

eM2

eMobility That Thinks Outside the Box Truck

The Freightliner® eM2 delivers nimble performance and capability in the emissions-free package our customers want for urban settings. It's the result of our commitment to develop world-class, all-electric commercial vehicles that will reduce emissions and deliver value to our customers day after day.

As part of Daimler Truck North America, Freightliner is able to utilize the global engineering expertise of Daimler Truck to bring this practical, game-changing technology to market. Following a highly collaborative process with our customers, the eM2 entered production in 2023. It brings a clean commercial transportation solution to reality that has a positive impact on our customers and the industry as a whole.

Emissions-free and highly maneuverable, the eM2 is the rare welcome addition to a city's congested streets.

Horsepower	Up to 255 HP (188 kW)
Typical Range	180 or 250* miles
Usable Capacity	194 kWh or 291 kWh
Recharge	80% in ~60 min.
GVWR	26K to 33K lbs.

- Based on one of North America's most in-demand medium-duty truck designs
- Ideal for local distribution, pickup and delivery, food and beverage delivery and last-mile logistics applications
- Routes under 250* miles
- Warehouse to final destination
- With learnings from a highly collaborative process with our customers, the eM2 is now in factory production and available to order today
- Quiet, comfortable and easy to drive

WARRANTY		
Base (vehicle): 3 yr / 150k miles Powertrain: 5yr / 150k miles		

Right-sized Innovation

The eM2 is large enough for regular deliveries, small enough to get in and out easily, and provides the power, torque, range and charging capabilities you need. It's an ideal vehicle where dedicated, repeatable routes are the norm, as well as for pickup and delivery. This is the daily driver that drives your business.

A Proven Manufacturer

At Freightliner, cutting-edge design, engineering and manufacturing is nothing new. We apply the same processes, skill and efficiencies in building our electric trucks as we do in producing our industry-leading heavy- and medium-duty commercial trucks in volume. With the largest dealer and service network in North America, we offer unparalleled access to parts, support and factory-trained technicians.
