to the ongoing development of the Police Interceptors. Please visit [fleet.ford.com](http://fleet.ford.com) for more PAB info.

## FORD FLEET

North American Fleet, Lease & Remarketing Operations

Some features discussed may be optional. Vehicles shown may contain optional or modifier-installed equipment. Features shown may be offered only in combination with other options or subject to additional ordering requirements or limitations. Dimensions shown may vary due to optional features and/or production variability. Information in this brochure was developed from Order Guides as of March 2013. Following publication of this catalog, certain changes in standard equipment, options and the like, or product delays may have occurred which would not be included in these pages. For more information on AdvanceTrac® with or without RSC® visit [fleet.ford.com](http://fleet.ford.com). Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions. \* Always wear your safety belt, secure children in the rear seat and follow airbag warning label instructions. • SYNC: Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Not all features are compatible with all phones. • For more information, visit [fleet.ford.com](http://fleet.ford.com). • Ford Motor Company reserves the right to change product specifications at any time without incurring obligations. All comparisons based on 2013 competitive models.
