

THE ALL-NEW
MINI COUNTRYMAN.

MINIMALIST & MULTITALENTED.

The all-new MINI Countryman has more space, more comfort and more safety. What hasn't changed is its unique appearance, the slim lines and the 100 % untamable MINI spirit. This is the SUV that makes the everyday runaround more exciting. With its robust construction, bold SAV design and imposing presence, the new MINI Countryman radiates self-confidence and thirst for adventure.

MINI TO THE MAX.

Say hello to our most grown-up MINI ever. The all-new MINI Countryman is 5 inches longer and 3 inches higher than its predecessor model, offering enough space for all imaginable adventures with friends and family.

MADE IN GERMANY.

The all-new MINI Countryman is the first MINI model to be produced in Germany. We are taking a big step forward in our production approach with advanced manufacturing techniques at the BMW Group Plant Leipzig – a “green plant” that reduces CO₂ emissions during production.

By utilizing secondary aluminum & recycled polyester, we're reducing our CO₂ emissions and water use for every MINI Countryman produced.

MINIMALISM MEETS CHARISMA.

Fine craftsmanship and a few ingeniously designed details define the MINI Countryman interior. High-quality materials, advanced technology and atmospheric lighting ensure every moment spent inside feels sumptuously comfortable. Once you get into this MINI, you probably won't want to get out.

MINI EXPERIENCE MODES.

Reflect your own mood. The MINI Experience Modes open a world of connected and emotion-filled experiences that awaken your senses. Each mode is a specially coordinated interplay of visual design, ambient lighting and immersive sound. With just one command, you can completely transform your cockpit.

OLED, OLED OLED OLED.

The pulsating heart and center of your cockpit is also a world innovation: the round OLED display is the only one of its kind in the automotive industry. With state-of-the-art OLED technology, a diameter of 9.4 inches and a high-quality glass surface, the display has a distinctive, minimalist look. It serves as an instrument cluster and simultaneously controls the infotainment and assistance systems. A truly unique feature that embodies an iconic piece of MINI history.

GOING NEW WAYS WITH INNOVATIVE MATERIALS.

Using fabrics, MINI establishes a completely new aesthetic. The new material we use for the cockpit and door panels creates a particularly pleasant ambience. The fabric is made from high-quality, recycled materials and is easy to clean. It offers a pleasant tactile experience, more design options and serves as the perfect canvas for the exciting projections in the various MINI Experience Modes.

ALWAYS EVOLVING.

The all-new MINI Countryman evolves the characteristic contrast roof with the new shade Vibrant Silver, a revised version of Aspen White and Chili Red, and returning to the classic MINI color of Jet Black.

UN-MINI-STAKABLE.

New, highly expressive paint finishes highlight the spirit of the adventurer. Alongside classic colors like Melting Silver and Nanuq White, exclusive MINI paint finishes like British Racing Green, Blazing Blue, Chili Red or Smokey Green will make choosing your finished MINI harder than ever.

CLASSIC STYLE.

For those who value the iconic MINI look and design options, the Classic Style brings MINI premium heritage into the present. For the very first time in a MINI, the interior features a modern knitted textile made from recycled fabric. Vescin synthetic material on dashboard and doors contrasts playfully with the high-quality Vescin synthetic leather seats which are available in grey or black and sport a perforated houndstooth pattern. The three-spoke Vescin sport steering wheel is embellished with stitching and accents in Vibrant Silver. The Satellite Grey headliner is made from recycled materials. On the exterior, the grille surround is in black high gloss offset by the MINI logo in Vibrant Silver. You also have the option to configure a contrast roof. And a spectrum of beloved and new exterior colors underlines the modernity of the new MINI Countryman generation.

FEATURES.

Seats: Double-cloth perforated Vescin synthetic leather in grey or black with a blue fabric insert.

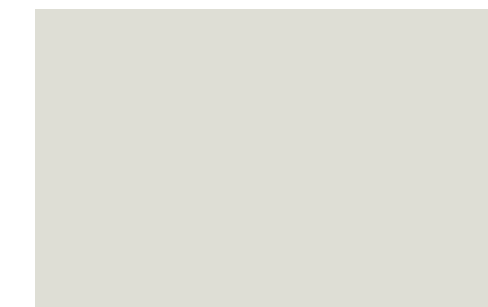

Steering wheel: Three-spoke sport steering wheel in Vescin synthetic leather. Stitching and accents in Vibrant Silver.

