Positioning - Celica continues as the leader in the sport subcompact class. Celicas are available in a variety of models to meet the requirements of this special class of automobiles.

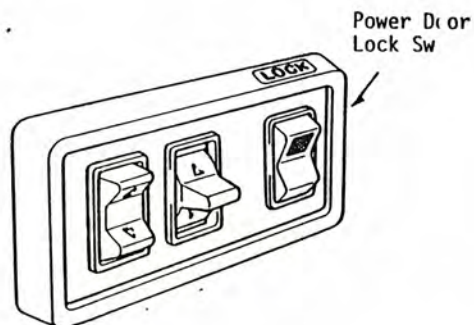

### MAJOR ADDITIONS/CHANGES

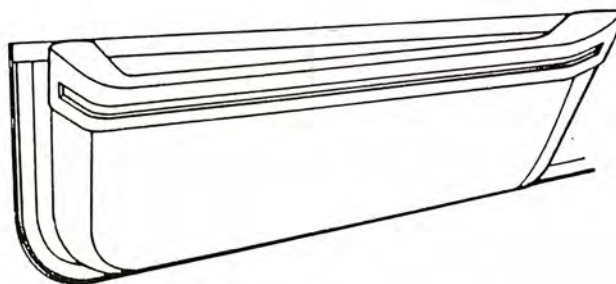

### MAJOR ADDITIONS/CHANGES (Continued)

#### Interior: (Continued)

- For ease of accessibility, the power door lock switches, available as part of a power package option on Celica GT and GT-S, have been relocated from the center console to the door panel.

- Adding more storage space to the Celica interior, a large plastic door pocket is provided on both doors.

### MAJOR ADDITIONS/CHANGES (Continued)

#### Mechanical:

- All Celicas for 1984 receive the 22R-E fuel injected engine used in the 1983 GT and GT-S models. Horsepower and torque ratings remain the same.
- The GT-S is equipped with rear disc brakes for increased braking performance.
- For increased durability, quieter operation and for better protection against vapor lock, the fuel pump has been redesigned and is now located in the fuel tank.
