VNR STRAIGHT SERIES

BOX TRUCK

NO DAYS OFF

It's a known fact, box trucks can be a pain. Too often they're underpowered units that strain to move up even moderate hills. It makes jobs much harder than they have to be and shortens the overall life of the vehicle.

Let us offer a better option. Introducing the VNR Box Truck, part of the new Straight Series from Volvo Trucks. It's the truck that will keep your jobs moving rain, snow or shine.

We started with a rugged highway suspension and some of the most reliable engines on the planet. The VNR

Box Truck comes available with a D11 or D13 engine, in ratings up to 455 hp. That's more than enough power to handle large deliveries without the excess wear and tear you'd get with smaller engines.

Pair your Volvo Power engine with our innovative I-Shift and you'll have the benefits of our most fuel-efficient offerings, like the innovative Eco-Torque package. For even greater fuel savings the VNR Box Truck is also available in Class 6 and 7 configurations.