Interior finish: Dashboard and door trim in black and blue two-tone knitted material.

Wheels: 18" Asteroid Spoke in Refined Silver.

FAVOURED STYLE.

If you have your eye on modern, sophisticated details, our Favoured Style premium materials highlight the intricate interior contrasts and surfaces. Our most expressive style curation features a knitted dashboard made from recycled fabric. Giving you the highest quality refinement, the sport seats in perforated Vescin are available in different colors and feature traditional accent stitching and piping. While on the outside, the Vibrant Silver accents like the optical skid plates and the side sill reinforcements strengthen the off-road character of the new MINI Countryman. You also have the option to configure a contrast roof. The dark headliner is made from recycled materials and the three-spoke sport steering wheel is made from Vescin.

FEATURES.

Seats: JCW sport seat in Vescin synthetic leather with piping and seam in Beige, Vintage Brown, or Dark Petrol.

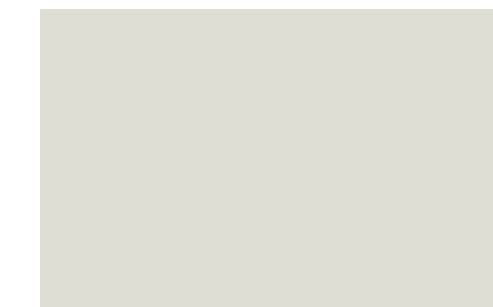

Steering wheel: Three-spoke sport steering wheel in Vescin synthetic leather. Stitching and accents in Vibrant Silver.

Interior finish: Knitted fabric in petrol and brown.

Wheels: 18" Asteroid Spoke in Vibrant Silver.
19" Kaleido Spoke in 2-Tone Jet Black/Vibrant Silver.
20" Windmill Spoke in 2-Tone Jet Black/Vibrant Silver.

JOHN COOPER WORKS.

Race-inspired and road-ready, the JCW Sytle lends the ultimate track look to your everyday drive. It has its own individual front and rear-end exterior design to emphasize its sporting status. The grille surrounds and logo in high-gloss black combined with the optional contrast roof in Chili Red give it the power-packed overall impression. The brake calipers are painted in dark anthracite and feature a JCW logo which can also be found on the C-pillar and the front grille. One look and you're hooked. Step inside and the MINI sport seats upholstered in recycled knitted material and synthetic leather Vescin impart that exclusive racecar feeling. The black and red JCW color scheme extends to the dash and door panels. And you can take corners like a pro with the black perforated Vescin JCW sport steering wheel, embellished with Vibrant Silver accents, red stitching and sport boost paddles.

FEATURES.

Seats: JCW sport seat made of perforated Vescin synthetic leather and cloth in JCW Black with red and grey accents.

Steering wheel: JCW three-spoke sport steering wheel with shift paddles in Vescin synthetic leather. Seam in red.

Interior finish: Dashboard and door trim in two-tone black and red knit.

Wheels: 19" John Cooper Works Runway Spoke in Jet Black.
20" John Cooper Works Flag Spoke in 2-Tone Jet Black/Silver.

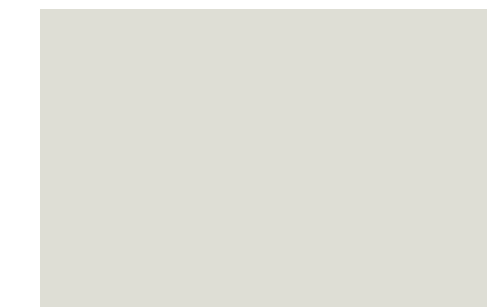

Extras: Power boost switch.
Window shaft cover in high-gloss black.
JCW brakes in black.
JCW logo in front grille.

FROM CAR PARKS TO NATIONAL PARKS.

GO-KART FEELING.

POWER AND PERFORMANCE. ON AND OFF ROAD.

Whether in parking lots or in national parks – the new MINI Countryman has the necessary power, spontaneity, and responsive steering for every journey. Every turn is an adrenaline-pumping experience, from winding mountain roads to city roundabouts.

The MINI Countryman with ALL4 all-wheel drive will have you well prepared for even the most demanding routes.

ALL4 FOUR-WHEEL DRIVE.

The all-wheel drive MINI Countryman S ALL4 proves its robust off-road capability with a 241 hp* motor and 295 lb-ft torque on expeditions along off-road tracks. From a standing start, the vehicle sprints to 60 mph in just 6.2 seconds.
