

2015 FORD F-150

The all-new Ford F-150 continues to lead and innovate. It is the toughest, smartest, most capable F-150 yet and is made with high-strength, military-grade, aluminum alloy. The 2015 F-150 shows Ford is again teaching the world how to build a new generation of truck.

PRODUCT HIGHLIGHTS

- High-strength, military-grade, aluminum alloy body construction
- Lighter frame and more high-strength steel than before
- Available all-new 2.7-liter EcoBoost® V6 engine
- Available LED headlamps
- Available BoxLink™ system provides unique way to secure ramps, storage bins and bed dividers
- Available tailgate remote allows for locking, unlocking and releasing with key fob

Engines: 2.7L EcoBoost 4x2; EPA-estimated rating of 19 city/26 hwy/22 combined mpg. Actual mileage will vary. Horsepower: 325; torque: 375 lb.-ft.; max. towing: 8,500 lbs.; max. payload: 2,250 lbs.

3.5L V6 Ti-VCT 4x2; EPA-estimated rating of 18 city/25 hwy/20 combined mpg. Actual mileage will vary. Horsepower: 282; torque: 253 lb.-ft.; max. towing: 7,600 lbs.; max. payload: 1,910 lbs.

5.0L V8 Ti-VCT 4x2; EPA-estimated rating of 15 city/22 hwy/18 combined mpg. Actual mileage will vary. Horsepower: 385; torque: 387 lb.-ft.; max. towing: 11,100 lbs.; max. payload: 3,300 lbs.

3.5L EcoBoost 4x2; EPA-estimated rating of 17 city/24 hwy/20 combined mpg. Actual mileage will vary. Horsepower: 365; torque: 420 lb.-ft.; max. towing: 12,200 lbs.; max. payload: 3,270 lbs.

Transmissions: Electronic six-speed automatic with tow/haul mode, six-speed SelectShift® Automatic with progressive range select

Trims: XL, XLT, Lariat, King Ranch, Platinum

Production locations: Dearborn Truck Plant, Dearborn, Michigan; Kansas City Assembly Plant, Claycomo, Missouri

SAFETY

- AdvanceTrac® electronic stability control
- Energy management system pretensioning for height-adjustable front-row safety belts
- LATCH (Lower Anchors and Tether Anchors for Children)
- Safety-cage body construction

INFLATABLE REAR SAFETY BELTS

Available inflatable rear outboard safety belts – a first for light-duty trucks.

SMART TOWING

A smart towing module displays the trailer hookup status in the information screen of the all-new Ford F-150, including if a taillight is burned out.

Did you know? The 2015 Ford F-150 can do more work with smaller engines because the truck weighs less, allowing the engine to pull more weight.
