

THE LINCOLN
MOTOR COMPANY

2016 LINCOLN MKX

The all-new Lincoln MKX introduces Quiet Luxury by providing an effortless ride, a warm, tailored experience and a thoughtful and elegant design.

The midsize crossover reflects the brand's focus to deliver engaging and refined luxury vehicles with innovative technologies that allow clients to seamlessly personalize their experience.

Available in front-wheel-drive and all-wheel-drive configurations, Lincoln MKX is assembled at the Oakville Assembly Complex in Oakville, Ontario. The MSRP for the 2016 Lincoln MKX begins at \$39,025, which includes \$925 destination and delivery charges and excludes taxes, title, license and other fees.*

*As shown, 2016 Lincoln MKX Reserve with optional features, \$55,170 MSRP. MSRP includes destination. Excludes tax, title and license fees.

Revel audio

The all-new 2016 Lincoln MKX is the first to offer an audio system from Revel®, an exclusive loudspeaker brand cherished by audiophiles. The unique speaker placement, the only automotive application of custom Revel Waveguides and point source architecture plus the first combination of Revel technologies QuantumLogic Surround® and Clari-Fi™ all come together to personalize the audio experience throughout the cabin. The 19-speaker Revel Ultima system is standard on Lincoln Black Label editions, and available on Reserve. A 13-speaker Revel audio system is available on Select and Reserve models.

360-degree camera system

Potentially helping parking scenarios is the available 360-degree camera system. When the camera button is pushed in Drive, Park or Neutral, the Lincoln Star badge between the two grille surrounds moves out about 1 inch and tilts up to deploy the available front camera. Video images from four cameras – one in the front, two in the side mirrors and one in the back – are stitched together to give the driver a bird's eye view all around.

2.7-liter EcoBoost® V6

Available new 2.7-liter EcoBoost V6 engine employs high-tech materials and innovative strategies to deliver excellent power and refinement. The material in the cylinder block includes compacted graphite iron, which is normally used in diesel engines, for strength and aluminum that reduces engine weight. Hydromounts for the engine and transmission help absorb engine vibration and keep them out of the cabin.

Safety innovations

Several safety innovations have been added to the 2016 Lincoln MKX, which earned a 5-star overall crash rating from the National Highway Transportation Safety Administration.† A patented front bumper assembly is designed to transfer crash load to the front rails which help reduce occupant compartment intrusion. Also new is the active glove box airbag, which uses an inflatable plastic bladder integrated into the glove box door to provide front passenger knee protection.

WHEELBASE	OVERALL LENGTH	OVERALL WIDTH (INCLUDING MIRRORS)	OVERALL HEIGHT (WITHOUT OPTIONS)
112.2 in.	190.0 in.	86.1 in.	66.2 in.
ENGINE	HORSEPOWER	TORQUE	FUEL ECONOMY**
3.7-liter Ti-VCT V6	303 @ 6,500 rpm	278 lb.-ft. @ 4,000 rpm	17 city/26 highway mpg, FWD 16 city/23 highway mpg, AWD
2.7-liter EcoBoost V6	335 @ 5,500 rpm*	380 lb.-ft. @ 3,000 rpm*	17 city/26 highway mpg, FWD 17 city/24 highway mpg, AWD

*Tested with 93-octane premium fuel. **EPA-estimated fuel economy rating. Actual mileage will vary
